[A Wake-Up Call!](#) Feb 11 2021 A Wake-Up Call! was written by V. I. Umeniyora "because we have political problems in Nigeria and indeed Africa. My Heads of State from 1980 on made a public pronouncement inviting Nigerians home and abroad to submit solutions they consider will help solve some, if not all of the problems. I succeeded in this because they are using parts of the solutions I submitted in my previous books." Following are some of the major solutions the author proposed: In his first publication, Nigeria – survival or disintegration! (ISBN 978-2335-28-2, 1988) you'll find: - Option A-4 taken verbatim from the pages; he recommended need for finger/ name-reader machines for use to simplify the exercise, which is in use now in Nigeria. He also proposed a need for a "National Orientation programme" for Nigeria to be installed in 1992; civil service reform or strengthening to serve the political parties irrespective of which one is in power in the country; the need for recapitalisation of banks to help business organisations raise adequate funding for their enterprises to cushion the effect of SAP, which not only debased the local currency but truncated all capital investments economically by the citizens! He also proposed the need to curb corruption, including an asset detection mechanism for Nigeria to help politicians/public servants in declaration of assets as required by the Constitution. It was pointed out there was a need for a "common-pool" approach in 1988-1989 and 1993, and in particular on the 4th June 2015 correspondence to the president against corruption. The author points out that banking reform, government corruption, affordable housing, infrastructure repair, and environmental concerns are only some of the problems being faced in Nigeria. This is the Challenge to What You Can Do for Your Country!

WAEC in Review Nov 03 2022 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army—Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the "Turning the Tide" project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

The Return of the Son of Man Nov 10 2020 For over 2,000 years after the physical death of Jesus Christ on the Cross, mankind has been asking serious questions about the purpose of life here on earth due to religious confusion, premature deaths, diseases, poverty, famine, illnesses, natural disasters, wars, terrorism, climate change, broken marriages, drought, corruptions, greed, depression, recessions, slavery, addiction, accidents, deformities, immorality, selfishness, repression, etc. Life has been so difficult for most inhabitants of this planet, especially people in poor and underdeveloped parts of the world. Many people have lost faith in God, and some do not even believe that He exists. This book explains my true life story, the story leading up to the external voice of God to me, the reason for the worlds problems, and also the ultimate solutions to the worlds unending problems. Gods anointed single worldwide leader is the only person who can take everyone around the globe forward to everlasting unity, peace, and stability. I am back and ready to put things right once and for all here on planet earth, and I want leaders of this present world to seriously consider my claim as the ultimate leader of the entire world. This book is primarily directed to every soul on this planet, especially believers of the existence of the Almighty God, mostly Judaism, Christianity, Islam, and all other religious establishments that exist. We must all now stand up together for what we believe to be true and move the people of this planet to the promised world. Almighty God will richly bless you as you read this book with an open mind. When the world has lifted up the Son of Man, then you will know that I am He, and that I do nothing of myself, but as My Father taught and directs Me, I speak these things. The purpose of life here on earth is to honour and obey Gods words, worship Him by faith, in truth and in spirit, to work hard and help each other and then enjoy the beauty and majesty of this planet in unity, peace, love and harmony and also the planets our Father is about to reveal to mankind. The ultimate purpose of life is to become gods and to lead an everlasting life.

The West African Examinations Council (1952-2002) Feb 23 2022 Gle, a chief priest, abandons his role as custodian and defender of age-old customs to fight voluntarily on the side of the British in the Second World War. When the war ends, Gle and his fellow African soldiers do not receive their promised rewards. But they do not return peacefully to their homesteads or reassume their traditional values. Politicised by their role in the foreign conflicts they join together and march in protest to present a petition to the Governor of the Gold Coast (now Ghana), in an act of self-determination. The colonial forces respond with fire; soldiers are shot dead. The angry protesters descend into Accra and loot the shops, in what became the famous looting of 28 February 1948, and would mark the beginning of Ghana's fight for independence from Britain.

Vocationalisation of Secondary Education Revisited Nov 22 2021 The book is a cutting-edge contribution to the debate which has occurred for some time on the pros and cons of secondary education becoming more closely and explicitly related to preparing young people for the world of work. The book provides concrete examples of the vocationalisation of secondary education, with particular reference to the situation in Africa. The target audience for the book includes policy-makers, practitioners, administrators, education planners, researchers, teachers and teacher educators with a concern about the relationship between secondary education and education for the world of work (with particular reference to technical and vocational education and training - TVET.) The book appears in the Springer book series on 'Technical and Vocational Education and Training: Issues, Concerns and Prospects' and compliments the 'International Handbook of Technical and Vocational Education and Training' and other publications in the 'International Library of TVET' all of which are publications of the 'UNESCO-UNEVOC International Centre for TVET' in Bonn, Germany
