SIPRI Yearbook 2015 Oct 01 2020 The SIPRI Yearbook is known worldwide as an authoritative and independent source of data and analysis for politicians, diplomats, journalists, scholars, students and citizens on armaments, disarmament and international security. It provides an overview of developments in international security, weapons and technology, military expenditure, the arms trade and arms production, and armed conflicts, along with efforts to control conventional, nuclear, chemical and biological weapons. The first edition of the SIPRI Yearbook was released in 1969, with the aim of producing 'a factual and balanced account of a controversial subject-the arms

race and attempts to stop it'. This 46th edition of the SIPRI Yearbook covers developments during 2014 including: DT Essays on the conflicts in Syria, Iraq and Ukraine, as well as studies on the relationship of gender equality to peace and armed conflict, and the diversity of peace and war in Africa DT East Asian and European security, as well as global and regional trends in peace operations, and development challenges in fragile states DT Military expenditure, arms production and international arms transfers DT World nuclear forces, with an overview of each of the nine nuclear-armed states DT Iran's nuclear programme and multilateral arms control and disarmament DT Implications of the Ebola

outbreak and the challenge of addressing CBW issues in conflict zones DT The Arms Trade Treaty, multilateral arms embargoes and export control regimes as well as a 10-year overview of patterns of armed violence, a summary of the Global Peace Index, and extensive annexes on arms control and disarmament agreements, international security bodies and events in 2014.

Regulatory Foundations for the Food Protection Professional

Apr 26 2020 Regulatory Foundations for the Food Protection Professional is a comprehensive guide for the entry-level food protection professional (FPP) working in either the public or private sector. The book can also serve as a foundation for students in

academic programs preparing for a career in food protection. Additionally, as the Food Safety Modernization Act (FSMA) is implemented, this book will provide valuable information for countries wishing to export foods and food ingredients to the U.S. and comply with U.S. food safety regulations. The book is based on the Entry-Level component of the National Curriculum Framework for regulators, created by the International Food Protection Training Institute (IFPTI) located in Battle Creek, Michigan. The Entry-Level component of the National Curriculum Framework contains more than twenty content areas, including Epidemiology, Microbiology, Labeling, Food Defense Awareness, Program Standards, Environmental Health and Safety, Sampling, and Allergens. Each chapter is divided into specific learning objectives aimed at equipping the entry-level FPP with the knowledge and skills necessary to successfully perform his or her job, whether in the public or private sector, and whether in food safety or food defense. Established in 2009, IFPTI is improving public health by building competency-based training and certification systems, and cultivating leadership for the food protection community worldwide. Our mission is to enhance public health by improving the protection of the world's food supply through training, certification, thought leadership, and technology. See more at www.ifpti.org.

WMD Arms Control in the Middle East Apr 07 2021 The Middle East is a hot spot of proliferation. It contains one state assumed to possess nuclear weapons, several states that tried and failed to develop a military nuclear capability, one state under suspicion of trying to do so, and it is the world region that witnessed the most frequent and severe employment of chemical weapons since the end of World War I. Notwithstanding, not a single arms control regime concerning weapons of mass destruction (WMD) covers the region as a whole. Instead we have seen several proliferation-related military operations which have rather contributed to destabilization than served non-proliferation. This volume, written under the auspices of the EU Consortium for Non-Proliferation and Disarmament determines the current state of diplomatic efforts to establish a WMD free zone in the Middle East. In doing so, it provides insights into central actors' conflicting political positions, thereby explaining the stalemate of efforts to negotiate a WMD-free zone. Chapters written by renowned experts from academia and policy-oriented think tanks, as well as by next-generation Middle East and arms control experts, introduce the subject to the reader, give background information about arms control initiatives, provide technical expertise, and endeavour to make proposals for arms control measures in support of the creation of a Middle East WMD-free zone.

