Lucky Day Jan 28 2020 This is the story of the small town sheriff who captured one of the world's most ruthless and cunning murderers. A prequel to the New York Times bestselling thriller, I Hunt Killers. It all started with Dead Girl #1 and Dead Girl #2, the first killings in the sleepy town of Lobo's Nod in decades. Two murders: just a coincidence, or something more sinister? One thing's for sure--it was definitely inconvenient in a year when Sheriff G. William Tanner, a mourning widower, had to run for reelection. With a trail gone cold, it's only luck that links the murders to the most notorious serial killer in memory. And in a town like Lobo's Nod, the killer must be someone Tanner already knows....

Handbook of Research on Managing Managers May 14 2021 In recent years, there has been considerable debate on the future of management but less attention on the changing role of managers in the workplace. This book considers the ways in which managers themselves are being managed. In so doing, the contributors reflect upon the research conducted to date and the potential research pathways. With contributions from experts in the field, the book explores the ways organisations manage their managers and how this continues to evolve globally. Themes discussed include talent management, evidence-based management, the nature of managerial work, management learning, and education and development as well as women in management and cross-cultural issues. Academics, researchers, analysts and students will find this an important Handbook to aid in their understanding of the contemporary world of managers.
