**Managing a Public Relations Firm for Growth and Profit, Second Edition** May 07 2020 The one-of-a-kind how-to book that puts effective agency management strategies at your fingertips The classic text that describes in detail how to successfully manage and market a public relations firm, has been completely updated with three new chapters and is now more than 50% longer. This one-of-a-kind new edition is bursting with creative tips, instructions, philosophies, theories, and guidance, all to help you steer your firm to success. It demonstrates how to market, promote, and sell a firm to attract, win, and hold the right clientele. You will learn how to manage a new or existing firm so that it is productive and profitable and has a long-range future. Information in *Managing a Public Relations Firm for Growth and Profit, Second Edition* is based on author A. C. Croft's extensive experience in the field—almost twenty years as a consultant to PR firm principals and more than 25 years as an employee or principal of three medium-sized successful PR agencies. Croft begins each chapter with a brief profile of a seasoned and successful PR firm principal from a mid-sized firm. These professionals tell of their successes and also relate early mistakes that you would do well to avoid. The text includes tables and figures to make data easily understood. The extensively revised *Managing a Public Relations Firm for Growth and Profit, Second Edition* discusses pertinent topics such as: keys to new business success developing a marketing plan serving clients communication to prospects management strategies for success installing efficient systems and procedures managing staff productivity forecasting income management systems and procedures managing profitability client and agency budgeting recruiting, training, and retaining staff crisis planning planning the future of your firm Covering everything from billing practices and self-promotion to the use of computers and student interns, *Managing a Public Relations Firm for Growth and Profit, Second Edition* is one guide you are sure to refer to again and again for practical advice. It is must reading for owners of small- and medium-sized PR firms; senior managers of small, medium, and national firms who wish to expand their management knowledge and ability or who are considering starting their own firm; lower-level staff members who want to increase their knowledge of agency management; and university public relations professors who would like

to include a primer on PR firm management in their classes.

*BSA Sunbeam & Triumph Tigress Scooter 1959-1965 Workshop Manual* Jan 27 2022 184 pages, and more than 120 illustrations and charts, size 8.25x10.75 inches. This manual is a compilation of three factory publications including the owner's instruction manual, the parts/spares manual and a set of service sheets. These publications cover all three variations of the 175cc two-stroke and the 250cc four-stroke and electric start models manufactured from 1959-1965. Neither BSA nor Triumph ever published a workshop manual for these models, however, the combination of these three publications provides the most comprehensive maintenance and repair information that was ever made available from the manufacturer. **MANUALS & TECHNICAL PUBLICATIONS:** Maintenance, repair and service information was issued under both the BSA and Triumph name. However, as the machines were identical in all aspects, any technical documentation can

be applied to either manufacturer without hesitation. **SERVICE SHEETS:** Beginning in December 1959, both BSA and Triumph began publishing repair, overhaul and technical information in the form of individual (dealer only) 'Service Sheets'. It should be noted that it was never intended that these service sheets would be distributed to the general public. However, they were eventually combined into a single publication and released under both the BSA and Triumph names, the contents being identical in either case. **INSTRUCTION MANUAL:** Both BSA and Triumph published an identical 'Instruction Manual' the only difference being the name on the front cover. These publications were somewhat more detailed than typical 'owner's manuals' as they included overhaul information in addition to general maintenance and adjustments. As these instruction manuals were included with each new scooter purchased, there were a number of 'editions' published during the lifetime of the model, however, the contents remained basically unchanged. When combined with the 'Service Sheets' they are a reasonable substitute for a workshop manual. **PARTS (or) SPARES MANUAL:** The parts manuals are also identical and include exploded component diagrams that are extremely helpful in the rebuilding or restoration process. **ADDITIONAL DATA:** There is an addendum to the rear of this manual that contains a number of communications that were sent from the UK factory to their US distributors. These documents are somewhat rare and they may be of help in assisting in the maintenance of one of these machines. **DESIGN & GENERAL SPECIFICATIONS:** Designed by Edward Turner (Triumph) and sold under both BSA and Triumph brand names to take advantage of established distribution networks, this badge engineering was one of the last uses of the Sunbeam name. The differences between the BSA Sunbeam and Triumph Tigress were entirely cosmetic—the former in polychromatic green paint, also two-tone red and cream, with a BSA badge; the latter in a shell blue or mimosa and ivory (two-tone) with a Triumph badge. Introduced in late 1959, the scooter was available with a 250 cc four-stroke twin (10hp), or 175cc two-stroke single cylinder engine (7.5hp). Both engines were forced-air-cooled. The two-stroke was a development of the BSA Bantam engine but the four-stroke was a completely new parallel-twin with a gear drive to the gearbox. The contact-breaker fed

two separate ignition coils, each of which connected directly to its own spark plug without the need for a distributor. Drive to the rear wheel was by a fully enclosed chain in an oil bath. Both versions had four, foot-operated gears. Some of the 250 twins were fitted with an electric starter and a 12 volt (not 6 volt) electrical system, they were identified as either B2S (Sunbeam) or TW2S (Triumph). The 250 cc four-stroke model was discontinued in 1964 and the 175cc two-stroke model in 1965.
