Rural Social Work Oct 03 2022 A thoughtful text integrating strengths, assets, and capacity-building themes with contemporary issues in rural social work practice Now in its second edition, Rural Social Work is a collection of contributed readings from social work scholars, students, and practitioners presenting a framework for resource building based on the strengths, assets, and capacities of people, a tool essential for working with rural communities. This guide considers methods for social workers to participate in the work of sustaining rural communities. Each chapter features a reading integrating the themes of capacity-building and rural social work; discussion questions that facilitate critical thinking around the chapter; and suggested activities and assignments. Rural Social Work, Second Edition explores: Important practice issues in rural communities, including the challenges of working with stigmatized populations such as gay, lesbian, bisexual, and transgendered people, the homeless, and people living with HIV/AIDS Practice models that hold special promise for rural social workers, including evidence-based practice and community partnership models Newer research tools such as asset mapping, social network analysis, concept mapping, and Geographic Information Systems (GIS) Exploring how social workers can integrate the tremendous resources that exist in rural communities into their practice, Rural Social Work, Second Edition provides a solid introduction to the complex, challenging, and rewarding work of building and sustaining rural communities.

Service-Learning Essentials Aug 01 2022 Service-Learning Essentials is the resource you need to help you develop high-quality service-learning experiences for college students. Written by one of the field's leading experts and sponsored by Campus Compact, the book is the definitive work on this high-impact educational practice. Service-learning has been identified by the Association of American Colleges and Universities as having been widely tested and shown to be beneficial to college students from a wide variety of backgrounds. Organized in an accessible question-and-answer format, the book responds clearly and completely to the most common questions and concerns about service-learning. Each chapter addresses issues related to individual practice as well as to the collective work of starting and developing a service-learning center or program, with examples drawn from a variety of disciplines, situations, and institutional types. The questions range from basic to advanced and the answers cover both the fundamentals and complexities of service-learning. Topics include: Determining what service-learning opportunities institutions should offer How to engage students in critical reflection in academic courses and in cocurricular experiences Best practices for developing and sustaining mutually beneficial campus-community partnerships Integrating service-learning into the curriculum in all disciplines and at all levels, as well as various areas of student life outside the classroom Assessing service-learning programs and outcomes The dilemmas of service-learning in the context of power and privilege The future of service-learning in online and rapidly globalizing environments Service-learning has virtually limitless potential to enable colleges and universities to meet their goals for student learning while making unique contributions to addressing unmet local, national, and global needs. However, in order to realize these benefits, service-learning must be thoughtfully

designed and carefully implemented. This easy-to-use volume contains everything faculty, leaders, and staff members need to know about service-learning to enhance communities, improve higher education institutions, and educate the next generation of citizens, scholars, and leaders.

New Perspectives in Service Learning Mar 04 2020

Walking Bassics Aug 28 2019 This book gives you all the basic principles underlying solid walking bass lines. Comprehensive, easy to understand, with page after page of great transcriptions of the author's walking lines on the accompanying CD. The CD of NY professional jazz players can also be used as a swinging play-along CD. Endorsed by Eddie Gomez, Jimmy Haslip, John Goldsby, etc.

Transforming Public Leadership for the 21st Century Jul 20 2021 The forces of globalization are shifting our world, including the public sector, away from hierarchy and command and control toward one of collaboration and networks. The way public leadership is thought about and practiced must be, and is being, transformed. This volume in the "Transformational Trends in Governance & Democracy" series explores what the shift looks like and also offers guidance on what it should look like. Specifically, the book focuses on the role of "career leaders" - those in public service - who are agents of change not only in their own organizations, but also in their communities and policy domains. These leaders work in network settings, making connections and collaborating to create public value and advance the common good. Featuring the insights of an authoritative group of contributors, the volume offers a mix of scholarship, from philosophical discussions to conceptual models to empirical studies that, taken together, will help inform the transformation of public leadership that is already underway.

