The Manual to Manhood Aug 31 2022 There's a lot a guy needs to know as he grows up and makes his way in the world. And a lot of it, he wouldn't necessarily want to have to ask about because then, well, people would know he didn't know what he was doing! For all the guys out there who want to have it all together, Jonathan Catherman offers this collection of one hundred step-by-step instructions on almost everything a guy needs to know, including how to · wear cologne correctly · manage a credit card · talk to a girl · plan a date · write a résumé · ask for a reference · clean a bathroom · throw a football · change a tire · behave during a traffic stop · fold a shirt · tie a tie · grill a steak · clear a sink drain · find a stud in a wall In fact, if it's in here, it's an important skill or character trait practiced by capable and confident men. With great illustrations and a supporting website, this all-in-one reference tool for young men in the making is the perfect gift for birthdays, graduations, or any occasion.

Multiple Voices in Academic and Professional Discourse Jul 30 2022 The demands of today's society for greater specialization have brought about a profound transformation in the humanities, which are not immune to the competitive pressure to meet new challenges that are present in other sectors. Thus, lecturers and researchers in modern languages and applied linguistics departments have made great efforts to design syllabi and materials more attuned to the competences and requirements of potential working environments. At the same time, linguists have attempted to apply their expertise in wider areas, creating research institutes that focus on applying language and linguistics in different contexts and offering linguistic services to society as a whole. This book attempts to provide a global view of the multiple voices involved in interdisciplinary research and innovative proposals in teaching specialized languages while offering contributions that attempt to fill the demands of a varied scope of disciplines such as the sciences, professions, or educational settings. The chapters in this book are made up of current research on these themes: discourse analysis in academic and professional genres, specialized translation, lexicology and terminology, and ICT research and teaching of specialized languages.

Toward Quality Assurance and Excellence in Higher Education Oct 09 2020 Quality Assurance is not a new concept in the education sector in general, and higher education in particular, though it is becoming increasingly more relevant and important. Higher education helps to improve an individual's quality of life by enabling them to inflate their knowledge and expertise, to grasp abstract concepts and theories, and to raise their awareness of the world and their community, and as such the assurance of quality is becoming more pivotal in the whole education process. There is no simple definition of the concept of quality in education, though numerous models and theories have been devised. Toward Quality Assurance and Excellence of Higher Education is a new episode of the Quality Assurance perception in higher education, which identifies the quality culture and orientation from the beginning, integrating crucial factors to build a "pyramid" of higher education excellence. The book compares concepts from the main theories of Quality Assurance, management and control when they are applied to educational systems in higher

education. The book also presents a new model of excellence in higher education. Excellence is an architecture of building blocks that comes with process performance, effectiveness, harmony and collaboration which should be incorporated in a quality-oriented concept of a sustainable excellence of higher education. The model integrates four main facets: the Educational System, Quality Assurance Managing and Control, Strategic Planning and Globalization. Also presented are international "best-practices" in quality assurance in higher education, from Japan and Finland.

Industrial Parsing of Software Manuals Sep 27 2019 The task of language engineering is to develop the technology for building computer systems which can perform useful linguistic tasks such as machine assisted translation, text retrieval, message classification and document summarisation. Such systems often require the use of a parser which can extract specific types of grammatical data from pre-defined classes of input text. There are many parsers already available for use in language engineering systems. However, many different linguistic formalisms and parsing algorithms are employed. Grammatical coverage varies, as does the nature of the syntactic information extracted. Direct comparison between systems is difficult because each is likely to have been evaluated using different test criteria. In this volume, eight different parsers are applied to the same task, that of analysing a set of sentences derived from software instruction manuals. Each parser is presented in a separate chapter. Evaluation of performance is carried out using a standard set of criteria with the results being presented in a set of tables which have the same format for each system. Three additional chapters provide further analysis of the results as well as discussing possible approaches to the standardisation of parse tree data. Five parse trees are provided for each system in an appendix, allowing further direct comparison between systems by the reader. The book will be of interest to students, researchers and practitioners in the areas of computational linguistics, computer science, information retrieval, language engineering, linguistics and machine assisted translation.

The Art of Antiquity Aug 07 2020 The Archives of the American School of Classical Studies' excavations in the Athenian Agora contain a remarkable series of watercolors and drawings - well over 400 - by Piet de Jong, one of the most distinctive and influential archaeological illustrators of the 20th century. They show landscapes, people, and, above all, objects recovered during many seasons of fieldwork at one of the longest continuously running archaeological projects in Greece. The aim of this volume is to bring these illustrations out of the storage drawers and to assemble in color a representative sample of some of the finest of Piet de Jong's works. Along the way, this book tells the story of the Agora excavations and assesses their contribution to scholarship. It includes essays by 15 scholars currently working at the Agora, and surveys the entire span of the material they are studying - from Neolithic pottery to the Late Byzantine and post-Byzantine frescoes from the Church of Ayios Spyridon.

