Bring Me Men Jul 01 2022 The masculinity of those who serve in the American military would seem to be beyond reproach, yet it is full of contradictions. To become a warrior, one must renounce those things in life that are perceived to be unmasculine. Yet at the same time, the military has encouraged and even mandated warriors to do exactly the opposite. With the expansion of America's overseas ambitions after 1898, warriors have been compelled to cultivate aspects of themselves which under any other circumstances would seem unmasculine. The creation of a masculine armed force therefore has required a surprising degree of engagement with the unmasculine while, at the same time, requiring warriors to maintain a strict disavowal of those very same unmasculine things against which they define themselves. In *Bring Me Men*, Aaron Belkin explores these contradictions in great detail and shows that their invisibility has been central to the process of concealing American empire's nastiest warts. Maintaining the warrior's heroic image has involved displacing negative aspects of military masculinity's contradictions onto demonized outcasts, especially women, gay men and lesbians, and African Americans. Ironically, these scapegoats of military masculinity have not distanced themselves from the armed forces, but have stabilized the benign facade of empire as they sought to gain admittance to the community of warriors. By examining case studies that expose these contradictions—the phenomenon of male-on-male rape at the U.S. Naval Academy, for example, as well as historical and contemporary attitudes toward cleanliness and filth—Belkin utterly upends our understanding of the relationship between warrior masculinity and American empire and the fragile processes sustaining it.

Can't Hurt Me Sep 30 2019 New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring *Outside* magazine to name him The Fittest (Real) Man in America. In this curse-word-free edition of *Can't Hurt Me*, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

Bring Me Men and Women Aug 10 2020 Women's integration into the military academies afforded an almost unique opportunity to study social change. It was a tidy, well-defined natural experiment. The Air Force Academy was willing to permit the kind of external scrutiny that afforded an objective account of the facts of the first year of integration. For sixteen months the academy allowed the author to interview freely and repeatedly all persons concerned with planning and implementing women's admission. Working as a historian (with individuals and documents rather than with questionnaires), Stiehm tells the report of this first year as fully and as accurately as possible.
