**Butts of Florence** Sep 14 2021 "I've been in Florence for now two days, still brutally jet-lagged. I keep waking up at a 4 or 5 in the morning. These have been slow, long days. Already a pace aggressively different than the last few weeks in LA for me. It feels good though. There's a kind of whiplash, still reeling from the absurd, unnecessary non-stop-ness of my end-of-semester weeks in late April/early May. Many things to learn from, which is why it feels so good to be here. And why I write to you now, not simply because it's been far too long, but also because you are an inspiration! I cannot help but think about your travels and yes, your wisdom, when reeling slowly and pleasurably, freshly here in Tuscany." --Erik Benjamins, *Butts of Florence* In 2006, Erik Benjamins, a Los Angeles-based artist, spent six months in Florence, Italy as an American student abroad. Eight years later, in 2014, he returned for six weeks to teach, walk, watch, think, eat, and learn. *Butts of Florence*, published now for the first time by No Style Press, is a collection of writing and photographs taken during this six-week stay. Formally stunning black and white photographs of the butts of various Florentine sculptures punctuate writing that adopts the forms of diaristic entries, appropriated letter writing, travel guide tips, restaurant reviews, and poetic prose. Together, text and image build the arc of a humorous, hungry, critical, introspective, romantic, and grateful visitor to one of the most storied cities in history. "This compact volume packs a punch--the perfect literary companion for a jaunt to Italy. A game changer." --Dr. Anthony Martin, molecular biologist and director of PATAO

**Leopard 1 Main Battle Tank 1965–95** Jan 26 2020 Development of the Leopard 1 can be traced back to November 1956, when the operational requirement for a new battle tank was formulated by the Federal German Armed Forces (Bundeswehr). Originally a Franco-German project, the tank under design was named the 'Standard-Panzer'. The French later dropped out, however, and on 1 October 1963 the 'Standard' tank was officially named 'Leopard', an appropriate choice considering Germany's wartime pedigree with the formidable Tiger and Panther. This book traces the development and service record of the Leopard 1, detailing its control systems, modifications and variants.

**Atlas of CT Angiography** Sep 26 2022 This atlas presents normal and pathologic findings observed on CT angiography with 3D reconstruction in a diverse range of clinical applications, including the imaging of cerebral, carotid, thoracic, coronary, abdominal and peripheral vessels. The superb illustrations display the excellent anatomic detail obtained with CT angiography and depict the precise location of affected structures

and lesion severity. Careful comparisons between normal imaging features and pathologic appearances will assist the reader in image interpretation and treatment planning and the described cases include some very rare pathologies. In addition, the technical principles of the modality are clearly explained and guidance provided on imaging protocols. This atlas will be of value both to those in training and to more experienced practitioners within not only radiology but also cardiovascular surgery, neurosurgery, cardiology and neurology.

**Death Waits in the Dark** Feb 25 2020 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

**Disciple IV** Mar 20 2022 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH

**BIBLE STUDY.** The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for **DISCIPLE IV: UNDER THE TREE OF LIFE**. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Leo Strauss and the Theologico-Political Problem Sep 02 2020 This book, by one of the most prominent interpreters of Leo Strauss's thought, was the first to address the problem that Leo Strauss himself said was the theme of his studies: the theologico-political problem or the confrontation with the theological and the political alternative to philosophy as a way of life. In his theologico-political treatise, which comprises four parts and an appendix, Heinrich Meier clarifies the distinction between political theology and political philosophy and reappraises the unifying center of Strauss's philosophical enterprise. The book is the culmination of Meier's work on the theologico-political problem. It will interest anyone who seeks to understand both the problem caused by revelation for philosophy and the challenge posed by political-religious radicalism. The appendix makes available for the first time two lectures by Strauss that are immediately relevant to the subject of this book and that will open the way for future research and debate on the legacy of Strauss.

*Skinny White Freak* Jul 12 2021 Los Angeles, 1978. Skateboarding and tanned bods rule the SoCal landscape. Compared to his groovy peers, 13-year-old Adam Lipsitz is an outcast. He is too skinny, too pale, too brainy. To make matters worse, just as his parents are separating, he's cast off to Kamp Kickapoo, where he faces the prospect of being tormented by a bully named "Worm" for six interminable weeks. Then... a

horrific event rocks Adam's world. And there's no turning back. How Adam deals with being bullied forms the core of *Skinny White Freak*. By summer's end, Adam will make the journey from kid to young adult, striving to replace fear with courage, cynicism with empathy, and low self-esteem with self-acceptance.

## **Can you imagine what it would be like not to have any memory of your first ten years of life?**

Jake Howard knows how that feels. He's a successful psychiatrist and writer. He has an apparently adoring lover and the respect of his peers. But he also has a huge gap where his childhood memories should be. What's more, Jake is tormented by the worst kind of nightmares. Nightmares he's not even sure are his.

Tormented by dreams and visions that threaten his sanity, he must find their source in order to understand and banish them.

His hunt will take him to a run-down seaside town, to the place where he was raised and also forty years back in time, to what he must confront to release himself from the grip of the visions and also to discover the hidden memories.

However, he will discover things about himself he did not dare imagine. Things he really didn't want to know.

And he will also discover that not everyone is what they appear to be. Those revelations will expose a darkness and horror that no one should have to confront.

Sometimes a lie is preferable.

Some truth is best left undiscovered...

**308 Circuits** Jun 23 2022 This is the ninth in the 300 series of circuit design books, again contains a wide

range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.
