Militant Jihadism Apr 02 2020 Scholarly analysis of evolving jihadist organisation, strategies, and operation Jihadist militants keep being a global threat. Many observers suggest that a transformation is likely to happen in their organisation, operation, mobilisation, and recruitment strategies, particularly after the territorial decline of the “Caliphate” of the “Islamic State.” This volume explores different aspects of the future trajectories of militant jihadism and the prospective transformation of this movement in and around Europe. The authors analyse the changing jihadist landscape and networks, and the societal challenges posed by both returned foreign terrorist fighters and those who have not returned to their countries of origin. Other topics of discussion are cyber jihadism, jihadist financing, women's position in and relevance for contemporary jihadism, the role of prisons in relation to radicalisation and militancy, and the changing theological dynamics. Based on recent empirical research, *Militant Jihadism* offers a solid scholarly contribution to various disciplines that study violence, terrorism, security, and extremism.

International Handbook of Comparative Large-Scale Studies in Education Jul 30 2022 This handbook is the first of its kind to provide a general and comprehensive overview of virtually every aspect of International Large Scale Assessment (ILSA). It includes historical, economic, and policy perspectives, theoretical foundations, methodology, and reviews of findings from analyses of ILSA data. After decades, during which ILSAs have generated knowledge within central areas of education research and gained increased and substantial impact on educational policy, practice and research, such a broad overview for a wide-ranging audience is much needed. With contributions from authors and editors from all continents, this handbook appeals to an international audience and keeps a neutral perspective, not favoring one ILSA over another. The handbook is suitable to be read by politicians, researchers and stakeholders who are seeking an overview of ILSAs, their history and development, and both potential benefits and limitations with regard to policy implications. The reviews of findings from studies analyzing ILSA data will be of interest to stakeholders, teachers, researchers, and policymakers. Considering that the reviews extend to all fields pertaining to educational research, the book will be valuable to all researchers interested in education. Students may use the book to learn about ILSAs in the context of policy, theoretical underpinnings, or research. Moreover, the methodology section is written in a manner that is understandable and accessible for students, stakeholders, or researchers not familiar with these data. This methodology part, however, is also a valuable resource for researchers who are familiar with ILSA data, as it provides overviews of the design and sampling procedures of several ILSAs, and includes advice on methods of analysis. Even the owners of the ILSAs may find the book valuable, as it contains overviews and insights into a number of ILSAs, provides information how the data is used by the research community, and includes recommendations for future instruments.

Routledge Handbook of Counterterrorism and Counterinsurgency in Africa Oct 09 2020 This book illustrates how Africa's defence and security domains have been radically altered by drastic changes in world politics and local ramifications. First, the contributions of numerous authors highlight the transnational dimensions of counterterrorism and counterinsurgency in Africa and reveal the roles played by African states and regional organisations in the global war on terror. Second, the volume critically evaluates the emerging regional architectures of countering terrorism, insurgency, and organised violence on the continent through the African Union Counterterrorism Framework (AU-CTF) and Regional Security Complexes (RSC). Third, the book sheds light on the counterterrorism and counterinsurgency (CT-COIN) structures and mechanisms established by specific African states to contain, degrade, and eliminate terrorism, insurgency, and organised violence on the continent, particularly the successes, constraints, and challenges of the emerging CT-COIN mechanisms. Finally, the volume highlights the entry of non-state actors – such as civil society, volunteer groups, private security companies, and defence contractors – into the theatre of counterterrorism and counterinsurgency in Africa through volunteerism, community support for state-led CT-COIN Operations, and civil-military cooperation (CIMIC). This book will be of use to students and scholars of security studies, African studies, international relations, and terrorism studies, and to practitioners of development, defence, security, and strategy.

Grief and Trauma in Children Jan 24 2022 Grief and Trauma in Children provides easy-to-implement, ready-to-use therapy materials to help busy practitioners use grief and trauma interventions in real-world settings. All interventions in the book have been developed and researched with clinicians who faced challenging environments, including devastating natural disasters, and in communities where ongoing violence victimized children directly. Even in these stressful environments, clinicians found the interventions easy to implement, effective in helping children acquire coping skills, and effective in decreasing traumatic symptoms in order to proceed with grieving without impaired functioning. Grief and Trauma in Children blends cognitive-behavioral therapy methods and narrative practices to present an integrated grief and trauma model that can be delivered individually, to a group of children, or to a family. The book uses the Draw, Discuss, Write, Witness (DDWW) method to help children explore narratives of resilience and build coping capacity, engage in restorative stories about what happened, and reconnect and reengage in meaningful ways that allow the child to enjoy life again and get back on-track developmentally. Grief and Trauma in Children also provides up-to-date research on childhood bereavement and trauma, a brief description of the theoretical framework of the Grief and Trauma Intervention (GTI) model, a description of session-by-session goals and activities, case examples with ways to address common challenges, and photocopyable tools for clinicians to easily implement the model, such as session agendas, fidelity checklists, handouts for parents, and activity sheets for children.