Creating Space for Democracy Sep 29 2019 Published in Association with 

src="https://styluspub.presswarehouse.com/uploads/a12fab3ad13e358e09e1f9c05231049d989baab6.jpg" and 

src="https://styluspub.presswarehouse.com/uploads/747aa07c3a67bedf837371257e3e6bd7b7669e2b.jpg" We live in divisive and polarizing times, often remaining in comfortable social bubbles and experiencing few genuine interactions with people who are different or with whom we disagree. Stepping out and turning to one another is difficult but necessary. For our democracy to thrive at a time when we face wicked problems that involve tough trade-offs it is vital that all citizens participate fully in the process. We need to learn to listen, think, and act with others to solve public problems. This collaborative task begins with creating space for democracy. This book provides a guide for doing so on campus through deliberation and dialogue. At the most basic level, this book describes collaborative and relational work to engage with others and co-create meaning. Specifically, dialogue and deliberation are processes in which a diverse group of people moves toward making a collective decision on a difficult public issue. This primer offers a blueprint for achieving the civic mission of higher education by incorporating dialogue and deliberation into learning at colleges and universities. It opens by providing a conceptual framework, with leading voices in the dialogue and deliberation field providing insights on issues pertinent to college campuses, from free speech and academic freedom to neutrality and the role of deliberation in civic engagement. Subsequent sections describe a diverse range of methods and approaches used by several organizations that pioneered and sustained deliberative practices; outline some of the many ways in which educators and institutions are using dialogue and deliberation in curricular, co-curricular, and community spaces, including venues such as student centers, academic libraries, and residence halls. All of the chapters, including a Resource Section, provide readers with a starting point for conceptualizing and implementing their own deliberation and dialogue initiatives. This book, intended for all educators who are concerned about democracy, imparts the power and impact of public talk, offers the insights and experiences of leading practitioners, and provides the grounding to adopt or adapt the models in their own settings to create educative spaces and experiences that are humanizing, authentic, and productive. It is an important resource for campus leaders, student affairs practitioners, librarians, and centers of institutional diversity, community engagement, teaching excellence and service-learning, as well as faculty, particularly those in the fields of communication studies, education, and political science. Click here for more information on AAC&U and Campus Compact.

Dilemmas in Youth Work and Youth Development Practice Apr 28 2022 The fundamental aim of youth work is to build trusting and mutually respectful relationships with young people, creating transformative experiences for young people in formal and informal spaces outside of homes and schools. These complex and multidimensional situations mean that the day-to-day work of youth workers is full of dilemmas, pitting moral, developmental, motivational, organizational, and other concerns against each other. By showing how different youth workers respond to a variety of such dilemmas, this authentic text makes visible youth workers' unique knowledge and skills, and explores how to work with challenging situations – from the everyday to the extraordinary. Beginning by setting out a framework for dilemma resolution, it includes a number of narrative-based chapters, in which youth

workers describe and reflect on dilemmas they have faced, the knowledge and experiences they brought to bear on them and alternative paths they could have taken. Each chapter closes with a discussion from the literature about themes raised in the chapter, an analysis of dilemma and a set of overarching discussion questions designed to have readers compare and contrast the cases, consider what they would do in the situation, and reflect on their own practice. Teaching us a great deal about the norms, conventions, continuities, and discontinuities of youth work, this practical book reveals essential dimensions of the profession and contributes to a practice-based theoretical foundation of youth work.

Creating Our Identities in Service-Learning and Community Engagement Oct 11 2020 In this volume in the IAP series on Advances in Service-Learning Research, top researchers present recent work studying aspects of program development, student and community outcomes, and future research directions in the field of service-learning and community engagement. These chapters, selected through a rigorous peer review process, are based on presentations made at the annual meeting of the International Research Conference on Service-Learning and Community Engagement, held in October, 2008, in New Orleans. This volume features efforts in research and practice to support and expand service-learning and engaged scholarship in both K-12 and higher education. Models of effective partnerships between institutions of higher education and their community partners are developed in chapters looking at relationships between campus and community in terms of partnership identity or in terms of shared understanding by campus and community partners. Outcomes for K-12 and college students engaged in service learning are the focus of several studies. The impact of high-quality service-learning on K-12 student achievement and school-related behaviors is described. Racial identity theory provides a useful frame for understanding developing student conceptualizations, while another chapter emphasizes aspects of self-exploration and relationship building as bases for gains in student attitudes and skills. In a final section, chapters deal with service-learning and community engagement as a coherent research field with a distinct identity, reviewing current work and proposing directions for future research.

