To Kill A Mockingbird Sep 29 2019 THE ORIGINAL TEXT 'Shoot all the Bluejays you want, if you can hit 'em, but remember it's a sin to kill a Mockingbird.' Atticus Finch gives this advice to his children as he defends the real mockingbird of this classic novel - a black man charged with attacking a white girl. Through the eyes of Scout and Jem Finch, Lee explores the issues of race and class in the Deep South of the 1930s with compassion and humour. She also creates one of the great heroes of literature in their father, whose lone struggle for justice pricks the conscience of a town steeped in prejudice and hypocrisy.

Argumentative Writing in a Second Language Nov 23 2021 Argumentative Writing in a Second Language is a collection on teaching argumentative writing, offering multiple vantage points drawn from the contributors' own teaching and research experiences. The value of learning how to compose argumentative texts cannot be overstated, and yet, very little attention has been allocated to the equally important topic of how argumentation is or can be taught in the L2 context. Thus, this volume shifts attention to teachers and argumentative writing instruction, especially within increasingly common multimodal and digital literacy settings. While doing so, it provides a comprehensive, wide-ranging view of the L2 argumentative writing landscape within an instructional lens. Part I of the volume is topic-oriented and focuses on explorations of important issues and perspectives, while Part II features several chapters reporting classroom-based studies of a variety of instructional approaches that expand our understanding of how argumentative writing can be taught. The book will be of value to pre-service and in-service teachers in varying instructional contexts, as well as

teacher educators and L2 writing scholars/researchers.

The Broadview Guide to Writing: A Handbook for Students - Sixth Edition Jan 02 2020 "Even the most useful reference guides are not always, well, shall we say, riveting. A refreshing exception is the new Broadview Guide to Writing, which is smart, helpful, and even fun to read." —Gerald Graff and Cathy Birkenstein, authors of They Say / I Say: The Moves That Matter in Academic Writing Key Features —A coil-bound reference text suitable for a range of introductory composition and writing courses —Divided into three sections: Writing Processes (including Research, Argumentation, and Style) Writing Mechanics (Grammar, Usage, and Punctuation) Writing Contexts (Writing in different academic disciplines, Forms and conventions, and citation) —Comprehensive treatment of citation style guides, with 2016 MLA style updates —Expanded treatment of research methods, argument structures, and writing in the workplace —A unique section on "How to Be Good With Words"—issues of gender, race, class, religion, sexual orientation, disability, etc. —Expanded coverage for those whose native language is not English —All-new chapter on reading images —Extensive companion website featuring interactive exercises Increasingly, writing handbooks are seen as over-produced and overpriced. One stands out: The Broadview Guide to Writing is published in an elegant but simple format, and sells for roughly half the price of its fancier-looking competitors. That does not change with the new edition: what does change and stay up-to-date is the content of the book. The sixth edition brings a substantial re-organization of the contents under three headings: Writing Processes, Writing Mechanics, and Writing Contexts. Coverage of APA, Chicago, and CSE styles of documentation has been substantially expanded, and the MLA section has now been fully revised to take into account all the 2016 changes. Also expanded is coverage of academic argument; of writing and critical thinking; of writing about literature, of paragraphing; of how to integrate quoted material into one's own work; of balance and parallelism; and of issues of gender, race, religion etc. in writing. The chapter "Seeing and Meaning: Reading (and Writing About) Visual Images" is entirely new to the sixth edition.

From Sentences to Essays: A Guide to Reflective Writing through Reflective Thinking Dec 13 2020 There is hardly any doubt that reading and writing are related activities, and that both rely on creating meaning. When we read, as well as when we write, we find ourselves in the process of becoming. We change our knowledge and understanding along the way. However, writing is a daunting activity not only for language learners but for anyone who wants to communicate their thoughts and ideas persuasively and accurately. When students engage in speaking activities, they are often able to communicate extraordinarily interesting ideas with few problems. Yet, when asked to form these ideas into coherent texts, they seem helpless. From basic sentence structure to writing persuasively, this book aims to help students tackle the various challenges and difficulties they face when writing. Divided into three accessible sections, Cogni presents a comprehensive and reflective approach to writing that combines grammar, vocabulary, and literature into a simultaneous and coherent whole. Cogni acknowledges that today more than ever learning a language needs to be perceived as a deeply meaningful process, and this book seeks to make that possible.