Post-2015 dialogues on culture and development Aug 31 2020 *Multilateral Asian Security Architecture* Mar 18 2022 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post-Cold War Asia. In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations (ASEAN) in Asia's multilateral architecture and its component institutions, this book argues that the four non-ASEAN countries of interest here 3/4 Australia, Japan, China and the United States 3/4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre-inception to the present. The work does not contend that existing scholarship overstates ASEAN's significance to the successes and failures of Asia's multilateral enterprise. Rather, it claims that the impact of non-ASEAN stakeholders in innovating multilateral architecture in Asia has been understated. Whether ASEAN has fared well or poorly as a custodian of Asia's regional architecture, the fact remains that the countries considered here, notwithstanding their present discontent over the state of that architecture, are key to understanding the evolution of Asian multilateralism. This book will be of much interest to students of Asian politics, international organisations, security studies and IR more generally.

The Environmental Crunch in

Access Free oldredlist.iucnredlist.org on November 26, 2022 Free Download Pdf

Africa Oct 21 2019 This book discusses the problems and challenges of environmental-ecological conditions in Africa, amidst the current craze of economic growth and 'development'. Africa's significant economic dynamics and growth trajectories are marked by neglect of the environment, reinforcing ecological crises. Unless environmental-ecological and population growth problems are addressed as an integral part of developmental strategies and growth models, the crises will accelerate and lead to huge costs in later years. Chapters examine multiple emerging tension points all across the continent, including the potential benefits and harm of growing urban-based ecotourism, the trajectory of labour-saving technologies and the problems facing agro-pastoralism. Although environmental management and sustainability features of African rural societies should not be idealized, functional 'traditional' economies, interests and management practices are often bypassed, seen by state elites as inefficient and inhibiting 'growth'. In many regions the seeds are now sown for lasting environmental crises that will affect local societies that have rarely been given opportunity to claim accountability from the state regimes and donors driving these changes.

Culture and Sustainability in European Cities Aug 23 2022 European cities are contributing to the

development of a more sustainable urban system that is capable of coping with economic crises, ecological challenges and social disparities in different nation-states and regions throughout Europe. This book reveals in a pluralistic way how European cities are generating new approaches to their sustainable development, and the special contribution of culture to these processes. It addresses both a deficit of attention to small and medium-sized cities in the framework of European sustainable development, and an underestimation of the role of culture, artistic expression and creativity for integrated development of the city as a prerequisite to urban sustainability. On the basis of a broad collection of case studies throughout Europe, representing a variety of regionally specific cultural models of sustainable development, the book investigates how participative culture, community arts, and more generally, creativity of civic imagination are conducive to the goal of a sustainable future of small and medium-sized cities. This is an essential volume for researchers and postgraduate students in urban studies, cultural studies, cultural geography and urban sociology as well as for policymakers and practitioners wanting to understand the specificity of European cities as hubs of innovation, creativity and artistic industriousness.

Provable and Practical Security Mar 26 2020 This book constitutes the refereed proceedings of the 15th

International Conference on Provable Security, ProvSec 2021, held in Guangzhou, China, in November 2021. The 21 full papers presented were carefully reviewed and selected from 67 submissions. The papers focus on provable security as an essential tool for analyzing security of modern cryptographic primitives. They are divided in the following topical sections: Searchable Encryption, Key Exchange & Zero Knowledge Proof, Post Quantum Cryptography, Functional Encryption, Digital Signature, and Practical Security Protocols.

Marketing Research Dec 03 2020 In *Marketing Research*, 11th Edition, authors Carl McDaniel & Roger Gates share their industry experience to teach students how to make critical business decisions through the study of market research. Designed for marketing research courses, the authors' practical, applications-based approach features Real Data, Real People, and Real Research, to prepare students to conduct and use market research for future careers in business. *Marketing Research*, 11th Edition features new trends, features and cases throughout, with updated chapters featuring new examples of companies and research firms, from Ilycaffe, the famous Italian coffee brand, Twitter, ESPN, Ford and General Motors. Co-author Roger Gates, President of DSS Research, infuses the text with a practitioner perspective, helping students learn how to use marketing research

through a practical presentation of theory and practice.

