Arrows Tipped with Honey Aug 24 2022 Four misfit friends and 50,000 bees against the might of the Citadel. 2020 Royal Dragonfly Book Award Winner. Exiled in the Forest, Mielitta, Queen of the Warrior Bees, could be happy but for her responsibilities to the very people who think her a freak and a traitor. Her hopes for change in the Perfect society of the Citadel rest on one man. Trapped in a society he loathes and fears, Mage Smith Kermon's mission becomes a test of survival. Can he remain loyal to Mielitta in the double life he leads as her spy in the Citadel? He is quickly embroiled in deceit and subterfuge, forcing him into actions that make him doubt himself and everything he values. Nobody can be trusted. Least of all the Mages bound to Mielitta's treaty by blood oath. When the dead don't stay dead, a broken oath could be Mielitta's doom. Block Nature out and she'll force a way in. Book 2 but stands alone, in an award-winning series. 2020 Kindle Book Awards Finalist, 2019 Wishing Shelf Awards Finalist 'Jean Gill's Natural Forces series offer a rich, strange, and alluring adventure that buzzes with intrigue and nature.' World War II Soviet Armed Forces (2) Oct 14 2021 In this second volume of a three-part series on the Soviet Armed Forces in World War II, author Nigel Thomas turns his attention to the mid-war period. Focusing on the uniforms and organization of Soviet troops during the campaigns of the Caucasus, Stalingrad and Kursk, this book offers a detailed breakdown of all the armed forces which conducted the valiant defensive campaigns, including the army, air force, paratroopers, navy and NKVD troops. It also covers equipment and insignia and the changes brought about by the new regulations of 1943. *Santilli's Isotopies of Contemporary Algebras, Geometries, and Relativities* Dec 24 2019

US Army Air Force (2) Mar 27 2020 While the most conspicuous components of the US Army Air Forces in World War II were the air units, there were also hundreds of ground units and organisations. Besides assigned military personnel the AAF also employed thousands of civilians. Many unique outfits were designed to meet the AAF's special needs. Uniformed civilians also possessed a variety of unique uniforms and insignia. These general issue and specific uniforms are the subject of this volume by one of Osprey's most experienced authors, Gordon L. Rottman, whose detailed text is backed by plenty of contemporary photographs and 12 full page colour plates by Francis Chin.

The Nature of Code May 09 2021 How can we capture the unpredictable evolutionary and emergent properties of nature in software? How can understanding the mathematical principles behind our physical world help us to create digital worlds? This book focuses on a range of programming strategies and techniques behind computer simulations of natural systems, from elementary concepts in mathematics and physics to more advanced algorithms that enable sophisticated visual results. Readers will progress from building a basic physics engine to creating intelligent moving objects and complex systems, setting the foundation for further experiments in generative design. Subjects covered include forces, trigonometry, fractals, cellular automata, self-organization, and genetic algorithms. The book's examples are written in Processing, an open-source language and development environment built on top of the Java programming language. On the book's website (<http://www.natureofcode.com>), the examples run in the browser via Processing's JavaScript mode.

X-Force Vol. 2 Aug 12 2021 Collects X-Force (2018) #6-10. The time stream is in danger...again! A younger version of Cable came back from the future to save his timeline, but he wasn't the only one to make the journey. Now Cable's clone Stryfe and his Mutant Liberation Army will do anything to protect their future and destroy the Clan Askani. Who will X-Force stand with? Will they end up trapped in the future? With the timeline in flux, what kind of future is it? The clock is ticking as Rachel Summers makes her return! But with Rachel under Stryfe's control he and the Mutant Liberation Army now have the power to secure their future at the cost of everyone else's. Will Cable and X-Force be able to stop him — or will time be forever altered?

Gemini Force I: Ghost Mine Jun 10 2021 Ben Carrington's dream has become a reality: he's finally a member of Gemini Force. But, still suffering from the deaths of his parents, it's a bitter-sweet triumph. When news reaches GF1 of a gang of illegal 'ghost' miners trapped after a South African mining disaster, Ben is glad to spring into action with the team. But it soon emerges that the company, Auron, doesn't want its miners found. Ben must work out who to trust if he's to ensure that Gemini Force pulls off its most difficult mission yet . . . Impossible rescues. Maximum risk. This is Gemini Force 1.

The Rescue Mission: Special Forces #2 Oct 26 2022 Award-winning author Karina Bliss offers a sisters' twin swap story encompassing marriage drama, family conflicts, and wounded-warrior angst where love in all its many forms wins out in the end. Playing with dynamite, a guy could get burned... Given his aversion to love and marriage, Ross Coltrane--an elite soldier and demolitions expert--has no idea how he ended up playing middleman to his kid brother and the estranged wife. More terrifying is suddenly noticing how sexy his sister-in-law is. He's never been attracted to his brother's wife that way before...But he's always had a spark with her twin. Turns out the identical sisters have pulled a swap and duped everyone around them. Furious much? About to rain down retribution, Ross hesitates. Something about Vivienne Jansen's gutsiness and misplaced do-gooding gets to him. Except, he's not a guy who has feelings. Enemies become lovers... Vivienne Jansen's creative solutions work well as an international costume designer, not so well as her family's black sheep. But she's going to save the day, if only her brother's best friend will move his disapproving Alpha-ness out of the way. Chaos theory has always been her modus operandi but falling for the enemy--a guy whose friends call him Iceman--could be the most dangerous thing she's ever done. "Bliss might be my favorite contemporary romance author. Funny, earnest characters falling in love. This has kind of a madcap pace to it but I loved the vivacious Vivien and the wounded soldier, Ross. Perfect pairing." Zeke Mar 07 2021 After a training accident, Lt. Colonel Zeke Jeffers is sent to the worst place in the world; the emergency room. Zeke would rather deal with the nightmare inducing bird-eating spiders any day than go to the emergency room. That place was filled with...needles! But that's also where he discovers the most beautiful woman he'd ever seen. Unfortunately, she also recommended...needles! Stitches! Thankfully, the lovely Dr. Abigail Fisher is quite adept...and fast...with the stitches. Unfortunately for Abigail's heart, Zeke was one of the guys who runs towards danger. As a member of the Delta Forces, he's a specially trained soldier who goes in and does things that no one else can do. Abby is well aware of the dangers of Zeke's job, since her father was a Navy SEAL who had been killed during one of those treacherous missions. Abby isn't willing to live that way again. But can she live without Zeke?

