Devotion To The Church Apr

04 2020 Devotion to the Church Divine words need no emphasis. They are the words of the Eternal. There is nothing emphatic in eternity. Yet who has not felt, when he has been studying the pages of the Gospel, the condescension to his own sluggish or inattentive soul which is implied by our Lord's occasional asseveration of the truth of His own words? Amen, Amen, I say to you. There is a gentle positiveness

about His characteristic phrase, a loving anxiety to provoke attention, which fill us with devotion. His words need no emphasis. It is needed by our dullness to spiritual things; they that speak to the deaf must speak, not loudly, but articulately. Thus it is for our sakes that our gracious Lord vouchsafes sometimes to articulate His saving words. But there are cases in which He still further, and in a more peculiar way, rouses our attention. This happens when His teaching is singular, when it stands apart from the rest of His teaching, and, to our want of spiritual discernment, is unlike it. There are some words in the Gospel, which seem to

come from another rather than from Him, as if they belonged to some other dispensation. They startle us by their singularity and the sort of defiance they give to our expectations. They are so unlike Him that we feel they must be more than usually characteristic of Him, more than commonly expressive of Him. They lead us down into deeper depths of His Sacred Heart. They enable us to master more of His Divine Spirit. We never get used to them. The freshness of their novelty never wears off. This is because they are divine, because they are His. One of these words we are now to consider, to consider it not in a

disputatious, but rather a suggestive way, for our guidance and our warning. It is a word which we need not press to all its conclusions. It is better not. But our Lord said it. Let us hear Him say it, and let us pray the Divine Person, whose Feast of Pentecost we are this day celebrating, to let it lodge in our hearts such grave suggestions, such saving admonitions, as may be practical to the salvation of our souls. There was a day on earth when the Incarnate Word lifted up His voice, and uttered these tremendous words, (Matt. 12:32), "Whosoever shall speak a word against the Son of Man, it shall be forgiven him; but he that shall speak against the

Reconstructing the Native South Feb 24 2022 In Reconstructing the Native South, Melanie Benson Taylor examines the diverse body of Native American literature in the contemporary U.S. South--literature written by the descendants of tribes who evaded Removal and have maintained ties with their southeastern homelands. In so doing Taylor advances a provocative, even counterintuitive claim: that the U.S. South and its Native American survivors have far

more in common than mere geographical proximity. Both cultures have long been haunted by separate histories of loss and nostalgia, Taylor contends, and the moments when those experiences converge in explicit and startling ways have yet to be investigated by scholars. These convergences often bear the scars of protracted colonial antagonism, appropriation, and segregation, and they share preoccupations with land, sovereignty, tradition, dispossession, subjugation, purity, and violence. Taylor poses difficult questions in this work. In the aftermath of Removal and colonial devastation, what remains--for

Native and non-Native southerners--to be recovered? Is it acceptable to identify an Indian "lost cause"? Is a deep sense of hybridity and intercultural affiliation the only coherent way forward, both for the New South and for its oldest inhabitants? And in these newly entangled, postcolonial environments, has global capitalism emerged as the new enemy for the twenty-first century? Reconstructing the Native South is a compellingly original work that contributes to conversations in Native American, southern, and transnational American studies.

The book shows

how to take advantage of the camera's unique CMOS sensor with Fujifilm's EXR technology. This special sensor enables the camera to be configured for high resolution, high sensitivity in dim lighting, or high dynamic range, depending on the lighting conditions the photographer is faced with. The book also provides guidance about the many the X10's many other advanced settings, including adjustments for Color, Sharpness, Highlight Tone, Shadow Tone, and numerous others. The guide's more than 200 photographs, almost all in full color, provide illustrations of the camera's controls and menus, and include examples of the various

types of photographs that can be taken using the many creative settings of the camera, including the Film Simulation settings, which let the photographer alter the color processing and other aspects of images; various menu options such as Dynamic Range and Intelligent Digital Zoom; and the camera's strong set of features for continuous shooting. In addition, the book goes beyond everyday photography with introductions to more advanced topics such as infrared photography, astrophotography, digiscoping, street photography, and creating 3D (three-dimensional) images that can be viewed with conventional
