Slavery in America Mar 10 2021

Twentieth-Century America Aug 27 2022 As this most tumultuous century draws to a close, the need for a concise and trustworthy history is clear. Recent decades have seen the publication of American histories that are either bloated with unnecessary detail or infused with a polemical purpose that undermines their authority. In *Twentieth-Century America*, Thomas C. Reeves provides a fluidly written narrative history that combines the rare virtues of compression, inclusiveness, and balance. From Progressivism and the New Deal right up to the present, Reeves covers all aspects of American history, providing solid coverage of each era without burying readers in needless detail or trivia. This approach allows readers to grasp the major developments and continuities of American history and to come away with a cohesive picture of the whole of the twentieth century. The volume stresses social and well as political history, emphasizing the roles played by all Americans—including immigrants, minorities, women, and working people—and pays special attention to such topics as religion, crime, public health, national prosperity, and the media. Reeves is careful throughout to present both sides of controversial subjects and yet does not leave readers bewildered about which interpretations are most strongly supported or where to explore these issues more thoroughly. At the conclusion of each chapter, the author cites ten authoritative volumes for further study. The bibliographies, as well as the text, are refreshing in their lack of ideological bent. "Objectivity," Reeves suggests, "is an illusive but worthy goal for the historian." For anyone wishing to achieve a lucid historical overview of the past 100 years, *Twentieth-Century America* is the best place to start.

[The Negro Motorist Green Book](#) Feb 09 2021 The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Christian Thought in America Sep 16 2021 *Christian Thought in America: A Brief History* is a short, accessible overview of the history of Christian thought in America, from the Puritans and other colonials to the beginning of the twenty-first century. Moving chronologically, each chapter addresses a historical segment, focusing on key movements and figures and tracing general trends and developments. The book conveys a sense of the liveliness and creativity of the ongoing theological debates. Each chapter concludes with a short bibliography of recent scholarship for further reading.

[Black Protest and the Great Migration](#) Jun 25 2022 During World War I, as many as half a million southern African Americans permanently left the South to create new homes and lives in the urban North, and hundreds of thousands more would follow in the 1920s. This dramatic transformation in the lives of many black Americans involved more than geography: the increasingly visible "New Negro" and the intensification of grassroots black activism in the South as well as the North were the manifestations of a new challenge to racial subordination. Eric Arnesen's unique collection of articles from a variety of northern, southern, black, and white newspapers, magazines, and books explores the "Great Migration," focusing on the economic, social, and political conditions of the Jim Crow South, the meanings of race in general – and on labor in particular – in the urban North, the grassroots movements of social protest that flourished in the war years, and the postwar "racial counterrevolution." An introduction by the editor, headnotes to documents, a chronology, questions for consideration, a bibliography, and an index are included.

Law in America Sep 28 2022 Throughout America's history, our laws have been a reflection of who we are, of what we value, of who has control. They embody our society's genetic code. In the masterful hands of

the subject's greatest living historian, the story of the evolution of our laws serves to lay bare the deciding struggles over power and justice that have shaped this country from its birth pangs to the present. Law in America is a supreme example of the historian's art, its brevity a testament to the great elegance and wit of its composition.

America: A Narrative History Jan 20 2022 America is the leading narrative history because students love to read it. Additional coverage of immigration enhances the timeliness of the narrative. New Chapter Opener videos, History Skills Tutorials, and Norton's adaptive learning tool, InQuizitive, help students develop history skills, engage with the reading, and come to class prepared. What hasn't changed? Our unmatched affordability. Choose from Full, Brief (15% shorter), or The Essential Learning Edition--featuring fewer chapters and additional pedagogy.

Muslims in America Oct 29 2022 A history of the Muslim presence in the United States from slaves who managed to keep their religion to the varied communities of the twenty-first century covers the role of converts and immigrants in every stage of American history.

The Color of Law: A Forgotten History of How Our Government Segregated America Apr 23 2022 New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates' "Amazing Books" of the Year One of Publishers Weekly's 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's *The Color of Law* offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, "virtually indispensable" study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past.