Serving Country and Community Sep 09 2020 "Who benefits from AmeriCorps, VISTA, and National Civilian Community Corps? Frumkin and Jastrzab make important recommendations on how to improve the programs and resolve some of the political and administrative issues which have plagued these initiatives in the past two decades." James Youniss, Catholic University of America --

Big Ideas in Collaborative Public Management Jun 30 2022 The world of public management is changing dramatically, fueled by technological innovations such as the Internet, globalism that permits us to outsource functions anywhere in the world, new ideas from network theory, and more. Public managers no longer are unitary leaders of unitary organizations - instead, they often find themselves convening, negotiating, mediating, and collaborating across borders. "Big Ideas in Collaborative Public Management" brings together a rich variety of big picture perspectives on collaborative public management. The chapters are all original and written by distinguished experts. Designed for practical application, they range from examinations of under what conditions collaborative public management occurs to what it means to be a collaborative leader. The contributors address tough issues such as legitimacy building in networks, and discuss ways to engage citizens in collaboration. They examine the design of collaborative networks and the outcomes of collaboration. Detailed introductory and concluding chapters by the editors summarize and critique the chapters, and frame them as a reflection of the state of collaborative public management today.

Aging May 06 2020 Presenting current research in an innovative format, *Aging: Concepts and Controversies* encourages students to become involved and take an informed stand on the major aging issues that we face as a society. Leading author and active expert in gerontology Rick Moody provides thorough explanation of the issues in the Concepts sections and current research in the Controversy sections, demonstrating the close link between concepts and controversies in the broad areas of aging: health care, socioeconomic trends, and the life course. Thoroughly revised throughout, this Sixth Edition updates developments in each sub-specialty including nine new readings, new international highlight boxes, and offers a more visually accessible two-color format.

Faculty Work and the Public Good Jun 18 2021 At a time when faculty roles are under great scrutiny and faculty work itself has an uncertain future, this book offers a new approach to examining academic professionalism. This collection of essays applies a philanthropic lens to contemporary debates and considers academic work completed out of a moral responsibility to the public good. It provides a counterpoint to narrow conceptions of appropriate faculty work as limited to the production of credit hours and research dollars and offers evidence that faculty can have a wider role both within and beyond the "ivory tower." By examining faculty members' many contributions, not only to students but to society-at-large, *Faculty Work and the Public Good* provides an alternate perspective on America's colleges and universities that will help preserve and expand professorial contributions to the public good. Although not all faculty are philanthropically inclined, highlighting

those who are will help preserve valuable aspects of faculty work and encourage more such contributions to society. This volume is an essential read for higher education policymakers, trustees, and administrators; students and scholars of higher education and philanthropy; and individual faculty concerned about their profession.

Contributors: Ann E. Austin, J. Herman Blake, Dwight F. Burlingame, Denise Mott DeZolt, Sean Gehrke, Audrey J. Jaeger, Adrianna Kezar, Jia G. Liang, Elizabeth Lynn, Michael Moody, Emily L. Moore, Thomas F. Nelson-Laird, Jason F. Perkins, William M. Plater, Gary Rhoades, R. Eugene Rice, John Saltmarsh, Lorilee R.

Sandmann, Paul Shaker, Marty Sulek, William G. Tierney, Richard C. Turner “The contributors to this volume provide unique insights into this under-appreciated but significant dimension of academic work and culture.”

—Jack H. Schuster, professor emeritus, education and public policy, senior research fellow, Claremont Graduate University “Provides a powerful rationale for broadening the definition of what are the valued contributions faculty members can make to their institutions, disciplines, and the public at large” —Judith M. Gappa, professor emerita, Purdue University

Realizing General Education: Reconsidering Conceptions and Renewing Practice Feb 24 2022 General education is widely touted as an enduring distinctive of higher education, but what do we actually mean by general education? Differing perspectives not only make it challenging to consider its significance, but also open it up to a wide range of determinations regarding its effectiveness. This volume aims to sharpen understanding of the complex picture of general education by: describing how various conceptions of general education evolved historically, identifying various functions expected of general education in the contemporary context, and pointing out the educational practices that fulfill general education's aims in the current context. The conceptions of, and aspirations for, general education are consequential. This volume disentangles the divergent conceptions that hinder its renewal and considers the range of avenues for realizing its effectiveness. This is the second issue of the 42nd volume of the Jossey-Bass series ASHE Higher Education Report. Each monograph is the definitive analysis of a tough higher education issue, based on thorough research of pertinent literature and institutional experiences. Topics are identified by a national survey. Noted practitioners and scholars are then commissioned to write the reports, with experts providing critical reviews of each manuscript before publication.

