[Al Muhajiroun](#) Nov 04 2022 Grounded in nine years of ethnographic research on the al Muhajiroun/AhluSunnah Wal Jamaah movement (ALM/ASWJ), Douglas Weeks mixes ethnography and traditional research methods to tell the complete story of al Muhajiroun. Beginning with three core events that became a primer for radical Islamic political thought in the UK, Al Muhajiroun, A Case Study in Islamic Activism traces the development of the movement from its incipient beginnings to its current status. Based on his extensive interaction with the group and its leaders, Weeks contextualizes the history, beliefs, methods, and differences between ALM/ASWJ, al Qaeda, and the Islamic State so that the group and the threat it poses is comprehensively understood.

[New Mexico 2050](#) Feb 12 2021 Here some of the state's most noted and qualified policy experts answer two vital questions: New Mexico 2050—What can we be? What will we be? They have produced in this volume, edited by former US Senator Fred Harris, a dynamic blueprint for New Mexico's future—a manual for leaders and public officials, a text for students, a sourcebook for teachers and researchers, and a guide for citizens who want the Land of Enchantment to also become the Land of Opportunity for all. Contributors include economists Lee Reynis and Jim Peach, education policy expert Veronica García, health and health care specialist Nandini Pillai Kuehn, political scientists Gabriel Sánchez and Shannon Sánchez-Youngblood, Native American scholar Veronica Tiller, icon of New Mexico cultural affairs and the arts V. B. Price, authorities on water and the environment Laura Paskus and Adrian Oglesby, planning specialist Aaron Sussman, and inaugural Albuquerque poet laureate Hakim Bellamy. Digital versions of individual chapters allow interested readers to explore the key issues impacting the state of New Mexico.

[Convicted and Condemned](#) Mar 16 2021 Winner, W. E. B. DuBois Distinguished Book Award presented by the National Conference of Black Political Scientists Examines the lifelong consequences of a felony conviction through the compelling words of former prisoners Felony convictions restrict social interactions and hinder felons' efforts to reintegrate into society. The educational and vocational training offered in many prisons are typically not recognized by accredited educational institutions as acceptable course work or by employers as valid work experience, making it difficult for recently-released prisoners to find jobs. Families often will not or cannot allow their formerly incarcerated relatives to live with them. In many states, those with felony convictions cannot receive financial aid for further education, vote in elections, receive welfare benefits, or live in public housing. In short, they are not treated as full citizens, and every year, hundreds of thousands of people released from prison are forced to live on the margins of society. [Convicted and Condemned](#) explores the issue of prisoner reentry from the felons' perspective. It features the voices of formerly incarcerated felons as they attempt to reconnect with family, learn how to acclimate to society, try to secure housing, find a job, and complete a host of other important goals. By examining national housing, education and employment policies implemented at the state and local levels, Keesha Middlemass shows how the law challenges and undermines prisoner reentry and creates second-class citizens. Even if the criminal justice system never convicted another person of a felony, millions of women and men would still have to figure out how to reenter society, essentially on their own. A sobering account of the after-effects of mass incarceration, [Convicted and Condemned](#) is a powerful exploration of how individuals, and society as a whole, suffer when a felony conviction exacts a punishment that never ends.

[Maternity Leave](#) May 18 2021 Maternity leave is a complex issue, both personally and professionally. And, more often than not, policy differs from practice. Based on interviews that highlight the perspectives and perceptions of new mothers, [Maternity Leave: Policy and Practice](#) examines the disconnect between maternity leave policy and practice. It presents the history and deve

[Mexicano and Latino Politics and the Quest for Self-Determination](#) Dec 25 2021 This book critically examines the current status of Mexicano and Latino Politics in the United States and how both represent a dysfunctional and failed mode of politics. Two change models are provided as alternatives: Aztlán's Politics of a Nation-Within-a-Nation (APNWN) and Aztlán's Politics of Separatism (APS).

[Who Owns America's Past?](#) Jan 02 2020 Combining information from hitherto-untapped archival sources, extensive interviews, a thorough review of the secondary literature, and considerable personal experience, Post gives the reader a behind-the-scenes view of disputes among curators, academics, and stakeholders that were sometimes private and at other times burst into headline news.

