Remote Viewing Apr 04 2020

Is it possible to see across space and time? Even those who accept that humans can reach beyond the conventional five senses typically think of psychics as "special" or "gifted" with unusual abilities. But David Morehouse teaches otherwise—all human beings, including you, have the innate capacity for remote viewing. David Morehouse was trained by the U.S. government in remote viewing—an exact scientific protocol for tapping the human power to gather information across space and time. In this comprehensive manual, he has taken his military training as an "operational" remote viewer and turned it into a step-by-step training system—one that teaches any serious reader how to unlock their natural abilities and become more than the physical world allows. Remote Viewing includes more than just a method for gathering information. It is a transformational tool instilling within you the absolute

irrefutable evidence that you are more than human—that you are extraordinarily human. As you gain experience and confidence as a viewer, you will tap into the collective unconscious that connects you to everything and everyone in the universe. Through David Morehouse's training, you will learn to touch the infinite source of life and knowledge that spiritual masters throughout human history have sought. David Morehouse's superiors in the DIA/CIA called him "the most exceptional candidate ever to have grasped this difficult intelligence collection methodology." What sets him apart as a teacher is his unparalleled ability to present the complexities of remote viewing in an accessible, logical, and artful manner. As more than 23,000 students have already discovered, David Morehouse has set a new and brilliant standard for teaching the scientific protocol of remote viewing. "You have the ability to do this," Morehouse says. "Something extraordinary is

absolutely possible in your life." Now for the first time, he brings you his method for taking your first step into your ultimate potential in a single volume: Remote Viewing: The Complete User's Manual for Coordinate Remote Viewing, which also include a cool-down audio track. David Morehouse has found that this psychoacoustic "pink noise" track is especially effective for helping us enter the brainwave state of relaxed awareness needed for remote viewing.

(Tom McNear). This is titled: 'Coordinate Remote Viewing Stages I-VI and Beyond' - 1985. The second, a later manual was created primarily by Paul H. Smith with help from the 'then' team of military Controlled Remote Viewers, titled: 'The DIA CRV Manual' - 1986. [The Essential Guide to Remote Viewing](#) Jan 02 2020 Written by one of the world's leading experts in the field, The Essential Guide to Remote Viewing is a basic introduction to the extraordinary extrasensory perceptual skill which was developed for the US military during the Cold War. This book describes what remote viewing is, how it came to be, what kinds of remote viewing there are, and counters skeptical arguments against remote viewing's legitimacy. Further, the book contains examples of successful remote viewing attempts, explains how remote viewing can be used for practical purposes, how ordinary civilians can themselves now learn to do it, and outlines experiments that

readers can try for themselves. The ideal reader of The Essential Guide to Remote Viewing will be someone who knows little or nothing about remote viewing and wants an inexpensive source for credible information. Others who will be interested are those who are involved in remote viewing and want an easily-accessible introduction to give to friends or relatives who have questions about what this thing is their loved ones have gotten involved with. Finally, those who are already involved with remote viewing but feel the need to extend their basic knowledge will find this book both interesting and useful.
