The 20 Minute Business Analyst Dec 01 2019 Who has time to read text books? As a busy business analysis consultant and instructor, my free time is short and precious. That is why I like to read articles. They are brief and to the point. I like quick reference cards for a similar reason – they offer immediate help. I also like humor in the context of the subject. Laughter keeps me interested and awake. If you're busy like me, this book is for you. It is a collection of short business analysis articles, humorous but pertinent stories and quick reference cards.

- If you are a business analyst practitioner, these articles will confirm best practices or provide you additional insight as to why they are best practices; no matter how good you are at eliciting and documenting requirements, you can always improve.
- If you are a professor at an institution of higher learning, these articles can serve as a source for discussion at both the graduate and undergraduate level.

Rich Johnson's Guide to Trailer Boat Sailing Feb 12 2021 trailerable sailboat is the ideal way to explore the country ? wherever there is water. To make the most of this exciting lifestyle, owners of trailerable sailboats need three things ? an understanding of the boat and how to use it; knowledge about the tow vehicle and trailer used to transport the boat; and a spirited sense of adventure to live the dream. #13;#13; This book will help you get started. #13;#13; #13;

Backpacker Jun 06 2020 Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they

publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

IGCSE Physics May 06 2020 This highly respected and valued textbook has been the book of choice for Cambridge IGCSE students since its publication. This new edition, complete with CD-ROM, continues to provide comprehensive, up-to-date coverage of the core and extended curriculum specified in the IGCSE Physics syllabus, The book is supported by a CD-ROM containing extensive revision and exam practice questions, background information and reference material.

Baby Bumps Jan 14 2021 From the author of the award-winning blog Snarky Mommy comes a book that will make every woman who has ever been pregnant pee with laughter (not that that 's hard). Wearing her highest heels and hottest pregnancy jeans, Amy Sprenger marches into her doctor 's office, beverage in hand, ready to finally see whether her baby is a boy or a girl. Sure, sure, this appointment is supposed to be about checking the health of the baby, but everyone who 's ever been there knows it 's really about looking for what lays, or doesn 't lay, between the legs. So when the doctor tells her she has an incompetent cervix, Amy becomes immediately offended on behalf of her reproductive organs. Is that just a politically correct way of saying her cervix sucks? Unfortunately, as she 's soon to learn, it 's a lot more than that. The only way to keep that baby from falling out on the sidewalk (probably in front of Starbucks) is for her doctor to stitch her cervix closed and for Amy to stay in bed for the next four months. Four months that are carefully detailed in this " memoir. " A memoir that, while basically true, has been embellished with Amy 's signature brand of humor and hilarity. With more time off than a castoff contestant on "The Bachelor," Amy takes pen to paper and settles in for the ride. But instead of sitting around eating bonbons, she 's popping hypertension drugs to stave off preterm labor. And complications? Oh, she 's got your complications. She 's gut-rehabbing her house. Her mother moves in to care for her. Her husband takes a " mancation " while she 's stuck in the hospital. And every time she has a contraction, she 's convinced it 's The Big One. Living by the adage that laughter is the best medicine, Amy fumbles her way through a series of sometimes serious and usually embarrassing situations. And just to be clear, using a bedpan qualifies as both serious and embarrassing. "Amy Sprenger's foray into factual fiction is a hilarious (and sometimes poignant) look at high-risk pregnancy from her view at the end of the bed. Sprenger offers a fresh and funny voice that readers will love!" -- New York Times bestselling author Jen Lancaster

Corporate Power and Human Rights Jul 28 2019 There is ample evidence about the negative effects business activity of all types can have on the provision of human rights. Equally, there can be little doubt economic development, usually driven through business activity and trade, is necessary for any state to provide the institutions and infrastructure necessary to secure and provide human rights for their citizens. The United Nations and businesses recognise this tension and are collaborating to effect change in business behaviours through voluntary initiatives such as the Global Compact and John Ruggie 's Guiding Principles. Yet voluntary approaches are evidently failing to prevent human rights violations and there are few alternatives in law for affected communities to seek justice. This book seeks to robustly challenge the current status quo of business approaches to human rights in order to develop meaningful alternatives in an attempt to breach the gap between the realities of business and human rights and its discourse. This book was previously published as a special issue of the International Journal of Human Rights.