Handbook of Research on Entrepreneurship in the Contemporary Knowledge-Based Global Economy Dec 23 2021

The rapid rise of knowledge-based economies has revolutionized the perceptions and practices of globalized business. Recent developments in engineering, electronics, and biotechnology have expanded the very definition of entrepreneurship in today's international market, weaving discussions of enhanced connectivity and communication, environmental sustainability, and government policy changes into a complex, multidimensional conversation. The Handbook of Research of Entrepreneurship in the Contemporary Knowledge-Based Global Economy provides a comprehensive survey of the most recent developments in the field of entrepreneurship, highlighting their effects on information technology, business networking, knowledge production, distribution, and organization. This timely publication features extensive coverage of the fast-developing entrepreneurial field, illuminating recent technological, social, and strategic innovations in language that is accessible for a worldwide audience of business educators, researchers, and students. This authoritative text showcases research-based articles on entrepreneurship for knowledge economies; academic entrepreneurship; women and entrepreneurship; entrepreneurship education; organizational learning ability; innovations in industry, agriculture, and management; and the evolution of a new, all-inclusive corporate culture.

Inbound PR Feb 22 2022 The digital era's new consumer demands a new approach to PR. Inbound PR is the handbook that can transform your agency's business. Today's customer is fundamentally different, and traditional PR strategies are falling by the wayside. Nobody wants to feel "marketed to;" we want to make our own choices based on our own research and experiences online. When problems arise, we demand answers on social media, directly engaging the company in front of a global audience. We are the most empowered, sophisticated customer base in the history of PR, and PR professionals must draw upon an enormous breadth of skills and techniques to serve their clients' interests. Unfortunately, those efforts are becoming increasingly ephemeral and difficult to track using traditional metrics. This book merges content and measurement to give today's PR agencies a new way to build brands, evaluate performance and track ROI. The ability to reach the new consumer, build the relationship, and quantify the ROI of PR services allows you to develop an inbound business and the internal capabilities to meet and exceed the needs of the most demanding client. In this digital age of constant contact and worldwide platforms, it's the only way to sustainably grow your business and expand your reach while bolstering your effectiveness on any platform. This book shows you what you need to know, and gives you a clear framework for putting numbers to reputation. Build brand awareness without "marketing to" the audience. Generate more, higher-quality customer or media leads. Close the deal and nurture the customer or media relationship. Track the ROI of each stage in the process. Content is the name of the game now, and PR agencies must be able to prove their worth or risk being swept under with obsolete methods. Inbound PR provides critical guidance for PR growth in the digital era, complete with a practical framework for stimulating that growth.

Reflects the latest research and clinical practice in both psychiatry and neurology. NEW! Eight new video vignettes featuring patient interviews, each with accompanying multiple-choice questions. NEW! All questions relating to diagnostic criteria have been updated to the DSM-5.

Paul and the Thessalonians Mar 26 2022 "This book deals with Paul's practice rather than his theology. It especially traces the way in which Paul established a church in the important city of Thessalonica, the capital city of the Roman province of Macedonia, maintained contact with it in order to ensure its continuing nurture, and instructed its members on how to care for one another. Rather than simply organize a church, Paul founded, shaped, and nurtured a community. In so doing, he was sensitive to the needs of individuals within the community who had committed themselves to new beliefs and a new way of life. Paul was, in fact, engaged in pastoral care, although he does not describe the enterprise in that manner."--from the Introduction

Meu filho cresceu, e agora? Mar 14 2021 Passe a adolescência com os adolescentes. Logo na dedicatória, a autora de "Meu filho cresceu e agora?", a especialista em parenting coaching, Jacqueline Vilela, deixa claro para quem é este livro: aos pais dos adolescentes. E com um recado importante: a adolescência dos nossos filhos (ou das crianças com quem convivemos e que importam para nós) não é como um resfriado que alguém tem e que quando ela se sente mal, sentenciamos apenas com um "vai passar", É claro que vai passar, como quase tudo nessa vida, mas não precisa ser apenas como um mal estar passageiro ou como algo que desejamos que passe logo. É, assim como a infância, uma fase onde as crianças vão se preparar para ser jovens adultos e onde o poder de decisão para suas vidas deixa de ser apenas dos pais e dos tutores

