Rethinking Development in South Asia May 08 2021 This book challenges the way development has been conceptualized and practiced in South Asian context, and argues for its deconstruction in a way that would allow freedom, choice and greater well-being for the local people. Far from taking development for granted as growth and advancement, this book unveils how development could also be a destructive force to local socio-cultural and environmental contexts. With a critical examination of such conventional development practices as hegemonic, patriarchal, devastating and failure, it highlights how the rethinking of development could be seen as a matter of practice by incorporating people's interest, priorities and participation. The book theoretically challenges the conventional notion of hegemonic development and proposes alternative means, and, practically, provides nuances of ethnographic knowledge which will be of great interest to policy planners, development practitioners, educationists and anyone interested in knowing more about how people think about their own development.

Ngo Management, Concepts and Cases Oct 13 2021 The book is the first on NGOs in South Asia and it certainly informs other work on NGOs and their management throughout the world, particularly as a tool of development. A special contribution of this book is its significant insight into the intricacies of strategies and operations in South Asia, while at the same time showing how NGOs contribute to the looming development nexus that will be a continuing pre-occupation of the region.

Peace and Conflict Studies Nov 14 2021 This volume explores how we theorize, politicize, and practice peace and conflict discourses in the social sciences. As concepts, peace and conflict are intricately interwoven into a web of complementary discourses where states and other actors are able to negotiate, deliberate and arbitrate their differences short of the overt and covert use of physical violence. The essays in this volume reflect this eclecticism: they reflect on concerns of

contemporary conflicts in world politics; the dissection of the ideas of peace and power; the way peace studies join with global agencies; peace and conflict in connection to geopolitics and identity; the domestic basis of conflict in India and the South Asian theatre including class, social cleavages and gender. Further they also process elements like globalization, media, communication and films that help us engage with the popular tropes and discursive construction of the reality that play critical roles in how peace and violence are articulated and acted upon by the elites and the masses in societies. This volume will be of great interest to scholars and researchers of political science, international relations theory, peace and conflict studies, public policy and area studies. It will also be a key resource for bureaucrats, policy makers, think tanks and practitioners working in the field of international relations.

E-governance Effect on Corruption: A South Asian Perspective Sep 19 2019 Corruption is a major problem in South Asian Countries, the recent development of E-governance shows that levels of corruption can be reduced through the implementation of e-governance systems, this book keeping in view the south Asian Perspective define the e-governance and how this is used to eradicate corruption from South Asian Countries with a major emphasis on Pakistan, this book highlights major issues and challenges for e-governance implementation and provide solutions in order to have the successful integration of e-governance initiatives in south Asian perspective. By using the micro-level analysis i.e. assessing the utility of individual initiatives and the macro-level i.e. assessing the utility of nation level initiatives, this book will surely provide you with a comprehensive overview of e-governance in South Asian Perspective.

Principles Of Marketing: A South Asian Perspective, 13/E Dec 03 2020

Writing Islam from a South Asian Muslim Perspective Jun 09 2021 This book investigates how four South Asian writers of Muslim background (Salman Rushdie, Mohsin Hamid, Nadeem Aslam, and Kamila Shamsie) have responded in English to the challenge of writing about Islamic faith ties in the aftermath of the 2001 World Trade Centre attacks and the ensuing 'War on Terror'.

Perspectives on Modern South Asia Jun 28 2020 Perspectives on Modern South Asia presents an exciting core collection of essays drawn from anthropology, literary and cultural studies, history, sociology, economics, and political science to reveal the complexities of a region that is home to a fifth of humanity. Presents an interdisciplinary overview of the origins and development of the eight nations comprising modern South Asia: Afghanistan, Bhutan, Bangladesh, India, the Maldives, Nepal, Pakistan, and Sri Lanka Explores South Asia's common cultures, languages and religions and their relationship to its ethnic and national differences Features essays that provide understandings of the central dynamics of South Asia as an important cultural, political, and economic region of the world

Violence in South Asia Mar 26 2020 This volume explores new perspectives on contemporary forms of violence in South Asia. Drawing on extensive fieldwork and case studies, it examines the infiltration of violence at the societal level and affords a comparative regional analysis of its historical, cultural and geopolitical origins in South Asia. Featuring essays from Sri Lanka to Nepal, and from Afghanistan to Burma, it sheds light on issues as wide-ranging as lynching and mob justice, hate speech, caste violence, gender-based violence and the plight of the Rohingyas, among others. Lucid and engaging, this book will be an invaluable source of reference as well as scholarship to students and researchers of postcolonial studies, anthropology, sociology, cultural geography, minority studies, politics and gender studies.