Holding Back The Tears Feb 24 2022 This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life

by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the unbearable pain of her loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - "ME LADDIE". Rosie's Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-worth and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no help from anyone, thank you" - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her beliefs about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be.

Research Handbook for Health Care Professionals Jun 26 2019 The Research Handbook for Health Care Professionals is the essential guide to the entire research process for students and practitioners alike. From conceiving an idea for a project to writing up the findings for publication, the book offers an overview of each stage plus hints and tips, recommendations for further reading and examples spanning a wide range of health professions. The book comprises three sections: Getting Started, Doing Your Research and Writing Up and Dissemination, and includes chapters on key topics such as formulating your research question, writing the initial research protocol, application for ethical approval, research governance, collecting your data, research methods and preparing a poster for a conference.

Cambridge International A and AS Level Mathematics Jun 30 2022 This brand new series has been written for the University of Cambridge International Examinations course for AS and A Level Mathematics (9709). This title covers the requirements of P1. The authors are experienced examiners and teachers who have written extensively at this level, so have ensured all mathematical concepts are explained using language and terminology that is appropriate for students across the world. Students are provided with clear and detailed worked examples and questions from Cambridge International past papers, so they have the opportunity for plenty of essential exam practice. Each book contains a free CD-ROM which features the unique 'Personal Tutor' and 'Test Yourself' digital resources that will help students revise and reinforce concepts away from the classroom: - With Personal Tutor each student has access to audio-visual, step-by-step support through exam-style questions - The Test Yourself interactive multiple choice questions identify weaknesses and point students in the right direction

What's Wrong with Pauly? Mar 04 2020 Billy Johnson doesn't give it a second thought when he joins in with his friends making fun of a little girl in a wheelchair. Then Pauly comes into his life, and Billy not only learns a valuable lesson about compassion and acceptance but he gets a new best friend! Grades 3-4

Don't go there. It's not safe. You'll die. And other more >> rational advice for overlanding Mexico & Central America May 18 2021 Your complete guide for overlanding in Mexico and Central America. This book provides detailed and up-to-date information by country. It also includes 11 chapters of information for planning and preparing your trip and 9 chapters on what to expect while driving through Mexico and Central America. Completed by the authors of LifeRemotely.com this is the most comprehensive guide for driving the Pan American yet!

Edexcel Chemistry Sep 21 2021 Revise for AS & A2 Biology with confidence! Providing complete study support throughout the two A Level years, this Edexcel Chemistry study guide matches the curriculum content and provides in-depth course coverage. Written by experienced AS and A2 examiners this book includes invaluable advice on how to get the best results in the exams. Providing plenty of exam practice and frequent progress checks and questions to consolidate learning, this AS & A2 Edexcel Chemistry study guide contains invaluable advice and preparation for the exam. Extensive coverage of the Edexcel course: \* AS & A2 specification checklists to organise your studies \* tick boxes to record your progress and plan your revision \* in-depth coverage of core AS & A2 topics Also included in this book: \* examiner's tips that reveal how to achieve higher marks \* exam board labels that allow students to identify content relevant to their course \* topics subdivided into short, manageable sections \* highlighted key points and terminology, and examiner's hints to offer guidance \* progress check questions to test recall and understanding \* sample questions and model answers that reveal what examiners are looking for \* exam-style questions and answers that provide crucial exam practice

Agent-Oriented Software Engineering XIII Apr 04 2020 This book constitutes the thoroughly refereed post-proceedings of the 13th Agent-Oriented Software Engineering (AOSE) workshop, held at the 11th International Conference on Autonomous Agents and Multiagent Systems, AAMAS 2012, in Valencia, Spain, in June 2012. This volume presents 9 thoroughly revised papers selected from 24 submissions as well as two invited articles by leading researchers in the field. The papers cover a broad range of topics related to software engineering of agent-based systems, with particular attention to the integration of concepts and techniques from multi-agent systems with recent programming languages, platforms, and established software engineering methodologies.

