Literature Suppressed on Sexual Grounds, Fourth Edition Aug 27 2019 When Tolstoy's *The Kreutzer Sonata* was banned from distribution through the mail (except for first class) in 1890, New York street vendors began selling it from pushcarts carrying large signs reading "Suppressed!" In 1961, the United States Supreme Court pondered whether D.H. Lawrence's *Lady Chatterley's Lover* was lewd or literary. In 1969, the novel was required reading in many college literature courses. Changing sexual mores have moved many formerly forbidden books out of locked cabinets and into libraries and classrooms. *Literature Suppressed on Sexual Grounds, Fourth Edition* examines the issues underlying the suppression of more than 120 works deemed sexually obscene. Entries include: *America: The Book* (Jon Stewart) *An American Tragedy* (Theodore Dreiser) *The Arabian Nights* (Sir Richard Burton, trans.) *The Art of Love* (Ovid) *The Bluest Eye* (Toni Morrison) *Forever* (Judy Blume) *Gossip Girl* series (Cecily von Ziegesar) *How the Garcia Girls Lost Their Accents* (Julia Alvarez) *Lady Chatterley's Lover* (D.H. ***Justice, Equality and Tax Law* Dec 12 2020** An in-depth analysis of the specific aspects of justice, equality and tax law "Justice, Equality and Tax Law" is a topic that is both old and new at the same time. Even if the society changes, the demands that tax needs to be just and equal seem to be immutable. What changes, of course, is the perception of the content of those demands. International taxation post-BEPS has been fraught with new challenges that warranted urgent responses. These challenges were mainly provoked by the unprecedented rise of the digital economy which truly marked a change in the way business is conducted, how value is created, and how goods and services are produced and consumed. Digitalization, in turn, had repercussions on all aspects of taxation - direct taxation, indirect taxation, and even tax procedures. For instance, the quest for more justice and equality in profit taxes was the reason why, in October 2021, a historical deal based on a two-pillar solution to address the tax challenges arising from the digitalization of the economy was negotiated within the OECD/G20 Inclusive Framework on Base Erosion and Profit Shifting and agreed upon by 137 member countries. It was also the motive behind the shift from a typical vendor collection model to an intermediary collection model supported by centralized registration points in indirect taxes, notably the VAT/GST. Abundant data from the European Union or the OECD signaled an ever-increasing gap between expected VAT revenues and VAT actually collected, making it obvious that the classical system of VAT/GST collection was unable to respond to challenges posed by the digital economy. Therefore, new solutions based on the participation of digital platforms as intermediaries had been introduced. Finally, new technologies, such as blockchain, paved new avenues in enhancing tax compliance. In this context, this volume entitled "Justice, Equality, and Tax Law" contains not only a selection of the best master's theses of the full-time LL.M. programme in 2021/2022 but also represents an in-depth analysis of various aspects of this evergreen topic.

Grayback Mountaineers Oct 29 2019 "I shall never, no never, forget that eventful night when accompanied by one courier, my Adjutant Edwards and Sergeant Major, both being wounded, I full of grief and bitterness, rode to the barns in our rear and saw with tears in my eyes, my brave fellows from away over the mountains in West Virginia, laid out in windrows, torn and bleeding. I shall never forget that night or the next morning's parade when I could muster but 96 enlisted men. Brave fellows, not a slave holder among them." Lt/Col. Vincent A.
