The national forest Jun 22 2022 The National Forest project was established in 1995 with the aim of creating a new English forest across a 200 square mile area, embracing parts of Leicestershire, Staffordshire and Derbyshire. The National Forest's purpose is to increase woodland cover to a third of The National Forest area, whilst demonstrating sustainable, multi-purpose land use, including growing timber, providing leisure and tourism facilities and developing natural habitats. Key features of The National Forest are its linkage of previously isolated ancient woodlands and the establishment of new nature reserves, as well as the provision of a framework for farm diversification and the regeneration of former coalfields. It is delivering tangible environmental, economic and social benefits to an area of the Midlands - much of which was suffering economic and environmental decline - through planting trees to create new woods and forests. Its achievement is not so much in trebling the proportion of land with tree cover to 18 per cent, but that, in so doing, it has helped to regenerate the local economy, open up the Forest to greater public use and improve the natural environment. The success has been built on the commitment and skills of all the partner organisations, and The National Forest Company has played a crucial leadership role to enable the project to deliver effectively the multiple benefits of forestry. There needs to be a systematic approach to disseminating the company's experiences so that lessons learned can be exploited across England.

Learning to Teach Science in the Secondary School Jan 17 2022 Learning to Teach Science in the Secondary School is an indispensable guide with a fresh approach to the process, practice and reality of teaching and learning science in a busy secondary school. This fourth edition has been fully updated in the light of changes to professional knowledge and practice and revisions to the national curriculum. Written by experienced practitioners, this popular textbook comprehensively covers the opportunities and challenges of teaching science in the secondary school. It provides guidance on: • the knowledge and skills you need, and understanding the science department at your school • development of the science curriculum • the nature of science and how science works, biology, chemistry, physics and astronomy, earth science • planning for progression, using schemes of work to support planning, and evaluating lessons • language in science, practical work, using ICT, science for citizenship, Sex and Health Education and learning outside the classroom • assessment for learning and external assessment and examinations Every unit includes a clear chapter introduction, learning objectives, further reading, lists of useful resources and specially designed tasks - including those to support Masters Level work - as well as cross-referencing to essential advice in the core text Learning to Teach in the Secondary School, sixth edition. Learning to Teach Science in the Secondary School is designed to support student teachers through the transition from graduate scientist to practising science teacher, while achieving the highest level of personal and professional development.

The Commonwealth Yearbook 2014 Apr 27 2020 The Commonwealth Yearbook is the flagship annual publication of the Commonwealth Secretariat. It is the essential reference guide to the countries, organizations, activities and values of the modern Commonwealth. The 2014 edition has been fully updated and includes reports from the 2013 Commonwealth Heads of Government Meeting; a directory of Commonwealth organizations; and extensive reference sections; and in-depth profiles on each of the 53 member countries.

Sport Development in the United States Dec 16 2021 The development of both elite, high performance sport and mass participation, grassroots-level sport are central concerns for governments and sports governing bodies. This important new study is the first to closely examine the challenges and opportunities for sports development in the United States, a global sporting giant with a unique, market-driven sporting landscape. Presenting an innovative model of integrated sports development, the book explores the inter-relationship between elite and mass sport across history, drawing on comparative international examples from Australia to the former USSR and Eastern bloc countries. At the heart of the book is an in-depth empirical study of three (traditional and emerging) sports in the US - tennis, soccer and rugby - that offer important lessons on the development of elite sport, methods for increasing participation, and the establishment of new sports in new markets. No other book has attempted to model sports development in the United States in such depth before. Therefore this should be essential reading for all students, researchers, administrators or policy-makers with an interest in sports development, sports management, sports policy, or comparative, international sport studies.

Combinatorial Optimization and Applications Sep 01 2020 This book constitutes the refereed proceedings of the 4th International Conference on Combinatorial Optimization and Applications, COCOA 2010, held in Kailua-Kona, HI, USA, in December 2010. The 49 revised full papers were carefully reviewed and selected from 108 submissions.