Endocrine Surgery May 28 2020 This book covers disorders of thyroid, parathyroid, adrenal glands along with neuroendocrine tumors of pancreas and gastrointestinal tract. Provides a comprehensive, up-to-date treatise covering embryology, anatomy, etiology, clinical manifestations, diagnoses and treatment modalities of surgical endocrine diseases.

Sport, Culture and Nation Jan 24 2020 An in-depth analysis of the intricate relationships among sport, culture, politics, identity and regional cooperation in South Asia In South Asia, sport has long been a site—albeit ignored by social scientists—which articulates the complexities and diversities of the everyday life of the nations. This book highlights the importance of sport in colonial and postcolonial times in India and South Asia as an essential cultural experience, a

political tool, a social instrument and a commercial force. It reveals how sport has become politically, socially, culturally and emotionally significant, particularly, football in India and cricket in South Asia. Sport, Culture and Nation would be useful to historians, political scientists, sociologists and to scholars of South Asian studies as well as culture and leisure studies.

Shifting Horizons of Public International Law Jun 16 2019 This book offers a South Asian perspective on international law, maintaining a suitable distance from the 'Western' approach. The themes discussed reflect the region's particular contribution to the development of international law. Each South Asian country has its own important role to play in promoting regional trade, regulating maritime affairs, ensuring access to water, debating State responsibility, engaging with International Criminal Court, questioning diplomatic and consular immunities, and, most importantly, upholding human rights. These issues are addressed by local contributors from Nepal, Bangladesh and Sri Lanka, who have come together to represent the whole South Asian region on a single academic platform.

Trade, Environment and Sustainable Development Jul 18 2019 Trade, Environment and Sustainable Development explores the linkages between the objectives of liberalised international trade, protection of the environment and sustainable development. It is an anthology of essays by leading experts, key government officials and political leaders from the South Asian region, supported by officials of the OECD, UNCTAD and non-governmental organisations. Trade, Environment and Sustainable Development outlines the concerns of the developing nations of the South Asian region about the impacts on their trade and development from the environmental policies of the North. A range of country case and sector studies are presented, along with analysis of key regional issues.

MGMT A SOUTH-ASIAN PERSPECTIVE WITH COURSEMATE. Jul 22 2022

Foundations of Islamic Governance Aug 11 2021 The aim of this book is to explore and analyze the Islamic axioms, foundation principles and values underpinning the field of governance in an attempt to construct the architectonics of a new systemic and dynamic theory and formulate the articulation of 'Islamic governance'. This discursive and abstract, rather than being an empirical exercise, assumes to produce a 'good governance' framework within its own formulation through a value-shaped dynamic model according to maqasid al-Shari'ah (higher objective of Shari'ah) by going beyond the narrow remit of classical and contemporary discussions produced on the topic, which propose a certain institutional model of governance based on the classical juristic (fiqh) method. Through an exclusive analytical discursive approach in this book, readers will find that Islam as one of the major religions in the contemporary world with the claim of promising the underpinning principles and philosophical foundations of worldly affairs and institutions through a micro method of producing homoIslamicus could contribute towards development of societies by establishing a unique model of governance from its explicit ontological worldview through a directed descriptive epistemology.

Teaching and Teacher Education Jul 30 2020 This edited volume brings together diverse thinkers and practitioners from the field of teaching and teacher

education as it pertains to educational development in South Asia. In this volume, authors draw from their research, practice, and field experiences, showcasing how teaching and teacher education are currently being carried out, understood, theorized, debated, and implemented for the education of children and teachers alike in South Asia. The volume also includes practitioner voices, which are often marginalized in academic discourse. This book acts as a key reference text for academics and practitioners interested in the intersection of education and development in the region, and in particular what it takes to pull off ambitious teaching and teacher education in South Asia.

