A Beautiful Life Cut Short by Early Onset Alzheimer's Oct 30 2019 "Marcia and I were married September 30, 1994, and were together nineteen years and four days when she passed away October 2013. She was diagnosed with early onset Alzheimer's in 2000, when she was only forty-nine years of age. I was Marcia's 24-7 caregiver from 2007 until her passing. This was the second marriage for us both, and we were a textbook example of how a happy life together should be. We lived in a small community on Lake Oliver, directly across the lake from Columbus, Georgia. I am retired and am writing this book based on the personal experience of having watched the thirteen years of progression of Alzheimer's disease and how it changed a beautiful, vibrant lady to the shell of what she once was when she passed from this earth. Having to watch someone you love dearly die a day at a time, with the only thing that can be done is keeping them comfortable, is a very excruciating experience, and hopefully, reading our journey through this progression will help others who have a loved one with this disease understand what the future holds for them and their loved one"--Page 4 of cover.

Better Days - A Mental Health Recovery Workbook Jun 30 2022 This book helps those aspiring toward recovery and wellness and also those in recovery, because it addresses and challenges the individual - in very real, basic and honest ways - to make significant cognitive adjustments in how they live their lives. The beauty of this curriculum is that people like to do it and don't consider it a chore, a demand, or a requirement, because every page subtly encourages the individual to think in realistic and forward-moving ways. This allows them to feel good about doing the work. This book is for any person who struggles with their mental health and who wants to live a happier life as well as for any person who wants to improve their quality of life, how they deal with stress, obstacles, difficulties and other people and live a happier, healthy and much more stable life. I based this book on my personal life and recovery, and every page has been used successfully in peer group settings.

The Comics of Joss Whedon Jan 14 2021 A great deal of scholarship has focused on Joss Whedon's television and film work, which includes Buffy the Vampire Slayer, Firefly, Doctor Horrible's Sing-Along Blog, The Cabin in the Woods and The Avengers. But Whedon's work in the world of comics has largely been ignored. He created his own dystopian heroine, Fray, assembled the goofy fannish heroes of Sugarshock, and wrote arcs for Marvel's Astonishing X-Men and Runaways. Along with The Avengers, Whedon's contributions to the cinematic Universe include: script doctoring the first X-Men film, writing a ground-shaking Wonder Woman screenplay, and co-creating ABC's Agents of S.H.I.E.L.D. Today, Whedon continues the Buffy and Firefly stories with innovative comics that shatter the rules of storytelling and force his characters to grow through life-altering conflicts. This collection of new essays focuses on Whedon's comics work and its tie-ins with his film and television productions, emphasizing his autismism in crossing over from panel to screen to panel. Essays focus on the comic inspirations and subversive tropes of the Whedonverse, as well as character changes and new interpretations.

India's Prisoner Jun 26 2019 Edward John Thompson -- novelist, poet, journalist, and historian of India -- was a liberal advocate for Indian culture and political self-determination at a time when Indian affairs were of little general interest in England. As a friend of Nehru, Gandhi, and other Congress Party leaders, Thompson had contacts that many English officials did not have and did not know how to get. Thus, he was an excellent channel for interpreting India to England and England to India.