Digital Diplomacy Sep 20 2019 This book analyses digital diplomacy as a form of change management in international politics. The recent spread of digital initiatives in foreign ministries is often argued to be nothing less than a revolution in the practice of diplomacy. In some respects this revolution is long overdue. Digital technology has changed the ways firms conduct business, individuals conduct social relations, and states conduct governance internally, but states are only just realizing its potential to change the ways all aspects of interstate interactions are conducted. In particular, the adoption of digital diplomacy (i.e., the use of social media for diplomatic purposes) has been implicated in changing practices of how diplomats engage in information management, public diplomacy, strategy planning, international negotiations or even crisis management. Despite these significant changes and the promise that digital diplomacy offers, little is known, from an analytical perspective, about how digital diplomacy works. This volume, the first of its kind, brings together established scholars and experienced policy-makers to bridge this analytical gap. The objective of the book is to theorize what digital diplomacy is, assess its relationship to traditional forms of diplomacy, examine the latent power dynamics inherent in digital diplomacy, and assess the conditions under which digital diplomacy informs, regulates, or constrains foreign policy. Organized around a common theme of investigating digital diplomacy as a form of change management in the international system, it combines diverse theoretical, empirical, and policy-oriented chapters centered on international change. This book will be of much interest to students of diplomatic studies, public diplomacy, foreign policy, social media and international relations.

Violent Offenders Oct 02 2020 Offenders convicted of violent crimes accounted for almost 15,000 (7.5%) of the federal inmate population in recent reports; and, despite the public's perception that the overall crime rate is down, there are indications that rates of violent crime may actually be increasing in certain geographic areas and populations. In response, forensic psychologists are increasingly being called upon to understand the causes of violence, predict violent behavior and the likelihood of recidivism, develop treatment programs, and even assist law enforcement in solving crimes. The assessment of violence is an ever-evolving field of study and the need for updated analysis of personality constructs, etiological links, corollary elements, and tools for violence prediction are of primary import. Violent Offenders addresses the numerous challenges and issues facing individuals working with this population and provides broad coverage regarding specific groups of violent perpetrators. It looks at a wide-range of topics and offending populations including violent children and adolescents, intimate partner violence, terrorism, sexually based crimes, gang violence, institutional violence, and violence perpetrated by police officers. Skillfully edited by Christina Pietz, a forensic psychologist, and Curtis Mattson, a clinical psychologist, this volume offers insight into current psychological theories of violence and addresses the links, both evident and assumed, between psychological disorders and violence. Chapters are authored by leaders in their fields and cover topics such as the psychiatric treatment of violent behavior, assessment and prediction of risk for future dangerousness, special considerations for ethical conduct, research considerations, and the etiological associations of violence with neurophysiology, substance abuse, and environment. Violent Offenders

will benefit clinicians and professionals working in correctional and forensic fields and is appropriate for use in clinical and counseling graduate programs that offer specialized training in correctional and/or forensic psychology and for courses in deviant behavior and setting-specific assessment.

Oswaal Karnataka PUE Solved Papers II PUC Biology Book Chapterwise & Topicwise (For 2023 Exam) Sep 25 2022 • Latest Solved Paper with Scheme of Valuation-2022. • Strictly as per the latest syllabus, blueprint & design of the question paper. • All Typologies-Objective, VSA, SA & Essay Types Questions • Previous Years' Exam (2011-2022) Questions with Scheme of Valuation • NCERT Textbook Questions fully solved • PUE Question Bank Fully solved • Revision notes, Mind Maps & Concept videos for clarity of Concepts.

