*Histoire d'une plateforme de commerce électronique* Oct 25 2019 Les plateformes électroniques de réservation (telle Booking.com) ou de distribution (telle Amazon) se multiplient aujourd'hui à un rythme effréné. Cette technologie a pourtant déjà plus de 40 ans. En 1976, la compagnie aérienne American Airlines a créé, sous le nom de SABRE, la première plateforme électronique jouant le rôle d'intermédiaire entre les compagnies aériennes et les agences de voyage. L'innovation qu'elle représente à cette époque est considérable. Mais les guerres commerciales menées par American Airlines pour garder, à son profit, la position concurrentielle de SABRE, les procès que SABRE dut affronter, les obstacles dressés par les autorités américaines et européennes ou encore la façon dont SABRE a réussi à affronter la concurrence permise par l'arrivée des ordinateurs personnels et d'Internet restent autant de pans mal connus de l'histoire de SABRE. C'est pour éclairer tous ces points que *Histoire d'une plateforme de commerce électronique* présente l'histoire de SABRE sous ses aspects techniques, commerciaux, politiques, juridiques, sociologiques et géopolitiques.