History, Culture, and Region in Southeast Asian Perspectives Nov 02 2020 A new edition of this classic study of mandala Southeast Asia. The revised book includes a substantial, retrospective postscript examining contemporary scholarship that has contributed to the understanding of Southeast Asian history since 1982.

Structural Transformation of Bangladesh Economy Aug 31 2020 This book examines the theory and global evidence on structural transformation along with stylised facts and implications using, among others, a dynamic panel model, for South Asia. The characteristics of the structural transformation process in Bangladesh bring out the relevance of a comprehensive and inclusive South Asian 'brand' in view of the challenges of large population size, high burden of poverty, rising inequalities and its compulsion to achieve rapid and sustained inclusive development. The analysis highlights several distinct characteristics of Bangladesh's structural transformation including changes in value added, trade, employment, productivity, formal-informal jobs, and opportunities for low-skilled workers. The book suggests that the manufacturing sector could not create the required number of jobs and generate rapid absolute and relative productivity gains in the Bangladesh economy. Although the services sector has largely led output and employment growth, services subsectors with strong labour absorptive capacity have low average productivity. Hence, growth-enhancing structural transformation led by these subsectors is likely to be less dynamic than required for rapid employment-creating growth in the economy. The book's analysis on COVID-19 and cyclone Amphan shows that an integrated disaster and development paradigm is needed for Bangladesh. An inclusive and health and well-being focused structural transformation presents the pathway to advance the people-centred approach to development in Bangladesh through both vulnerability reduction and investments in sustainable development that would offset both known and unknown disaster threats. The key for Bangladesh is to skillfully manage the 'developer's dilemma' of achieving both structural transformation in terms of large productivity gains and inclusive growth for reducing poverty and rising inequalities. This book is relevant to students, academicians and development practitioners and others interested in contemporary development.

The Guru in South Asia Apr 07 2021 This book provides a set of fresh and compelling interdisciplinary approaches to the enduring phenomenon of the guru in South Asia. Moving across different gurus and kinds of gurus, and between past and present, the chapters call attention to the extraordinary scope and richness of the social lives and roles of South Asian gurus. Prevailing scholarship has rightly considered the guru to be a source of religious and philosophical knowledge and mystical bodily practices. This book goes further and considers the social engagements and entanglements of these spiritual leaders, not just on their own (narrowly denominational) terms, but in terms of their diverse, complex, rapidly evolving engagements with 'society' broadly conceived. The book explores and illuminates the significance of female gurus, gurus from the perspective of Islam, imbrications of guru-ship and slavery in pre-modern India, connections between gurus and power, governance and economic liberalization in modern and contemporary India, vexed questions of sexuality and guru-ship, gurus' charitable endeavours, the cosmopolitanism of gurus in contexts of spiritual tourism, and the mediation of gurus via technologies of electronic communication. Bringing together internationally renowned scholars from religious studies, political science, history, sociology and anthropology, *The Guru in South Asia* provides exciting and original new insights into South Asian guru-ship. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

A Resurgent China Jun 21 2022 Bringing together a range of South Asian perspectives on rising China in a comparative framework, an attempt has been made, for the first time, to identify and examine the political, economic and socio-cultural stakeholders and constituencies that influence the respective policy of individual South Asian countries towards China. The essays also project how their mutual relations are likely to be shaped by these. The book is especially

relevant today owing to China's growing weight in Asian and global affairs.

Trade, Environment and Sustainable Development Oct 21 2019 Trade, Environment and Sustainable Development explores the linkages between the objectives of liberalised international trade, protection of the environment and sustainable development. It is an anthology of essays by leading experts, key government officials and political leaders from the South Asian region, supported by officials of the OECD, UNCTAD and non-governmental organisations. Trade, Environment and Sustainable Development outlines the concerns of the developing nations of the South Asian region about the impacts on their trade and development from the environmental policies of the North. A range of country case and sector studies are presented, along with analysis of key regional issues.