Chronic Pain Dec 15 2021

Can you really cure chronic pain without drugs, surgery or therapy? Surprisingly often the answer is Yes. While chronic pain can have a physical cause, this book, written by a leading UK Physiotherapist and chronic pain specialist, reveals how very real, and even debilitating pain, can frequently be caused by our brain in response to repressed emotions as a result of current and even past experiences. This process is at the root of many common complaints, including back pain, sciatica, migraines, fibromyalgia, repetitive strain injuries, digestive disorders and many medically unexplained symptoms. This self-empowering book explains research findings, describes dozens of case studies and provides practical tools to help you identify the cause of your pain and puts you on the path that leads to relief once and for all.

Advancing Theory of Suicide and Non-Suicidal Self-Injury Jun 16 2019

It's Our Job Feb 17 2022 The creation of jobs across Europe remains a key economic and social challenge for the EU. Given the negative impact of the financial crisis on European citizens, the EU's ability to promote effective job creation policies will be viewed as a major success of the wider integration process. In this context, a new approach is required to provide a growth-based strategy for creating employment across Europe.

Access Free Scholastic Dynamath Answer Key May 2014 Free Download Pdf

What is required is an achievable strategy based on the realities of modern EU labour markets. This research, based on an analysis of six member states, provides a set of recommendations designed to reflect the current characteristics of the EU labour market. This research concludes that (1) EU employment policies should be simplified and better coordinated; (2) Clearly defined actions should be introduced to further improve labour mobility; (3) The focus of policymaking should be switched from combatting unemployment to creating jobs; and (4) It is possible to finance the recovery by bridging the gap between investment and reform.

Air Power in UN Operations

Sep 12 2021 Air power for warfighting is a story that's been told many times. Air power for peacekeeping and UN enforcement is a story that desperately needs to be told. For the first-time, this volume covers the fascinating range of aerial peace functions. In rich detail it describes: aircraft transporting vital supplies to UN peacekeepers and massive amounts of humanitarian aid to war-affected populations; aircraft serving as the 'eyes in sky' to keep watch for the world organization; and combat aircraft enforcing the peace. Rich poignant case studies illuminate the past and present use of UN air power, pointing the way for the future. This book impressively fills the large gap in the current literature on peace operations, on the United Nations and on air

power generally.

Companion to the Political Economy of Rent Seeking Jul 22 2022

The quest for benefit from existing wealth or by seeking privileged benefit through influence over policy is known as rent seeking. Much rent seeking activity involves government and political decisions and is therefore in the domain of political economy. Apocalypse Revisited: A Critical Study on End Times Jan 16 2022 Apocalypse, Revisited: A Critical Study on End Times explores why and how Apocalypse has been revisited in myriad contexts from literature to history, religion to social life and media to popular culture.

Muslims in Ireland Sep 19 2019

This book combines historical, sociological and ethnographic research methods to provide a rich and multifaceted study of the Muslim presence in Ireland in its historical and contemporary dimensions.

Pocket Keys for Writers, Spiral bound Version May 20 2022

POCKET KEYS FOR WRITERS gives students big writing help in a small package. This indispensable pocket-style handbook covers the essentials of the writing process. It takes students through the research process, includes the mechanics of writing and using punctuation, and explains the evaluation and documentation of both print and electronic source materials. Concise, up-to-date, and practical, the book is designed to help students find the material they need easily and quickly. The fifth edition

Access Free oldredlist.iucnredlist.org on November 26, 2022 Free Download Pdf

features a new framework for critical thinking to help students make decisions about audience, purpose, voice, and medium. Each student text is packaged with a free Cengage Essential Reference Card to the MLA HANDBOOK, Eighth Edition. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Ethnic Minorities and Politics in Post-Socialist Southeastern Europe Aug 19 2019 Southeast European politics cannot be understood without considering ethnic minorities. This book is a comprehensive introduction to ethnic political parties.

