The Jungle Survival Manual, 1939–1945 Jun 05 2020 The army guide that taught WWII soldiers how to survive in the jungles and swamps of the tropics. During the Second World War, Allied soldiers fought to survive not only encounters with the enemy but the landscape they found themselves in. Being posted to Southeast Asia and the Pacific to fight the Japanese meant soldiers had to learn to survive in the tropics, fighting and living in endless steamy jungle and perilous swamps. In this alien environment, men had to be able to take care of themselves rather than relying on their unit to supply their needs, something that did not come naturally to the many soldiers born and raised in cities. To help them, the British and US armies produced a number of official training manuals and guides explaining how to identify and fight the Japanese and avoid their deadly punji traps, as well as "jungle lore": How to find and cook plants that were safe to eat Which animals and insects could kill them How to identify and treat tropical illnesses and diseases How to avoid the dangers of polluted water and cannibals The

Jungle Survival Manual brings together the official manuals and information that enabled the Allies to fight in Burma, Malaya, Thailand, Indochina, Singapore, and the Pacific Islands—and win the war. Includes diagrams and drawings reproduced from the original guides.

The Jungle Jun 29 2022 A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

The Jungle School Jul 31 2022 A People in Crisis . . . A Young Woman's Adventure . . . A School for Life The Orang Rimba (People of the Forest) are nomadic tribes living in the rainforests of Sumatra, Indonesia as hunter-gatherers. Today, the outside world has arrived at their doorstep. From illegal loggers chain-sawing the jungle to government-sponsored transmigrants working in palm oil plantations, the outsiders are encroaching upon the rainforest. While they have the skills needed to preserve their jungle, the Orang Rimba are ill prepared to deal with land contracts or sale of rainforest products. What can be done to help them? Butet Manurung shares the journal she kept during her first year in the jungle. She tells of her adventures with stinging bees, prowling bears, and motorbikes. Most touchingly, she describes how her relationship with the Orang Rimba develops as she transforms from an outsider to a trusted teacher within the community. Her trials and errors are familiar to anyone who has ever been a teacher, even though her students often wear loincloths and trap animals for lunch. Will learning to read and write be enough to help the Orang Rimba save their rainforest? Butet tells the story of her journey from anthropologist to educator to activist. She explains how and why she founded SOKOLA to bring literacy to indigenous people in areas too remote to access education. The work of this foundation and its adventurous volunteers is an excellent example of how a small number of individuals can effect change. The *Jungle School* is now a film! Directed by Riri Riza. Praise for *The Jungle School* “The traditional wisdom of the indigenous people of Indonesia is a truth that we must preserve. At the same time, the dilemma between introducing modernity, development and education while protecting their traditional way of life is another truth. I greatly appreciate the contribution and dedication of people like Butet Manurung who provide true insights into the Orang Rimba. *The Jungle School* speaks volumes from actual experience, recorded not only in an anthropological way, but also in a very human and personal way. This is a book that not only makes us realize that traditional wisdom and jungles need to be preserved, but also warms the heart.” - Mari Pangestu, Indonesia's Minister of Tourism “*The Jungle School* puts a human

face on the results of logging and deforestation practices that directly threaten the existence of the Orang Rimba. Although the rights of the often-forgotten Rimba people are protected by our laws, their aspirations are sometimes ignored in the management of rainforests and their resources. Education for the Rimba is truly a gift for life. Butet's story will change the hearts and minds of those who think otherwise." - Agus Purnomo, Special Staff to the President of the Republic of Indonesia for Climate Change "The Jungle School comes at a critical moment in the development of the present civilization. It combats all the theoretical complexity of educational developments to smooth the process from literate society to knowledge society; welfare society to cultured and civilized society. Butet Manurung shows that the impossible is possible by touching the hearts and minds of the Orang Rimba, by reaching the unreachable soul of an indigenous community, by helping us to understand what it means to be human. She inspires readers and takes them on a journey of educational adventure that highlights best practices, which can also be applied in any metropolitan jungle that needs intellectual perseverance. Butet shows her intellectual courage, integrity and her sacrifices to become a hero of education. She exercises the intellectual virtues that we all need today to have a healthy mind-set in the pursuit of human rights and dignity. "It is in the minds of men that the defense of peace must be constructed." (UNESCO Constitution)" - Arief Rachman, Professor,

