**Simplified LRFD Bridge Design** Jun 23 2019 Developed to comply with the fifth edition of the AASHTO LRFD Bridge Design Specifications [2010]--Simplified LRFD Bridge Design is "How To" use the Specifications book. Most engineering books utilize traditional deductive practices, beginning with in-depth theories and progressing to the application of theories. The inductive method in the book uses alternative approaches, literally teaching backwards. The book introduces topics by presenting specific design examples. Theories can be understood by students because they appear in the text only after specific design examples are presented, establishing the need to know theories. The emphasis of the book is on step-by-step design procedures of highway bridges by the LRFD method, and "How to Use" the AASHTO Specifications to solve design problems. Some of the design examples and practice problems covered include: Load combinations and load factors Strength limit states for superstructure design Design Live Load HL- 93 Un-factored and Factored Design Loads Fatigue Limit State and fatigue life; Service Limit State Number of design lanes Multiple presence factor of live load Dynamic load allowance Distribution of Live Loads per Lane Wind Loads, Earthquake Loads Plastic moment capacity of composite steel-concrete beam LRFR Load Rating Simplified LRFD Bridge Design is a study guide for engineers preparing for the PE examination as well as a classroom text for civil engineering students and a reference for practicing engineers. Eight design examples and three practice problems describe and introduce the use of articles, tables, and figures from the AASHTO LRFD Bridge Design Specifications. Whenever

articles, tables, and figures in examples appear throughout the text, AASHTO LRFD specification numbers are also cited, so that users can cross-reference the material.

**Restless Identities** Apr 01 2020 This book seeks to retrieve the lives of two extraordinary individuals who have disappeared from the story of African nationalism in South Africa. Petros Lamula and Lymon Maling were profoundly influential political figures in Natal and Zululand between 1910 and 1940. Lamula was a fiery cooperative movement ideologue, pioneering Zulu historian, architect of the first Inkatha organisation, leader of the radical African National Congress in Natal and, finally, a separatist church leader. Maling was a former mine clerk who founded an ambitious Zulu political organisation, the Abaqulusi Land Union, and went on to become a controversial popular historian, chiefly representative and royal agent. In Restless Identities the prism of biography is used to capture the complex social identities of its subjects without reducing them to ciphers of larger historical processes. It draws us directly into the little-understood world of Zulu cultural nationalism and suggests the contested process of re-imagining the Zulu nation. Lamula and Maling's hitherto lost biographies dramatise the limits of our understanding of those intellectually heterodox, socially marginal and culturally innovative individuals whose imagination and opportunism were so vital to the history of African nationalism in South Africa, but whose stories have yet to be told.

*The Sunburnt Queen* Apr 13 2021 In the late 1730s an unknown East Indiaman smashed to pieces on the reefs of Lambasi Bay on South Africa's Wild

Coast. Next morning the local inhabitants stumbled upon Bessie, a seven-year-old English girl huddled beside a rock on the beach. She was not the first to be shipwrecked on these treacherous shores. Many before her had starved to death, or been killed or cannibalised; some walked hundreds of miles to trading posts. But these locals chose to take Bessie home and bring her up as one of their own. She grew to be a woman of legendary beauty and wisdom, eventually becoming the Great Wife of a prince. So began the enduring legacy of a dynasty that extends to many of today's Xhosa royal families. Using the oral histories of the tribes, and written accounts by early missionaries and traders who met Bessie's grandchildren, Hazel Crampton traces the story of Bessie and her descendants throughout the turbulent history of the Eastern Cape until the present day.