Obligation for Justice Aug 21 2021 Obligation for Justice is the story of two brothers, virtually inseparable as children, whose paths diverge when one remains in Lynn, the gritty city of their childhood, while the other escapes to Paris and an international life of fame and glamor-until an obligation to his brother brings him home.

IGCSE English as a Second Language Dec 25 2021 Endorsed by Cambridge International Examinations. Additional support for the written part of the exam to help students improve their answers and overall grade, including authentic material written by students with critical comments from teachers. - Places attention on the importance of style and content, together with accuracy and the correct use of different registers - Explains relevant grammar points in easy-to-understand language, and are supported by exam-related examples - Illustrates each point by means of an example relevant to the exam - Contains a database of topic-related vocabulary and ideas Review "With sample examination questions after each skill, the book would even help teachers in assessing students after each skill taught... I highly recommend it." Mrs L Shana, Rainbow Secondary School, Botswana Also useful for: The clear explanations and extensive use of examples also make it extremely useful for students preparing for other advanced exams, such as First Certificate in English (FCE), Certificate in Advanced English (CAE) and IGCSE First Language English. Also available for the complete course: We also publish a core textbook that provides the most cost-effective way to teach both the speaking and listening components of the latest Cambridge syllabus. Search for ISBN 9781444191622.

Foreign Language - How to Use Modern Technology to Effectively Learn Foreign Languages Mar 28 2022 This book is a compilation of information about modern resources available to foreign language students. The purpose of this book is to help the reader to correctly select instructional materials and organize independent study of a foreign language. This edition contains recommendations for the use of both traditional methods as well as the latest multimedia technologies. The book gives great attention to vocabulary development - how to correctly study, review, and systematize foreign words. This book will help you determine the main goals and exercises associated with mastering a foreign language. These goals are always there. They simply need to be stated, analyzed, and ordered. In general, systemization and order are two of the main factors in mastering anything new, including foreign languages. When you understand what you want to achieve you will find it much easier to choose a path that will lead to success. Topical dictionary section. This book contains an English-Azerbaijani theme-based dictionary with 1,500 frequently used words that will help you develop basic vocabulary. The dictionary's content is organized by topic. The material is presented in three columns: source word, translation, and transcription. Each topic consists of 50 words grouped into small blocks. You can treat this dictionary as a model for creating your own unified word database. We're confident that this book will help you develop your own effective learning system and give you another boost in this useful and fascinating exercise - learning a foreign language

The God Portal Jan 02 2020 It began as a vacation out west for Jim Wagner and his family...until Jim discovers his brother, particle physicist Dr. Warren Wagner, is missing from his Nevada home. The mystery leads to the desert laboratory of corporate giant Forsythe-Hammond. There Jim discovers the truth behind Warren's disappearance and its connection to the company's deepest secrets, a technology where faith and science collide. It's the beginning of a thrilling and dangerous adventure to rescue his brother. Jim is joined by the affable Lyle Bumgardner, particle physicist and atheist at heart; and by Dr. Lawrence Macklin, devout Christian and Biblical scholar. Their odyssey becomes destiny, a struggle for survival and a quest for truth, leading them to a place where Christian faith and secular atheism alike will be put to the test. Their journey puts them on the trail of the historical Jesus...

Image and Video Technology -- PSIVT 2013 Workshops Nov 04 2022 This book constitutes the thoroughly refereed post-conference proceedings of the four workshops on Photographic Aesthetics and Non-Photorealistic Rendering (PAESNPR13), Geometric Properties from Incomplete Data (GPID), Quality Assessment and Control by Image and Video Analysis (QACIVA) and Geometric Computation for Computer Vision (GCCV2013), held in conjunction with the 6th Pacific-Rim Symposium on Image and Video Technology (PSIVT) in Guanajuato, Mexico during October 28-November 1, 2013. The 38 revised full papers presented were carefully selected from numerous submissions and cover all aspects of Imaging and Graphics Hardware and Visualization, Image/Video Coding and Transmission; Processing and Analysis; Retrieval and Scene Understanding, but also Applications of Image and Video Technology, Biomedical Image Processing and Analysis, Biometrics and Image Forensics, Computational Photography and Arts, Computer and Robot Vision, Pattern Recognition and Video Surveillance.