Wielding Words like Weapons Jul 23 2022 *Wielding Words like Weapons* is a collection of acclaimed American Indian Movement activist-intellectual Ward Churchill's essays in indigenism, selected from material written during the decade 1995-2005. It includes a range of formats, from sharply framed book reviews and equally pointed polemics and op-eds to more formal essays designed to reach both scholarly and popular audiences. The selection also represents the broad range of topics addressed in Churchill's scholarship, including the fallacies of archeological and anthropological orthodoxy such as the insistence of "cannibologists" that American Indians were traditionally man-eaters, Hollywood's cinematic degradations of native people, questions of American Indian identity, the historical and ongoing genocide of North America's native peoples, and the systematic distortion of the political and legal history of U.S.-Indian relations. Less typical of Churchill's oeuvre are the essays commemorating Cherokee anthropologist Robert K. Thomas and Yankton Sioux legal scholar and theologian Vine Deloria Jr. More unusual still is his profoundly personal effort to come to grips with the life and death of his late wife, Leah Renae Kelly, thereby illuminating in very human terms the grim and lasting effects of Canada's residential schools upon the country's indigenous peoples. A foreword by Seneca historian Barbara Alice Mann describes the sustained efforts by police and intelligence agencies as well as university administrators and other academic adversaries to discredit or otherwise "neutralize" both the man and his work. Also included are both the initial "stream-of-consciousness" version of Churchill's famous—or notorious—"little Eichmanns" opinion piece analyzing the causes of the attacks on 9/11, as well as the counterpart essay in which his argument was fully developed.

Sustainable High Volume Road and Rail Transport in Low Income Countries May 29 2020 This Special Issue presents an in-depth analysis of transport research commissioned by the UK Department for International Development under the High Volume Transport Programme (2017-2023). The analysis done in the period 2018-2019 contributes to the UK response to improving transport in the low-income countries in Africa and South Asia. As a result, key priorities have been identified for applied research in 2020 to make road, rail and urban transport more efficient and affordable, and all transport greener, safer and more inclusive for all users. This applied research is a vital link in making transport a sustainable lifeline for people in low-income countries, because transport gives farmers and manufacturers access to domestic and international markets and people in rural and urban areas access to schools and health services.

Flourishing in Emerging Adulthood Apr 20 2022 *Flourishing in Emerging Adulthood* highlights the third decade of life as a time in which individuals have diverse opportunities for positive development. There is mounting evidence that this time period, at least for a significant majority, is a unique developmental period in which positive development is fostered. Dr. Lene Arnett Jensen highlights the importance of this work in an engaging foreword, and chapters are written by leading scholars in diverse disciplines who address various aspects of flourishing. They discuss multiple aspects of positive development including how young people flourish in key areas of emerging adulthood (e.g., identity, love, work, worldviews), the various unique opportunities afforded to young people to flourish, how flourishing might look different around the world, and how flourishing can occur in the face of challenge. Most chapters are accompanied by first-person essays written by a range of emerging adults who exemplify the aspect of flourishing denoted in that chapter and make note of how choices and experiences have helped them transition to adulthood. Taken together, this innovative collection provides rich evidence and examples of how young people are flourishing as a group and as individuals in a variety of settings and circumstances. This unique resource will be useful to students, faculty, professionals, clinicians, and university personnel who work with young adults or who study development during emerging adulthood.

Science and Service Learning Nov 15 2021 "The goal of Volume VII of Research in Science Education is to examine the relationship between science inquiry and service learning. Its primary intent is to bridge the gaps between research and practice. The volume is meant to be useful to science and service-learning researchers and practitioners such as teachers and administrators because it provides information about strategies to integrate service-learning into the science curriculum and instruction."--Publisher's website.