[Color Matters](#) Jun 06 2020 In the United States, as in many parts of the world, people are discriminated against based on the color of their skin. This type of skin tone bias, or colorism, is both related to and distinct from discrimination on the basis of race, with which it is often conflated. Preferential treatment of lighter skin tones over darker occurs within racial and ethnic groups as well as between them. While America has made progress in issues of race over the past decades, discrimination on the basis of color continues to be a constant and often unremarked part of life. In [Color Matters](#), Kimberly Jade Norwood has collected the most up-to-date research on this insidious form of discrimination, including perspectives from the disciplines of history, law, sociology, and psychology. Anchored with historical chapters that show how the influence and legacy of slavery have shaped the treatment of skin color in American society, the contributors to this volume bring to light the ways in which colorism affects us all—influencing what we wear, who we see on television, and even which child we might pick to adopt. Sure to be an eye-opening collection for anyone curious about how race and color continue to affect society, [Color Matters](#) provides students of race in America with wide-ranging overview of a crucial topic.

[The Global Muslim Brotherhood in Britain](#) Nov 11 2020 Since 2011, with the British Government's counter-radicalisation strategy, Prevent, non-violent Islamist groups have been considered a security risk for spreading a divisive ideology that can lead to radicalisation and violence. More recently, the Government has expressed concerns about their impact on social cohesion, entryism, and women's rights. The key protagonists of non-violent Islamist 'extremism' allegedly include groups and individuals associated with the Muslim Brotherhood and Jama'at-i-Islami. They have been described as part of the 'global Muslim Brotherhood', but do they constitute a singular phenomenon, a social movement? This book

shows that such groups and individuals do indeed comprise a movement in Britain, one dedicated to an Islamic 'revival'. It shows how they are networked organisationally, bonded through ideological and cultural kinship, and united in a conflict of values with the British society and state. Using original interviews with prominent revivalist leaders, as well as primary sources, the book also shows how the movement is not so much 'Islamist' in aspiring for an Islamic state, but concerned with institutionalising an Islamic worldview and moral framework throughout society. The conflict between the Government and the global Muslim Brotherhood is apparent in a number of different fields, including education, governance, law, and counterterrorism. But this does not simply concern the direction of Government policy or the control of state institutions. It most fundamentally concerns the symbolic authority to legitimise a way of seeing, thinking and living. By assessing this multifaceted conflict, the book presents an exhaustive and up-to-date analysis of the political and cultural fault lines between Islamic revivalists and the British authorities. It will be useful for anyone studying Islam in the West, government counter-terrorism and counter-extremism policy, multiculturalism and social cohesion.

Lone Star Politics, 3rd Edition Dec 13 2020 Lone Star Politics delves into the state's rich political tradition by exploring how myth often clashes with the reality of everyday governance. Explaining who gets what and how within the state, this Nacogdoches author team provides an engaging narrative on the evolution of Texas politics, utilizing the comparative method to set Texas in context with other states' constitutions, policymaking, electoral practices, and institutions. Responding to user demand, Ken Collier, Steven Galatas, and Julie Harrelson-Stephens have split or added chapters to provide more in-depth coverage of much-desired topics, including the legislature and legislative process, the governor and bureaucracy, parties and organized interests, as well as fiscal, criminal justice, and social policy. In addition, new chapter objectives and critical thinking questions reinforce learning and encourage analysis. Beyond more depth and breadth, the new third edition now features a full-color design. Lone Star Politics delivers well-crafted and colorful content without breaking the bank.

Football in Asia Oct 30 2019 This book is the first comprehensive study on history, culture, and business of football in Asia. Football has been a symbol of the modern invention, a catalyst of local, national and regional identities, all time favourite among kids and youths, and even a harbinger for cultural globalization and consumerism in Asia. The economic growth and the current proliferation of football culture in Asia make it imperative to examine the complex relationship between the globalization of football and the local appropriation. The essays in the book deal with various topics on football in Asia from history of football in Asia, football and local, national and regional identities, to commercialization of football cultures, global mobility and athletes' migration, and then new Asianism and football. This book argues that football in Asia contributes to reconfiguring both national and regional identities among football fans in the active interconnection with the global flows of football and cultural globalization without homogenizing Asian identities into a cosmopolitan one. This is the textbook to presents football's implication and influence on Asian populace and social changes while using football as a lens assessing the modern development and current diversification of Asia. This book was published as a special issue of Soccer and Society.

