The Forum was organized by UNESCO and WIPO in cooperation with Ministry of Commerce, Thailand.

[Making Senses of the Past](#) Sep 02 2022 In the past few years, sensory archaeology has become more prominent, and Making Senses of the Past is one of the first collected volumes of its kind on this subject. The essays in this volume take readers on a multisensory journey around the world and across time, explore alternative ways to perceive past societies, and offer a new way of writing archaeology that incorporates each of the five senses.

Power and the Presidency in Kenya Jun 26 2019 The first study to use Jomo Kenyatta's political biography and presidency as a basis for examining the colonial and postcolonial history of Kenya.

New Perspectives on Old Stones Mar 16 2021 As the study of Palaeolithic technologies moves towards a more analytical approach, it is necessary to determine a consistent procedural framework. The contributions to this timely and comprehensive volume do just that. This volume incorporates a broad chronological and geographical range of Palaeolithic material from the Lower to Upper Palaeolithic. The focus of this volume is to provide an analysis of Palaeolithic technologies from a quantitative, empirical perspective. As new techniques, particularly quantitative methods, for analyzing Palaeolithic technologies gain popularity, this work provides case studies showcasing these new techniques. Employing diverse case studies, and utilizing multivariate approaches, morphometrics, model-based approaches, phylogenetics, cultural transmission studies, and experimentation, this volume provides insights from international contributors at the forefront of recent methodological advances.

[Kenya's War of Independence](#) Oct 30 2019 Kenya's War of Independence restores Kenya's stolen history to its rightful

place, stripped of colonial interpretations. In this expanded and revised version of his 1986 booklet, Kimaathi, Mau Mau's First Prime Minister of Kenya, Durrani covers Mau Mau's resistance to colonialism and neo-colonialism and reflects on its ideology, organisation and achievements. He sees Mau Mau in the larger context of Kenya's war of independence and looks at the influence of organised, radical trade unions as the engine of resistance, linking economic with political demands of working people. Additional chapters document the post-independence resistance by the underground December Twelve Movement-Mwakenya. Durrani captures the dynamism of transition from colonialism to neo-colonialism: "Imperialism replaced colonialism, African elites replaced White Settlers, neo-colonial government replaced colonial government. Resistance changed from the War of Independence to War of Economic Independence. Worker and peasant resistance is evident once again. History is on the march".

Uncertain Safari Jan 02 2020 Uncertain Safari deals with the contours and complexities of African life today. Based on author Allan Winkler's personal experiences living and working in Kenya and traveling to many other parts of the continent, the book focuses primarily on East Africa and concentrates on Kenya in particular. It examines one of the most beautiful, and troubled, parts of Africa through a personal lens, highlighting issues of marriage and divorce, education and AIDS, politics, and evolving traditions. The African story warrants our attention. An examination of Kenya, one of the best-known and most-visited African countries, provides an effective means of exploring issues that affect all Africans. Kenya, traditionally more stable than other African nations, now faces many grave problems as its own stability has begun to erode. This book, based on observations, interviews, and personal reflections, highlights the serious issues behind the seemingly idyllic view millions of visitors witness on safari.

The Pleistocene Old World Jul 20 2021 Regional approaches to past human adaptations have generated much new knowledge and understanding. Researchers working on problems of adaptations in the Holocene, from those of simple hunter-gatherers to those of complex sociopolitical entities like the state, have found this approach suitable for comprehension of both ecological and social aspects of human behavior. This research focus has, however, until recently left virtually untouched a major spatial and temporal segment of prehistory—the Old World during the Pleistocene. Extant literature on this period, by and large, presents either detailed site specific accounts or offers continental or even global syntheses that tend to compile site specific information but do not integrate it into whole constructs of functioning sociocultural entities. This volume presents our current state of knowledge about a variety of regional adaptations that characterized prehistoric groups in the Old World before 10,000 B. P. The authors of the chapters consider the behavior of humans rather than that of objects or features and present data and models for various aspects of past cultures and for culture change. These presentations integrate findings and understandings derived from a number of related disciplines actively involved in researching the past. Data and interpretations are offered on a range of Old World regions during the Paleolithic, including Africa, Asia, Australia, and Europe, and chronological coverage spans from the Early to Late Pleistocene.

Science Research and Education in Africa Oct 23 2021 For various economic and political reasons, many African countries lag behind the rest of the industrialised world in scientific and medical research and development. However, the presence of intellectual islands scattered across the continent gives hope that this is only a transient situation on the cusp of undergoing a profound and beneficial change. For this reason, the Society for the Advancement of Science in Africa was established to catalyse and contribute to this needed evolution. Its mission is to contribute to Africa's economic advancement and sustainability through science research, education and innovation. This book provides a selection of papers from the Advancement of Science in Africa's third annual conference. The conference was held under the overarching theme of 'science research and education in Africa', with several important sub-themes, including but not limited to: improving health research and disease surveillance education; epidemic diseases with high mortality; promoting women's interest in science careers; fostering youth development with science education. The collection illustrates how although the chapter contributors come from various countries and universities, representing their own academic research, they all share a common interest in advancing science research and education in Africa.