ICICKM2014-Proceedings of the 11th International Conference on Intellectual Capital, Knowledge Management and Organisational Learning Jul 30 2020 These proceedings represent the work of researchers participating in the 11th International Conference on Intellectual Capital, Knowledge Management & Organisational Learning - ICICKM 2014, which this year is being held at The University of Sydney Business School, The University of Sydney, Australia. The Conference Co-Chairs are Dr John Dumay from Macquarie University, Sydney, Australia and Dr Gary Oliver from the University of Sydney, Australia. The conference will be opened with a keynote by Goran Roos, Advanced Manufacturing Council, Adelaide, Australia who will address the topic of "Intellectual capital in

Australia: Economic development in a high cost economy." The second day will be opened with a from James Guthrie, University of Sydney, Australia on the topic of "Intellectual Capital and the Public Sector Research: Past, Present, and Future."

Social Structure and Voting in the United States Jun 28

2020 This book analyzes practical and moral influences on voting decisions.

Undermining the widespread assumption that economic self-interest is the key determinant of voting choices, it discovers that moral considerations rooted in religious traditions are often the more decisive.

This finding is confirmed through a close analysis of tangible problems, such as child neglect and crime, problems which one would expect to trouble practical voters. Further, this book suggests that political ideologies influence party affiliation, rather than the other way around. It defines four categories of states in terms of human development and income equality—South, Heartland, postindustrial, and “balanced.” It then explains why political color (red, purple, or blue) and societal problems vary across these categories. Voters’ moral ideologies, it shows, combine with a state’s measure of income equality and human development to shape a state’s readiness to pursue practical solutions to societal problems. Finally, it shows that moral ideologies of the religious right and authoritarianism, two very different concepts, are in fact

intertwined empirically. This book thus suggests that education—a key driver of human development, anti-authoritarianism, and deliberative voting—should begin in preschools that are both nurturant and instructive.

Building Bilingual

Education Systems Oct 25

2022 A collaborative series with the University of Cambridge Faculty of Education highlighting leading-edge research across Teacher Education, International Education Reform and Language Education.

Criminology: Theories, Patterns, and Typologies Jun 09

2021 The bestselling text on the market--now in its Twelfth Edition--CRIMINOLOGY: THEORIES, PATTERNS, AND TYPOLOGIES delivers the most comprehensive, in-depth analysis of criminological theory and crime typologies available. In addition to its unparalleled breadth and depth of coverage, the text is unrivaled in its strong research base and currency. The chapters in Part Three (Crime Typologies) focus on some of the hottest issues in the field today: green crime, transnational crime, and cybercrime. Packed with real-world illustrations, the Twelfth Edition is completely updated and includes cutting-edge seminal research, up-to-the-minute policy, newsworthy examples, and hundreds of new references. Renowned for his unbiased presentation of theories, issues, and controversies, Dr. Siegel encourages students to weigh the evidence and form their

own conclusions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

O Level Accounting Paper 1 (Topical & Yearly) 101 Apr 19 2022 Accounting Paper 1 O Level (Topical & Yearly)

Corporate Branding May 08 2021 A strong corporate image has power in a competitive marketplace. Its influence on reputational value and customer decision-making is only now beginning to be understood. Interest in corporate branding is exploding as marketing academics and professionals begin to realize how it can boost business performance in measurable ways. For example, it promotes customer patronage without expensive advertising and raises profitability by enabling companies to leverage their brand image when buying from particular sources. Yet there are few empirical studies available to clarify its basic tenets and fewer still that help us understand corporate branding in different parts of the world. Existing books focus mainly on conceptual ideas and real-life examples. Corporate Branding: Areas, arenas and approaches is a unique take on corporate branding that provides a global overview through rigorous research of different geographical areas across industries. An international range of leading scholars contribute their coverage across three clear themes: Area: geographical areas across the globe

Access Free Scholastic Dynamath Answer Key May 2014 Free Download Pdf

including the UK, USA, Europe and Asia; Arena: a variety of commercial and not-for-profit sectors, both B2B and B2C; Approach: methodological approaches to brand research design, including qualitative, quantitative, case studies, interpretivistic and social narrative. These three themes enable the reader to consider corporate branding from more perspectives and in more ways than any other corporate branding book. The result is an understanding of this strategically important, growing subject that cannot be found anywhere else. This book is an essential read for any branding student or interested professional.