COVID-19 Assemblages Feb 17 2022 This book documents and analyzes the effects of the COVID-19 pandemic through queer and feminist perspectives. A testament of dispossessions as well as a celebration of various forms of resilience, community building and critical responses, it chronicles the social history of queer and trans persons and women in South Asia and the diasporas. Through a creative and collaborative form of ethnographic writing, the book enters in conversation with the worlds of domestic helps, caregivers, cultural workers, students, sex workers and other precariously employed people. It examines the confining effects of the pandemic on the lived realities of many queer and trans individuals, the caste-oppressed and women across socio-economic backgrounds. The chapters in the volume piece together narratives of prejudice, hardship, self-expression and resistance from interviews, personal accounts, as well as poems and stories from activists, artists and other collaborators. The book pays particular attention to issues of power and asymmetrical relationships amidst COVID-19 and offers critiques to deepen the understanding of the uneven fault lines within which historically oppressed persons reside in South Asia. Exploring themes of migration, disability and sexual politics, this book is an essential reading for scholars and researchers of gender and sexuality studies, cultural studies, South Asian studies, sociology and social anthropology.

South Asia's Cold War Aug 19 2019 This book is a ground-breaking analysis of the India-Pakistan nuclear confrontation as a form of 'cold war' – that is, a hostile relationship between nuclear rivals. Drawing on nuclear rivalries between similar pairs (United States-Soviet Union, United States-China, Soviet Union-China, and United States-North Korea), the work examines the rise, process and potential end of the cold war between India and Pakistan. It identifies the three factors driving the India-Pakistan rivalry: ideational factors stemming from partition; oppositional roles created by the distribution of power in South Asia; and the particular kind of relationship created by nuclear weapons. The volume assesses why India and Pakistan continue in non-crisis times to think about power and military force in outmoded ways embedded in pre-nuclear times, and draws lessons applicable to them as well as to other contemporary nuclear powers and states that might be engaged in future cold wars.

Handbook of Psychiatry Jan 04 2021 This handbook presents a culture-specific and culturally appropriate perspective to psychiatry in South Asian countries. Though trained in the western tradition, the contributors include practising psychiatrists and teachers of reputed institutes from across the region.

Corporations and Sustainability Jan 16 2022 *Corporations and Sustainability: The South Asian Perspective* is a collection of contributions from leading academics and practitioners which provides an overview of the key challenges and opportunities related to sustainability in South Asia. The last two decades have seen rapid and often dramatic changes in the institutional, economic and ecological contexts in which firms operating in South Asian economies find themselves. South Asia is increasingly seen both as a driver of global economic growth as well as a barrier to sustainable development. The most significant driver of change in the region has been the economic liberalization attempts of national governments, resulting in easier and faster flows of information, labour and capital between these economies and the rest of the world. Consequently, global environmental and social concerns are increasingly driving governmental and corporate decision-making processes for firms operating in South Asia. In responding to these emerging challenges, firms have begun to re-evaluate and redesign their strategies, structures and processes as well as incorporate sustainability principles into their strategies. *Corporations and Sustainability: The South Asian Perspective* thus delivers an important perspective for researchers as well as students of master's-level courses on business and environment. It is particularly useful for those trying to understand the key sustainability challenges in the South Asian context as well some of the solutions emerging in the critical areas of heavy industry and also service sectors.

Indian Nuclear Policy : South Asian Perspective Dec 23 2019

Strategic Management Dec 15 2021

Governance Oct 01 2020 Based on the experiences of the past and the imperatives of the present, this outstanding anthology reflects governance issues from a South Asian perspective. It is comprehensive yet accessible, making it a valuable resource for students of finance and economics, as well as for banks and financial consultants.