Using Debate in the Classroom Feb 18 2022 Debate holds enormous potential to build 21st century skills such as critical thinking, communication, collaboration, and conflict resolution in the K-12 classroom, but teachers often struggle to implement and contextualize it effectively. *Using Debate in the Classroom* draws on research from a variety of academic disciplines to explain the benefits of debate across subject areas, and describes how teachers can use debate to enliven their curriculum and support the aims of the Common Core. Topics include: Introducing debate as a pedagogical practice to engage students, improve school culture, and disrupt the school to prison pipeline. Using debate to teach critical literacy and improve students' reading, writing, and speaking skills. Implementing role-playing techniques to strengthen information literacy and reasoning skills. Building students' empathy, perspective-taking skills, and cultural humility as they confront difficult social issues through debate. Appendices provide a variety of tools to assist K-12 teachers in implementing debate in the classroom, including ready-made debate activities, student handouts, and a step-by-step guide to introducing students to debate in just one week.

Document Image Processing Mar 19 2022 This book is a printed edition of the Special Issue "Document Image Processing" that was published in *J. Imaging*

Making Classroom Discussions Work Dec 24 2019 For the past 2 decades, the field of social studies education has seen an increase in research on the use of discussions as an essential instructional technique. This book examines the importance of using quality dialogue as a tool to help students understand complex issues in social studies. This edited volume provides a collection of well-known, evidence-based discussion techniques, as well as classroom examples showing the methods in use. While using discussion as an instructional method is widely considered a best practice of civic learning, actual high-quality discussions are rare and notoriously difficult to facilitate. *Making Classroom Discussions Work* is designed to guide teacher educators and classroom teachers in facilitating equitable and productive discussions that will boost learning and democratic engagement. **Book Features:** Emphasizes the rationale for using discussion in social studies teaching. Collects strategies that have been proposed in disparate journal articles and books in one convenient volume. Presents research-based challenges and supports for conducting and assessing discussions in the social studies. Includes methods and tips to help teachers make discussions more equitable in their classrooms. **Privacy Technologies and Policy Mar 27 2020** This book constitutes the thoroughly refereed post-conference proceedings of the Third Annual Privacy Forum, APF 2015, held in Luxembourg, Luxembourg, in October 2015. The 11 revised full papers presented in this volume were carefully reviewed and selected from 24 submissions. The topics focus on privacy by design (PbD), i.e. the attempt to combine technical and organizational measures to ensure the basic rights of the individual. The papers are organized in three sessions: measuring privacy; rules and principles; legal and economic perspectives on privacy.

Formal Approaches in Categorization Oct 26 2022 The process of constructing concepts underpins our capacity to encode information in an efficient and competent manner and also, ultimately, our ability to think in terms of abstract ideas such as justice, love and happiness. But what are the mechanisms which correspond to psychological categorization processes? This book unites many prominent approaches in modelling categorization. Each chapter focuses on a particular formal approach to categorization, presented by the proponent(s) or advocate(s) of that approach, and the authors consider the relation of this approach to other models and the ultimate objectives in their research programmes. The volume evaluates progress that has been made in the field and where it goes from here. This is an essential companion to any scientist interested in the formal description of categorization and, more generally, in formal approaches to cognition. It will be the definitive guide to formal approaches in categorization research for years to come.

Professional Development and Capacity Building of Teacher Educators Oct 22 2019 This report-cum-monograph is for the project titled Professional Development and Capacity Building of Teacher Educators (through ICT) sponsored by MHRD of Government of India. The title has significance with respect to its need, importance and activities held. The current report is for the period February, 2014 - March, 2015. The project coordinator and chief investigator is Mr. Vinod Kumar Kanvaria. He was assisted by projects assistant Mr. B. S. Rawat. This project gave hands on experience to participants, who participated and came from different parts of the country. This equipped them with professional development and capacity building of themselves for learning, teaching, evaluation, paper writing, etc. by using ICT. Rationale of the project suits to the need of the hour in this ICT era. The project was spread over two academic years. It began in session 2013-14 and completed in 2014-15. A National Level Workshop was held in the second phase, which was a great success. Schedule for this workshop was spread over five days and was highly dense to give participants maximum possible opportunity to accelerate in almost all the areas of education for professional development and capacity building through hands on experience and exposure to the best available resources and the team of possibly the best of experts available in this field. As a whole, this project was a great success to achieve its objectives and rationale.

