**The Law of Values** Jul 25 2019 This is one of the oddest books of financial advice ever written, one that ascribes astrological import to the movement of dollars and assigns signs of the zodiac to countries (England is, apparently an Aries, and France a Leo). Here we learn that Saturn brings "national depression due to political reversals" and Mercury "a sense of instability," that the Boer War may have been triggered by Neptune (the planet, not the deity), and that by learning how to read the stars the earthbound investor may prosper. It remains unclear whether Sepharial, who published this curious work in 1912, saw dark celestial clouds brewing for October 1929. "Sepharial" was the pseudonym of British mystic WALTER GORN-OLD (1864-1929), one of the most prolific writers on and teachers of astrology in modern times, and the first president of the British Astrological Society. Among his more than 60 books are Astrology Explained, Cosmic Symbolism, Science of Foreknowledge, and The Silver Key.

**The 48 Laws Of Power** Sep 26 2019 THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

**Key Aspects of German Business Law** Oct 20 2021 This book presents a clear and precise overview of the key aspects of German business law. It was written by attorneys involved in the daily practice of business law in Germany and is aimed at people who wish to orient themselves quickly with the German legal system and the manner in which it impacts business purchases, establishment, operations and liquidations. The first section of the book is devoted to an explanation of the major issues to be considered in acquiring or establishing a business in Germany. The second section focuses on areas of commercial law that are important for an operating business. In comparison to the last edition four new areas (transportation law, customs regulations, insurance law and state liability law) are treated. The following sections deal with labor law as an independent part of German business law and with computer law. Furthermore, procedural law and European law are addressed. Finally, the last two sections of the book are devoted to an overview over the German tax law, which has an enormous impact on business decisions, and IP law. In all sections special attention has been paid to highlighting and explaining the differences between the German legal system and that of the United States. Nevertheless, the intention is to provide information that will prove valuable to all foreigners, particularly business men and women and lawyers advising clients with an interest in doing business in Germany.

**Key Ideas in Law: The Rule of Law and the Separation of Powers** Dec 22 2021 Prompted by the events following the 2016 referendum on EU membership and written during the COVID-19 pandemic by one of the leading public lawyers of our day, this book considers two key constitutional principles, the rule of law and separation of powers, by examining the generality, certainty and predictability of law, relations between the different branches of the state, and the mechanisms of accountability within our democracy. Since the referendum and in the light of the restrictions imposed to deal with the pandemic, and the use of guidelines presented as rules to do so, attention has refocused on the relationship and respective powers and competences of the three branches of the state, the legislature, the executive, and the judiciary. They have also placed strains on our unwritten constitution that have been unknown in modern times. The role of the courts and of the rule of law, has been dramatically illustrated by recent litigation, most notably the decisions on whether legislation was needed to serve notice of the UK's intention to leave the EU and whether the prorogation of the Westminster Parliament in 2019 was a matter for the courts as opposed to a political question for government. Set against this backdrop, the book answers the following questions: - How accessible is the law and how does it avoid arbitrariness? - How is access to justice protected? - How does our constitution reflect the separation of powers and the balance of responsibilities between law and politics? - How does our democracy enable majorities and protect minorities?