The New Landscape of Mobile Learning May 06 2020 The New Landscape of Mobile Learning is the first book to provide a research based overview of the largely untapped array of potential tools that m-Learning offers educators and students in face-to-face, hybrid, and distance education. This cutting edge guide provides: • An essential explanation of the emergence and role of Apps in education • Design guidelines for educational Apps • Case studies and student narratives from across the US describing successful App integration into both K-12 and Higher Education • Robust, research-based evaluation criteria for educational Apps Although many believe that Apps have the potential to create opportunities for transformative mobile education, a disparity currently exists between the individuals responsible for creating Apps (i.e. developers who often have little to no instructional experience) and the ultimate consumers in the classroom (i.e. K-20 educators and students). The New Landscape of Mobile Learning bridges this gap by illuminating critical design, integration, and evaluation narratives from leaders in the instructional design, distance education, and mobile learning fields.

Enter the Alternative School Jun 30 2022 Enter the Alternative School is an in-depth examination of public school alternatives to traditional educational models in the US. This book analyses how urban education can respond to a system growing increasingly standardised and privatised. As an example, Central Park East Secondary School (CPESS), a public alternative schooling model, successfully served predominantly low-income and minority students. It also changed the New York City public school system while promoting methods that allowed educational institutions to make changes in the lives of their students. Written by a sociologist who was both a student at CPESS and a teacher at a school developed from the CPESS model, the book analyses education from a range of vantage points, assesses outcomes, and invites readers to consider the potential of alternative educational models to address the challenges of reforms that attempt to provide quality education to the low-income and minority students otherwise under served by public schools.

Reawakening the Public Research University Aug 28 2019 A core institution in the human endeavor—the public research university—is in transition. As U.S. public universities adapt to a multi-decadal decline in public funding, they risk losing their essential character as a generator, evaluator, and archivist of ideas and as a wellspring of tomorrow's intellectual, economic, and political leaders. This book explores the core interdependent and coevolving structures of the research university: its physical domain (buildings, libraries, classrooms), administration (governance and funding), and intellectual structures (curricula and degree programs). It searches the U.S. history of the public research university to identify its essential qualities, and generates recommendations that identify the crucial roles of university administration, state government and federal government.

Coming Full Circle Sep 09 2020 The disastrous Buffalo Creek Treaty of 1838 called for the Senecas' removal to Kansas (then part of the Indian Territory). From this low point, the Seneca Nation of Indians, which today occupies three reservations in western New York, sought to rebound. Beginning with events leading to the Seneca Revolution in 1848, which transformed the nation's government from a council of chiefs to an elected system, Laurence M. Hauptman traces Seneca history through the New Deal. Based on the author's nearly fifty years of archival research, interviews, and applied work, *Coming Full Circle* shows that Seneca leaders in these years learned valuable lessons and adapted to change, thereby preparing the nation to meet the challenges it would face in the post-World War II era, including major land loss and threats of termination. Instead of emphasizing American Indian decline, Hauptman stresses that the Senecas were actors in their own history and demonstrated cultural and political resilience. Both Native belief, in the form of the Good Message of Handsome Lake, and Christianity were major forces in Seneca life; women continued to play important social and economic roles despite the demise of clan matrons' right to nominate the chiefs; and Senecas became involved in national and international competition in long-distance running and in lacrosse. The Seneca Nation also achieved noteworthy political successes in this period. The Senecas resisted allotment, and thus saved their reservations from breakup and sale. They recruited powerful allies, including attorneys, congressmen, journalists, and religious leaders. They saved their Oil Spring Reservation, winning a U.S. Supreme Court case against New York State on the issue of taxation and won remuneration in their Kansas Claims case. These efforts laid the groundwork for the Senecas' postwar endeavor to seek compensation before the Indian Claims Commission and pursuit of a series of land claims and tax lawsuits against New York State.