Oswaal CBSE Question Bank Chapterwise & Topicwise Solved Papers Class 12, Mathematics (For 2021 Exam) Feb 24 2020 Some of the key benefits of studying from Oswaal Question Banks are: • Chapter-wise/ Topic-wise presentation for systematic and methodical study • Strictly based on the latest CBSE Curriculum issued for Academic Year 2020-2021, following the latest NCERT Textbook and Exemplar • Previous Years' Question Papers with Marking Scheme & Toppers' Answers for exam-oriented study • Remembering, Understanding, Application, Analysing & Evaluation and Creation Based Question based on Bloom's Taxonomy for cognitive skills development • Latest Typologies of Questions developed by Oswaal

Editorial Board included • Mind Maps in each chapter for making learning simple • 'Most likely Questions' generated by Oswaal Editorial Board with 100+ years of teaching experience • Suggested videos at the end of each chapter for a Hybrid Learning Experience IMPORTANT FEATURES OF THE BOOK: Self-Study Mode • Chapter wise/Topic wise Previous Years' Board Examination Questions to facilitate focused study • Latest Board solved paper along with Marking Scheme and Handwritten Topper's Answers for practice Exam Preparatory Material • Answers of CBSE Marking Scheme up to March 2019 Exam with detailed explanations to score full marks in exams • Answering Tips & Commonly Made Errors for clearer thinking All-In-One • Revision notes, Mind Maps & Grammar charts facilitate quick revision of chapters • NCERT & Oswaal 150+ concept videos for digital learning

Handbook of Research on Teacher Practices for Diverse Writing Instruction Sep 13 2021 The art and practice of writing is complex and multidimensional; students often apply unique writing styles. As such, educators must apply focused teaching methods to nurture these unique forms of writing. Educators must stay up to date with the practices for diverse writing instruction in order to best engage with a diverse classroom. However, resources related to writing typically do not focus on the depth and breadth of writing, and there is a need for a resource that offers a comprehensive look at diverse writing instruction research. The Handbook of Research on Teacher Practices for Diverse Writing Instruction provides a rich discussion of the issues, perspectives, and methods for writing instruction currently in use, with an added lens focusing on diversity and equity. It provides unique coverage on the topic of writing instruction for practical implementation within the classroom setting. Covering topics such as student motivation, curriculum development, and content area instruction, this major reference work is an essential resource for preservice teachers, faculty and administration of K-12 and higher education, academic libraries, government officials, school boards, researchers, and academicians.

United States of America Congressional Record, Proceedings and Debates of the 113th Congress Second Session Volume 160 - Part 4 May 21 2022 Focus On: 100 Most Popular Real Madrid C.F. Players Mar 07 2021

Social, Cultural, and Behavioral Modeling Nov 22 2019 This book constitutes the proceedings of the 13th International Conference on Social, Cultural, and Behavioral Modeling, SBP-BRIMS 2020, which was planned to take place in Washington, DC, USA. Due to the COVID-19 pandemic the conference was held online during October 18-21, 2020. The 33 full papers presented in this volume were carefully reviewed and selected from 66 submissions. A wide number of disciplines are represented including computer science, psychology, sociology, communication science, public health, bioinformatics, political science, and organizational science. Numerous types of computational methods are used, such as machine learning, language technology, social network analysis and visualization, agent-based simulation, and statistics.

Leading from the North Aug 12 2021 Leading from the North aims to improve public dialogue around the future of Northern Australia to underpin robust and flexible planning and policy frameworks. A number of areas are addressed including social infrastructure, governance systems, economic, business and regional development, climate and its implications, the roles and trends in demography and migration in the region. This book not only speaks to the issues of development in Northern Australia but also other regional areas, and examines opportunities for growth with changing economies and technologies. The authors of this book consist of leading researchers, academics and experts from Charles Darwin University, The Australian National University, James Cook University, the Australian Institute of Marine Science and many other collaborative partners. Many of the authors have first-hand experience of living and working in Northern Australia. They understand the real issues and challenges faced by people living in Northern Australia and other similar regional areas. Backed by their expertise and experience, the authors present their discussions and findings from a local perspective.