A Brief History of the Cold War May 12 2021 The Cold War was a crucial conflict in American history. At stake was whether the world would be dominated by the forces of totalitarianism led by the Soviet Union, or inspired by the principles of economic and political freedom embodied in the United States. The Cold War established America as the leader of the free world and a global superpower. It shaped U.S. military strategy, economic policy, and domestic politics for nearly 50 years. In *A Brief History of the Cold War*, distinguished scholars Lee Edwards and Elizabeth Edwards Spalding recount the pivotal events of this protracted struggle and explain the strategies that eventually led to victory for freedom. They analyze the development and implementation of containment, détente, and finally President Reagan's philosophy: "they lose, we win." *The Cold War* teaches important lessons about statecraft and America's indispensable role in the world.

A Brief History of American Sports Jan 08 2021 Overview: Gorn and Goldstein show us where our games and pastimes came from, how they developed, and what they have meant to Americans. The great heroes of baseball and football are here, as well as the dramatic moments of boxing and basketball. Beyond this, the authors show us how sports fit into the larger contours of our past. *A Brief History of American Sports* reveals that from colonial times to the present, sports have been central to American culture, and a profound expression of who we are.

Before the Mayflower Jul 22 2019 This book grew out of a series of articles which were published originally in *Ebony* magazine. The book, like the series, deals with the trials and triumphs of a group of Americans whose roots in the American soil are deeper than those of the Puritans who arrived on the celebrated "Mayflower" a year after a "Dutch man of war" deposited twenty Negroes at Jamestown. This is a history of "the other Americans" and how they came to North America and what happened to them when they got here. The story begins in Africa with the great empires of the Sudan and Nile Valley and ends with the Second Reconstruction which Martin Luther King, Jr., and the "sit-in" generation are fashioning in the North and South. The story deals with the rise and growth of slavery and segregation and the continuing efforts of Negro Americans to answer the question of the Jewish poet of captivity: "How shall we sing the Lord's song in a strange land?" This history is founded on the work of scholars and specialists and is designed for the average reader. It is not, strictly speaking, a book for scholars; but it is as scholarly as fourteen months of research could make it. Readers who would like to follow the story in greater detail are urged to read each chapter in connection with the outline of Negro history in the appendix.

Black Surgeons and Surgery in America Feb 27 2020

Tocqueville Feb 21 2022 A study of the thought and works of Alexis de Tocqueville written by one of the premier political scientists of our time. Exploring his observations of contemporary democratic politics and his predictions for the triumph and pitfalls of democracy in the future, the volume features the new liberalism of Tocqueville's masterpiece, *Democracy in America*.

Their Place on the Stage Sep 23 2019 This study begins with a brief discussion of the African origins of African American theater, and then moves into an analysis of the many women playwrights of the Harlem Renaissance. In the third chapter the focus narrows down to the three playwrights who constitute the core

of the study: Lorraine Hansberry, Alice Childress, and Ntozake Shange. In addition to a discussion of each of their major plays, Brown-Guillory analyzes the tonal and structural forms of their plays and the image of blacks each woman creates. The three playwrights are linked in this study by their portrayal of the black struggle in an inhumane society and by their common focus on the "spirit of survival" of African Americans. ISBN 0-313-25985-2: \$37.95.

Nowhere in America Apr 30 2020 A magical tour through the imaginary terrain of the comic imagination as revealed in children's lore, literature, folktales, travel lies, film comedies, cartoons, comic books, and folksongs. With 14 bandw illustrations. Annotation copyrighted by Book News, Inc., Portland, OR