The Second Jungle Book Dec 12 2020 *The Second Jungle Book* is a sequel to *The Jungle Book* by Rudyard Kipling. First published in 1895, it features five stories about Mowgli and three unrelated stories, all but one set in India, most of which Kipling wrote while living in Vermont. All of the stories were previously published in magazines in 1894-5, often under different titles. The original book is now worth \$3.4 million. The 1994 film *The Jungle Book* used this book as a source. Each story is followed by a related poem.

The Very Noisy Jungle Jan 25 2022 The jungle is too quiet for Leo the parrot. So he decides to make some noise! Soon his friends join in, and they can't decide whose sound is loudest: Squawk! Screech! Trumpet! Growl! But when their racket fills the air, the four friends find out who really has the loudest call in the jungle

[The Jungle Effect](#) Nov 03 2022 Why do the relatively poor native populations in Mexico and Africa have such low levels of the chronic diseases that plague the United States? Why is the rate of seasonal affective disorder in Iceland—a country where dreary weather is the

norm—so low? Why is it that older women in Okinawa have such low breast cancer rates that it is not considered cost-effective for them to get screening mammograms? The Jungle Effect has the life-changing answers to these important questions, and many more. Whether it's the heart-healthy Cretan diet, with its reliance on olive oil and fresh vegetables, the antidepressive Icelandic diet and its extremely high levels of omega-3s, the age-defying Okinawa diet and its emphasis on vegetables and fish, or the other diets explored herein, everyone who reads this book will come away with the secrets of a longer, healthier life and the recipes necessary to put those secrets into action. The Jungle Effect is filled with inspiring stories from Dr. Miller's patients, quirky travel adventures, interviews with world-renowned food experts, delicious (yet authentic) indigenous recipes, and valuable diet secrets that will stick with you for a lifetime.

Farmacology Nov 30 2019 A doctor explores what farming can teach us about nurturing ourselves Do the microbes in the soil communicate with the microbes in our bodies? Why does a dirty farm offer protection from allergies while a dirty urban apartment does not? What can we learn about "good" stress from pastured hens? How can a pest management system inspire a radical new approach to cancer treatment? What can cows teach parents about raising healthy eaters? What kind of impact does urban farming have on crime rates? These may not sound like typical questions for a family physician to consider, but in *Farmacology*, Daphne Miller, M.D., ventures out of her medical office and travels to seven innovative family farms around the country on a quest to discover the hidden connections between how we care for our bodies and how we grow our food. Miller also seeks out the perspectives of noted biomedical scientists and artfully weaves in their insights and research, along with stories from her own medical practice. *Farmacology* offers a profound new approach to healing, combined with practical advice for how to treat disease and maintain wellness.

The Jungle Grows Back Oct 10 2020 "An incisive, elegantly written, new book about America's unique role in the world." --Tom Friedman, *The New York Times* A brilliant and visionary argument for America's role as an enforcer of peace and order throughout the world--and what is likely to happen if we withdraw and focus our attention inward. Recent years have brought deeply disturbing developments around the globe. American sentiment seems to be leaning increasingly toward withdrawal in the face of such disarray. In this powerful, urgent essay, Robert Kagan elucidates the reasons why American withdrawal would be the worst possible response, based as it is on a fundamental and

dangerous misreading of the world. Like a jungle that keeps growing back after being cut down, the world has always been full of dangerous actors who, left unchecked, possess the desire and ability to make things worse. Kagan makes clear how the "realist" impulse to recognize our limitations and focus on our failures misunderstands the essential role America has played for decades in keeping the world's worst instability in check. A true realism, he argues, is based on the understanding that the historical norm has always been toward chaos--that the jungle will grow back, if we let it.