Writing about Diversity Sep 09 2020 Writing about Diversity: An Argument Reader and Guide has the dual purpose of linking instruction in argumentation and critical thinking with readings concerned with timely and controversial topic of multiculturalism. An important premise of this book continues to be that students write more effective argumentative essays when the topic is linked, at least initially, with their own experience. This text emphasizes that writing about any issue originates with the self and that it is difficult for students to formulate an opinion and develop a convincing these about a topic unless they first explore their own perspective on it. Although, Writing About Diversity also stress the importance of expanding student understanding by reading material from a variety of information sources -- magazines, journals, books, and material obtained over the Internet. An entire chapter is devoted to helping students develop effective strategies for reading and evaluating outside sources. With the skills they develop in writing essays about difficult subjects, the students will write more thoughtful, effective essays.

Understanding and Evaluating Research Apr 28 2022 Understanding and Evaluating Research: A Critical Guide shows students how to be critical consumers of research and to appreciate the power of methodology as it shapes the research question, the use of theory in the study, the methods used, and how the outcomes are reported. The book starts with what it means to be a critical and uncritical reader of research, followed by a detailed chapter on methodology, and then proceeds to a discussion of each component of a research article as it is informed by the methodology. The book encourages readers to select an article from their discipline, learning along the way how to assess each component of the article and come to a judgment of its rigor or quality as a scholarly report.

Teaching Writing in Chinese Speaking Areas Oct 11 2020 One of the most civilized nations in history, China has a long-standing writing tradition and many Chinese texts have become world treasures. However, the way the Chinese teach writing in various countries in contemporary times is little known to the outside world, especially in Western countries. Undoubtedly, the Chinese have had an established traditional method of writing instruction. However, recent social and political developments have created the perception amongst both practitioners and researchers of a need for change. Whilst certain socio-political changes, both in Mainland China and in the territories, acted as agents for reform of the teaching of composition, the shape these reforms are taking has been due to many different influences, coming both from inside the countries themselves and from foreign sources. Mainland China, Hong Kong, Taiwan and Singapore have each developed their own approach to the teaching of composition.

Teaching and Learning Argumentative Writing in High School English Language Arts Classrooms Jan 26 2022 Focused on the teaching and learning argumentative writing in grades 9-12, this important contribution to literacy education research and classroom practice offers a new perspective, a set of principled practices, and case studies of excellent teaching. The case studies illustrate teaching and learning argumentative writing as the construction of knowledge and new understandings about experiences, ideas, and texts. Six themes key to teaching argumentative writing as a thoughtful, multi-leveled practice for deep learning and expression are presented: teaching and learning argumentative writing as social practice, teachers' epistemological beliefs about argumentative writing, variations in instructional chains, instructional conversations in support of argumentative writing as deep learning and appreciation of multiple perspectives, contextualized analysis of argumentative writing, and the teaching and learning of argumentative writing and the construction of rationalities.

A Guide to Argumentative Research Writing and Thinking Mar 04 2020 Research is difficult. Even though students are trained in the basic research methodology skills, when confronted with research writing, it feels to them as if they enter a bizarre world, with its own language and conventions, where it is hard to get things right. This book translates the apparent complexities of research writing into everyday ideas, language and skills, and will enable novice researchers to start overcoming the major stumbling blocks immediately. This book focuses only on the greatest challenges in research writing, specifically those that supervisors find most difficult to explain to novice researchers. These challenges include both basic and more complex skills, such as: finding original research contributions; establishing one's voice while drawing on other authors; turning a vague idea into a feasible research question; generating literature reviews that are original in themselves; and avoiding list-like writing when discussing

the research methodology. Wentzel shows that it is easier to overcome these challenges, not with lists of prescriptions that are difficult to remember while writing, but rather by cultivating an argumentative mindset. Not only is such a mindset much easier to maintain, but it offers a central point around which one can organise any difficult writing task. The book shows how to use the argumentative mindset to approach every important writing challenge. It translates all the necessary skills into jargon-free language using a variety of visuals and simple step-by-step procedures that will enable any person to read the book quickly and start writing immediately. The book is accompanied by a website containing an instructor's manual with guidance on the teaching and assessment of research writing, as well as lecture slides.

