Head-on Jul 09 2020 Julian Cope's highly acclaimed autobiography and its long-awaited sequel in one extraordinary volume. When Julian Cope published 'Head On' in 1994 he received astounding reviews: Visceral, ballsy, bitchy, brutal, beautifully written. Book of the year. Made my heart burst. -- The Observer ... an enthralling saga of bitchiness, betrayal and unrepentant debauchery. -- The Sunday Times (Books of the Year) Not only is the aarch-drude perfectly balanced mentally, but he has the longest and most detailed memory (or the most extensive and exhaustive diary) in rock... As a glimpse of the essentially pathetic but amusing whims and eccentricities that lie behind the screwed down hairdos of rock musicians, it's equally essential reading. And as a genital -warts-and -all diary of madmen, it is simply supreme entertainment. -- N.M.E one of the

funniest, blakest rock reads you could wish for... and throughout, Cope never portrays himself as anything less than a self-serving, childish, whinging half-assed failure. problems and prospects. Using a newly formulated operational definition of slums, it presents estimates of the number of urban slum dwellers and examines the factors at all level, from local to global, that underlie the formation of slums as well as their social, spatial and economic characteristics and dynamics. It goes on to evaluate the principal policy responses to the slum challenge of the last few decades. From this assessment, the immensity of the challenges that slums pose is clear. Almost 1 billion people live in slums, the majority in the developing world where over 40 per cent of the urban population are slum dwellers. The number is growing and will continue to increase unless there is serious and concerted action by municipal authorities, governments, civil society and the international community. This report points the way forward and identifies the most promising approaches to achieving the United Nations Millennium Declaration targets for improving the lives of slum dwellers by scaling up participatory slum upgrading and poverty reduction programmes. The Global Report on Human Settlements is the most authoritative and up-to-date assessment of conditions and trends in the world's cities. Written in clear language and supported by informative graphics, case studies and extensive statistical data, it will be an essential tool and reference for researchers, academics, planners, public authorities and civil society organizations around the world.

a profound and creative treatise on modernity and its challenge to social science. Alan Wolfe argues that modern liberal democracies, such as the United States and Scandinavia, have broken with traditional sources of mortality and instead have relied upon economic and political frameworks to define their obligations to one another. Wolfe calls for reinvigorating a sense of community and thus a sense of obligation to the larger society. Poverty and Social Impact Analysis of Reforms Dec 02 2019 "Poverty and Social Impact Analysis (PSIA) is an approach used increasingly by governments, civil society organizations, the World Bank, and other development partners to examine the distributional impacts of policy reforms on the well-being of different stakeholder groups, particularly the poor and vulnerable. PSIA has an important role in the elaboration and implementation of poverty reduction strategies in developing countries because it promotes evidence-based policy choices and fosters debate on policy reform options. Poverty and Social Impact Analysis of Reforms presents a collection of case studies that illustrate the spectrum of sectors and policy reforms to which PSIA can be applied; it also elaborates on the broad range of analytical tools and techniques

that can be used for PSIA. The case studies provide examples of the impact that PSIA can have on the design of policy reforms and draw operational lessons for PSIA implementation. The case studies deal largely with policy reforms in a single sector, such as agriculture (crop marketing boards in Malawi and Tanzania and cotton privatization in Tajikistan); energy (mining sector in Romania and oil subsidies in Ghana); utilities (power sector reform in Ghana, Rwanda, and transition economies, and water sector reform in Albania); social sectors (education reform in Mozambique and social welfare reform in Sri Lanka); taxation reform (Nicaragua); as well as macroeconomic modeling (Burkina Faso)."