Rumble in the Jungle Sep 28 2019 Never doubt that a small group of thoughtful, concerned citizens can change Africa. Indeed it is the only thing that would. Observing the impact that the right people in leadership positions, people who wholly subscribe to servant leadership rather than self-serving leadership has been a great source of inspiration. I experienced first-hand how a few good people have come together and brought positive transformation to businesses, creating excellent shareholder value, money for the community, and income for the employees and government. I am convinced that finding the right leaders in communities, societies, companies, and countries is the fundamental difference between prosperity and poverty. It is the difference between greatness and mediocrity, and the difference between successful and failed states. By making different choices in leadership and putting the right people in the right places, we can lead this continent to achieve its full and glorious potential for the next generation not the next election! This is now a leadership call to action! About the Author: Norman Moyo is the Chief Executive Officer of Helios Tanzania. Born in 1973 in Zimbabwe, Norman has extensive experience in the FMCG, particularly telecommunications industry spanning more than 13 years. He started his career working for Standard Chartered Bank in 1996 and immediately joined the telecommunications industry at the onset of the GSM industry working for Econet Wireless in Zimbabwe in 1998. He later re-joined the telecommunications industry as Commercial Director in Zambia with Celtel International, a Pan African group with operations in 15 African countries in 2004. He primarily focused on business re-engineering, brand equity, segmentation, product development, m-commerce, distribution, and Enterprise Segment management. In 2011 Norman was nominated to the prestigious GTB global top 40 world telecom leaders under 40 years as a result of his work in Nigeria. He holds an Honours Degree in Economics, an MBA from the University of Zimbabwe and London Business school training. His values are legacy, integrity, lifelong learning, work and profit. He is also a keen golfer. Endorsement: This is a must-read for leaders who are seeking meaningful insights into doing business in Africa. The stories and case studies reveal Norman Moyo's deep practical experience, and also link to established management theory and frameworks. Professor Jamie Anderson Lorange Institute (Switzerland) & London Business School (United Kingdom). Named as Management Guru by the Financial Times When it comes to insights as to how good leadership transforms lives, Norman speaks his mind and heart with clear, candid and brutal honesty. He presents a unique and fresh Pan African perspective to the effect of leadership at both corporate and national level. If there is one thing that will be a catalyst for a renaissance in Africa, it is leadership. Tito Alai Chief Commercial Officer, Celtel International Founder Mimi Africa

Child of the Jungle Apr 27 2022 A #1 bestseller in Europe, *Child of the Jungle* tells the remarkable story of a childhood and adolescence spent caught between two modes of existence-jungle life and Western "civilization." Sabine Kuegler was five years old when her family-her German linguist-missionary parents and her siblings-moved to the territory of the recently discovered hunter-and-gatherer Fayu tribe of Papua New Guinea. The Fayu tribe is best known for being a Stone Age community untouched by modern times-they live an existence characterized by fear, violence, and atavistic ritual (including cannibalism in some regions)-but Sabine's family saw another side to them as well. Once the Kueglers were accepted by a clan chief, they found themselves becoming a part of a tightly knit and fiercely loyal community, and living the primal existence of the Fayu-one marked by the natural cycles of day and night, malaria and other diseases, and daily encounters with wildlife, from swims with crocodiles to dinners of worms. As the Kueglers changed, so did the Fayu people, learning from Sabine's family that there was a way out of their cycle of violence and that forgiveness can be sweeter than revenge. At the age of 17, Sabine found her life turned upside down when she left for Switzerland to attend boarding school and entered traditional society head-on. *Child of the Jungle* is the story of a life lived among the Fayu and the author's attempt to reconcile her feelings about "civilization" with those about a life she knew and loved.

