[The Final Fantasy XIII](#) Apr 04 2020 The 276-page complete official guide to Final Fantasy XIII includes an exclusive 16-page section featuring a recap of the FFXIII story, illustrated with exclusive concept artwork. The book is printed on superior quality art paper and is encased in a hard cover with the Final Fantasy XIII logo printed over a metallic foil. The collector's edition will be limited to just one print run and each copy will be individually (and sequentially) numbered. A labor of love from our team of devoted Final Fantasy veterans, Final Fantasy XIII: The Complete Official Guide is a comprehensive, lavishly-crafted and - if we may be so bold - downright essential companion for all players who intend to enjoy the full FFXIII experience. Structured for maximum ease of use, it features everything from measured step-by-step guidance to analysis of hidden gameplay mechanics. Whether you use it as a well-thumbed reference tool, or make it a near-permanent fixture on your lap until you conquer every last challenge, this 100% complete guide will answer every question you may have - and, indeed, many you might never have thought of. Optimum Walkthrough: While the opening hours of play may seem fairly straightforward, FFXIII grows in complexity throughout the adventure. Its later chapters provide numerous opportunities to venture off the beaten track and take on challenges separate to the main storyline. With detailed annotated maps, step-by-step guidance based on user-friendly waypoints, and expert analysis for those attempting a "perfect" playthrough, the walkthrough charts the most rewarding route through the main journey and all optional side-quests, acting as an indispensable tour guide. Essential: FFXIII features a staggeringly rich game system, with many complex mechanics and attributes governing the result of each battle and the development of both characters and equipment. All of these factors (including many hidden variables and calculations) are revealed and - more importantly - explained in an approachable yet accessible manner, with visual graphs and diagrams turning long explanations into immediate "eureka!" moments. Advanced Strategy: Major enemies and bosses can take countless attempts to conquer without advanced preparations and carefully formulated tactics, so forewarned really is forearmed in FFXIII. In addition to targeted advice on the best way to defeat each opponent of note, we also reveal locations to visit for effective power-leveling, how to set up a battle party for maximum strength and efficiency, and how to exploit profitable tricks and special techniques. Absolutely Comprehensive: Seriously - if it's in the game, it's in the guide. The guide has large sections dedicated to in-depth analysis of all aspects of FFXIII: side-quests, battle system, equipment upgrades, Trophies and Achievements... you name it. Our exhaustively-researched reference chapters reveal all key stats for every last object and adversary encountered (including hidden attributes), reveal how to create ultimate weapons, how to super-specialize party members, how to obtain rare items - and much, much more.

Expo Sixty Seven Mar 04 2020 Expo 67, the world's fair held in Montreal during the summer of 1967, brought architecture, art, design, and technology together into a glittering modern package. Heralding the ideal city of the future to its visitors, the Expo site was perceived by critics as a laboratory for urban and architectural design as well as for cultural exchange, intended to enhance global understanding and international cooperation. This collection of essays brings new critical perspectives to Expo 67, an event that left behind a significant material and imaginative legacy. The contributors to this volume reflect a variety of interdisciplinary approaches and address Expo 67 across a broad spectrum ranging from architecture and film to more ephemeral markers such as postcards, menus, pavilion displays, or the uniforms of the hostesses employed on the site. Collectively, the essays explore issues of nationalism, the interplay of tradition and modernity, twentieth-century discourse about urban experience, and the enduring impact of Expo 67's technological experimentation. Expo 67: Not Just a Souvenir is a compelling examination of a world's fair that had a profound impact locally, nationally, and internationally.

Streets May 06 2020 This collection of twenty-one essays, written by colleagues and former students of the architectural historian Spiro Kostof (1936-1991), presents case studies on Kostof's model of urban forms and fabrics. The essays are remarkably diverse: the range includes pre-Columbian Inca settlements, fourteenth-century Cairo, nineteenth-century New Orleans, and twentieth-century Tokyo ... The theme of the volume is that the street presents itself as the basic structuring device of a city's form and also as the locus of its civilization. Each essay is a detailed investigation of a single urban street with unique historical conditions. The authors' shared concern regarding anthropological, political, and technical aspects of street making coalesce into a critical discourse on urban space.