Vibration Characteristics of the North Fork Dam Model Jun 29 2020 Vibration tests were conducted on a 1/24-scale model of the North Fork Dam, a double curvature arch dam, to determine natural frequencies, mode shapes, and damping ratios. The measured results were compared with results calculated using a linear elastic three-dimensional finite element method. The objective of the study was to evaluate the use of physical models and three-dimensional finite element methods for earthquake response predictions. Mode shapes, frequencies, and damping ratios were determined from vibration tests of the model using two vibrators mounted on the crest of the dam and from tests with a vibrator mounted at the base of the dam on the downstream foundation. The modal analysis of the dam was performed using a three-dimensional finite element computer program, the Structural Analysis Program. The dam was modeled with 110 solid elements and 278 nodes and with the boundary totally fixed at the canyon walls. The reservoir was assumed to exert a static water pressure on the dam. This load, the mass of the vibrators, and an apparent mass based on an approximation by Westergaard to account for the mobilized water were included in the analysis. The Rayleigh-Ritz technique was used to determine mode shapes and frequencies. (Modified author abstract).

Minesweeper (Special Forces, Book 2) Jan 17 2022 "All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews for the World War II series Discover the secret missions behind America's greatest conflicts.Fergus Frew thought he knew what to expect when he signed up with the Navy's demolitions team. But as the Korean War rages on, Fergus and his fellow divers -- AKA "frogmen" -- are tasked with more than just scouting mudflats. Soon they're planting mines. And sabotaging tunnels, bridges... and even fishing nets. Strangest of all, it falls to Fergus to transport a spy into the country -- and that means traveling far from Navy-controlled waters.But frogmen are amphibious. And Fergus may not realize it, but he's in a position to change the way the whole world thinks about combat.National Book Award finalist Chris Lynch continues his explosive fiction series based on the real-life, top-secret history of US black ops and today's heroic Navy SEALs.

Task Force 2-4 Cav - First In, Last Out - The History Of The 2d Squadron, 4th Cavalry [Illustrated Edition] Dec 04 2020 [Includes 5 tables, 10 maps and 20 photos] Wars have been studied from every viewpoint from the most abstract to the intensely personal. In the case of Major Joseph C. Barto's Task Force 2-4 Cav-"First In, Last Out": The History of the 2d Squadron, 4th Cavalry Regiment, During Operation Desert Storm, war is viewed from the perspective of one man's impression of a volatile, fluid battle. Re-creating his experiences in Operation Desert Storm from pieced together notes, an extensive journal, and a variety of other sources, Barto tells the story of TF 2-4 Cav. From his position as the squadron's executive officer and officer in charge of its tactical operations center, Barto reports the planning and execution of his squadron as it advanced across the desert in pursuit of Iraqis. The end result of Barto's reporting is a uniquely personal view of one man's experience during a rapidly evolving operation. Barto's exercise is not meant to be a polished analysis but rather provides students of military history with an inside view of the operations of a cavalry squadron on a dynamic, oftentimes uncertain, battlefield.

2/1 Game Force a Modern Approach Sep 13 2021 The 2/1 Game Force bidding system is an improvement over the Standard American System that has been in effect and played by bridge players for many years. The advantage of the 2/1 system is that it allows the partnership to know that game is possible with only a single bid. In this book, I have tried to present the fundamental aspects of the bidding structure for playing a "pure" Two-Over-One Game Force system of bidding. In this book, I have tried to change behavior by presenting a series of bids geared toward the 2/1 bidding structure that includes Bergen, Reverse Bergen, and Combined Bergen Raises, inverted minor suit raises with crisscross and flip-flop, cuebidding, modified scroll bids, and many more methods not used in Standard American or Precision. In the fourth edition, the Minorwood Convention has been expanded and several variations of the Flannery Convention are included in this edition. I have added the Hello and SCUM conventions used to interfere over strong notrumps and a Modified Landy convention designed to compete over partnerships that employ a weak notrump bid. The Equal Level Conversion (ELC) double is discussed in Chapter 6 and additional material on slam bidding has been added to Chapter 3. The material on two-way new minor forcing and the Gazilli Convention has been expanded upon in Chapter 1 and Jacoby transfers with a superaccept structure has been added to Chapter 2. Finally, a new chapter that reviews the new Italian System of bids called Fantunes has been included in this edition. The System has been modified to be in compliance with the General Convention Chart.