The Bridge in the Jungle Aug 08 2020 Regarded by many as Traven's finest novel, *The Bridge in the Jungle* is a tale of how a desperately poor people come together in the face of death. Traven never allows an iota of sentimentality to enter his story, but the reader finishes the book with renewed faith in the courage and dignity of human beings.

Fordlandia Mar 15 2021 The stunning, never before told story of the quixotic attempt to recreate small-town America in the heart of the Amazon In 1927, Henry Ford, the richest man in the world, bought a tract of land twice the size of Delaware in the Brazilian Amazon. His intention was to grow rubber, but the project rapidly evolved into a more ambitious bid to export America itself, along with its golf courses, ice-cream shops, bandstands, indoor plumbing, and Model Ts rolling down broad streets. Fordlandia, as the settlement was called, quickly became the site of an epic clash. On one side was the car magnate, lean, austere, the man who reduced industrial production to its simplest motions; on the other, the Amazon, lush, extravagant, the most complex ecological system on the planet. Ford's early success in imposing time clocks and square dances on the jungle soon collapsed, as indigenous workers, rejecting his midwestern Puritanism, turned the place into a ribald tropical boomtown. Fordlandia's eventual demise as a rubber plantation foreshadowed the practices that today are laying waste to the rain forest. More than a parable of one man's arrogant attempt to force his will on the natural world, Fordlandia depicts a desperate quest to salvage the bygone America that the Ford factory system did much to dispatch. As Greg Grandin shows in this gripping and mordantly observed history, Ford's great delusion was not that the Amazon could be tamed but that the forces of capitalism, once released, might yet be contained. Fordlandia is a 2009 National Book Award Finalist for Nonfiction.

The Jungle Garden Sep 01 2022 This book takes the "houseplant look" outside by exploring the wonders of lush, green, foliage plants that are hardy in the garden to -10F. Unlike flowers that fade, these big-leaved, larger-than-life plants provide year-round impact for decades and small, urban gardens that are well protected are the perfect home for them. Expert horticulturist Philip Oostenbrink has been an enthusiastic grower for years and in this book recommends the best hardy, foliage plants for texture, leaf shape, and color. Jungle gardens can be shady and

immersive, sunny and open or somewhere in between and there are plants suited to all these environments including purple-leaved bananas, desert-island palms, spiky agaves, architectural Pseudopanax, and succulents such as Echeveria and Aeonium. Beautiful special photography by Sarah Cuttle features standout jungle gardens that demonstrate how to combine foliage plants effectively and create backdrops and container displays that make the plants pop. This book is the irresistible next step for all houseplant addicts and for all who are ready to embark on their very own jungle adventure.

The Jungle May 05 2020 'He was of no consequence - he was flung aside, like a bit of trash, the carcass of some animal. It was horrible, horrible!' Upton Sinclair's searing novel follows the fortunes of Jurgis Rudkus, a young Lithuanian who comes to America with his fiancée and family in search of a better life. What he finds in the stockyards of turn-of-the-century Chicago is a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in documentary detail by an author intent on social reform. So powerful was the book's effect that it led to changes to the food hygiene laws in the United States. Despite this success, the issues of immigrant exploitation and food adulteration addressed by the novel are still very much in evidence today. This new edition considers The Jungle's impact, and its disputed status as propaganda or literature.

Victor in the Jungle Sep 08 2020 Case officer Victor Caro is back, and he's brought the whole family along this time. On assignment in South America with his wife and young son, Victor must break up an alliance between one country's charismatic autocrat and a narco-trafficking revolutionary group in the country next door. As the group's support for the increasingly dictatorial leader grows, Victor enlists the help of a

colorful group of CYA colleagues, along with his own family, to neutralize the threat. As they manage sources in the Amazon and diktats from Washington, Victor and his team witness how populism can drive a wealthy country into an unstoppable downward spiral. It's a jungle out there, but it will make for one hell of an adventure.

Published to celebrate what would have been Kipling's 150th birthday, these stories and drawings will fascinate and delight a new generation of readers."