Napoleon's Egypt Jan 15 2021 In this vivid and timely history, Juan Cole tells the story of Napoleon's invasion of Egypt. Revealing the young general's reasons for leading the expedition against Egypt in 1798 and showcasing his fascinating views of the Orient, Cole delves into the psychology of the military titan and his entourage. He paints a multi-faceted portrait of the daily travails of the soldiers in Napoleon's army, including how they imagined Egypt, how their expectations differed from what they found, and how they grappled with military challenges in a foreign land. Cole ultimately reveals how Napoleon's invasion, the first modern attempt to invade the Arab world, invented and crystallized the rhetoric of liberal imperialism.

commentator and author Paul Morley, an artistic advisor to the curators of the highly successful retrospective exhibition 'David Bowie Is...' for the Victoria & Albert Museum in London, constructs a definitive story of Bowie that explores how he worked, played, aged, structured his ideas, influenced others, invented the future, and entered history as someone who could and would never be forgotten. Morley captures the greatest moments from across Bowie's life and career; how young Davie Jones of South London became the international David Bowie; his pioneering collaborations in the recording studio with the likes of Tony Visconti, Mick Ronson, and Brian Eno; to iconic live, film, theatre, and television performances from the 1970s, 80s, and 90s, as well as the various encounters and artistic relationships he developed with musicians from John Lennon, Lou Reed, and Iggy Pop to Trent Reznor and Arcade Fire. And of course, discusses in detail his much-heralded and critically acclaimed finale with the release of Blackstar just days before his shocking death in New York.

The Code of Capital Jun 19 2021 "Capital is the defining feature of modern economies, yet most people have no idea where it actually comes from. What is it, exactly, that transforms mere wealth into an asset that automatically creates more wealth? The Code of Capital explains how capital is created behind closed doors in the offices of private attorneys, and why this little-known fact is one of the biggest reasons for the widening wealth gap between the holders of capital and everybody else. In this revealing book, Katharina Pistor argues that the law selectively "codes" certain assets, endowing them with the capacity to protect and produce private wealth. With the right legal coding, any object, claim, or idea can be turned into capital - and lawyers are the keepers of the code. Pistor describes how they pick and choose among different legal systems and legal devices for the ones that best serve their clients' needs, and how techniques that were first perfected centuries ago to code landholdings as capital are being used today to code stocks, bonds, ideas, and even expectations--assets that exist only in law. A powerful new way of thinking about one of the most pernicious problems of our time, *The Code of Capital* explores the different ways that debt, complex financial products, and other assets are coded to give financial advantage to their holders. This provocative book paints a troubling portrait of the pervasive global nature of the code, the people who shape it, and the governments that

enforce it."--Provided by publisher.

Campaigns and History of the Royal Irish Regiment from 1684 to 1902 Jul 29 2019

During the period covered by this history, the Royal Irish Regiment fought in Europe, in Asia, in Africa, in America and in Australasia. Formed in 1684 as the Earl of Granard's Regiment of Foot it served with credit in William III's war in Ireland and subsequently fought with great distinction at Namur, in 1695; this was its first Battle Honour. The Regiment then formed part of the British contingent in the army commanded by Marlborough in the Low Countries and Germany in the War of the Spanish Succession - Blenheim, Ramillies, Oudenarde and Malplaquet. In 1727 a detachment was present at the defence of

Gibraltar against the Spanish trying to recapture it; in the American War of Independence they were in action at Lexington and Bunker's Hill. Other scenes of action included Toulon, Corsica and the battle of Alexandria in the early stages of the Napoleonic Wars. In 1805 the Regiment (now consisting of two battalions) was sent to the West Indies where it remained for the next twelve years during which time losses from sickness amounted to 52 officers and 1,777 NCOs and men. In 1840 it was part of the expedition to China, followed by active service in the second Burma war, the Crimea, the Indian Mutiny, the Maori war, the second Afghan war, Tel-el-Kebir and the Nile expedition, campaigns on the North West Frontier and finally the Boer War. The appendices are real gems: the first is a calendar of the Regiment's moves from 1685 to 1902 including location of peacetime stations during that time; each battalion is shown separately. Then follows the casualty roll giving names of officers killed, died of wounds or disease and wounded in every campaign or battle from 1690, the siege of Limerick, to the end of the Boer War. Other rank casualties are at first given as figures but from the American War of Independence on they, too, are named. Another appendix gives the names of all 52 officers who died in the West Indies and this is followed by the list of awards for gallantry (three VCs) and the recipients of the Long Service and Good Conduct Medal (LSGCM). There is a list showing succession of colonels

from 1684 to 1897 with biographies, including that of the Colonel-in-Chief (Viscount Wolseley). And finally there is a descriptive list of Memorials of the Regiment, noting to whom they are dedicated with any inscriptions and names. The book ends with a good, twenty-page index.