Towards Equitable Progress Jul 10 2021 This book gathers a collection of essays presented from the perspective of a spatial planner whose working life has been immersed in South Asia. It concerns some of the serious challenges that need to be confronted in the South Asian context, including the externalities and ethical concerns that arise in the process of development. The mid-20th century saw a considerable focus in the West on assisting those countries emerging from European colonial domination. Theories were propounded and international agencies established to facilitate a process called 'development' in these countries. However, even after six decades of extraordinary expenditures and effort, millions among the targeted populations remain illiterate, live in abject poverty, and are the most vulnerable groups to external disasters, debilitating diseases and untimely death. In addition, the book reveals the theoretical inadequacies that negatively impact ongoing development efforts. Lastly, it identifies an available alternative set of science-based approaches that could facilitate the serious pursuit of equitable progress in South Asia and potentially also in other low and middle income countries.

The Other in South Asian Religion, Literature and Film Nov 21 2019 This book introduces the term "otherism" and looks at the discourse of otherism and the issue of otherness in South Asian religion, literature and film. It examines cultural questions related to the human condition of being the "other," of the process of "othering" and of the representation of "otherness" and its religious, cultural and ideological implications. The book applies the perspectives of ideological criticism, theories of hybridity, orientalism, nationalism, and gender and queer studies to gain new insights into the literature, film and culture of South Asia. It looks at the different ways of interpreting "otherness" today. The book goes on to analyze the ideological implications of the creation of "otherness" with regard to religious and cultural identity and the legitimation of power, as well as how the representation of "otherness" reflects the power structures of contemporary societies in South Asia. Offering a well-thought-out reflection on important cultural questions as well as a deep insight into the study of religion and "otherness" in South Asian literature and film, this book is a pioneering project that is of interest to scholars of South Asian Studies and South Asian religions, literatures and cultures.

Human Resource Management :A South-Asian Perspective Apr 26 2020

MKTG A SOUTH-ASIAN PERSPECTIVE WITH COURSEMATE. Aug 23 2022

Perspectives on South Asian Security Apr 19 2022 This book is a collection of speeches and lectures delivered by political luminaries, practitioners and noted scholars on South Asian security at the Institute of South Asian Studies, National University of Singapore. It offers interesting insights on the emerging security dynamics of South Asia. The issues covered are highly topical and include analyses of the conflict in Afghanistan, counter-terrorism in Pakistan, conflict management in Kashmir, post-conflict restructuring in Nepal and militarization in Asia. Some of the chapters provide in-depth analyses of the regional power politics and competing foreign policy priorities, with particular emphasis on India, the major regional power. India's foreign policy and defense relations with Southeast Asia, China and Russia are covered in detail in individual chapters. The book brings together insights from experts who have served at the highest levels of government as well as scholars and experts with firsthand experience in the field. It highlights some of the significant security issues that have a vital bearing on the future of South Asia and will be of interest to policy makers, students and observers of the South Asian security scene.

Economy, Society and Public Policy Sep 12 2021 In order to be well-governed, a democracy needs voters who are fluent in the language of economics and who can do some quantitative analysis of social and economic policy. We also need a well-trained cadre of researchers and journalists who have more advanced skills in these fields. Many students in other disciplines are drawn to economics so that they can engage with policy debates on environmental sustainability, inequality, the future of work, financial instability, and innovation. But, when they begin the study of economics, they find that courses appear to have little to

do with these pressing policy matters, and are designed primarily for students who want to study the subject as their major, or even for those destined to go on to post-graduate study in the field. The result: policy-oriented students often find they have to choose between a quantitative and analytical course of study - economics - that is only minimally policy oriented in content and that downplays the insights of other disciplines, or a policy and problem-oriented course of study that gives them little training in modelling or quantitative scientific methods. Economy, Society, and Public Policy changes this. It has been created specifically for students from social science, public policy, business studies, engineering, biology, and other disciplines who are not economics majors. If you are one of these students, we want to engage, challenge, and empower you with an understanding of economics. We hope you will acquire the tools to articulate reasoned views on pressing policy problems. You may even decide to take more courses in economics as a result. The book is also being used successfully in courses for economics, business, and public policy majors, as well as in economics modules for masters' courses in Public Policy and in Philosophy, Politics and Economics (PPE). This textbook--the print complement to CORE's open-access online eBook--is the result of a worldwide collaboration among researchers, educators, and students who are committed to bringing the socially relevant insights of economics to a broader audience.
