Facial Magic - Rediscover the Youthful Face You Thought You Had Lost Forever! Feb 22 2022 Once in a while a product line comes along that offers men and women the opportunity to truly reclaim the youthful face they thought they had lost forever. Without drugs, electricity or anything harmful or hurtful millions of people worldwide have successfully and reliably used exercise to trim, lift and tone sagging muscles. Just like muscles in the body can be exercised, the facial muscles can greatly benefit from exercise but not just any exercise will do. Contortions, twists, puckers and funny faces will not shape or contour sagging facial muscles in a mature face. The Facial Magic facial exercise system will lift, tone and tighten sagging facial muscles. These proven, easy-to-execute isometric movements require only minutes a day to perform and most users say they look 5, 10 even 15 years younger in just weeks as eyelids tighten, eye brows lift, the forehead smoothes, jowls and pouches melt away as double chins lessen, dramatically revealing a sculpted jaw line. Facial Magic provides the look of a face lift without surgery, seams or risk of infection. Using only the thumbs and fingers while wearing special exercise gloves, your "age erasers" will produce immediate lifting and tightening of the facial features. In about three weeks the appearance of fine lines and wrinkles become less apparent as the muscles plump up the skin helping the user's face look refreshed, radiant and younger. This book contains all 18 Facial Magic exercises. Learn two exercises each week - each exercise requires 35 seconds - so in just minutes a day you will feel and see the youthful results you desire.

Human Development in South Asia 2008 Oct 09 2020 The Report presents an analysis of the diffusion and adoption of technology, particularly ICT in the region and its impact on overall economic growth, employment, poverty reduction, as well the provision of health and education services in the region. The report draws from several interesting case studies particularly from India and Bangladesh that illustrate how ICT is being used innovatively to improve the efficiency and transparency in the delivery of public services. The Report however reiterates that technology by itself does not result in wonders. It has to be accompanied with an educated and skilled population as well as basic infrastructure.

Classic Set Theory Sep 19 2021 Designed for undergraduate students of set theory, Classic Set Theory presents a modern perspective of the classic work of Georg Cantor and Richard Dedekind and their immediate successors. This includes: The definition of the real numbers in terms of rational numbers and ultimately in terms of natural numbers Defining natural numbers in terms of sets The potential paradoxes in set theory The Zermelo-Fraenkel axioms for set theory The axiom of choice The arithmetic of ordered sets Cantor's two sorts of transfinite number - cardinals and ordinals - and the arithmetic of these. The book is designed for students studying on their own, without access to lecturers and other reading, along the lines of the internationally renowned courses produced by the Open University. There are thus a large number of exercises within the main body of the text designed to help students engage with the subject, many of which have full teaching solutions. In addition, there are a number of exercises without answers so students studying under the guidance of a tutor may be assessed. Classic Set Theory gives students sufficient grounding in a rigorous approach to the revolutionary results of set theory as well as pleasure in being able to tackle significant problems that arise from the theory.

Sandor Oct 21 2021 I'm Prince Sandor Gustaffson and I could have it all. Problem is, I don't want it. Any of it. I've never embraced my status in the royal family, but after eleven years in the shadows, I'm about to be forced into the spotlight. As head of security for the royal family, I'm being pulled in a million directions as my family works to rebuild our country. But I only want to look in one direction: Lennox Briggs. She's a thorn in my side and has been since she was brought in as the first woman on our security team. She's more than qualified, but a distraction I don't need. Getting involved with her would be a mistake. Too bad my heart—and other regions—aren't listening. After so many years protecting the people I love, how do I choose between my heart and my duty? Because I definitely can't have both.

They have nothing in common except for Scrabble. But a small

deception grows out of control when Ambrose convinces a reluctant Cosmo to take him to a Scrabble club. Could this spell disaster for Ambrose?