The Black Image in the White Mind Aug 15 2021 Living in a segregated society, white Americans learn about African Americans not through personal relationships but through the images the media show them. The Black Image in the White Mind offers the most comprehensive look at the intricate racial patterns in the mass media and how they shape the ambivalent attitudes of Whites toward Blacks. Using the media, and especially television, as barometers of race relations, Robert Entman and Andrew Rojecki explore but then go beyond the treatment of African Americans on network and local news to incisively uncover the messages sent about race by the entertainment industry—from prime-time dramas and sitcoms to commercials and Hollywood movies. While the authors find very little in the media that intentionally promotes racism, they find even less that advances racial harmony. They reveal instead a subtle pattern of images that, while making room for Blacks, implies a racial hierarchy with Whites on top and promotes a sense of difference and conflict. Commercials, for example, feature plenty of Black characters. But unlike Whites, they rarely speak to or touch one another. In prime time, the few Blacks who escape sitcom buffoonery rarely enjoy informal, friendly contact with White colleagues—perhaps reinforcing social distance in real life. Entman and Rojecki interweave such astute observations with candid interviews of White Americans that make clear how these images of racial difference insinuate themselves into Whites' thinking. Despite its disturbing readings of television and film, the book's cogent analyses and proposed policy guidelines offer hope that America's powerful mediated racial separation can be successfully bridged. "Entman and Rojecki look at how television news focuses on black poverty and crime out of proportion to the material reality of black lives, how black 'experts' are only interviewed for 'black-themed' issues and how 'black politics' are distorted in the news, and conclude that, while there are more images of African-Americans on television now than there were years ago, these images often don't reflect a commitment to 'racial comity' or community-building between the races. Thoroughly researched and convincingly argued."—Publishers Weekly "Drawing on their own research and that of a wide array of other scholars, Entman and Rojecki present a great deal of provocative data showing a general tendency to devalue blacks or force them into stock categories."—Ben Yagoda, New Leader Winner of the Frank Luther Mott Award for best book in Mass Communication and the Robert E. Lane Award for best book in political psychology.

American Business History: a Very Short Introduction Mar 22 2022 By the early twentieth century, it became common to describe the United States as a "business civilization." President Coolidge in 1925 said, "The chief business of the American people is business." More recently, historian Sven Beckert characterized Henry Ford's massive manufactory as the embodiment of America: "While Athens had its Parthenon and Rome its Colosseum, the United States had its River Rouge Factory in Detroit..." How did business come to assume such power and cultural centrality in America? This volume explores the variety of business enterprise in the United States and analyzes its presence in the country's economy, its evolution over time, and its meaning in society. It introduces readers to formative business leaders (including Elbert Gary, Harlow Curtice, and Mary Kay Ash), leading firms (Mellon Bank, National Cash Register, Xerox), and fiction about business people (The Octopus, Babbitt, The Man in the Grey Flannel Suit). It also discusses Alfred Chandler, Joseph Schumpeter, Mira Wilkins, and others who made significant contributions to understanding of America's business history. This VSI pursues its three central themes – the evolution, scale, and culture of American business – in a chronological framework stretching from the American Revolution to today. The first theme is evolution: How has U.S. business evolved over time? How have American companies competed with one another and with foreign firms? Why have ideas about strategy and management changed? Why did business people in the mid-twentieth century celebrate an "organizational" culture promising long-term employment in the same company, while a few decades later entrepreneurship was prized? Second is scale: Why did business assume such enormous scale in the United States? Was the rise of gigantic corporations due to the industriousness of its population, or natural resources, or government policies? And third, culture: What are the characteristics of a "business civilization"? How have opinions on the meaning of business changed? In the late nineteenth century, Andrew Carnegie believed that America's numerous enterprises represented an exuberant "triumph of democracy." After World War II, however, sociologist William H. Whyte saw business culture as stultifying, and historian Richard Hofstadter wrote, "Once great men created fortunes; today a great system creates fortunate men." How did changes in the nature of business affect popular views? Walter A. Friedman provides the long view of these important developments.

A Brief Account of the Province of Pennsylvania in America Nov 25 2019

Beyond Black Jul 02 2020 Using both in-depth interviews and survey data, the authors document how Biracial people develop a number of different racial identities and how these self-understandings are rooted in intriguing social, psychological, and cultural processes. The findings from this groundbreaking study provide a new and complex empirical foundation for future debates about the efficacy of multiracialism and the future of racial categorization in America.

A Brief History of Central America Jul 14 2021 An exploration of the region spanning three thousand years of civilization and focusing on key events and broad cultural patterns examines the challenges facing Belize, Costa Rica, Guatemala, El Salvador, Honduras, Nicaragua, and Panama.

