*Creating Visions for University- School Partnerships* Nov 08 2020 In keeping with the tradition set forth in volumes 1-4, this fifth volume, *Creating Visions for University- School Partnerships: A Volume in Professional Development School Research*, continues to exemplify current thinking of practitioners and researchers in the field. The range of authors from the Prek-16 arena illustrates the ways in which professional development schools generate possible solutions to the complex problems facing educators. The diversity of their work represents perspectives of classroom teachers, preservice teachers, school leaders, and university faculty who grapple with identifying “ways of knowing” and “ways of doing” that enhance educational outcomes for Prek-12 students while also serving to transform the profession. The volume’s contents of 19 chapters divided into four areas: (1) Clinically Rich Practices (2) PDS Stakeholders’ Perspectives (3) Enriching Content Area Instruction (4) Family Engagement, gives us a more vivid picture of the work that partnerships are doing to fulfill the PDS promise for improving teaching and learning at every level.

*Teaching in a Globally-Connected World* Jan 23 2022 This book examines the current social, political, economic, and religious climate of the world, makes projections for the future, and then makes suggestions for what the contributors believe educators need to think about in order to adequately prepare young people to successfully navigate that future. We live in a globally-connected world, and young people, as they move into the future, need to be prepared to live in that future. Schools (and teachers) tend to focus on the present, which is okay; however, schools (and teachers) must decide what is important to know in the present in order for young people to be successful in the future. The responsibility of education today must be to prepare learners to live in an unknown future, that is global, and not be so focused on an uncertain present.

**Rigor in the Remote Learning Classroom** Mar 25 2022 Learn how to keep the rigor and motivation alive in a remote learning or hybrid K-12 classroom. In this essential book, bestselling author Barbara R. Blackburn shares frameworks and tools to help you move online without compromising the rigor of your instruction. You'll learn... how to create a remote culture of high expectations; how to scaffold so students reach higher levels of learning; how to have students collaborate in different settings; and how to provide virtual feedback and deliver effective assessments. You'll also discover how common activities, such as virtual field trips, can lack rigor without critical thinking prompts. The book provides practical strategies you can implement immediately to help all students reach higher levels of success.

*Social Studies for Secondary Schools* Dec 10 2020 Social Studies for Secondary Schools: Teaching to Learn, Learning to Teach, Second Edition integrates discussions of educational goals and the nature of history and social studies with practical ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme woven throughout the text is that what we choose to teach and the way we teach reflect our broader understanding of society, history, and the purposes of social studies education. Each chapter opens with a broad question about social studies education; provides many examples of lessons, including lesson ideas developed by new and experienced middle school and high school social studies teachers; features a rich variety of teaching, learning, and classroom activities designed to provoke discussion and illustrate different approaches to teaching social studies; and concludes with essays about related social studies topics. Part I focuses on philosophical issues, social studies goals and standards, and the design of social studies curricula. Part II examines and offers examples of strategies for planning units and lessons. Part III explores topics, such as thematic and interdisciplinary teaching, a project approach to social studies, as well as assesses student learning and one's own performance as a teacher, and provides a guide to social studies resource materials and organizations. New in the Second Edition: \*Every chapter has been updated and includes a number of new lesson ideas. \*The lesson ideas are designed especially to help beginning teachers address learning standards; work in inclusive settings; and promote literacy and the use of technology in social studies classrooms. \*Sample activities developed with members of the Hofstra New Teachers Network reflect the current focus on document-based instruction and assessment, and can serve as tools for assessing student learning. \*Increased attention is given to project-based social studies instruction and to multicultural education. Intended as a text for undergraduate and graduate preservice social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice.

*Academic Moves for College and Career Readiness, Grades 6-12* Jul 05 2020 Depth matters! Can a mere fifteen words turn today's youth into the innovative, ambitious thinkers we need? Yes, contend Jim Burke and Barry Gilmore, because these are the moves that make the mind work and students must learn if they're to achieve academically. With *Academic Moves*, Jim and Barry distill each of these 15 powerhouse processes into a potent concision that nevertheless spans core subject areas: Before, during, and after sections offer essential questions, lesson ideas, and activities. Student samples illustrate what to look for and the process for getting there. Culminating tasks include producing an analytic essay, argument, and more. Reproducible rubrics assist with assessment.

**Inquiry-Based Practice in Social Studies Education** Apr 25 2022 Written by the lead authors of the C3 Framework, *Inquiry-Based Practice in Social Studies Education: Understanding the Inquiry Design Model* presents a conceptual base for shaping the classroom experience through inquiry-based teaching and learning. Using their Inquiry Design Model (IDM), the authors present a field-tested approach for ambitious social studies teaching. They do so by providing a detailed account of inquiry's scholarly roots, as well as the rationale for viewing questions, tasks, and sources as inquiry's foundational elements. Based on work done with classroom teachers, university faculty, and state education department personnel, this book encourages readers to transform classrooms into places where inquiry thrives as everyday practice. Both pre-service and in-service teachers are sure to learn strategies for developing the reinforcing elements of IDM, from planning inquiries to communicating conclusions and taking informed action. The curricular and pedagogical examples included make this practical book essential reading for researchers, students of pre-service and in-service methods courses, and professional development programs.