Pirate Journey Jun 18 2021 Dave Adams is a teenager standing at a crossroads in his life. He's lonely, a bully in need of direction. Through the pages of an ancient, leather-bound journal, Dave makes contact with an ancestor, James Adams, captain of a seventeenth century sailing-ship. Captain Adams is also straddling a fence, and the life of an honest sea-going merchant pales in comparison to the excitement and opportunities available for a captain willing to do what it takes to get ahead. Will the captain's decisions take him and his crew where they want to go? And how will those decisions affect Dave as he makes his way

through high school and finds his first summer job? *Pirate Journey* explores the parallel lives of a scurvy sea captain and a high school bully as they make decisions and face the consequences of their choices, both good and bad.

*Information Systems: Methods, Models, and Applications* Sep 29 2019 This volume constitutes the proceedings of the 4th International United Information Systems Conference, UNISCON 2012, which was held in Yalta, Ukraine, during June 1-3, 2012. UNISCON 2012 was affiliated with the 8th International Conference on ICT in Education, Research, and Industrial Applications, ICTERI 2012. The 14 full papers, four short papers, and three extended abstracts presented with a keynote speech were carefully reviewed and selected from 96 submissions. The topical sections covered are: data management; applications; modeling and semantics; and social issues in information systems.

*Information and Communication Technologies in Education, Research, and Industrial Applications* Sep 02 2022 This book constitutes the thoroughly refereed proceedings of the 9th International Conference on Information and Communication Technologies in Education, Research, and Industrial Applications, held in Kherson, Ukraine, in June 2013. The 18 revised full papers presented were carefully reviewed and selected from 125 submissions. The papers are organized in topical sections on systems, infrastructures, and integration; semantics, knowledge engineering and management; ICT in teaching methodologies and didactics; model-driven software development and verification.

*Engaging Consumers through Branded Entertainment and Convergent Media* Apr 16 2021 Branded entertainment is gaining popularity within marketing communications strategies. Blurring the lines between advertisements and editorial content, branded marketing provides advertisers and consumers with highly engaging media content that benefits them both. *Engaging Consumers through Branded Entertainment and Convergent Media* provides an interdisciplinary approach to connecting with the consumer through branding strategies in the entertainment and media fields. Featuring information regarding emergent research and techniques, this publication is a critical reference source for academics, university teachers, researchers and post-graduate students, as well as universities, advertising agencies, marketing directors, brand managers, and professionals interested in the usage and benefits of branded entertainment.

*Diary of Squandered Valor* Dec 13 2020 "A Gunner's Mate's gripping account of his ship's terrifying run through German U-boats' infamous gauntlet of death in the icy North Seas--in the U.S.'s first convoy to Russia before World War II was even declared"--Provided by publisher.

*Inclined to Liberty* Mar 16 2021

*Archeologia e Calcolatori*, Supplemento 6, 2014. ARCHEOSEMA. Artificial Adaptive Systems for the Analysis of Complex Phenomena. Collected Papers in Honour of David Leonard Clarke Oct 11 2020 ARCHEOSEMA, a meta-disciplinary project of theoretical, analytical and experimental archaeology, has been recently awarded by La Sapienza University of Rome. The project title is an acronym which sums up its two main theoretical foundations: the openness of modern archaeology (ARCHEO) to the analysis of physical, historical, linguistic signs (SEMA) underlying natural and cultural systems reconstructed and simulated through Artificial Sciences. This volume edited by Marco Ramazzotti, a Supplement to « *Archeologia e Calcolatori* », is a Special Issue dedicated to the memory of the English archaeologist David Leonard Clarke (1937-1976), and is a further attempt to collect some applicative studies of complex natural and cultural phenomena following the Artificial Intelligence computational models through the lens of Analytical Archaeology.

