Manual of Cultivated Broad-leaved Trees & Shrubs: A-D Oct 07 2020 Vol. 1 contains a guide to botanical terminology, with illustrations. Vols. 1-3 include a guide to botanical terms in English, Latin, German, French and Dutch; an abbreviated temperature conversion chart; and hardiness zone maps for Europe, North America and China. Vol. 3 includes addenda and errata for Vol. 1; a taxonomic outline and alphabetic list of the families and genera covered; an index of the authors of the plant names with brief biographical notes; and a list of registration authorities for cultivar names of woody ornamentals. Plant entries include hardiness

zone, light and soil/moisture requirements and geographical distribution.

Religion and Ecological Sustainability in China Nov 07 2020 This book sheds light on the social imagination of nature and environment in contemporary China. It demonstrates how the urgent debate on how to create an ecologically sustainable future for the world's most populous country is shaped by its complex engagement with religious traditions, competing visions of modernity and globalization, and by engagement with minority nationalities who live in areas of outstanding natural beauty on China's physical and social margins. The book develops a comprehensive understanding of contemporary China that goes beyond the tradition/modernity dichotomy, and illuminates the diversity of narratives and worldviews that inform contemporary Chinese understandings of and engagements with nature and environment. **International Financial Institutions and International Law** Nov 19 2021 The

fundamental recognition in this book is that the issue of what international legal principles are applicable to the operations of the IFIs is an important topic that would benefit from more rigorous study. Twelve deeply committed contributors - whose work spans the academic, policy, and activist spectrum - suggest that a better understanding of these legal issues could help both the organizations and their Member States structure their transactions in ways that are more compatible with their developmental objectives and their international responsibilities.

Anthropological Abstracts 7/2008 Dec 09 2020

Anthropological Abstracts (AA) is a reference journal published once a year in print, but also under www.anthropology-online.de and announces - in English language - most publications in the field of cultural/social anthropology published in the German language area (Austria, Germany, Switzerland). Since many of these publications have been written in German, and most German publications are not included in the major English language abstracting services, Anthropological Abstracts offers a convenient source of information for anthropologists and social scientists in general who do not read German, to become aware of anthropological research and publications in German-speaking countries. Included are journal

articles, monographs, anthologies, exhibition catalogs, yearbooks, etc. Most abstracts are authored by the editor, others are specified accordingly. This journal is edited by Ulrich Oberdiek since 1993 (formerly: Abstracts in German Anthropology; since 2002:

Anthropological Abstract

Stalk Divination Jul 04 2020 This book presents for the first time a full translation and analysis of a newly discovered bamboo divination manual from fourth century BCE China called the Stalk Divination Method. The manual presents a competing way of interpreting trigrams to the Zhouyi (popularly known as the I-Ching) that was lost over time.

The Politics of Chinese Medicine Under Mongol Rule Sep 05 2020 Under the rule of the descendants of Chinggis Khan (1167-1227), China saw the development of a new culture in which medical practice came to be considered a highly respected occupation for elite men. During this period, further major steps were also taken towards the codification of medical knowledge and promotion of physicians' social status. This book traces the history of the politics, institutions, and culture of medicine of China under Mongol rule, through the eyes of a successful South Chinese official Yuan Jue (1266-1327). As the first comprehensive monograph on history of medicine in China under the Mongols, it argues that this period was a separate moment in Chinese history, when a configuration of power different from that of previous and succeeding periods created its own medical culture. The Politics of Chinese Medicine under Mongol Rule emphasizes the impact of the political and institutional changes caused by the Mongols and their collaborators on the social and cultural history of medicine, which culminated in the medical theory of Zhu Zhenheng (1282-1358), still influential in East

Asian medicine. Using a variety of Chinese-language sources including gazetteers, legal texts, biographies, poems, and medical texts, it analyses the roles of the Mongols and West and Central Asians as cultural brokers and also as unifiers of China. Further, it views North and South Chinese elites as agents of historical change rather than as victims of Mongol oppression. Underlining the complexity of the history of China under the Mongols and the significance of time and geography for the study of this history, this book will be of great interest to students and scholars of Chinese medical history, Chinese social and cultural history, and medieval global history.

Meaning and Controversy within Chinese Ancestor Religion Jan 10 2021 Chinese practices related to ancestors have long been the subject of conflicting interpretations. These practices are rooted in the lived experience of practitioners, and therefore need to be considered as embodied expressions of the quest for existential meaning. For practitioners, the achievement of existential meaning requires the inclusion, implication, and mediation of the ancestors. When gestures in ancestor rites are analyzed from this perspective it is possible to appreciate their essence as constitutive of "ancestor religion." This book uses an inquisitive method that investigates the discrepancies between foreign and local explanations, and proposes another hermeneutic framework for ancestor related praxes.

The Chinese Communist Party's Capacity to Rule Jun 14 2021 Why did the Chinese Communist Party (CCP) not follow the failure of the communist regimes in Eastern Europe and the Soviet Union? This book examines this question by studying two crucial strategies that the CCP feels it needs to implement in order to remain in power: ideological reform and the institutionalization of leadership succession.

The Early Dutch Sinologists (1854-1900) Jun 22 2019 In *The early Dutch Sinologists* Koos Kuiper gives a detailed account of the studies and work of the 24 Dutchmen trained as "interpreters" for the Netherlands Indies before 1900. Many primary sources give a fascinating picture of personal cross-cultural contacts.

Debating Regime Legitimacy in

Contemporary China May 14 2021 This comprehensive volume is a three-part study of whether the Chinese political system has maintained a significant degree of regime legitimacy in the context of rising domestic discontent, in particular the popular protests against socio-economic inequality and environment degradation. Part I presents the scholarly debate on the theoretical refinement and empirical measurement of regime legitimacy in contemporary China. Part II focuses on the challenges to regime legitimacy of the increasingly widespread popular protests and civil activism. Part III examines the regime's responses to these challenges, including coercive repression, adaptation, and economic

performance. This book finds that, while repression can hardly stop popular protests – and often backfires – economic performance legitimacy is increasingly difficult to be maintained. The only way out is the adaptation to the changing domestic and international

environment. The chapters in this collection were originally published in the Journal of Contemporary China.