An Untamed Land (Red River of the North Book #1) Aug 31 2022 Proud of Their Heritage and Sustained by Their Faith, They Came to Tame a New Land She had promised herself that once they left the fjords of Norway, she would not look back. After three long years of scrimping and saving to buy tickets for their passage to America, Roald and Ingeborg Bjorklund, along with their son, Thorliff, finally arrive at the docks of New York City. It was the promise of free land that fed their dream and lured them from their beloved home high above the fjords of Norway in 1880. Together with Roald's brother Carl and his family, they will build a good life in a new land that promises untold wealth and vast farmsteads for their children. As they join the throngs of countless immigrants passing through Castle Garden, they soon discover that nothing is as they had envisioned it. Appalled by the horrid stories of fellow immigrants bilked of all their money and forced to live in squalid living conditions, the Bjorklunds continue their long journey by train as far as Grand Forks. From there a covered wagon takes them into Dakota Territory, where they settle on the banks of the Red River. But there was no way for them to foresee the price they will have to pay to wrest a living from the indomitable land. The virgin prairie refuses to yield its treasure without a struggle. Will they be strong enough to overcome the hardships of that first winter?

Proteus Two-Dimensional Navier-Stokes Computer Code, Version 1.0. Volume 1 Feb 10 2021 A new computer code was developed to solve the two-dimensional or axisymmetric, Reynolds averaged, unsteady compressible Navier-Stokes equations in strong conservation law form. The thin-layer or Euler equations may also be solved. Turbulence is modeled using an algebraic eddy viscosity model. The objective was to develop a code for aerospace applications that is easy to use and easy to modify. Code readability, modularity, and documentation were emphasized. The equations are written in nonorthogonal body-fitted coordinates, and solved by marching in time using a fully-coupled alternating direction-implicit procedure with generalized first- or second-order time differencing. All terms are linearized using second-order Taylor series. The boundary conditions are treated implicitly, and may be steady, unsteady, or spatially periodic. Simple Cartesian or polar grids may be generated internally by the program. More complex geometries require an externally generated computational coordinate system. The documentation is divided into three volumes. Volume 1 is the Analysis Description, and describes in detail the governing equations, the turbulence model, the linearization of the equations and boundary conditions, the time and space differencing formulas, the ADI solution procedure, and the artificial viscosity models. Revolutionized Mar 14 2021 "This is blatant racism!" my Public Defender blurted out. I was amazed at how defensive she had become of and for me. "What did you say?!" the judge shot back. He had dropped his glasses and cast a cold stare at my Defense Attorney. It was a stare that made even me shutter. Ms. Berry hadn't backed down, though her voice did crack subtly from nervousness as she responded. "My client, a black man, is being sentenced to 5-10 years while his co-defendants, two white women, are guilty of the same crime, yet you sentenced them to four years of probation..." "Well, Ms. Berry, your client also has a prior record..." "Yes, for a simple possession of a small amount of marijuana... When he was a juvenile. He was sixteen years old..." "Well, Ms. Berry, this sentence is well within the guidelines, and if your client can maintain good behavior, he should have no problem making it out on his minimum..." My attorney wanted to speak but was silenced by another stern glare. No matter how much of her heart was wrapped up in my case, she still had a family she was helping to provide for. The jurors seemed pleased with the verdict and the prosecution smirked malevolently at me. I looked back to see my mother, who was in tears. Then at my attorney as the weight of my sentence began to set in. "Sorry," she whispered to me before dropping her head and then... I was alone. I realized there was nothing I could do and no one that would be able to help me. My sentence was in and I would be going to a state penitentiary for the next five years, at the least. I, too, said, "Sorry," to my mother and she asked, "Can I please hug him?" as I was being escorted out of the court room. I had done a good job of fighting back tears. Since a child of four, I had always had to be strong for my mother, and this situation was no different. I've always been like that, no matter how heavy my load, I tried to carry the burden for others. I hate to see people hurting. So, although I was the one going away, I didn't want her to hurt any more than she had to. In the back of the patty wagon, as I was being transported back to Cumberland County Prison, I cursed God vehemently. It was only then that I realized, I had been having one-way conversations with God my entire life - speaking to "something" that never responded - at least not audibly. My sentence was in so there was no reason to ask for help now. So, I didn't. Instead, I retreated into the dark recesses of my mind.