Liberal Learning and the Art of Self-Governance Jan 14 2021 Concerns over affordability and accountability have tended to direct focus away from the central aims of liberal learning, such as preparing minds for free inquiry and inculcating the habits of mind, practical skills, and values necessary for effective participation in civil society. The contributors to this volume seek to understand better what it is that can be done on a day-to-day basis within institutions of liberal learning that shape the habits and practices of civil society. The central argument of this volume is that institutions of liberal learning are critical to a developing and flourishing civil society. It is within these "civil society incubators" that the habits of open discourse are practiced and honed; that a collaborative (often contentious) commitment to truth seeking serves as the rules that govern our work together; that the rules of personal and widespread social cooperation are established, practiced, and refined. Many have made this argument as it relates to community based learning, and we explore that theme here as well. But acquiring and practicing the habits of civil society recur within and throughout the college context—in the classrooms, in college governance structures, in professional associations, in collaborative research, in the residence halls, and on the playing field. To put it another way, when they are at their best, institutions of liberal learning are contexts in which students learn how to live in a free society and learn the art of self-governance.

Beyond Bystanders Dec 01 2019 *Beyond Bystanders* calls for a shift in the professional self-image of teachers from agents of socialization to active advocates of human flourishing, social justice, and world betterment. The editors propose that it is irresponsible for teachers to posit themselves as bystanders and to conceive of globalization as something happening to them. Their role as educators in all disciplines must be to establish educational leadership that would empower students to critically evaluate developing global realities – mass migrations, socioeconomic inequalities, global warming, and the dehumanizing effects of submission to social media and consumerism – and achieve the overarching goals of humanization and facilitation of the fulfilling life. A shared commitment to humanist ethics, pedagogical activism, and social engagement at Kibbutzim College of Education (Tel Aviv) and Wagner College (New York) sparked this collaboration. The authors of the book include educational thinkers such as Nel Noddings, Michael Apple, David Hansen, Pasi Sahlberg, and Wiel Veugelers as well as scholars and practitioners from six different countries and diverse professional and cultural backgrounds. An essential part of our educational enterprise must involve promoting intercultural opportunities, confronting cultural ills and ensuring that civic engagement is more attuned to political realities. Educators in all disciplines can reframe their teaching and schools to be more cooperative and civic-minded and challenge views of marginalized, immigrant, undocumented and refugee communities as strangers. “Education is not only about teaching people to read and to write. It is about teaching human rights and cultural diversity, nourishing peace and

fostering inclusive and sustainable development ... I wish to commend Kibbutzim College of Education and Wagner College for joining forces to compile this volume to inspire readers in crafting new models of intellectual and intercultural understanding." – Irina Bokova, Director-General of UNESCO (from the Foreword)

How to Make Collaboration Work Nov 04 2022 The coauthor of "How to Make Meetings Work" offers five time-tested principles for making collaborative efforts more effective, efficient, and even enjoyable.

Handbook of Research on Learning Outcomes and Opportunities in the Digital Age Jul 08 2020 Education and learning opportunities bring about the potential for individual and national advancement. As learners move away from traditional scholarly media and toward technology-based education, students gain an advantage with technology in learning about their world and how to interact with modern society. The Handbook of Research on Learning Outcomes and Opportunities in the Digital Age provides expert research relating to recent technological advancements, technology and learning assessments, and the effects of technology on learning environments, making it a crucial reference source for researchers, scholars, and professors in various fields.

How to Make Collaboration Work Apr 04 2020 Every day we work with others to solve problems and make decisions, but the experience is often stressful, frustrating, and inefficient. In *How to Make Collaboration Work*, David Straus, a pioneer in the field of group problem solving, introduces five principles of collaboration that have been proven successful time and again in nearly every conceivable setting. Straus draws on his thirty years of personal and professional experience to show how these principles have been applied by organizations as diverse as Ford Motor Company, the U.S. Environmental Protection Agency, Harvard Business School Publishing, Boston Public Schools, Kaiser Permanente, the city of Denver, and many others. *How to Make Collaboration Work* shows how collaboration can become a joy rather than a chore—a kind of chemical reaction that releases far more energy than it consumes.