Getting to Grips with BIM Aug 24 2022 With the UK government's 2016 BIM threshold approaching, support for small organisations on interpreting, filtering and applying BIM protocols and standards is urgently required. Many small UK construction industry supply chain firms are uncertain about what Level 2 BIM involves and are unsure about taking first steps towards having BIM capability. As digitisation, increasingly impacts on work practices, Getting to Grips with BIM offers an insight into an industry in change supplemented by practical guidance on managing the transition towards more widespread and integrated use of digital tools to manage the design, construction and whole life use of buildings. **Armenian Philology in the Modern Era Jun 17 2019** Armenian Philology in the Modern Era: From Manuscripts to the Digital Text provides an overview of the main achievements of philology when applied to Armenian sources and on the methodological approaches implemented in this field up to the present.

Advances in Construction ICT and e-Business Jul 19 2019 This internationally conducted study of the latest construction industry practices addresses a broad range of Information and Communication Technology applications. Drawing on research conducted in the US and UK, this book presents the state of the art of various ebusiness processes, and examines BIM, virtual environments and mobile technologies. Innovation is a theme that runs throughout this book, so in addition to the direct impact of these new technical achievements, it also considers the management styles that helped them to emerge. Examples from industry are illustrated with case studies and presented alongside research from some of the best known academics in this field. This book is essential reading for all advanced students and researchers interested in how ICT is changing construction management and the construction industry.

Defending Human Rights and Democracy in the Era of Globalization May 09 2021 The era of technology in which we reside has ushered in a more globalized and connected world. While many benefits are gained from this connectivity, possible disadvantages to issues of human rights are developed as well. Defending Human Rights and Democracy in the Era of Globalization is a pivotal resource for the latest research on the effects of a globalized society regarding issues relating to social ethics and civil rights. Highlighting relevant concepts on political autonomy, migration, and asylum, this book is ideally designed for academicians, professionals, practitioners, and upper-level students interested in the ongoing concerns of human rights.

Lesson Planning Tweaks for Teachers Aug 20 2019 Lesson planning is a requirement of every teacher. Whether you are planning your day-to-day lessons or a formal observation, planning is a skill that can be refined and improved to ensure your workload is manageable and your lessons exceptional. Aimed at committed and reflective teachers who want to develop their practice, this book introduces Tweaks for Teachers: small changes that make a big difference! It encourages you to review your current lesson planning practice and develop lessons that enable students to make outstanding learning gains. The book focuses on making practical, small changes that, over time, can make a real difference to the quality of learning and teaching in the classroom. Organised around real lesson snippets and full lesson plans covering every secondary subject, the book focuses on the key areas you need to plan for every lesson: assessment for learning, questioning, stretch and challenge and commitment to learning, as well as covering the importance of developing a good marking practice. Real examples of successful lessons are provided as well as a commentary of missed opportunities and practical 'tweaks' that could be made to improve students' learning and to develop outstanding teaching. This format means that the book is not only useful to those teachers wanting to develop their practice, but it is also a really useful training tool for those with responsibility for training new teachers or devolving a school's CPD provision. Lesson Planning Tweaks for Teachers takes a highly original approach to improving your lesson planning. Mel and Debbie's down to earth and accessible style will help every secondary teacher, whatever your level of experience, to make the planning process more meaningful and manageable, and one that leads to outstanding progress over time. Follow them on Twitter today for daily tips: @TeacherTweaks