[Key Indicators for Asia and the Pacific 2014](#) Jul 10 2021

[Lethal Autonomous Weapons](#) Feb 23 2020 "Because of the increasing use of Unmanned Aerial Vehicles (UAVs, also commonly known as drones) in various military and paramilitary (i.e., CIA) settings, there has been increasing debate in the international community as to whether it is morally and ethically permissible to allow robots (flying or otherwise) the ability to decide when and where to take human life. In addition, there has been intense debate as to the legal aspects, particularly from a humanitarian law framework. In response to this growing international debate, the United States government released the Department of Defense (DoD) 3000.09 Directive (2011), which sets a policy for if and when autonomous weapons would be

used in US military and paramilitary engagements. This US policy asserts that only "human-supervised autonomous weapon systems may be used to select and engage targets, with the exception of selecting humans as targets, for local defense ...". This statement implies that outside of defensive applications, autonomous weapons will not be allowed to independently select and then fire upon targets without explicit approval from a human supervising the autonomous weapon system. Such a control architecture is known as human supervisory control, where a human remotely supervises an automated system (Sheridan 1992). The defense caveat in this policy is needed because the United States currently uses highly automated systems for defensive purposes, e.g., Counter Rocket, Artillery, and Mortar (C-RAM) systems and Patriot anti-missile missiles. Due to the time-critical nature of such environments (e.g., soldiers sleeping in barracks within easy reach of insurgent shoulder-launched missiles), these automated defensive systems cannot rely upon a human supervisor for permission because of the short engagement times and the inherent human neuromuscular lag which means that even if a person is paying attention, there is approximately a half-second delay in hitting a firing button, which can mean the difference for life and death for the soldiers in the barracks. So as of now, no US UAV (or any robot) will be able to launch

Access Free oldredlist.iucnredlist.org on November 26, 2022 Free Download Pdf

any kind of weapon in an offensive environment without human direction and approval. However, the 3000.09 Directive does contain a clause that allows for this possibility in the future. This caveat states that the development of a weapon system that independently decides to launch a weapon is possible but first must be approved by the Under Secretary of Defense for Policy (USD(P)); the Under Secretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)); and the Chairman of the Joint Chiefs of Staff. Not all stakeholders are happy with this policy that leaves the door open for what used to be considered science fiction. Many opponents of such uses of technologies call for either an outright ban on autonomous weaponized systems, or in some cases, autonomous systems in general (Human Rights Watch 2013, Future of Life Institute 2015, Chairperson of the Informal Meeting of Experts 2016). Such groups take the position that weapons systems should always be under "meaningful human control," but do not give a precise definition of what this means. One issue in this debate that often is overlooked is that autonomy is not a discrete state, rather it is a continuum, and various weapons with different levels of autonomy have been in the US inventory for some time. Because of these ambiguities, it is often hard to draw the line between automated and autonomous systems. Present-day UAVs use the very same guidance, navigation and control

technology flown on commercial aircraft. Tomahawk missiles, which have been in the US inventory for more than 30 years, are highly automated weapons with accuracies of less than a meter. These offensive missiles can navigate by themselves with no GPS, thus exhibiting some autonomy by today's definitions. Global Hawk UAVs can find their way home and land on their own without any human intervention in the case of a communication failure. The growth of the civilian UAV market is also a critical consideration in the debate as to whether these technologies should be banned outright. There is a \$144.38B industry emerging for the commercial use of drones in agricultural settings, cargo delivery, first response, commercial photography, and the entertainment industry (Adroit Market Research 2019) More than \$100 billion has been spent on driverless car development (Eisenstein 2018) in the past 10 years and the autonomy used in driverless cars mirrors that inside autonomous weapons. So, it is an important distinction that UAVs are simply the platform for weapon delivery (autonomous or conventional), and that autonomous systems have many peaceful and commercial uses independent of military applications"--

Inequality Jan 04 2021 Inequality and poverty have returned with a vengeance in recent decades. To reduce them, we need fresh ideas that move beyond taxes on the wealthy. Anthony B. Atkinson

offers ambitious new policies in technology, employment, social security, sharing of capital, and taxation, and he defends them against the common arguments and excuses for inaction.