The Work Situation of the Academic Profession in Europe: Findings of a Survey in Twelve Countries Dec 13 2020 This book presents the analysis of the representative survey about the academic profession in twelve European countries. Higher education in Europe has experienced a substantial change in recent years: Expansion progresses further, the expectation to deliver useful contributions of knowledge to the "knowledge society" is on the rise, and efforts to steer academic work through external forces and strong international management are more widespread than ever. Representative surveys of the academic profession in twelve European countries show how professors and junior staff at universities and other institutions of higher education view the role of higher education in society and their professional situation and how they actually shape their professional tasks. Academics differ across Europe substantially in their employment and working conditions, their views and their activities. Most of them favour the preservation of a close link between teaching and research and feel responsible for both theory and practice. Most consider efforts to enhance academic quality and social relevance as compatible. The overall satisfaction with their professional situation is rather high.

Becoming an Engaged Campus Jun 26 2019 *Becoming an Engaged Campus* offers campus leaders a systematic and detailed approach to creating an environment where public engagement can grow and flourish. The book explains not only what to do to expand community engagement and how to do it, but it also explores how to document, evaluate, and communicate university engagement efforts. Praise for *Becoming an Engaged Campus* "This provocative yet exceedingly practical book looks at all of the angles and lays bare the opportunities and barriers for campus-community engagement while providing detailed pathways toward change. This comprehensive treatise marks a significant shift in the literature from the what and why of public engagement to the how. It is simply superb!" —KEVIN KECSKES, associate vice provost for engagement, Portland State University "Becoming an Engaged Campus is an essential guidebook for university leaders. It details the specific ways that campuses must align all aspects of the institution if they are to be successful in the increasingly important work of community outreach and engagement." —GEORGE L. MEHAFFY, vice president for academic leadership and change, American Association of State Colleges and Universities "Most colleges and universities make the rhetorical claim of community engagement; this book is an excellent primer on how to transform the rhetoric into reality. The authors do not speak in abstract terms. They describe the specific structures, policies, and programs that have made Northern Kentucky University a national model of how a large urban university can transform its impact on the region it is supposed to serve." —WILLIAM E. KIRWAN, chancellor, University System of Maryland

Gerontology: Changes, Challenges, and Solutions [2 volumes] Jan 26 2022 Written by established and emerging leaders in a broad array of disciplines, this two-volume set provides undergraduate and graduate students, scholars, professionals, and policymakers with an overview of the field of aging that examines the social landscape as well as key changes, challenges, and solutions. • Provides an up-to-date, multidisciplinary, and forward-thinking look at the key areas and issues in gerontology • Highlights links between topics and relevant

demographic, social, economic, and health trends with implications for immediate and long-range work in aging • Includes contributions from experts in the fields of sociology, psychology, medicine, education, politics, and government • Identifies the key changes, challenges, and solutions in each subfield • Includes an appendix containing lists of descriptions and contact information for aging organizations as well as an annotated list of documentaries about aging

Civic Engagement in Higher Education May 18 2021 Numerous studies have chronicled students lack of trust in large social institutions, declining interest in politics, and decreasing civic skills. This book is a comprehensive guide to developing high-quality civic engagement experiences for college students. The book defines civic engagement and explains why it is central to a college education. It describes the state of the art of education for civic engagement and provides guidelines for designing programs that encourage desired learning outcomes. In addition, the book guides leaders in organizing their institutions to create a campus-wide culture of civic engagement.

Positive School Leadership May 30 2022 This landmark book translates positive and asset-based understandings of organizations to develop a powerful model of school leadership that is grounded in both existing research and the complexities of life in schools. The authors—both senior scholars in educational leadership—apply insights from positive psychology to the role and function of educational leaders. The Positive School Leadership (PSL) model draws on the strengths of relationships among staff and the broader school community to communicate and instill shared values and a common mission. This book builds a compelling case for creating a more inclusive, less “mechanistic” approach to leadership. Designed to engage both the hearts and minds of readers, the text is organized around reflective questioning of educational practice and current assumptions about the purposes and goals of leadership in schools. ; Book Features: An integrated way to think about organizational, interpersonal, and systemic leadership from the inside out. A look at positive leadership in action, demonstrating how it operates to strengthen relationships that make a school more effective. An examination of the long-range impacts that can be anticipated from reorienting schools toward positive leadership. Reflective questions in each chapter that engage readers in deeper analysis of the information presented.