Paths to Excellence Dec 01 2019 For more than a century, medical schools and academic campuses were largely separate in Texas. Though new medical technologies and drugs—conceivably, even a vaccine instrumental in the prevention of a pandemic—might be developed on an academic campus such as the University of Texas at Austin, there was no co-located medical school with which to collaborate. Faculty members were left to seek experts on distant campuses. That all changed on May 3, 2012, when the UT System Board of Regents voted to create the Dell Medical School in Austin. This book tells in detail and for the first time the story of how this change came about: how dedicated administrators, alumni, business leaders, community organizers, doctors, legislators, professors, and researchers joined forces, overcame considerable resistance, and raised the funds to build a new medical school without any direct state monies. Funding was secured in large part by the unique willingness of the local community to tax itself to pay for the financial operations of the school. Kenneth I. Shine and Amy Shaw Thomas, who witnessed this process from their unique vantages as past and present vice chancellors for health affairs in the University of Texas System, offer a working model that will enable other leaders to more effectively seek solutions, avoid pitfalls, and build for the future.

Handbook of Research on Political Activism in the Information Age Jul 28 2019 Technology, and particularly the Internet, has caused many changes in the realm of politics. Mainstream media no longer has a monopoly on political commentary as social media, blogs, and user-generated video streaming sites have emerged as an outlet for citizens and political activists to openly voice their opinions, organize political demonstrations, and network online. The *Handbook of Research on Political Activism in the Information Age* includes progressive research from more than 39 international experts at universities and research institutions across 15 different countries. Each of the 25 scholarly chapter contributions focus on topics pertaining to the application of information technology, engineering, and mathematics to political activism. Through its analysis of the methods for political activism in the information age, the effectiveness of these methods, as well as emerging analytical tools, this book is designed for use by researchers, activists, political scientists, engineers, computer scientists, journalists, professors, students and professionals working in the fields of politics, e-government, media and communications, and Internet marketing.

Contemporary Critical Discourse Studies Aug 09 2020 CDS is a multifarious field constantly developing different methodological frameworks for analysing dynamically evolving aspects of language in a broad range of socio-political and institutional contexts. This volume is a cutting-edge, interdisciplinary account of these theoretical and empirical developments. It presents an up-to-date survey of Critical Discourse Studies (CDS), covering both the theoretical landscape and the analytical territories that it extends over. It is intended for critical scholars and students who wish to keep abreast of the current state of the art. The book is divided into two parts. In the first part, the chapters are organised around different methodological perspectives for CDS (history, cognition, multimodality and corpora, among others). In the second part, the chapters are organised around particular discourse types and topics investigated in CDS, both traditionally (e.g. issues of racism and gender inequality) and only more recently (e.g. issues of health, public policy, and the environment). This is, altogether, an essential new reference work for all CDS practitioners.

The Occupiers Sep 21 2021 "In *The Occupiers*, Michael Gould-Wartofsky--one of the first social scientists on the ground in Zuccotti Park--offers a front-seat view of the action in the streets of New York City and beyond. Painting a vivid picture of everyday life in the square through the use of material gathered in the course of a year of participant observation, Gould-Wartofsky traces the occupation of Zuccotti Park--and some of its counterparts across the United States and around the world--from inception to eviction. He takes up the challenges the occupiers faced, the paradoxes of direct democracy, and the dynamics of direct action and police action and explores the ways in which occupied squares became focal points for an emerging opposition to the politics of austerity, restricted democracy, and the power of corporate America. Much of the discourse on the Occupy phenomenon has treated it as if it lived and died in Zuccotti Park, but Gould-Wartofsky follows the evicted occupiers into exile and charts the evolving strategies of the movement as it seeks to resist, regroup, and reoccupy. Removed from public spaces and news headlines, Occupy has spread out from the financial centers and across an America still struggling to recover in the aftermath of the crisis. Even if the movement fails to achieve radical reform, Gould-Wartofsky maintains, it may well accelerate the pace of change in the United States in the years to come"--