The Made-Up Self Aug 09 2020 The human presence that animates the personal essay is surely one of the most beguiling of literary phenomena, for it comes across in so familiar a voice that it's easy to believe we are listening to the author rather than a textual stand-in. But the "person" in a personal essay is always a written construct, a fabricated character, its confessions and reminiscences as rehearsed as those of any novelist. In this first book-length study of the personal essay, Carl Klaus unpacks this made-up self and the manifold ways in which a wide range of essayists and essays have brought it to life. By reconceiving the most fundamental aspect of the personal essay—the I of the essayist—Klaus demonstrates that this seemingly uncontrived form of writing is inherently problematic, not willfully devious but bordering upon the world of fiction. He develops this key idea by explaining how structure, style, and voice determine the nature of a persona and our perception of it in the works of such essayists as Michel de Montaigne, Charles Lamb, E. B. White, and Virginia Woolf. Realizing that this persona is shaped by the force of culture and the impress of personal experience, he explores the effects of both upon the point of view, content, and voice of such essayists as George Orwell, Nancy Mairs, Richard Rodriguez, and Alice Walker. Throughout, in full command of the history of the essay, he calls up numerous passages in which essayists themselves acknowledge the element of impersonation in their work, drawing upon the perspectives of Joan Didion, Edward Hoagland, Joyce Carol Oates, Leslie Marmon Silko, Scott Russell Sanders, Annie Dillard, Vivian Gornick, Loren Eiseley, James Baldwin, and a host of other literary guides. Finally, adding yet another layer to the made-up self, Klaus succumbs to his addiction to the personal essay by placing some of the different selves that various essayists have called forth in him within the essays that he has crafted so carefully for this book. Making his way from one essay to the next with a persona variously learned, whimsical, and poignant, he enacts the palimpsest of ways in which the made-up self comes to life in the work of a single essayist. Thus over the course of this highly original, beautifully structured study, the personal essay is revealed to be more complex than many readers have supposed. With its lively analyses and illuminating examples, *The Made-Up Self* will speak to anyone who wishes to understand—or to write—personal essays.

The Writing Revolution Aug 28 2019 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

The Tipping Point Apr 04 2020 From the bestselling author of *The Bomber Mafia*: discover Malcolm Gladwell's breakthrough debut and explore the science behind viral trends in business, marketing, and human behavior. The tipping point is that magic moment when an idea, trend, or social behavior crosses a threshold, tips, and spreads like wildfire. Just as a single sick person can start an epidemic of the flu, so too can a small but precisely targeted push cause a fashion trend, the popularity of a new product, or a drop in the crime rate. This widely acclaimed bestseller, in which Malcolm Gladwell explores and brilliantly illuminates the tipping point phenomenon, is already changing the way people throughout the world think about selling products and disseminating ideas. "A wonderful page-turner about a fascinating idea that should affect the way every thinking person looks at the world." —Michael Lewis

Essay Writing Sep 02 2022 This book provides a comprehensive guide on the basics of essay writing. The first part goes through some of the fundamentals: what an essay actually is, different essay writing styles, the core elements of an essay, organizing, and planning. Going through these basics is integral to any essay writer; it will help establish the tone and structure of your writing, as well as provide for a more cohesive piece. The remainder of the book will outline the specifics of each essay genre. Firstly, we will explain the reason for the genre. Next, explain the elements of the genre. Common language and grammar associated with that particular essay will be explained. Finally, a complete essay example is included, which draws from all of the elements discussed in this guide.

The Purposeful Argument: A Practical Guide, Brief Edition Jul 28 2019 Emphasizing the practical and the local, THE PURPOSEFUL ARGUMENT: A PRACTICAL GUIDE, BRIEF EDITION, 2E effectively brings argument into real life with community-based writing activities, illustrating that the tools and skills of argument are critical to readers today-and well beyond. With a focus on accessibility, the text encourages students to argue in response to issues in a variety of environments-school, workplace, family, neighborhood, social-cultural, consumer, and concerned citizen-and learn how argument can become an essential negotiating skill in everyday life. It offers thorough treatments of Toulmin-based and Rogerian approaches to argument as well as teaches the value of fully understanding the opposition, the importance of aiming for the middle ground, and how to use a microhistory to forge an unconventional position. The only introduction to argument written with the today's diverse student body in mind, THE PURPOSEFUL ARGUMENT uses vivid explanations, detailed examples, and practical exercises to guide students step by step through the process of building an effective argument.