The Successful Internship Feb 01 2020 THE SUCCESSFUL INTERNSHIP: PERSONAL, PROFESSIONAL, AND CIVIC DEVELOPMENT, 4th Edition, offers you more than just a resource for how to find a position or how to interview. It addresses the concerns, emotions, needs, and unique personal challenges that are the essence of an internship or field experience, and focuses on the internship as a vehicle for your development as a civic professional. The authors describe in detail the path of change you'll find yourself embarking on and the challenges you'll face along the way. A four-stage model of the internship process--anticipation, exploration, competence, and culmination--places the material in a meaningful framework that lends structure to your understanding of the work you'll be doing. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Alcalde Apr 16 2021 As the magazine of the Texas Exes, The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years. The Alcalde serves as an intellectual crossroads where UT's luminaries - artists, engineers, executives, musicians, attorneys, journalists, lawmakers, and professors among them - meet bimonthly to exchange ideas. Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater. The magazine's unique name is Spanish for "mayor" or "chief magistrate"; the nickname of the governor who signed UT into existence was "The Old Alcalde."

Quick Hits for Educating Citizens Aug 09 2020 "[This volume] makes the statement that democracy matters, that engagement in the community is essential to maintain our democratic values, and that civic engagement plays a significant role in educating our citizens." -- Sharon Hamilton and Robert Orr, Directors, Indiana University Faculty Colloquium on Excellence in Teaching (FACET) Quick Hits for Educating Citizens presents university faculty and administrators with ideas and strategies for integrating civic education into university curricula. Fifty-eight succinct essays from across the disciplines offer successful models of curriculum-based civic education activities and strategies for engaging students outside the classroom. Reflecting best practices as well as individual approaches to educating students for citizenship, this is an outstanding resource for university faculty in every discipline, as well as administrators and students in schools of education.

Introduction to Community Development Mar 28 2022 Introduction to Community Development provides students of community and economic development with a theoretical and practical introduction to the field of community development. Bringing together leading scholars in the field of community development, the book follows the curriculum needs in offering a progression from theory to practice, beginning with a theoretical overview, an historical overview, and the various approaches to community development.

The Future of Democracy Aug 21 2021 We need young people to be civically engaged in order to define and address public problems. Their participation is important for democracy, for institutions such as schools, and for young people themselves, who are more likely to succeed in life if they are engaged in their communities. In *The Future of Democracy*, Peter Levine, scholar and practitioner, sounds the alarm: in recent years, young Americans have become dangerously less engaged. They are tolerant, patriotic, and idealistic, and some have invented such novel and impressive forms of civic engagement, as blogs, "boycott" movements, and transnational youth networks. But most lack the skills and opportunities they need to participate in politics or address public problems. Levine's timely manifesto clearly explains the causes, symptoms, and repercussions of this damaging trend, and, most importantly, the means whereby America can confront and reverse it. Levine demonstrates how to change young people's civic attitudes, skills, and knowledge and, equally importantly, to reform our institutions so that civic engagement is rewarding and effective. We must both prepare citizens for politics and improve politics for citizens.

Reboot! Jun 06 2020 Reboot to work; retirement is a disease. It's better to wear out than rust out. That is the message of *Reboot!* While American culture glamorizes the Golden Years of endless leisure and amusement, Phil Burgess rejects retirement, as he makes the case for returning to work in the post-career years, a time he calls later life. Based on solid research from the social and medical sciences, the author says, It is better to die with your boots on, fully engaged in helping others and repairing the world. *Reboot!* is partly autobiographical. Indeed, the author is working well into his own post-career years, following two failed retirements. He is also convincing in his eye-opening, historically rooted, and hope-filled arguments for engaging in life-long work that is productive and satisfying. *Reboot!* identifies five different types of work: in-kind, volunteer, Samaritan, enrichment, and paid work. Booters who incorporate one or more of these types of work into their post-career lifestyle will, according to Burgess, live longer, live better, and die faster avoiding boredom, aimless busy-ness, diminished self-worth and the anguish (and cost) of lingering death. With America's 78 million boomers turning 65 at the rate of 10,000 a day for the next 18 years, *Reboot!* provides a timely and provocative alternative to the conventional idea of retirement. With the promises of Social Security and Medicare about to be broken, *Reboot!* provides an upbeat and constructive way to deal with new financial realities. For men and women navigating life's transitions, striving to finish well, *Reboot!* provides a roadmap for living a life of meaning, challenging the reader to be a booter, not a retiree. Burgess boldly asserts that retirement is a deadly disease, and that work after a life of work is the best option for post-career years that are meaningful, productive, healthy, and satisfying. See www.BooterNation.com Excerpts: On retirement: Not all ideas are good ideas. Some are bad ideas. Retirement is one of those bad ideas it makes no sense Retirement is not natural. It is not historic. It is not healthy. It is not, for most people, fulfilling. For many, retirement is a widow maker. On the value of work: The social engagement and satisfaction that come from working in later life are keys to successful aging There is much work to do in this world where we are but temporary inhabitants. We should find it and do it at least for as long as we're able. In many ways, our life depends on it. On work and money: Work is not only about money. Even if you don't need the money and your financial situation is stable and comfortable, returning to work in your post-career life is the smart thing to do at least until sidelined by frailty or disability. It's smart because good health and satisfaction in later-life are most likely to come from working. On different types of work: For most of us, post-career work will be tailored work, work customized to reflect our needs, our deepest desires, and the highest and best use of our gifts especially time, talent, and treasure. Work tailored to our gifts will be productive and satisfying.