*Unconventional Oil and Gas Resources* Oct 23 2021 As the shale revolution continues in North America, unconventional resource markets are emerging on every continent. In the next eight to ten years, more than 100,000 wells and one- to two-million hydraulic fracturing

stages could be executed, resulting in close to one trillion dollars in industry spending. This growth has prompted professionals experienced in conventional oil and gas exploitation and development to acquire practical knowledge of the unconventional realm. *Unconventional Oil and Gas Resources: Exploitation and Development* provides a comprehensive understanding of the latest advances in the exploitation and development of unconventional resources. With an emphasis on shale, this book: Addresses all aspects of the exploitation and development process, from data mining and accounting to drilling, completion, stimulation, production, and environmental issues Offers in-depth coverage of sub-surface measurements (geological, geophysical, petrophysical, geochemical, and geomechanical) and their interpretation Discusses the use of microseismic, fiber optic, and tracer reservoir monitoring technologies and JewelSuite™ reservoir modeling software Presents the viewpoints of internationally respected experts and researchers from leading exploration and production (E&P) companies and academic institutions Explores future trends in reservoir technologies for unconventional resources development *Unconventional Oil and Gas Resources: Exploitation and Development* aids geologists, geophysicists, petrophysicists, geomechanic specialists, and drilling, completion, stimulation, production, and reservoir engineers in the environmentally safe exploitation and development of unconventional resources like shale.

*Modelling and Simulation for Autonomous Systems* Nov 11 2020 This book constitutes the thoroughly refereed post-conference proceedings of the 8th International Conference on Modelling and Simulation for Autonomous Systems, MESAS 2021, held as a virtual event due COVID-19, in October 2021. The 30 full papers together with 2 short papers included in the volume were carefully reviewed and selected from 50 submissions. They are organized in the following topical sections: M&S of intelligent systems, R&D and application; and AxS/AI in context of future warfare and security environment and future challenges of Advance M&S Technology.

*Rural Rides* Jul 08 2020 *Rural Rides* is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of writing *Rural Rides*, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

[Pakistan-U.S. Relations](#) Nov 23 2021 A stable, democratic, economically thriving Pakistan is vital to U.S. interests in Asia. Key U.S. concerns regarding Pakistan include regional terrorism; weapons proliferation; the ongoing Kashmir problem and Pakistan-India tensions; human rights protection; and economic development. A U.S.-Pakistan relationship marked by periods of both cooperation and discord was transformed by the September 2001 terrorist attacks on the United States and the ensuing enlistment of Pakistan as a pivotal ally in the U.S.-led counterterrorism efforts. Top U.S. officials regularly praise Islamabad for its ongoing cooperation, although doubts exist about Islamabad's commitment to some core U.S. interests in the region. Pakistan is identified as a base for terrorist groups and their supporters fighting in Kashmir, India, and Afghanistan. Pakistan continues to face serious problems, including domestic terrorism and human rights violations. For more than one year, Pakistan's army has conducted unprecedented counterterrorism operations in the traditionally autonomous Federally Administered Tribal Areas.

*Biocomputing 2013 - Proceedings Of The Pacific Symposium* May 30 2022 The Pacific Symposium on Biocomputing (PSB) 2013 is an international, multidisciplinary conference for the presentation and discussion of current research in the theory and application of computational methods in problems of biological significance. Presentations are rigorously peer reviewed and are published in an archival proceedings volume. PSB 2013 will be held on

January 3 - 7, 2013 in Kohala Coast, Hawaii. Tutorials and workshops will be offered prior to the start of the conference. PSB 2013 will bring together top researchers from the US, the Asian Pacific nations, and around the world to exchange research results and address open issues in all aspects of computational biology. It is a forum for the presentation of work in databases, algorithms, interfaces, visualization, modeling, and other computational methods, as applied to biological problems, with emphasis on applications in data-rich areas of molecular biology. The PSB has been designed to be responsive to the need for critical mass in sub-disciplines within biocomputing. For that reason, it is the only meeting whose sessions are defined dynamically each year in response to specific proposals. PSB sessions are organized by leaders of research in biocomputing's "hot topics." In this way, the meeting provides an early forum for serious examination of emerging methods and approaches in this rapidly changing field.