Local Government and Urban Governance in Europe Nov 03 2020 This book discusses innovative responses and reforms developed in critical areas of urban governance in European countries. It examines the impact of European Union's policies on the urban agenda and on local governance, and the impact of the transition to democracy in Central and in Southern Europe on local self-government systems. The book is divided into three parts: i) Crisis, Reform and Innovation in Local Government; ii) EU Policies, the Urban Agenda and Local Governance; and iii) Citizen Participation in Local Government. Providing an extensive and updated overview of key challenges in the governance of cities in Europe, the book will be of interest to students and researchers in the broader field of urban studies, and for policy-makers, especially those engaged in urban governance in European countries. /div

Focus On: 100 Most Popular Expatriate Footballers in Spain Feb 06 2021

Arvo Pärt's White Light Oct 14 2021 The first substantial volume in English to explore the impact of Arvo Pärt on contemporary music and culture. **Clinical Nurse Leaders Beyond the Microsystem Jul 11 2021** Clinical Nurse Leaders Beyond the Microsystem: A Practical Guide, Fourth Edition is a core resource for CNLs which imparts the competencies necessary to lead improvement teams, analyze data, and ensure delivery of quality, safety, and value-based care in any healthcare setting.

Handbook of Community Movements and Local Organizations in the 21st Century Jun 10 2021 This new handbook builds on The Handbook of Community Movements and Local Organizations published in 2007, and is the only resource defining the field of study related to small nonprofit organizations and to studying communities from the standpoint of associations that make up communities. It explores the history and conceptualizations of community, theoretical concepts in community organizations, social movements ranging from health to crime, and community practice methods. Further it provides authoritative statements of major theory areas, gives examples of different sub areas of the field, provides guidance to people working as practitioners in the field, and nicely coincides with the increasing interest in clinical sociology. This handbook is of great interest to academics, students and practitioners with an interdisciplinary resource to understand and collaborate in work with contemporary communities.

What levels of explanation in the behavioural sciences? Jul 31 2020 Complex systems are to be seen as typically having multiple levels of organization. For instance, in the behavioural and cognitive sciences, there has been a long lasting trend, promoted by the seminal work of David Marr, putting focus on three distinct levels of analysis: the computational level, accounting for the What and Why issues, the algorithmic and the

implementational levels specifying the How problem. However, the tremendous developments in neuroscience knowledge about processes at different scales of organization together with the complexity of today cognitive theories suggest that there will hardly be only three levels of explanation. Instead, there will be many different degrees of commitments corresponding to the different granularities - from high-level (behavioural) models to low-level (neural and molecular) models of the cognitive research program. For instance, Bayesian approaches, that are usually advocated for formalizing Marr's computational level and rational behaviour, have even been adopted to model synaptic plasticity and axon guidance by molecular gradients. As a result, we can consider the behavioural scientist as dealing with models at a multiplicity of levels. The purpose of this Research Topic in Frontiers in Theoretical and Philosophical Psychology is to promote an approach to the role of the levels and explanation and models which is of interest for cognitive scientists, neuroscientists, psychologists, behavioural scientists, and philosophers of science.

Global Constitutionalism and the Path of International Law Dec 04 2020 Global Constitutionalism and the Path of International Law offers an account of the most important growth and features of international law in the form of global constitutionalism. This book demonstrates how global constitutionalism is shaping the path of international law.

Management Consultancy and the British State Jan 25 2020 This book traces the emergence and development of the relationship between management consultancies and the British state. It seeks to answer three questions: why were management consultants brought into the machinery of the state; how has state power been impacted by bringing profit-seeking actors into the machinery of the state; and how has the nature of management consultancy changed over time? The book demonstrates the role consultants played in major developments in the postwar period. Specific case studies interrogate how consultancies influenced the policy fields of health service reform and social security benefits. This book will redefine debates amongst business historians and historians of the postwar British state about the nature of management consultancy and public sector reform.

Bureaucracy and Society in Transition Jun 29 2020 Despite criticism of inefficiencies and unlimited growth, bureaucracies still fill crucial positions in modern societies. This volume examines 'varieties in bureaucracies' across Europe, with a specific focus on the Nordic region.