Moral Education Dec 25 2021 This work delves into the topic of moral education in America's K-12 schools. Following an introductory historical chapter, it analyzes salient topics and notable leaders in the field of moral education. It treats the issues thoroughly and fairly, providing a heightened understanding of both the major and minor themes in moral education.

The Collaborative Leadership Fieldbook Feb 12 2021 When the landmark book *Collaborative Leadership* was first published in 1994, it described the premise, principles, and leadership characteristics of successful collaboration. The book outlined an innovative way of building partnerships to solve the civic problems too big for anyone to solve alone as well as a new type of leadership that brings together diverse stakeholders to solve a community's problems. While that book provides a much-needed framework for working together, *The Collaborative Leadership Fieldbook* offers nonprofit practitioners, community leaders, and public officials a practical, hands-on resource. It presents the tools needed for applying the lessons learned, powerful approaches that get results, and guidance for solving complex community problems. In clear and concise terms, the Fieldbook * Presents a wide range of tools and concepts that can be readily applied * Provides a comprehensive guide to collaboration from conception to implementation * Describes how to establish effective civic leadership development programs to support collaborative efforts * Contains stories and examples that

clearly illustrate the book's concepts and tools * Helps readers find-quickly and easily-what they need for their specific situations

75 Years of the Madison Symphony Orchestra, 1926-2001 Nov 11 2020

Understanding the Working College Student Jan 02 2020 How appropriate for today and for the future are the policies and practices of higher education that largely assume a norm of traditional-age students with minimal on-campus, or no, work commitments? Despite the fact that work is a fundamental part of life for nearly half of all undergraduate students – with a substantial number of “traditional” dependent undergraduates in employment, and working independent undergraduates averaging 34.5 hours per week – little attention has been given to how working influences the integration and engagement experiences of students who work, especially those who work full-time, or how the benefits and costs of working differ between traditional age-students and adult students. The high, and increasing, prevalence and intensity of working among both dependent and independent students raises a number of important questions for public policymakers, college administrators, faculty, academic advisors, student services and financial aid staff, and institutional and educational researchers, including: Why do so many college students work so many hours? What are the characteristics of undergraduates who work? What are the implications of working for students’ educational experiences and outcomes? And, how can public and institutional policymakers promote the educational success of undergraduate students who work? This book offers the most complete and comprehensive conceptualization of the “working college student” available. It provides a multi-faceted picture of the characteristics, experiences, and challenges of working college students and a more complete understanding of the heterogeneity underlying the label “undergraduates who work” and the implications of working for undergraduate students’ educational experiences and outcomes. The volume stresses the importance of recognizing the value and contribution of adult learners to higher education, and takes issue with the appropriateness of the term “non-traditional” itself, both because of the prevalence of this group, and because it allows higher education institutions to avoid considering changes that will meet the needs of this population, including changes in course offerings, course scheduling, financial aid, and pedagogy.