Electronic Commerce Oct 13 2021 Throughout the book, theoretical foundations necessary for understanding Electronic Commerce (EC) are presented, ranging from consumer behavior to the economic theory of competition. Furthermore, this book presents the most current topics relating to EC as described by a diversified team of experts in a variety of fields, including a senior vice president of an e-commerce-related company. The authors provide website resources, numerous exercises, and extensive references to supplement the theoretical presentations. At the end of each chapter, a list of online resources with links to the websites is also provided. Additionally, extensive, vivid examples from large corporations, small businesses from different industries, and services, governments, and nonprofit agencies from all over the world make concepts come alive in Electronic Commerce. These examples, which were collected by both academicians and practitioners, show the reader the capabilities of EC, its cost and justification, and the innovative ways corporations are using EC in their operations. In this edition (previous editions published by Pearson/Prentice Hall), the authors bring forth the latest trends in e-commerce,

including social businesses, social networking, social collaboration, innovations, and mobility.

Advances in Cryptology -

EUROCRYPT 2015 Sep 24

2022 The two-volume proceedings LNCS 9056 + 9057 constitutes the proceedings of the 34th Annual International Conference on the Theory and Applications of Cryptographic Techniques, EUROCRYPT 2015, held in Sofia, Bulgaria, in April 2015. The 57 full papers included in these volumes were carefully reviewed and selected from 194 submissions. The papers are organized in topical sections named: honorable mentions, random number generators, number field sieve, algorithmic cryptanalysis, symmetric cryptanalysis, hash functions, evaluation implementation, masking, fully homomorphic encryption, related-key attacks, fully homomorphic encryption, efficient two-party protocols, symmetric cryptanalysis, lattices, signatures, zero-knowledge proofs, leakage-resilient cryptography, garbled circuits, crypto currencies, secret sharing, outsourcing computations, obfuscation and e-voting, multi-party computations, encryption, resistant protocols, key exchange, quantum cryptography, and discrete logarithms.

Bridging State and Civil

Society Nov 14 2021 Bridging State and Civil Society provides an in-depth study of parts of Central Asia and Afghanistan that remain marginalized from the larger region. As such, the

people have developed distinct ways of governing and surviving, sometimes in spite of the state and in part because of informal organizations.

Suzanne Levi-Sanchez provides eight case studies, each an independent look at a particular informal organization, but each also part of a larger picture that helps the reader understand the importance and key role that informal organizations play for civil society and the state. Each case explores how informal organizations operate and investigates their structures and interactions with official state institutions, civil society, familial networks, and development organizations. As such, each chapter explores the concepts through a different lens while asking a deceptively simple question: What is the relationship between informal organizations and the state?

Building the Impact Economy

Dec 23 2019 This book develops a comprehensive framework for creating sustainable new business approaches on a massive scale. It relates the power of entrepreneurship, investment and technology to four areas in which progress is urgently needed to get out of the world's current impasse. These are: game-changing innovations in companies; a way forward for the global fashion industry that reconciles competitiveness and worker dignity; turning around the energy crisis; and restoring capital markets to being the funders of human progress and prosperity that they once were—the pieces of the puzzle that is our future. Numerous

case studies and actionable guidelines show how to concretely get the job done.

Young Women Against Apartheid Nov 02 2020

Provides a new perspective on the struggle against apartheid, and contributes to key debates in South African history, gender inequality, sexual violence, and the legacies of the liberation struggle.

