Annual Report of the Commissioner, Yukon Territory Feb 24 2020

The 37th Parallel Oct 22 2019 This real-life The X-Files and Close Encounters of the Third Kind tells the true story of a computer programmer who tracks paranormal events along a 3,000-mile stretch through the heart of America and is drawn deeper and deeper into a vast conspiracy. Like "Agent Mulder" of The X-Files, computer programmer and sheriff's deputy Zukowski is obsessed with tracking down UFO reports in Colorado. He would take the family with him on weekend trips to look for evidence of aliens. But this innocent hobby takes on a sinister urgency when Zukowski learns of mutilated livestock, and sees the bodies of dead horses and cattle—whose exsanguination is inexplicable by any known human or animal means. Along an expanse of land stretching across the southern borders of Utah, Colorado, and Kansas, Zukowski discovers multiple bizarre incidences of mutilations, and suddenly realizes that they cluster around the 37th Parallel or "UFO Highway." So begins an extraordinary and fascinating journey from El Paso and Rush, Colorado, to a mysterious space studies company and MUFON, from Roswell and Area 51 to the Pentagon and beyond; to underground secret military caverns and Indian sacred sites; beneath strange, unexplained lights in the sky and into corporations that obstruct and try to take over investigations. Inspiring and terrifying, this true story will keep you up at night, staring at the sky, and wondering if we really are alone...and what could happen next.

Game Laws for the Season 1923-24 Jun 17 2019 "The twenty-fourth annual summary by the United States Department of Agriculture of federal and other game laws and regulations is here presented to aid in the administration of the migratory-bird treaty act and the Lacey legislation for the use of law-enforcement officials, sportsmen, conservationists, and others. It is published to the end that the laws for the protection of game and birds shall be properly observed. The dates here shown for open seasons on migratory birds are the result of Federal and State legislation, the Federal regulations operating in many cases to shorten the seasons fixed by State statute. It is only by observing these dates that hunters can avoid violating either Federal or State law. Provisions relating to methods of capture, game refuges enforcement of laws, disposition of fees and fines, and matters of minor importance are omitted. These may be found by reference to the laws themselves, pamphlet editions of which some are obtainable in most of the States from proper officials ... Provisions relating to seasons, licenses, limits, possession, sale, and export, and a few miscellaneous matters are set forth under State and other governments, alphabetically arranged, thereby furnishing a brief convenient synopsis of the laws."-- p.[2]

UFOs, Chemtrails, and Aliens Aug 24 2022 A wide-ranging survey offers "entertainment as well as wisdom for everyone who's ever wondered what's behind so many conspiracy theories and paranormal phenomena" (Publishers Weekly). UFOs. Aliens. Strange crop circles. Giant figures scratched in the desert surface along the coast of Peru. The amazing alignment of the pyramids. Strange lines of clouds in the sky. The paranormal is alive and well in the American cultural landscape. In UFOs, Chemtrails, and Aliens, Donald R. Prothero and Tim Callahan explore why such demonstrably false beliefs thrive despite decades of education and scientific debunking. Employing the ground rules of science and the standards of scientific evidence, Prothero and Callahan discuss a wide range of topics including the reliability of eyewitness testimony, psychological research into why people want to believe in aliens and UFOs, and the role conspiratorial thinking plays in UFO culture. They examine a variety of UFO sightings and describe the standards of evidence used to determine whether UFOs are actual alien spacecraft. Finally, they consider our views of aliens and the strong cultural signals that provide the shapes and behaviors of these beings. While their approach is firmly based in science, Prothero and Callahan also share their personal experiences of Area 51, Roswell, and other legendary sites,

creating a narrative that is sure to engross both skeptics and believers.

Growing Fruit for Home Use Aug 20 2019 "Well-ripened sound fruit is healthful. It is also a valuable food. It should form a part of every meal, fresh where possible, or dried, canned or otherwise preserved. Home-grown fruit is desirable -- Because it reaches the family fresh and in the best possible condition. Because the family has fruit of which it would often be deprived if it had to be purchased. Because, if the proper varieties to be selected, a continuous supply of fruit of superior quality may be secured regardless of market prices. Because any surplus may be sold without difficulty or may be canned, evaporated, or otherwise conserved for use when fresh fruit is not available. Because the care of the home fruit garden provides for spare time congenial and profitable occupation which is in reality recreation for those who enjoy seeing things grow, This bulletin aims to furnish, in concise form, information that will be of practical help to the beginner in fruit growing. It deals with the widely grown, temperate-climate fruits, such as the apple, pear, peach, and plum. Lists of desirable varieties of these fruits are given for the different parts of the country. Because of the number of fruits considered and the territory covered, cultural directions are necessarily brief, but they cover the most important general points." -- p. 2

The Aliens Are Here Jun 22 2022 Aliens: They have taken the form of immigrants, invaders, lovers, heroes, cute creatures that want our candy or monsters that want our flesh. For more than a century, movies and television shows have speculated about the form and motives of alien life forms. Movies first dipped their toe into the genre in the 1940s with Superman cartoons and the big screen's first story of alien invasion (1945's *The Purple Monster Strikes*). More aliens landed in the 1950s science fiction movie boom, followed by more television appearances (*The Invaders*, *My Favorite Martian*) in the 1960s. Extraterrestrials have been on-screen mainstays ever since. This book examines various types of the on-screen alien visitor story, featuring a liberal array of alien types, designs and motives. Each chapter spotlights a specific film or TV series, offering comparative analyses and detailing the tropes, themes and clichés and how they have evolved over time. Highlighted subjects include *Eternals*, *War of the Worlds*, *The X-Files*, John Carpenter's *The Thing* and *Attack of the 50-Foot Woman*.

Popular Music in Evangelical Youth Culture Nov 22 2019 Christian churches and groups within Anglo-American contexts have increasingly used popular music as a way to connect with young people. This book investigates the relationships between evangelical Christianity and popular music, focusing particularly on electronic dance music in the last twenty years. Author Stella Lau illustrates how electronic dance music is legitimized in evangelical activities by Christians' discourses, and how the discourses challenge the divide between the 'secular' and the 'sacred' in the Western culture. Unlike other existing books on the relationships between music cultures and religion, which predominantly discuss the cultural implications of such phenomenon, *Popular Music in Evangelical Youth Culture* examines the notion of 'spirituality' in contemporary popular electronic dance music. Lau's emphasis on the sonic qualities of electronic dance music opens the door for future research about the relationships between aural properties of electronic dance music and religious discourses. With three case studies conducted in the cultural hubs of electronic dance music – Bristol, Ibiza and New York – the monograph can also be used as a guidebook for ethnographic research in popular music.