Finding Meaning in Civically Engaged Scholarship Oct 23 2021 The essays in this volume are a collection of reflective narratives, rather than traditional scholarly treatises. The book is divided into two parts. The first part describes our individual journeys as each of us found our way to civically engaged scholarship and came to see it as critical to our academic endeavors and identity. This section also highlights the interdisciplinary nature of our work as we discuss our journeys through our own disciplinary lenses. The second part presents detailed examples of our civic engagement, including service-learning classes, community based research projects, and creation of community service-learning spaces. These chapters provide a varied picture of the available avenues for civic engagement for students and faculty in a higher education setting. We provide sufficient details of our projects and classes to enable replication. The book concludes with a discussion of civic engagement as it is defined in the literature. The conclusion also discusses institutional factors that support and promote civic engagement as well as the importance of community involvement in service learning. Five common themes that emerged across the chapters are described. These themes include the use of service learning and civic engagement as an effective pedagogy, the relationship between civic engagement and political activism, the importance of partnership and collaboration, the meaning found in civic engagement, and the challenges of civically engaged work.

African Americans and the Presidency Oct 30 2019 African Americans and the Presidency explores the long history of African American candidates for President and Vice President, examining the impact of each candidate on the American public, as well as the contribution they all made toward advancing racial equality in America. Each chapter takes the story one step further in time, through original essays written by top experts, giving depth to these inspiring candidates, some of whom are familiar to everyone, and some whose stories may be new. Presented with illustrations and a detailed timeline, African Americans and the Presidency provides anyone interested in African American history and politics with a unique perspective on the path carved by the predecessors of Barack Obama, and the meaning their efforts had for the United States.

The Practice of Macro Social Work Nov 23 2021 Intended for those who want to make a difference in today's modern society, this comprehensive book explores the theory and methods in nine arenas of macro social work at the community, organizational, societal, and global levels of practice. THE PRACTICE OF MACRO SOCIAL WORK, Fourth Edition, challenges readers to use their concern, values, and critical thinking skills to assist those who struggle and have been excluded from making decisions that affect their lives--and to empower these less fortunate individuals to reclaim a healthy social environment for themselves and their children. The book's generalist orientation provides an organizational framework as well as history, biographical material on leading

macro social workers, illustrative contemporary examples, and factual data that offers real life detail. Most important is the depth and wealth of practical information that assists readers in understanding how to help people engage in solving social problems, and in influencing social change to bring about a more just society and humane global civilization. Handbook of Educational Psychology Sep 21 2021 The third edition of the Handbook of Educational Psychology is sponsored by Division 15 of the American Psychological Association. In this volume, thirty chapters address new developments in theory and research methods while honoring the legacy of the field's past. A diverse group of recognized scholars within and outside the U.S. provide integrative reviews and critical syntheses of developments in the substantive areas of psychological inquiry in education, functional processes for learning, learner readiness and development, building knowledge and subject matter expertise, and the learning and task environment. New chapters in this edition cover topics such as learning sciences research, latent variable models, data analytics, neuropsychology, relations between emotion, motivation, and volition (EMOVO), scientific literacy, sociocultural perspectives on learning, dialogic instruction, and networked learning. Expanded treatment has been given to relevant individual differences, underlying processes, and new research on subject matter acquisition. The Handbook of Educational Psychology, Third Edition, provides an indispensable reference volume for scholars in education and the learning sciences, broadly conceived, as well as for teacher educators, practicing teachers, policy makers and the academic libraries serving these audiences. It is also appropriate for graduate level courses in educational psychology, human learning and motivation, the learning sciences, and psychological research methods in education and psychology.

The Oxford Handbook of Retirement Jul 28 2019 This handbook reviews existing theoretical perspectives and research findings on retirement, explores current and future challenges in retirement research and practice, and provides corresponding recommendations and suggestions.

Working Across Boundaries Sep 02 2022 Working Across Boundaries is a practical guide for nonprofit and government professionals who want to learn the techniques and strategies of successful collaboration. Written by Russell M. Linden, one of the most widely recognized experts in organizational change, this no-nonsense book shows how to make collaboration work in the real world. It offers practitioners a framework for developing collaborative relationships and shows them how to adopt strategies that have proven to be successful with a wide range of organizations. Filled with in-depth case studies—including a particularly challenging case in which police officers and social workers overcome the inherent differences in their cultures to help abused children—the book clearly shows how organizations have dealt with the hard issues of collaboration. Working Across Boundaries includes information on how to select potential partners, guidelines for determining what kinds of projects lend themselves to collaboration and which do not, suggestions on how to avoid common pitfalls of collaboration, strategies proven to work consistently, the phases most collaborative projects go through, and the nature of collaborative leadership.