[The Rise & Fall of EMI Records](#) Mar 05 2020 This is the continuing saga of Britain's greatest music company as it faces an uncertain future under new ownership. Since 2009 EMI has broken new acts and sold millions of records BUT the massive debts incurred by its owners Terra Firma have finally taken it to the brink of a break-up. Music industry experts and executives, financiers and commentators plus artists' managers assess EMI's fortunes as the company celebrates its 80th birthday. Includes interviews with many key players including former EMI Group/EMI Music executives Sir Colin Southgate, Jim Fifiield, Eric Nicoli, Tony Wadsworth, David Munns, Rupert Perry, Ray Cooper and Jon Webster. He has also interviewed many managers, music journalists, financial analysts and rival record company executives.

We Are the Ashes, We Are the Fire Feb 02 2020 From the author of the acclaimed *Blood Water Paint*, a new contemporary YA novel in prose and verse about a girl struggling with guilt and a desire for revenge after her sister's rapist escapes with no prison time. Em Morales's older sister was raped by another student after a frat party. A jury eventually

found the rapist guilty on all counts--a remarkable verdict that Em felt more than a little responsible for, since she was her sister's strongest advocate on social media during the trial. Her passion and outspokenness helped dissuade the DA from settling for a plea deal. Em's family would have real justice. But the victory is short-lived. In a matter of minutes, justice vanishes as the judge turns the Morales family's world upside down again by sentencing the rapist to no prison time. While her family is stunned, Em is literally sick with rage and guilt. To make matters worse, a news clip of her saying that the sentence makes her want to learn "how to use a sword" goes viral. From this low point, Em must find a new reason to go on and help her family heal, and she finds it in the unlikely form of the story of a fifteenth-century French noblewoman, Marguerite de Bressieux, who is legendary as an avenging knight for rape victims. *We Are the Ashes, We Are the Fire* is a searing and nuanced portrait of a young woman torn between a persistent desire for revenge and a burning need for hope.

Fried & Justified Jun 27 2019 A Book of the Year, Uncut 'A wild rock 'n' roll fairground ride of the damned.' Observer *** We arrived in a fleet of white stretch limos at a clearing in a wood near Woking. Here the K Foundation was exhibiting a million pounds in cash, while Bill Drummond and Jimmy Cauty circled the perimeter in two orange Saracen armoured vehicles, blasting out Abba's 'Money Money Money' . . . Mick Houghton worked with some of the greatest, most influential and downright dysfunctional cult groups of the post-punk era and beyond - Ramones, Talking Heads, The Jesus and Mary Chain, The Undertones, Felt and Sonic Youth among them. But the three acts Mick is most closely identified with are

Echo & the Bunnymen, Julian Cope, and the KLF. As confidant and co-conspirator, he navigated the minefield of rivalries and contrasting fortunes which make Fried & Justified such a candid, amusing and insightful picture of an exciting and inspirational period for music.

Peacebuilding Oct 12 2020 This book is the first to chart the rise and fall of peacebuilding. Charting its beginnings, as an ad-hoc extension of peacekeeping responsibilities, and formalisation, as a UN-supported international project of building liberal states. Twenty years later, the grounding policy assumptions of peacebuilding - that democracy, the rule of law and free markets were a universal solution to conflict-prone states and societies - have been revealed as naïve at best, and at worst, hubristic and Eurocentric. Here, Chandler traces the disillusionment with international peacebuilding, and the discursive shifts in the self-understanding of the peacebuilding project in policy and academic debate. He charts the transformation from peacebuilding as an international project based on universalist assumptions, to the understanding of peace as a necessarily indigenous process based on plural and non-linear understandings of difference. Is the end of peacebuilding necessarily a cause for celebration? Does this shift result in a realist resignation to the world as it appears? Is it necessary to "marry idealism with realism" - as E.H. Carr once argued - if we wish to keep open the possibilities for social

change? This book seeks to answer these questions, making an invaluable reference both for students and practitioners of peacebuilding and for those interested in the broader shifts in the social and political grounding of policy-making today.