The Brief American Pageant: A History of the Republic Apr 11 2021 THE BRIEF AMERICAN PAGEANT presents a concise and vivid chronological narrative, focusing on the great public debates that have dominated American history. Colorful anecdotes, first-person quotations, and the text's trademark wit are all evident throughout. Focus questions, chapter outlines and summaries, marginal glossaries, and links to additional online study aids ensure that students understand and retain the material as they read and prepare for exams. Available in the following split options: THE BRIEF AMERICAN PAGEANT, Eighth Edition (Chapters 1-42), ISBN: 978-0-495-91535-5; Volume I: To 1877 (Chapters 1-22), ISBN: 978-0-495-91535-5; Volume II: Since 1865 (Chapters 22-42), ISBN: 978-0-495-91537-9. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Government in America Dec 07 2020 Edwards, George C. III; Wattenberg, Martin P.; Lineberry, Robert L., Government in America Brief, Study Edition, with L.P. com access card, 6th Edition\ This Study Edition of Edwards' popular brief text is certain to improve readers understanding in American government. Religion in American Life Jul 26 2022 The new edition of Religion in American Life, written by three of the country's most eminent historians of religion, offers a superb overview that spans four centuries, illuminating the rich spiritual heritage central to nearly every event in our nation's history.

African American Films Through 1959 Jun 01 2020 From Absent (1928) to Zulutown Races (1916), over 1,300 films with African American casts or storylines are detailed in this comprehensive filmography. Each entry includes credits, year of release, studio, distributor, type of film (feature, short or documentary) and other production details. For most films, a brief synopsis or contemporary reviews follow. In this work's unique appendices are film listings for nearly 3,000 actors, actresses, producers, directors and film companies.

The Souls of Black Folk Oct 17 2021 The Souls of Black Folk W. E. B. Du Bois - One of the Most Important Books on Civil Rights, Race, and Freedom Ever Written. It is a seminal work in the history of sociology and a cornerstone of African-American literature and a monumental collection of essays that examines race and racism in America during the early 1900s and prior. To develop this work, Du Bois drew from his own experiences as an African American in American society. Outside of its notable relevance in African-American history, The Souls of Black Folk also holds an important place in social science as one of the early works in the field of sociology. The Souls of Black Folk is perfect for anyone interested in African-America literature and history

Crossing the Quality Chasm Aug 23 2019 Second in a series of publications from the Institute of Medicine's Quality of Health Care in America project Today's health care providers have more research findings and more technology available to them than ever before. Yet recent reports have raised serious doubts about the quality of health care in America. Crossing the Quality Chasm makes an urgent call for fundamental change to close the quality gap. This book recommends a sweeping redesign of the American health care system and provides overarching principles for specific direction for policymakers, health care leaders, clinicians, regulators, purchasers, and others. In this comprehensive volume the committee offers: A set of performance expectations for the 21st century health care system. A set of 10 new rules to guide patient-clinician relationships. A suggested organizing framework to better align the incentives inherent in payment and accountability with improvements in quality. Key steps to promote evidence-based practice and strengthen clinical information systems. Analyzing health care organizations as complex systems, Crossing the Quality Chasm also documents the causes of the quality gap, identifies current practices that impede quality care, and explores how systems approaches can be used to implement change.

Black Chant Oct 05 2020 A study of postmodernism and African-American poets.

A Brief History of Mexico Aug 03 2020 An introduction to the history of Mexico covers such topics as indigenous peoples, the environment, the North American Free Trade Agreement, and current law enforcement efforts against the drug cartels.

Check with the seller prior to purchase. -- Updated in a new 11th edition, Government in America: People, Politics, and Policy, illustrates the impact that government has on the daily lives of each and every American, particularly its effect on students. Designed around the theme that "politics matters," this descriptive text emphasizes public policy -- what government actually does. It contains recent political developments and policy on the global economic recession and addresses President Barack Obama's impact on our current government.