God's Quad Oct 11 2020 An examination of the power and potential of Small Christian Communities for Catholic college students, this book offers case studies of best practices and practical tools to create effective communities for young adults, both within and beyond academic settings.

Higher Education Leadership and Governance in the Development of the Creative and Cultural Industries in Kenya Jan 26 2022 The role of higher education in establishing structures and procedures in society and industry is clearly articulated in scholarly discussions. The narrative has recently taken a new momentum in Kenya with acknowledgement of the creative industry involves many youth, as an area that impacts on the economy. In unravelling the link between higher education and industry, the authors focus on leadership and governance in higher education and its expected and perceived contribution to the shaping of the creative industry. Through analysis of cases, the authors interrogate the processes and structures that govern the teaching and practice of the creative subjects, noting how these affect the creative industry in Kenya. This book approaches the creative disciplines from the perspectives of the students, lecturers and university administrators. The three voices provide a balanced view of what higher creative arts education in Kenya is. The multiple authorship of the book further provides a balanced account of the development of these disciplines in higher education, and their growth in industry. The key concepts here are the development of the creative industry and how higher education should contribute to the same.

Handbook of Research on Learner-Centered Pedagogy in Teacher Education and Professional Development Feb 12 2021 Education in the 21st century is shifting focus from accessing and sharing information to designing active and collaborative learning environments which foster student engagement and critical thinking skills. Active learning features a hands-on, activity-based teaching approach during which students synthesize information and take joy in new discovery. The Handbook of Research on Learner-Centered Pedagogy in Teacher Education and Professional Development presents a comprehensive look into the methodologies and strategies necessary to establish classroom climates in which students feel free to question their preconceptions and express opinions. Featuring chapters from international researchers, this book is ideal for administrators, teachers, policy makers, and students of education.

The State and Nation-Building Processes in Kenya since Independence Jun 30 2022 Kenya's nationalism during the colonial period was marked by two main characteristics that feature in this book. First, the struggle for independence that was mainly characterized by the claim for land that had been taken away by the colonizers. Second was the struggle for autonomy and self-determination, mainly through political resistance. The authors in this book analyse historical trajectories of Kenya's nationalism trends while highlighting the role of political leaders, large as well as small ethnic groups, perennial conflicts, community as well as religious leaders, among others. The discussions demonstrate that quest for a national identity that is inclusive at all levels - whether politically, economically, religiously and ethnically - has marked Kenya's struggle for nationalism, sometimes leading to violence, especially during election periods, national unity through political coalitions and reconciliation, as well as institutional reforms. In conclusion, the authors demonstrate that while Kenya is gradually advancing towards national cohesion, there are still many challenges yet to be surmounted.

Kenya Past and Present Nov 04 2022

Handbook of Research on Diversity and Social Justice in Higher Education Jul 28 2019 There is growing pressure on teachers and faculty to understand and adopt best practices to work with diverse races, cultures, and languages in modern classrooms. Establishing sound pedagogy is also critical given that racial, cultural, and linguistic integration has the potential to increase academic success for all learners. To that end, there is also a need for educators to prepare graduates who will better meet the needs of culturally diverse learners and help their learners to become successful global citizens. The Handbook of Research on Diversity and Social Justice in Higher Education is a cutting-edge research book that examines cross-cultural perspectives, challenges, and opportunities pertaining to advancing diversity and social justice in higher education. Furthermore, the book explores multiple concepts of building a bridge from a monocultural pedagogical framework to cross-cultural knowledge through appropriate diversity education models as well as effective social justice practices. Highlighting a range of topics such as cultural taxation, intercultural engagement, and teacher preparation, this book is essential for teachers, faculty, academicians, researchers, administrators, policymakers, and students.

