absence of hundreds of years. Essential for all students of medieval literature, Early Fiction in England includes extracts by Geoffrey of Monmouth, Wace, Marie de France, Chaucer and many others, in new translations and with illuminating introductions. Before the twelfth century, fiction had completely disappeared in Europe. In this important and provocative book, Laura Ashe shows how English writers brought it back, composing new tales about King Arthur, his knights and other heroes and heroines in Latin, French and English. Why did fiction disappear, and why did it come to life again to establish itself the dominant form of literature ever since? And what do we even mean by the term 'fiction'? Gathering extracts from the most important texts of the period by Wace, Marie de France, Chaucer and others, this volume offers an absorbing and surprising introduction to the earliest fiction in England. The anthology includes a general introduction by Laura Ashe, introductions to each extract, explanatory notes

and other useful editorial materials. All French and Latin texts have been newly translated, while Middle English texts include helpful glosses. Laura Ashe is a University Lecturer in English and Fellow of Worcester College, Oxford. Her first book *Fiction and History in England, 1066-1200* (Cambridge University Press, 2007) has been followed by numerous articles and edited collections; she is now writing the new Oxford English Literary History vol. 1: 1000-1350 (Oxford University Press).

The Sixth Extinction Apr 14 2021 "Over the last half billion years, there have been five major mass extinctions, when the diversity of life on Earth suddenly and dramatically contracted. In this book the author tells us why and how human beings have altered life on the planet in a way no species has before. She provides a

moving account of the disappearances of various species occurring all around us and traces the evolution of extinction as concept, from its first articulation by Georges Cuvier in revolutionary Paris up to Lyell and Darwin, and through the present day. The sixth extinction is likely to be mankind's most lasting legacy, compelling us to rethink the fundamental question of what it means to be human". -- Back cover.

The Kite Runner May 28 2022 I became what I am today at the age of twelve. I remember the precise moment, crouching behind a mud wall on a frigid winter day in 1975 . . . looking into a deserted alley. It's wrong what they say about the past, about how you can bury it, because the past claws its way out. I realize I've been looking into that alley for the last 26 years. Afghanistan is a divided country on the verge of war and two childhood friends are about to be torn apart. It's a beautiful afternoon in Kabul and the skies are full of the excitement and joy of a kite flying tournament. Chinese Aesthetics Jul 26 2019 This singular work presents the most comprehensive and nuanced studies available in any Western language of Chinese aesthetic thought and practice during the Six Dynasties (A.D. 220–589). Despite a succession of dynastic and social upheavals, the literati preoccupied themselves with both the sensuous and the transcendent and strove for cultural dominance. By the end of the sixth century, their reflections would evolve into a sophisticated system of aesthetic discourse characterized by its own rhetoric and concepts. A prologue details the historical context in which Six Dynasties aesthetics arose and sketches out its major stages of development. The ten essays that follow bring fresh perspectives to bear on important writings on literature, music, painting, calligraphy, and gardening. Grounded in close

readings of primary texts, they reveal the complex, dynamic interplay between life and art, the sensuous and the metaphysical, and the artistic and the philosophic/religious that lies at the heart of the aesthetic thought and practice of the time. As a whole, the collection demonstrates that Six Dynasties achieved a sophistication in aesthetic thought comparable in many ways to that of the West: The discussion of disinterestedness in art, aesthetic judgment, and how mental images mediate between the supersensible and the sensible are reminiscent of Kant. The findings of various Chinese critics provide much food for thought in the broad fields of comparative literature and aesthetics. Chinese Aesthetics will fill a gap in Western sinological studies of the period. It will appeal to scholars and students in premodern Chinese literary studies, comparative aesthetics, and cultural studies and be a welcome reference to anyone interested in ancient Chinese culture. Key Concepts in Victorian Literature Oct 28 2019 "Key concepts in Victorian Literature provides readers with an insight into the fascinating, but complex, Victorian Age and the literature that defined it. Discussing a variety of novels, poems and plays, the volume both explores Victorian anxieties and preoccupations and also introduces the significant critical and theoretical perspectives that underpin modern research into the age. Structured into three distinct sections, the book establishes the major concepts, themes and issues that characterize the literature of the period, guiding readers through the historical and cultural contexts in which the key works were written."--BOOK JACKET.