A Brief History of Male Nudes in America Jun 20 2019 In these stories, Dianne Nelson illuminates that vast territory of pleasure and pain created within modern families. Whether it is a father trying to kidnap his young son from his estranged ex-wife or a woman celebrating her ability to produce babies

without any help from men, Nelson's characters reveal the dark, haunting and sometimes comic dilemmas of kinship. In the title story, seventeen-year-old April is an involuntary witness to the seemingly endless parade of lovers who frequent her mother's bed. "I don't know why my mother finds no lasting peace" she muses. Opening a book and trying to find her peace in "facts, dates, the pure honesty of numbers," April is overwhelmed finally by the sounds of lovemaking from the adjoining room. "The walls of this house aren't thick enough to keep that kind of sadness contained." In "The Uses of Memory," Netta and Carlene are engaged in a different sort of mother-daughter drama. The issue at hand is the fate of Franklin, their husband and father, who lies in bed in a near comatose state, oblivious to the nurturings or pleadings of either woman. The past, with its countless repercussion on the present, tugs relentlessly at many of the characters. In "Chocolate," the lingering pain of an impoverished childhood plagues Janice; she recalls, in particular, the birthday and Christmas celebrations, the meager gifts wrapped in the same brown twine that was used to hold the door shut. Hillary, the narrator of "Dixon," is spurred into action by the memory of her dead brother. When a local barfly with "silt for brains" persists in telling outlandish lies about Dixon, Hillary takes up karate training with an eye to defending her brother's name the truth of what she knew him to be. Dee, in "Paperweight," can pinpoint the exact moment at which she came to think of the body as an earthbound trap, "a hopeless house with the doors all locked"; she traces it back to a grade-school theatrical performance and a classmate's luckless efforts to open the cumbersome stage curtains. "If it weren't for my body," she laments, "I could fly, I could go anywhere, I could be anything." Ranging in setting from a restaurant in St. Louis to the rain-soaked streets of San Francisco, from a boisterous family reunion beneath the broad Kansas sky to a ranch in Utah where a young father dreams of becoming a movie star, these fifteen stories show men and women pondering—and often struggling against—the mysteries of their own circumstances, especially the bonds of flesh and blood.

The Ideas That Made America: A Brief History Jun 13 2021 Long before the United States was a nation, it was a set of ideas, projected onto the New World by European explorers with centuries of belief and thought in tow. From this foundation of expectation and experience, America and American thought grew in turn, enriched by the bounties of the Enlightenment, the philosophies of liberty and individuality, the tenets of religion, and the doctrines of republicanism and democracy. Crucial to this development were the thinkers who nurtured it, from Thomas Jefferson to Ralph Waldo Emerson, W.E.B. DuBois to Jane Addams, and Betty Friedan to Richard Rorty. *The Ideas That Made America: A Brief History* traces how Americans have addressed the issues and events of their time and place, whether the Civil War, the Great Depression, or the culture wars of today. Spanning a variety of disciplines, from religion, philosophy, and political thought, to cultural criticism, social theory, and the arts, Jennifer Ratner-Rosenhagen shows how ideas have been major forces in American history, driving movements such as transcendentalism, Social Darwinism, conservatism, and postmodernism. In engaging and accessible prose, this introduction to American thought considers how notions about freedom and belonging, the market and morality -- and even truth -- have commanded generations of Americans and been the cause of fierce debate.

Communities in Action Oct 25 2019 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

A Story of America First Nov 06 2020 Table of contents

The Road to 9/11 Jan 28 2020 "Scott's brilliantly perceptive account of the underpinnings of American governmental authority should be made required reading. The book vividly depicts the political forces that have pushed this country toward an abyss, threatening constitutional democracy at home and world peace abroad. Its central message can be understood as an urgent wake-up call to everyone concerned with the future of America."—Richard Falk, author of *The Great Terror War* "Peter Dale Scott is one of that tiny and select company of the most brilliantly creative and provocative political-historical writers of the last half century. *The Road to 9/11* further secures his distinction as truth-teller and prophet. He shows us here with painful yet hopeful clarity the central issue of our time—America's coming to terms with its behavior in the modern world. As in his past work, Scott's gift is not only recognition and wisdom but also redemption and rescue we simply cannot do without."—Roger Morris, former NSC staffer "The Road to 9/11 is vintage Peter Dale Scott. Scott does not undertake conventional political analysis; instead, he engages in a kind of poetics, crafting the dark poetry of the deep state, of parapolitics, and of shadow government. As with his earlier work *Deep Politics and the Death of JFK*, Scott has no theory of responsibility and does not name the guilty. Rather, he maps out an alien terrain, surveying the topography of a political shadow land, in which covert political deviancy emerges as the norm. After reading Scott, we can no longer continue with our consensus-driven belief that our so-called 'liberal' order renders impossible the triumph of the politically irrational."—Eric Wilson, Senior Lecturer of Public International Law, Monash University, and co-editor of *Government of the Shadows* "Peter Dale Scott exposes a shadow world of oil, terrorism, drug trade and arms deals, of covert financing and parallel

