Shakespeare in China Oct 07 2020 Shakespeare in China is an attempt to explore systematically and deeply the nature and significance of the interaction between Shakespeare and traditional Chinese drama and between the dramatist and Chinese culture. Ever since Shakespeare was introduced into China at the beginning of this century, his works have exerted a pervasive influence upon Chinese theater and culture. During this process of transplantation into Chinese culture, the dramatist's works have also undergone some transformation, with the plays interpreted and reshaped by the Chinese from the perspective of their own culture and tradition. The value of the book is not limited to the scope of Shakespeare studies and comparative literature. With the combination of the literary criticism and sociological approach, it describes and investigates a variety of social and psychological phenomena in the process of cultural exchange between the West and the East. The book also provides a brief view of the social, political, and historical changes in modern China for Western readers.

**Six Dynasties Civilization** Jun 14 2021 The Six Dynasties, also known as the "Dark Age" of Chinese history, was a period of political disunity and conflict but also one of important

developments in the arts, religion, and culture. This comprehensive and extensively illustrated book covers the material culture of the Six Dynasties, A.D. 220 to 589. Albert E. Dien, a foremost expert on the period, draws on the archaeological findings of mainland China journals as well as historical and literary sources to clarify and interpret the database of over 1,800 tombs developed for this volume. During the Six Dynasties, the influences of non-Chinese nomads, the flourishing of Buddhism, and increasing numbers of foreign merchants in the capitals brought about widespread change. The book explores what the archaeological artifacts reveal about this era of innovation and experimentation between the Han and Tang dynasties.

**Modern Chinese (BOOK 3) - Learn Chinese in a Simple and Successful Way - Series** Sep 29 2022 Author Vivienne Zhang is a native Chinese speaker fluent in English who has been translating, interpreting and teaching for many years. She has tried, tested and perfected various lessons and techniques that apply well to Chinese studies. These modern techniques are now published in a series of four books. Each book teaches the reader both Pinyin and Hanzi (Chinese characters). One of the unique features in these books is the literal translation into English of common Chinese expressions and vocabulary. For example, you

can often see the annotation “lit.” with the daily life topic sentences in BOOK 3, showing the direct translation of the Chinese text. This technique reinforces an understanding of sentence structure and grammar which has proven to be instrumental in helping the students and readers to retain the Chinese that they have already learned. Other Chinese language books do not use this approach. BOOK 3 provides useful, high frequency language and examples heard everyday on the streets of China. This book is designed to give the reader a solid basis for understanding Chinese in different day-to-day situations, such as eating at a restaurant, shopping, social situations, dealing with emergencies, and many more. You can study these daily life topics in any order. Like BOOK 1 and BOOK 2 in this series, one of the unique features of this book is also the literal translation into English of common Chinese expressions and vocabulary. NOTE: After you have learnt Pinyin (initials, finals and tones) in Part 1 of BOOK 1, you are ready to continue studying any books within the Modern Chinese series...BOOK 1, 2, 3 and 4.

**Precious Volumes** Jun 22 2019 "Precious volumes," or pao-chan, were produced by popular sects in the Ming and early Qing dynasties. These scriptures were believed to have been divinely revealed to sect leaders and contain teachings and ritual instructions that provide valuable information about a lively and widespread religious tradition outside mainstream Confucianism, Taoism, and Buddhism. Largely neglected until now, they testify to the imagination and devotion of popular religious leaders. This book, the most detailed and comprehensive study of pao-chan in any language, studies 34 early examples of this literature in order to understand the origins and development of this textual tradition. Although the work focuses on content and structure, it also treats the social context of these works as well as their transmission and ritual use.

**Winter Sun** Apr 24 2022 Shi Zhi has been a major force in Chinese poetry since 1968, when several of his poems were circulated as secret handwritten manuscripts in the midst of China's Cultural Revolution. He gave voice to the aspirations of dispirited youth, and although once relegated to obscurity, he is today celebrated as one of China's most important cultural influences, having spawned the modern Chinese poetry revolution of the 1980s. This bilingual collection of Shi Zhi's most significant poems, featuring an afterword by the poet himself, is the first book-length publication of his work in English. Born as Guo Lusheng in 1948, at the height of the

Chinese Civil War, Shi Zhi joined the People's Liberation Army at the age of twenty-three. Discharged early, he entered into a period of severe depression and spent much of the next three decades living in mental hospitals under harsh conditions. Taking the pen name of Shi Zhi, meaning "index finger," to evoke the image of people pointing at his back, he continued to write poetry through these tumultuous years, chronicling his journey from the heights of fame to the depths of institutionalism and ultimately to a final redemptive return to society in 2005. The voice of this besieged poet, burdened with exile and illness, captured the spirit of his generation and now inspires young readers. By presenting Shi Zhi's poems in chronological order, *Winter Sun* allows readers to appreciate the evolution of his poetry from his earliest work to his most recent poems. Masterfully translated by Jonathan Stalling, and with an introduction by leading poetry critic Zhang Qinqu, this landmark collection ensures that Shi Zhi's poetry—so important to Chinese readers during the most challenging of times—will engage the hearts and minds of new readers the world over for years to come.

**Medical Ethics in China** Mar 31 2020 Drawing on a wide range of primary historical and sociological sources and employing sharp philosophical analysis, this book investigates medical ethics from a Chinese-Western comparative perspective. In doing so, it offers a fascinating exploration of both cultural differences and commonalities exhibited by China and the West in medicine and medical ethics. The book carefully examines a number of key bioethical issues in the Chinese socio-cultural context including: attitudes toward foetuses; disclosure of information by medical professionals; informed consent; professional medical ethics; health promotion; feminist bioethics; and human rights. It not only provides insights into Chinese perspectives, but also sheds light on the appropriate methods for comparative cultural and ethical studies. Through his pioneering study, Jing-Bao Nie has put forward a theory of "trans-cultural bioethics," an ethical paradigm which upholds the primacy of morality whilst resisting cultural stereotypes, and appreciating the internal plurality, richness, dynamism and openness of medical ethics in any culture. Medical Ethics in

China will be of particular interest to students and academics in the fields of Medical Law, Bioethics, Medical Ethics, Cross-Cultural Ethics as well as Chinese/Asian Studies and Comparative Cross-Cultural Studies.

China on Screen Aug 24 2019 In *China on Screen*, Chris Berry and Mary Farquhar, leaders in the field of Chinese film studies, explore more than one hundred years of Chinese cinema and nation. Providing new perspectives on key movements, themes, and filmmakers, Berry and Farquhar analyze the films of a

variety of directors and actors, including Chen Kaige, Zhang Yimou, Hou Hsiao Hsien, Bruce Lee, Jackie Chan, Maggie Cheung, Gong Li, Wong Kar-wai, and Ang Lee. They argue for the abandonment of "national cinema" as an analytic tool and propose "cinema and the national" as a more productive framework. With this approach, they show how movies from China, Hong Kong, Taiwan, and the Chinese diaspora construct and contest different ideas of Chinese nation -- as empire, republic, or ethnicity, and complicated by gender, class, style, transnationalism, and more. Among the issues and themes covered are the tension between operatic and realist modes, male and female star images, transnational production and circulation of Chinese films, the image of the good foreigner -- all related to different ways of imagining nation. Comprehensive and provocative, *China on Screen* is a crucial work of film analysis.