Son of Sedonia Jul 20 2021 Imagine growing up in the largest slum on the planet in the year 2080AD. Twenty million people are your neighbors, huddled together in an ocean of rusted dwellings made from whatever Sedonia City, the towering metropolis in the distance, decides to throw away. Gang members, known as the T99s, are the heads of your community: smuggling tech, trafficking drugs, and fighting a constant guerilla war against the City's bio-augmented EXO police force. There is little hope for survival. None for escape to a better life beyond the half-mile high Border between city and slum. This is Matteo's world. A bright kid, but sick and weak since childhood, he is painfully dependent on Jogun: loving older brother, and hardened soldier for the T99s. When a luxury transport from Sedonia's aerial traffic crash-lands in Rasalla, it threatens to change Matteo and Jogun's fate forever. And all fates are connected. The Dwellers of Rasalla, bound by family in the scrap, ashes, and dirt. The Citizens of Sedonia, oblivious to danger in the buzzing twilight of the Neuro-Social Revolution. The EXOs, placing themselves in harm's way to perform their duty to protect their homes and fellow officers. And the Ruling Elite, whose long-buried secrets and desperate plans could spell the end of civilization...or a new beginning. Son of Sedonia is an action-filled science fiction epic with a soul and a clear message. Its characters live, breathe, suffer, and love in their different worlds, each brought to the brink as the Third-World collides with the First. Their future could well be ours.

Cambridge Igcse Mathematics Aug 01 2022 This second edition, written especially to support the University of Cambridge International Examinations IGCSE Mathematics (0580) syllabus, is now in full colour and includes a student's CD. The text is ideal for students following the Extended Curriculum. International contexts are used throughout to aid understanding and ensure this text is relevant to students everywhere.

My Vietnam War Sep 09 2020 Writers have been writing about war since the siege of Troy, but few, if any, have captured the first-person experience of war as deeply as My Vietnam War. Set in 1967 (the deadliest year of the Vietnam War), this memoir-style novel depicts the psychological journey of a young man whose carefree days of studying philosophy at the university are ended by the draft. The story follows him from his initial rear-echelon assignment in Saigon, where he falls for a mysterious storytelling bar girl, to his eventual posting at an isolated front-line firebase in one of the deepest parts of the Vietnam jungle. While recovering from a leg wound (he is hit by a piece of bone from a fellow soldier who stepped on a booby trap mine), he becomes the assistant medic and sees the horrors of war close up. The experience begins his steady spiral down into PTSD. After he is seriously wounded, he ends up back in Saigon where, after an old friend from Arizona gets him involved in the underground drug trade, the mysterious bar girl may be his only hope for salvation. It is a powerful story, well-written, with vivid detail that you will never forget.

Virtual and Augmented Reality: Concepts, Methodologies, Tools, and Applications Aug 09 2020 Virtual and augmented reality is the next frontier of technological innovation. As

technology exponentially evolves, so do the ways in which humans interact and depend upon it. *Virtual and Augmented Reality: Concepts, Methodologies, Tools, and Applications* is a comprehensive reference source for the latest scholarly material on the trends, techniques, and uses of virtual and augmented reality in various fields, and examines the benefits and challenges of these developments. Highlighting a range of pertinent topics, such as human-computer interaction, digital self-identity, and virtual reconstruction, this multi-volume book is ideally designed for researchers, academics, professionals, theorists, students, and practitioners interested in emerging technology applications across the digital plane.

**Pacific Symposium on Biocomputing 2013 Oct 03 2022** The Pacific Symposium on Biocomputing (PSB) 2013 is an international, multidisciplinary conference for the presentation and discussion of current research in the theory and application of computational methods in problems of biological significance. Presentations are rigorously peer reviewed and are published in an archival proceedings volume. PSB 2013 will be held on January 3 OCo 7, 2013 in Kohala Coast, Hawaii. Tutorials and workshops will be offered prior to the start of the conference. PSB 2013 will bring together top researchers from the US, the Asian Pacific nations, and around the world to exchange research results and address open issues in all aspects of computational biology. **Imagine What I Could Do to You Aug 28 2019** Pure T.N.T.: Tenacious. Nasty. Truthful. Guaranteed to spark controversy! But that's the story of my life. My adventure continues and I come face to face with the Wild, Wild Women of British Wrestling!!! Will I survive? Read and find out.