security structures—from the Cold War to today. He shows how such parallel forces of the United States have been able to dominate the agenda of the George W. Bush Administration, and that statements and actions made by Vice President Cheney and Defense Secretary Rumsfeld before, during and after September 11, 2001, present evidence for an American 'deep state' and for the so-called 'Continuity of Government' in parallel to the regular 'public state' ruled by law. Scott's brilliant work not only reveals the overwhelming importance of these parallel forces but also presents elements of a strategy for restraining their influence to win back the 'public state', the American democracy."—Ola Tunander, International Peace Research Institute, Oslo "A powerful study of the historic origins of the terrorist strikes of September 11, this book offers an indispensable guide to the gluttonous cast of characters who, since Watergate and the fall of Nixon, fashioned an ever more reckless American empire. By exposing the corrupt U.S. 'deep state'—transfer of public authority to America's wealthy and to the nation's unaccountable secret intelligence agencies—Peter Dale Scott's *The Road to 9/11* illuminates the path toward a more democratic and inclusive republic."—David MacGregor, King's University College at the University of Western Ontario "The Road to 9/11 provides an illuminating and disturbing history of the American government since World War II. Scott's account suggests that the 9/11 attacks were a culmination of long-term trends that threaten the very existence of American democracy, and also that there has been a massive cover-up of 9/11 itself. This book, which combines extensive research, perceptive analysis, and a fascinating narrative, will surely be considered Scott's magnum opus."—David Ray Griffin, author of *Debunking 9/11 Debunking* "The America we knew and loved. Can it be saved?' That question opens this book, and getting to the answer called for the honed intellect of a scholar and the sensitivity of a poet. Peter Dale Scott has both, in spades, and here gives us much, much more than a book about 9/11. In a time of fear, he speaks for sanity and freedom."—Anthony Summers, author of *The Arrogance of Power*

Racism in America Dec 19 2021 Racism in America has been the subject of serious scholarship for decades. At Harvard University Press, we've had the honor of publishing some of the most influential books on the subject. The excerpts in this volume—culled from works of history, law, sociology, medicine, economics, critical theory, philosophy, art, and literature—are an invitation to understand anti-Black racism through the eyes of our most incisive commentators. Readers will find such classic selections as Toni Morrison's description of the Africanist presence in the White American literary imagination, Walter Johnson's depiction of the nation's largest slave market, and Stuart Hall's theorization of the relationship between race and nationhood. More recent voices include Khalil Gibran Muhammad on the pernicious myth of Black criminality, Elizabeth Hinton on the link between mass incarceration and 1960s social welfare programs, Anthony Abraham Jack on how elite institutions continue to fail first-generation college students, Mehrsa Baradaran on the racial wealth gap, Nicole Fleetwood on carceral art, and Joshua Bennett on the anti-Black bias implicit in how we talk about animals and the environment. Because the experiences of non-White people are integral to the history of racism and often bound up in the story of Black Americans, we have included writers who focus on the struggles of Native Americans, Latinos, and Asians as well. Racism in America is for all curious readers, teachers, and students who wish to discover for themselves the complex and rewarding intellectual work that has sustained our national conversation on race and will continue to guide us in future years.

Sam Walton Nov 18 2021 Meet a genuine American folk hero cut from the homespun cloth of America's heartland: Sam Walton, who parlayed a single dime store in a hardscrabble cotton town into Wal-Mart, the largest retailer in the world. The undisputed merchant king of the late twentieth century, Sam never lost the common touch. Here, finally, inimitable words. Genuinely modest, but always sure of his ambitions and achievements. Sam shares his thinking in a candid, straight-from-the-shoulder style. In a story rich with anecdotes and the "rules of the road" of both Main Street and Wall Street, Sam Walton chronicles the inspiration, heart, and optimism that propelled him to lasso the American Dream.