Theory of Cryptography Aug 11

2021 The two-volume set of LNCS 11239 and LNCS 11240 constitutes the revised proceedings of the 16th International Conference on Theory of Cryptography, TCC 2018, held in Panaji, India, in November 2018. The total of 50 revised full papers presented in the proceedings were carefully reviewed and selected from 168 submissions. The Theory of Cryptography Conference deals with the paradigms, approaches, and techniques used to conceptualize natural cryptographic problems and provide algorithmic solutions to them and much more.

A/AS Level English Language for AQA Student Book Mar 06 2021

A new series of bespoke, full-coverage resources developed for the 2015 A Level English qualifications. Endorsed for the AQA A/AS Level English Language specifications for first teaching from 2015, this print Student Book is suitable for all abilities, providing stretch opportunities for the more able and additional scaffolding for those who need it. Helping bridge the gap between GCSE and A Level, the unique three-part structure provides essential knowledge

and allows students to develop their skills through a deeper study of key topics, whilst encouraging independent learning. An enhanced digital version and free Teacher's Resource are also available.

The World's Women 2015

Jun 21 2022 This publication presents statistics and analysis on the status of women and men in the world, highlighting the current situation and changes over time. It is the sixth in a series published since the World Conference on Women in 1995. It emphasizes that progress towards the goal of gender equality has been made in most areas of concern, although uneven and at low pace. Through a life cycle approach, it reveals the challenges and opportunities faced by women at different stages of life and based on where they reside. Trajectories of women and men are highlighted in the statistical findings of the analysis undertaken on population and families, health, education, work, power and decision-making, violence against women, environment and poverty.

Resurgent Resource

Nationalism Feb 05 2021 The period between 2001 and 2008 saw the longest commodities boom in recent history. Resource-rich countries across the world developed more interest in the profits, control and ownership of their natural resources. South Africa, which did not benefit much from the boom in commodity prices, was nonetheless affected by the emergent resource nationalism

trend, and it became the focus of the governing party's 2010 National General Council, which ultimately resulted in the constitution of a committee to review the country's policy and legislative framework regarding 'natural wealth beneath the soil'. Although the resurgence of resource nationalism is a recent phenomenon, the idea of state intervention in the economy, and the extractive sector in particular, is not new. Resurgent Resource Nationalism is a qualitative study, undertaken by MISTRA for SASOL Ltd, that looks at the resurgence of resource nationalism over the past ten years. It discusses the concept of resource nationalism and its manifestation in public policy. It identifies the concerns, drivers and instruments through which resource nationalism is pursued by various mining jurisdictions across regions. It deliberately focuses more on the hydrocarbons sector in order to suit the target audience. The aim is to observe macro-trends emerging in various regions of the world and explore how best private actors can respond to the various forms of resource nationalism.

Insurance Distribution

Directive May 28 2020 This open access volume of the AIDA Europe Research Series on Insurance Law and Regulation offers the first comprehensive legal and regulatory analysis of the Insurance Distribution Directive (IDD). The IDD came

into force on 1 October 2018 and regulates the distribution of insurance products in the EU. The book examines the main changes accompanying the IDD and analyses its impact on insurance distributors, i.e., insurance intermediaries and insurance undertakings, as well as the market. Drawing on interrelations between the rules of the Directive and other fields that are relevant to the distribution of insurance products, it explores various topics related to the interpretation of the IDD - e.g. the harmonization achieved under it; its role as a benchmark for national legislators; and its interplay with other regulations and sciences - while also providing an empirical analysis of the standardised pre-contractual information document. Accordingly, the book offers a wealth of valuable insights for academics, regulators, practitioners and students who are interested in issues concerning insurance distribution.--

Sports in American History Jul

18 2019 Sports in American History: From Colonization to Globalization, Third Edition, journeys from the early American past to the present to help students grasp the compelling evolution of American sporting practices *Reconceptualising Global Finance and its Regulation* Jan 24 2020 Taking stock of the 2008 global financial crisis, this book provides 'outside the box' solutions for reforming international financial regulation.
