The Uneasy Conscience of Modern Fundamentalism Feb 08 2021 Originally published in 1947, The Uneasy Conscience of Modern Fundamentalism has since served as the manifesto of evangelical Christians serious about bringing the fundamentals of the Christian faith to bear in contemporary culture. In this classic book Carl F. H. Henry, the father of modern fundamentalism, pioneered a path for active Christian engagement with the world -- a path as relevant today as when it was first staked out. Now available again and featuring a new foreword by Richard J. Mouw, The Uneasy Conscience of Modern Fundamentalism offers a bracing world-and-life view that calls for boldness on the part of the evangelical community. Henry argues that a reformation is imperative within the ranks of conservative Christianity, one that will result in an ecumenical passion for souls and in the power to meaningfully address the social and intellectual needs of the world.

In Mortal Combat Jul 04 2020 A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of *The Rising Sun and Infamy*. In *Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Underwater Nov 19 2021 Winner of the Bruss Real Estate Book Award His assignment was to write about a real-estate frenzy lighting up the Redneck Riviera. So Ryan Dezmber settled in and bought a home nearby himself. Then the market crashed, and he became one of the millions of Americans who suddenly owed more on their homes

than they were worth. A flood of foreclosures made it impossible to sell. It didn't help that his quaint neighborhood fell into disrepair and drug-induced despair. He had no choice but to become a reluctant and wildly unprofitable landlord to move on. Meanwhile, his reporting showed how the speculative mania that caused the crash opened the U.S. housing market to a much larger breed of investors. In this deeply personal story, DeZemmer shows how decisions on Wall Street and in Washington played out on his street in a corner of the Sunbelt that was convulsed by the foreclosure crisis. Readers will witness the housing market collapse from DeZemmer's perch as a newspaper reporter. First he's in the boom-to-bust South where a hot-air balloonist named Bob Shallow becomes one of the world's top selling real-estate agents arranging condo flips, developers flop in spectacular fashion and the law catches up with a beach-town mayor on the take. Later he's in New York, among financiers like Blackstone's Stephen Schwarzman who are building rental empires out of foreclosures, staking claim to the bastion of middle-class wealth: the single-family home. Through it all, DeZemmer is an underwater homeowner caught up in the mess. A cautionary tale of Wall Street's push to turn homes into assets, *Underwater* is a powerful, incisive story that chronicles the crash and its aftermath from a fresh perspective—the forgotten, middle-class homeowner.