Land of Idols Mar 30 2020 Arguing against the presumption that the U.S. has no dominant ideology, the author confronts the myths in American society that limit the perception of political reality and constrain progressive reform.

Angels in America: A Gay Fantasia on National Themes Dec 27 2019 Winner of the Pulitzer Prize for Drama *Angels in America: A Gay Fantasia on National Themes* includes Part One, *Millennium Approaches* and Part Two, *Perestroika* "Glorious. A monumental, subversive, altogether remarkable masterwork...Details of specific catastrophes may have changed since this Reagan-era AIDS epic won the Pulitzer and the Tony, but the real cosmic and human obsessions—power, religion, sex, responsibility, the future of the world—are as perilous, yet as falling-down funny, as ever." —Linda Winer, *Newsday* "A vast, miraculous play... provocative, witty and deeply upsetting... a searching and radical rethinking of American political drama." — Frank Rich, *New York Times* "A victory for theater, for the transforming power of the imagination to turn devastation into beauty." — John Lahr, *New Yorker* "An enormously impressive work of the imagination and intellect, a towering example of what theater stretched to its full potential can achieve." —Philadelphia Inquirer "Angels in America is the finest drama of our time, speaking to us of an entire era of life and death as no other play within memory. It ranks as nothing less than one of the greatest plays of the twentieth century." — John Heilpern, *New York Observer* "Some playwrights want to change the world. Some want to revolutionize theater. Tony Kushner is that rarity of rarities: a writer who has the promise to do both." —New York Times This new edition of Tony Kushner's masterpiece is published with the author's recent changes and a new introduction in celebration of the twentieth anniversary of its original production. One of the most honored American plays in history, *Angels in America* was awarded two Tony Awards for Best Play and the Pulitzer Prize for Drama. It was made into an Emmy Award-winning HBO film directed by Mike Nichols. This two-part epic, subtitled "A Gay Fantasia on National Themes," has received hundreds of performances worldwide in more than twenty-six languages. Tony

Kushner's plays include *Angels in America*; *Hydriotaphia, or the Death of Dr. Brown*; *The Illusion*, adapted from the play by Pierre Corneille; *Slavs!*; *A Bright Room Called Day*; *Homebody/Kabul*; *Caroline, or Change*, a musical with composer Jeanine Tesori; and *The Intelligent Homosexual's Guide to Capitalism and Socialism with a Key to the Scriptures*. He wrote the screenplays for Mike Nichols's film of *Angels in America* and for Steven Spielberg's *Munich* and *Lincoln*. His books include *The Art of Maurice Sendak: 1980 to the Present*; *Brundibar*, with illustrations by Maurice Sendak; and *Wrestling with Zion: Progressive Jewish-American Responses to the Israeli-Palestinian Conflict*, co-edited with Alisa Solomon. Among many honors, Kushner is the recipient of a Pulitzer Prize, two Tony Awards, three Obie Awards, two Evening Standard Awards, an Olivier Award, an Emmy Award, two Oscar nominations, and the Steinberg Distinguished Playwright Award. He is a member of the American Academy of Arts and Letters. In 2012, he was awarded a National Medal of Arts by President Barack Obama. He lives in Manhattan with his husband, Mark Harris.

America Views the Holocaust, 1933-1945 Sep 04 2020 Were Americans the heroic liberators of Nazi concentration camp victims in 1945, or were they knowing and apathetic bystanders to unspeakable brutality and annihilation for a dozen years? Historians have long debated what the United States knew about Hitler's gruesome Final Solution, when they knew it, and whether they should have intervened sooner. Wrapping historical narrative around 60 primary sources – including news clippings, speeches, letters, magazine articles, and government reports – Abzug chronicles the unfolding events in Nazi Germany while tracing the resurgence of anti-Semitism and tightening immigration policies in the United States. He relies on the American journalistic sources through which U.S. citizens read about events in Europe to provide students a real context to understand Americans' horror when they realized that the reports of the Holocaust were not exaggerations or fabrications. An epilogue examines the complexity of historical interpretations and moral judgments that have evolved since 1945. Useful apparatus includes photographs, a chronology, questions for consideration, a bibliography, and an index.