Imperial Subjects, Imperial Space Nov 10 2020 Why was Rudyard Kipling so drawn in his fiction to the figure of the foreign-born Briton--what Kipling called the "native-born"? The answer lies in McBratney's "Imperial Subjects, Imperial Space, the first full-length study of a figure central to Kipling's major imperial fiction: the "native-born." In these narratives Kipling sees the native-born fulfilling two important roles: model imperial servant and ideal imperial citizen. The special abilities that allow the native-born to play these roles derive from his identity as neither exclusively British nor simply "native." This study also provides the most thorough analysis of that figure's hybrid, "casteless" selfhood in relation to shifting attitudes toward racial identity during Britain's "New Imperialism." In its endeavor to place the liminal subject within a particular moment in British discourses about race and nation, this book illuminates both the complexities of subject construction in the late Victorian and Edwardian periods and the struggles today over identity formation in the postcolonial world.

The Garden Jungle Aug 20 2021 ****SUNDAY TIMES BESTSELLER**** 'Exquisite...should be read by every gardener in the country' Observer
The Garden Jungle is a wonderful introduction to the hundreds of small creatures with whom we live cheek-by-jowl and of the myriad ways that we can encourage them to thrive. The Garden Jungle is about the wildlife that lives right under our noses, in our gardens and parks, between the gaps in the pavement, and in the soil beneath our feet. Dave Goulson gives us an insight into the fascinating and sometimes weird lives of these creatures, taking us burrowing into the compost heap, digging under the lawn and diving into the garden pond. He explains how our lives and ultimately the fate of humankind are inextricably intertwined with that of earwigs, bees, lacewings and hoverflies, unappreciated heroes of the natural world. A poignant New Year's read for anyone who has a garden or cares about our planet.

Jungle Fishing Misadventures 1974-2012 Jan 13 2021 For close to 40 years, Steve Orndorf and his brother, Dave, have traveled to the jungles of South America in the pursuit of adventure and trophy fish. While the fishing hasnt always been productive, theres been no shortage of adventures. Journeying through seven countries, theyve encountered logistical nightmares, hostile Indians, and a host of intimidating creaturespiranhas, electric eels, poison dart frogs, vampire bats, caimans, freshwater rays, snakes, bullet ants, and more. The richly biodiverse Amazon and Orinoco River basins have served as backdrops for most of these trips. Here, a brief walk in the jungle can expose one to an astonishing array of different species, more perhaps than would be revealed in a month of walking in most parts of North America. For the Orndorf brothers, sportsfishing has opened the door to exploring this magnificent region, truly one of our planets last remaining frontiers *It's a Jungle in There* Jul 07 2020 *It's a Jungle in There* proposes that the overarching theory of biology, Darwin's theory, should be applied to cognitive psychology. Taking this approach, David Rosenbaum suggests that the phenomena of cognitive psychology can be understood as emergent interactions among dumb neural elements competing and cooperating in a kind of inner jungle.

The Jungle Mar 27 2022 *The Jungle* is a 1906 novel written by the American journalist and novelist Upton Sinclair (1878–1968). Sinclair wrote the novel to portray the lives of immigrants in the United States in Chicago and similar industrialized cities. Many readers were most concerned with his exposure of health violations and unsanitary practices in the American meatpacking industry during the early 20th century, based on an investigation he did for a socialist newspaper. The book depicts working class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. These elements are contrasted with the deeply rooted corruption of people in power. A review by the writer Jack London called it, "the Uncle Tom's Cabin of wage slavery." Sinclair was considered a muckraker, or journalist who exposed corruption in government and business. He first published the novel in serial form in 1905 in the Socialist newspaper, *Appeal to Reason*, between February 25, 1905, and November 4, 1905. In 1904, Sinclair had spent seven weeks gathering information while working incognito in the meatpacking plants of the Chicago stockyards for the newspaper. It was published as a book on February 26, 1906 by Doubleday and in a subscribers' edition.
