Electric Vehicle Business Models May 20 2022 This contributed volume collects insights from industry professionals, policy makers and researchers on new and profitable business models in the field of electric vehicles (EV) for the mass market. This book includes approaches that address the optimization of total cost of ownership. Moreover, it presents alternative models of ownership, financing and leasing. The editors present state-of-the-art insights from international experts, including real-world case studies. The volume has been edited in the framework of the International Energy Agency's Implementing Agreement for Cooperation on Hybrid and Electric Vehicles (IA-HEV). The target audience primarily comprises practitioners and decision makers but the book may also be beneficial for research experts and graduate students.

Handbook of Polyethylene Pipe Jan 04 2021 Published by the Plastics Pipe Institute (PPI), the Handbook describes how polyethylene piping systems continue to provide utilities with a cost-effective solution to rehabilitate the underground infrastructure. The book will assist in designing and installing PE piping systems that can protect utilities and other end users from corrosion, earthquake damage and water loss due to leaky and corroded pipes and joints.

28th Annual Report Jul 10 2021 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

How To Make A Friend Feb 17 2022 Have you ever thought someone was watching you . . . but there was no one there? One summer's evening, Alice sees something out of the corner of her eye. She turns to look: just a trick of the light. She is no longer the lonely little girl she once was, with her games of make-believe and imaginary friend, Sam. Then Alice's world is shattered in a tragic accident, and Sam creeps out of the shadows and back into her life. At first Alice is comforted by his presence: a best friend to help fill the void in her heart. Perhaps even help her find someone real to share her life with. But Alice and Sam know he can only exist if she wants him there. So when Alice decides it's time for him to leave, who will get hurt in order for him to stay alive? A compelling novel that fans of page-turners such as Clare Mackintosh's I LET YOU GO and S. K. Tremayne's THE ICE TWINS will be gripped by.

Natural Gas Engines Mar 18 2022 This book covers the various advanced reciprocating combustion engine technologies that utilize natural gas and alternative fuels for transportation and power generation applications. It is divided into three major sections consisting of both fundamental and applied technologies to identify (but not limited to) clean, high-efficiency opportunities with natural gas fueling that have been developed through experimental protocols, numerical and high-performance computational simulations, and zero-dimensional, multizone combustion simulations. Particular emphasis is placed on statutes to monitor fine particulate emissions from tailpipe of engines operating on natural gas and alternative fuels.

The Higher Education Act Jul 30 2020 The Higher Education Act of 1965 (HEA; P.L. 89-329) authorizes numerous federal aid programs that provide support to both individuals pursuing a postsecondary education and institutions of higher education (IHEs). Title IV of the HEA authorizes the federal government's major student aid programs, which are the primary source of direct federal support to students pursuing postsecondary education. Titles II, III, and V of the HEA provide institutional aid and support. Additionally, the HEA authorizes services and support for less-advantaged students (select Title IV programs), students pursuing international education (Title VI), and students pursuing and institutions offering certain graduate and professional degrees (Title VII). Finally, the most recently added title (Title VIII) authorizes several other programs that support higher education. The HEA was last comprehensively reauthorized in 2008 by the Higher Education Opportunity Act of 2008 (HEOA; P.L. 110-315), which authorized most HEA programs through FY2014. Following the enactment of the HEAO, the HEA has been amended by numerous other laws, most notably the SAFRA Act, part of the Health Care and Education Reconciliation Act of 2010 (P.L. 111-152), which terminated the authority to make federal student loans through the Federal Family Education Loan (FFEL) program. Authorization of appropriations for many HEA programs expired at the end of FY2014 but has been extended through FY2015 under the General Education Provisions Act. This report provides a brief overview of the major provisions of the HEA.

New Mobilities Apr 07 2021 In *New Mobilities: Smart Planning for Emerging Transportation Technologies*, transportation expert Todd Litman examines 12 emerging transportation modes and services that are likely to significantly affect our lives: bike- and carsharing, micro-mobilities, ridehailing and micro-transit, public transit innovations, telework, autonomous and electric vehicles, air taxis, mobility prioritization, and logistics management. Public policies around New Mobilities can either help create heaven, a well-planned transportation system that uses new technologies intelligently, or hell, a poorly planned transportation system that is overwhelmed by conflicting and costly, unhealthy, and inequitable modes. His expert analysis will help planners, local policymakers, and concerned citizens to make informed choices about the New Mobility revolution.

Living the RV Life Dec 15 2021 Whether you're downsizing or thrill-seeking—or anything in between—find out if the RV lifestyle is right for you, and learn how to transition from a life of traditional home-ownership to one on the road. Do you love traveling? Meeting new people and seeing new places? Are you craving a life that feels meaningful and new? The RV lifestyle could be the answer. Both aspirational and practical, Living the RV Life is your ultimate guide to living life on the road—for people of all ages looking to downsize, travel, or work on the go. Learn if life in a motor home is right for you, with insightful details on the experiences of full-time RV-ers, tips for how to choose an RV (how big? new or used?), whether to sell your home (and if not, what to do with it), model costs, sample routes and destinations, basic vehicle maintenance, legal and government considerations—and much more! Written in a light and an easy-to-understand style, Living the RV Life is your bible to living a mobile life.

Mobile Mansions Nov 14 2021 What do Henry Ford, Thomas Edison, Mae West, Howard Hughes, John Madden, the Partridge Family, Ken Kesey, The Who, and Barbie have in common? Each had a home on wheels-be it an old converted school bus, a massive RV cruiser, or elegant house car. These celebrity motorhomes are only the frosting on the cake in Douglas Keister's entertaining and informative new book *Mobile Mansions*. From the eclectic to the exquisite, the luxurious to the rare, Keister's incredible photography showcases the history and diversity of some of the most historic and lovingly restored RVs on the road today. Keister documents an amazing range of vehicles, including small camp cars from the 1920s, house cars from the 1930s, campers from the 1950s and finally modern-day motorhomes that first emerged in the 1960s. Well-known brands like Winnebago, GMC, and Travco are featured as well as one-of-a-kind vehicles like the Lamsteed Kampcar, built by Anheuser Busch, the Zeppelin House Car, and Buckminster Fuller's Dymaxion car. Step inside a wide variety of motorhomes, from diminutive camp cars to diesel-belching, lumbering leviathans complete with saunas, balconies, and gourmet kitchens. *Mobile Mansions* details this fascinating chapter of America's history with lively text, luscious full color photographs, rare vintage photographs and offers a concise history of the recreational vehicle.