Deep Green Resistance Sep 22 2021 For years, Derrick Jensen has asked his audiences, "Do you think this culture will undergo a voluntary transformation to a sane and sustainable way of life?" No one ever says yes. *Deep Green Resistance* starts where the environmental movement leaves off: industrial civilization is incompatible with life. Technology can't fix it, and shopping—no matter how green—won't stop it. To save this planet, we need a serious resistance movement that can bring down the industrial economy. *Deep Green Resistance* evaluates strategic options for resistance, from nonviolence to guerrilla warfare, and the conditions required for those options to be successful. It provides an exploration of organizational structures, recruitment, security, and target selection for both aboveground and underground action. *Deep Green Resistance* also discusses a culture of resistance and the crucial support role that it can play. *Deep Green Resistance* is a plan of action for anyone determined to fight for this planet—and win.

Salad Daze Sep 10 2020 Best known as the divisive but iconic frontman of The Mission and a poster boy for the-then fledgling gothic scene of the 80s, Wayne Hussey has been making

music since he was inspired to pick up a guitar by his childhood hero, Marc Bolan. As he began making his name in music with The Invisible Girls, Dead Or Alive and The Sisters Of Mercy, Wayne was at first seduced and then ultimately corrupted, swapping the repression of his religious upbringing for its polar opposite: a lifestyle of total hedonism. From his early days raised as a Mormon to being schooled in gender bending by Pete Burns, from his move to Liverpool in the late Seventies to his remaining fanaticism with Liverpool FC, *Salad Daze* is an all-encompassing account of Wayne's personal and musical journey up until the formation of The Mission. *Salad Daze* is an unflinchingly honest portrayal of the peaks and pitfalls of a life in the music industry, told with plenty of Wayne's wit and charm qualities that helped him survive his own unrestrained ambitions to still be making music today.

Cyber-Humans Aug 10 2020 It is predicted that robots will surpass human intelligence within the next fifty years. The ever increasing speed of advances in technology and neuroscience, coupled with the creation of super computers and enhanced body parts and artificial limbs, is

paving the way for a merger of both human and machine. Devices which were once worn on the body are now being implanted into the body, and as a result, a class of true cyborgs, who are displaying a range of skills beyond those of normal humans-beings, are being created. There are cyborgs which can see colour by hearing sound, others have the ability to detect magnetic fields, some are equipped with telephoto lenses to aid their vision or implanted computers to monitor their heart, and some use thought to communicate with a computer or to manipulate a robotic arm. This is not science-fiction, these are developments that are really happening now, and will continue to develop in the future. However, a range of legal and policy questions has arisen alongside this rise of artificial intelligence. *Cyber-Humans* provides a deep and unique perspective on the technological future of humanity, and describes how law and policy will be particularly relevant in creating a fair and equal society and protecting the liberties of different life forms which will emerge in the 21st century. Dr Woodrow (Woody) Barfield previously headed up the Sensory Engineering Laboratory, holding the position of Industrial and Systems Engineering Professor at the University of Washington. His research revolves around the design and use of wearable computers and augmented reality systems and holds both JD and LL.M degrees in intellectual property law and policy. He has published over 350 articles and major presentations in the areas of

Dos Mundos May 07 2020 Written in 1995, this unique ethnographic study of a small Idaho community with a large Hispanic population examines many dimensions of the impact race relations have on everyday life for rural

Mexican Americans. Mexican Americans are the largest minority in Idaho, yet they live in a different world from the Anglo population, and because of pervasive stereotypes and exclusive policies, their participation in the community's social, economic, and political life is continually impeded. The small-town setting of this study allows the reader to listen to how Anglos talk about a racial minority. Most Americans publicly censor and monitor their thoughts on racial minorities, but Anglos in Midwest expressed openly what many Anglo Americans think. This study presents a comprehensive examination of how institutionalized racism operates in American society. Reading this book will enable the reader to better understand why the race problem in America does not disappear.