para serem deles próprios. Nós, os eleitores privilegiados do livro "Meu filho cresceu e agora? (pais, profissionais de educação ou coaching parentais), podemos aproveitar essa fase para deixar marcas e lembranças positivas para nossos filhos, crianças, pré-adolescentes, adolescentes e jovens adultos, que eles (e nós próprios) vão carregar por toda a vida e lembrar com carinho nas horas, dias, meses e anos que vão se seguir em suas vidas. Jacqueline nos transmite anos de experiência pioneira da formação em coaching parental para psicólogos, educadores e profissionais que lidam com pais e filhos em um livro rico e didático que irá fazer o leitor ver essa fase de maneira positiva e ainda dar vários exemplos de como enriquecer o convívio com os adolescentes e ajudá-los nessa travessia. Meu filho cresceu e agora? Uma coisa é certa: o tempo passa rápido e com eles a infância de nossos filhos. De repente, nossos meninos e meninas se transformam em moças e rapazes. E aquela sensação de que nossas crianças não dependem mais de nós chega. Isso pode gerar uma angústia em inúmeros pais. Mas a verdade é que se aproveitamos a infância deles, também podemos aproveitar seu período de adolescentes para novos aprendizados e consolidar relacionamentos e valores. Nada de dizer para eles (e para os outros): é só uma fase, vai passar. Claro que vai passar, como tudo na vida, mas a adolescência também pode ser rica em vivências que ficam para a vida toda. É o que procura nos mostrar a especialista em parenting coaching, Jacqueline Vilela, com o livro "Meu filho cresceu e agora?" onde você vai encontrar uma metodologia e exercícios práticos para entender e conviver com esse período de transição das crianças para jovens adultos.

Societal Benefits of Freely Accessible Technologies and Knowledge Resources Jan 24 2022 Open access to information resources and technology can have a profound impact on the economic development of a region as well as society in general. In recent years, reaction against proprietary knowledge and technology has led to tremendous debate both in academic and professional circles. Societal Benefits of Freely Accessible Technologies and Knowledge Resources analyzes current perspectives on the advantages of unrestricted access to information resources and technology intended to advance the prospect for knowledge, innovation, and development across the globe. Touching on topics of relevance to the private and public sectors, this publication is ideally designed for use by policymakers, business managers, academicians, researchers, students, IT practitioners, and legal professionals.

Justice and Technology in Europe:How ICT Is Changing the Judicial Business Dec 31 2019 Like systems and procedures in most areas of modern society, the functioning of courts throughout the world has been enormously affected by information and communication technologies (ICT). It has become crucial for lawyers to keep pace with technical changes in judicial systems, especially in international cases where an understanding of procedural variations from one system to another could spell the difference between success and failure. This immensely valuable book has been written by experts who, in various ways, have actually been engaged in the planning and implementation of ICT in the courts of their respective countries. To ensure information that is as homogeneous as possible, and to facilitate cross-border comparisons, the authors have followed a common and detailed 'blueprint' which includes a brief description of the judicial system under discussion. The papers were originally prepared for presentation at the first European Seminar on Court Technology, held in September 2000, at the Research Institute on Judicial Systems (IRSIG-CNR) in Bologna, Italy. The Seminar brought together delegates from the fifteen member countries of the European Union, the Court of Justice of the European Communities, Norway, Venezuela, and The World Bank, to discuss topics related to court technology. Overall, the book offers an in-depth, up-to-date overview of methodology, difficulties encountered, and results so far achieved in the implementation of ICT in the European judicial systems. Specific areas of court technology covered include case management systems, electronic filing, and electronic data interchange. Although the emphasis is on EU Member States, a general overview of ICT applications in some Latin American judiciaries is also provided. Justice and Technology in Europe will be of great practical value to policy makers, judges, judicial personnel, lawyers, and ICT experts, as well as to judicial administration scholars interested in ICT in the judicial systems and on the strategy and governance established to increase its diffusion.

se encontram obrigadas à entrega dos Anexos D, E e G, respetivamente. Inclui 8 exercícios resolvidos que simplificam a interpretação dos formulários e 18 quadros.

*Agora, Academy, and the Conduct of Philosophy* Aug 26 2019 *Agora, Academy, and the Conduct of Philosophy* offers extremely careful and detailed criticisms of some of the most important assumptions scholars have brought to bear in beginning the process of (Platonic) interpretation. It goes on to offer a new way to group the dialogues, based on important facts in the lives and philosophical practices of Socrates - the main speaker in most of Plato's dialogues - and of Plato himself. Both sides of Debra Nails's arguments deserve close attention: the negative side, which exposes a great deal of diversity in a field that often claims to have achieved a consensus; and the positive side, which insists that we must attend to what we know of these philosophers' lives and practices, if we are to make a serious attempt to understand why Plato wrote the way he did, and why his writings seem to depict different philosophies and even different approaches to philosophizing. From the Preface by Nicholas D. Smith.