**Crisis Narratives, Institutional Change, and the Transformation of the Japanese State Apr 28 2022** Looking at Japan, traces crisis narratives across three decades and ten policy fields, with the aim of disentangling discursively manufactured crises from actual policy failures. Mired in national crises since the early 1990s, Japan has had to respond to a rapid population decline; the Asian and global financial crises; the 2011 triple disaster of earthquake, tsunami, and the Fukushima nuclear meltdown; the COVID-19 pandemic; China ' s economic rise; threats from North Korea; and massive public debt. In *Crisis Narratives, Institutional Change, and the Transformation of the Japanese State*, established specialists in a variety of areas use a coherent set of methodologies, aligning their sociological, public policy, and political science and international relations perspectives, to account for discrepancies between official rhetoric and policy practice and actual perceptions of decline and crisis in contemporary Japan. Each chapter focuses on a distinct policy field to gauge the effectiveness and the implications of political responses through an analysis of how crises are narrated and used to justify policy interventions. Transcending boundaries between issue areas and domestic and international politics, these essays paint a dynamic picture of the contested but changing nature of social, economic, and, ultimately political institutions as they constitute the transforming Japanese state. Sebastian Maslow is Senior Lecturer in International Relations at Sendai Shirayuri Women ' s College in Japan. He is the coeditor (with Ra Mason and Paul O ' Shea) of *Risk State: Japan ' s Foreign Policy in an Age of Uncertainty*. Christian Wirth is Research Fellow at the German Institute for Global and Area Studies (GIGA) and Adjunct Research Fellow at the Griffith University Asia Institute. He is the author of *Danger*,

Development and Legitimacy in East Asian Maritime Politics: Securing the Seas, Securing the State.

Diego's Dragon, Book One Feb 01 2020 A Boy, A Bloodline, and A Magnificent Journey. An eleven-year-old Latino boy wins a district-wide writing contest for sixth graders. When an author visits his school to award his prize, Diego Ramirez has no idea how much his life is about to change. Nathan Sullivan hands Diego his statue, a handsome, glistening black dragon. He shakes his hand and leaves him to his friends. The students crowd around Diego, asking for permission to hold it. After hearing the name Magnifico spoken aloud by family and friends, Diego awards it to his new dragon. If he only knew how fitting the name was, he might have known what lay ahead. Magnifico is the leader of the Sol Dragones, dragons that live within the magical fires of the sun. Nathan Sullivan is the earth's connection to the mysterious creatures. It is his task to find Magnifico's guide. As Magnifico comes to life he becomes quite mischievous, playing tricks on Diego to embarrass him. As he discovers his bloodline, however, Diego assumes greater control over his dragon and his destiny. In the climactic journey, he frees his people and suffers a terrible loss by guiding Magnifico to their goal.

A Sleeping Giant? Jan 26 2022 This edited volume explores Nigeria's domestic and international politics and its implications for the country's national development and international status. Coinciding with the twenty year anniversary of Nigeria's return to democratic rule, this volume considers the state of democracy in Nigeria and examines its successes and challenges with a view towards offering possible solutions for the country's future development. The first half of the volume addresses domestic politics, focusing on current issues such as the 2019 elections, Nigerian federalism, media, state-civil society relations, and Boko Haram terrorism. The second half looks at Nigeria's relations with its African neighbors, discussing the relationships between Nigeria and South Africa, Egypt, Ghana, and Cameroon, among others. Engaging the full spectrum of the politics of a rising African power, this volume will be of interest to students and researchers of comparative politics, international relations, foreign policy, African studies, regional politics, peace, security, conflict, and development studies, as well as African policymakers.
