Tbd Feb 20 2022 Nikkei Microdevices' 2006 report on flat panel display (FPD) industry includes: -Exclusive in-depth

interviews with 28 top executives in the industry -Over 250 information-packed figures, tables and pictures
-Proprietary intelligence not available anywhere else In 2006, competitive conditions in the flat panel display (FPD) industry will change significantly. The era in which competition was primarily based on increasing investment and glass substrate sizes is over. Henceforth, overall capability, including parts/material strategy and equipment strategy, will become the decisive factor. By 2010, parts and material costs will account for 80% of the total cost of large-size LCD panels, which will drive future market expansions; thus, parts and materials will make up most of the value addition in panels. Leading panel makers are starting to reinforce their cooperative relationships with parts and material makers, as well as with equipment makers.