Shared Waters, Shared Opportunities May 18 2021 The importance of watercourses to human life and development cannot be overemphasised. From communication, trade, agriculture and the location of human settlements, they have played an immeasurable role. Almost 60% of Africa lies within shared rivers and lake basins. The Nile is shared by more than seven nations, the Zambezi by six, and the Congo by nine. With populations on the rise, many countries have been labeled 'water scarce' nations, and in fifteen years it is predicted that many people on earth will be exposed to water shortage consequences such as famine and disease. Thirteen African nations already suffer 'water stress' and soon another twelve will join the list unless something is done to thwart the problem. On March 20, 2009 in Nairobi, Hekima College collaborated with Jesuit Hakimani Centre and the French Institute for Research in Africa (IFRA) to host the Hekima College Water Day Academic Seminar with the theme 'Shared Waters, Shared Opportunities'. This book is the result of critical research and presentations by internationally renowned scholars, researchers and experts, and students of the Institute of Peace Studies and International Relations, Hekima College. For most of 2009 Kenya suffered severe problems caused by flooding which took many lives and destroyed homes and important infrastructures. It highlighted the issues of water management and water conflicts, not only in Kenya but in other parts of East Africa, as it was made abundantly clear that not only scarcity of water, but excess water, incorrectly managed, can be disastrous. This timely, scholarly book presents discussions of the issues which underlie the major water crises in the region. They open the debate into the water problems of Kenya and East Africa in an effort to join the global campaign to find solutions to these difficulties.

Kenya National Assembly Official Record (Hansard) Jun 18 2021 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya, the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya.

Majimbo in Kenya's Past Sep 29 2019 Advocacy for federalism in Kenya emerged amidst World War II and its aftermath. The rapidly changing political, economic, and social environment in Great Britain and British colonies in Africa formed the background for uncertainty and concern for the future among Kenya's European settler minority. Federalism's appeal came forth among a portion of the European community and some of the colonial rulers who were concerned about a post-war world that seemed certain to bring far reaching changes in Britain's most important East African dependency. These included democratization, the extension of civil liberties, increased economic opportunities for the African majority, and social integration leading to eventual decolonization. European anxiety as to the impact of such changes on their privileged political, economic and social status produced advocacy for majimbo or a federal system of governance between 1940 and 1960. This advocacy for federalism emerged in a colonial political system defined by a racially differentiated electorate with separate representative systems and voting by racially defined groups. The European minority in Kenya enjoyed pride of place in 1945, but demands for greater political participation from the larger Asian and African communities and the British government's support for a sharing of power among Kenya's racial group placed Kenya's Europeans on the defensive. The declaration of a state of Emergency in Kenya in October 1952 and the outbreak of the Mau Mau war/rebellion added to European concerns and uncertainties that provided powerful fuel for federalist ideas throughout the rest of the decade. For example, the political reforms pushed by the British government and the colonial state in response to the war/rebellion provoked enhanced calls for federalism among the vocal minority among the European community. Federalism remains a controversial topic in Kenyan history and in contemporary Kenya. In the current century, federal advocacy has been viewed by scholars and public as responsible for outbreaks of pre- and post-election violence. The movers and motives of federal advocates is also a subject that provokes strong opinions as they have often been viewed as racists or tribalists. It is thus important to examine and analyze the movers of majimbo, their motives,

the shape and substance of their schemes, and the reasons for their lack of success in moving late colonial Kenya to adopt a federal system. This book demonstrates that the decade of the 1950s was the high water point for federalism in Kenyan history. Finally, it is critical to closely review that decade's federalist advocacy in light of Kenya's adoption of a federal scheme of governance with the 2010 constitution. This is the first detailed study of federalism in Kenya during the 1940s and 1950s that provides important grounding and background for the understanding of the later emergence of majimbo in the independence era (1961-1963) and later. The book identifies the movers of federalism during the period of study as well as providing in-depth analysis of the political parties they used to promote provincial autonomy and evolution plans. These include the Federal Independence Party, the Progressive Local Government Party, and the United Party. The analysis reveals that the movers backed majimbo as a defensive mechanism. They hoped it would serve as a means of protecting and perpetuating white privilege in terms of political dominance, segregated schools and public facilities, and, most of all, exclusive European control of a large portion of the colony's productive farm land, the white highlands. *Majimbo in Kenya's Past* is an important book for African studies, history, and politics.

A Worldly Christian Nov 11 2020 Stephen Neill (1900-1984) was a towering figure of twentieth-century global Christianity, but was in many ways a broken man who faced profound and crippling struggles. *A Worldly Christian* charts the extraordinary but often tragic life of a global Christian pioneer par excellence in a church that diversified dramatically during his lifetime. Privileged to live in radically different cultural contexts over the course of his life, Neill excelled by turns as a missionary and bishop in India, an ecumenist in Geneva, a professor in Hamburg and Nairobi, and a prolific author of some seventy books and hundreds of articles upon his retirement to the UK. Throughout this varied career, he shared his tremendous knowledge of the world Christian movement with scholars, clergy and laypersons alike. Many will find his story compelling, from Christian scholars to all those who have cherished his influential body of work and benefit from his legacy.

Democracy, Elections, and Constitutionalism in Africa Apr 16 2021 This volume examines democracy and elections in Africa, taking stock of the state of constitutional democracy on the continent after the democratic gains of the 1990s and 2000s, focusing on how competitive politics or multiparty democracy can be realized and how, through competition, such politics could lead to better policy and practice outcomes.
