Ethics in Electroconvulsive Therapy Dec 19 2021 Few mental illness treatments are more reviled in the public mind than Electroconvulsive Shock Therapy. However, in reality, ECT is a safe and effective treatment for cases of clinical depression and catatonia that are unresponsive to drug therapy. Also, unlike drugs, ECT has relatively few side effects. The authors argue that it is time for this historically stigmatized procedure to be reevaluated. The authors make a strong case for greater professional and public attention to the procedure's benefits, offering historical coverage of ECT-related movements, legislation, public and practitioner sentiment and the introduction of competing treatments. This volume will not only garner the interest of mental health professionals, but will call on policy makers and ethicists to examine its arguments.

Laundry Jun 13 2021 For Cheryl Mendelson, laundering is the best part of housekeeping. It's full of physical pleasures—the look of favorite clothes restored to freshness and beauty, the tactile satisfaction of crisp linens in beautifully folded stacks. Good laundering preserves things you love and protects your pocketbook. It doesn't take much time or effort. What it takes is knowledge, and Laundry is the comprehensive, entertaining, and inspiring book on the art of laundering. Culled from the bestselling Home Comforts, with revised and updated information and a new introduction, Laundry is an indispensable guide to caring for all the cloth in one's home: from kitchen rags to bedding, hand-washables, and baby clothes to vintage linens. Mendelson offers detailed guidance on when to disregard labels, removing stains, making environmentally informed choices, sewing, and storing clothing and fabrics. A much-needed antidote to the standard-issue how-to manual, Laundry celebrates the satisfactions of ironing, folding, and caring for clothes and linens. Both pragmatic and eloquent, Mendelson provides beginning and veteran homemakers with a seamless combination of reliable instruction, time-tested advice, and fascinating personal narrative. As a farm girl in Pennsylvania, Mendelson—who is a philosopher, lawyer, and professor, as well as a homemaker, wife, and mother—received a classic domestic education from her grandmothers, aunts, and mother. Laundry combines the best of the traditional lore they taught her with the latest in technical and scientific information. Writing with infectious love and respect for her subject, Mendelson is sure to instill in readers a newfound affection and appreciation for the art of laundering.

Normative Reasons and Theism Jan 08 2021 Normative reasons are reasons to do and believe things. Intellectual inquiry seems to presuppose their existence, for we cannot justifiably conclude that we exist; that there is an external world; and that there are better and worse ways of investigating it and behaving in it, unless there are reasons to do and believe such things. But just what in the world are normative reasons? In this book a case is made for believing normative reasons are favouring relations that have a single, external source, filling this significant gap in the literature in an area within contemporary philosophy that has quickly grown in prominence. Providing a divine command metanormative analysis of normative reasons on entirely non-religious grounds, its arguments will be relevant to both secular and non-secular audiences alike and will address key issues in meta-ethics, evolutionary theory - especially evolutionary debunking threats to moral reasons and the normative more generally - and epistemology.

With extraordinary honesty and magnetism, Lucia Berlin invites us into her rich, itinerant life: the drink and the mess and the pain and the beauty and the moments of surprise and of grace. Her voice is uniquely witty, anarchic and compassionate. 'With Lucia Berlin we

are very far away from the parlours of Boston and New York and quite far away, too, from the fiction of manners, unless we are speaking of very bad manners . . . The writer Lucia Berlin most puts me in mind of is the late Richard Yates.' - LRB, 1999
