It's Part of What We Are - Volumes 1 and 2 - Volume 1: Richard Boyle (1566-1643) to John Tyndall (1820-1893); Volume 2: Samuel Haughton (18210-1897) to John Stewart Bell (1928-1990) Oct 29 2022 Biographies of more than 100 Irish scientists (or those with strong Irish connections), in the disciplines of Chemistry and Physics, including Astronomy, Mathematics etc., describing them in their Irish and international scientific, social, educational and political context. Written in an attractive informal style for the hypothetical 'educated layman' who does not need to have studied science. Well received in Irish and international reviews.

How Do We Know the Bible is True Volume 2 Sep 28 2022 If you were asked how you know the Bible is true, do you have an answer? Over 29 issues addressed, including: Who made God; where did God come from? Has Noah's ark been found? Hasn't Bible text been changed over the years? Is Hell real? Did the ten plagues of Egypt really happen? We are an increasingly skeptical society — whether it comes to politics, science, or even faith. People see conflict everywhere, even about fundamental aspects of the Bible. When church leaders are at odds about biblical truth and scriptural authority, believers are left confused and uncertain, needing clear biblical truth. Addressing topics from popular culture like the Shroud of Turin, or "missing" books of the Bible, and even what makes God's Word unique among holy books, How Do We Know the Bible is True? Vol. 2 is a "must have" resource for churches, libraries, and home study.

First International Tainan-Moscow Algebra Workshop Aug 03 2020 The series is aimed specifically at publishing peer reviewed reviews and contributions presented at workshops and conferences. Each volume is associated with a particular conference, symposium or workshop. These events cover various topics within pure and applied mathematics and provide up-to-date coverage of new developments, methods and applications.

We Must Never Fall in Love! 2 Aug 27 2022 Sakura and Kaede are embarking on the newest chapter of their lives as same-age "siblings" after their parents' remarriage, but there's only one catch—Kaede's so sweet that he sends Sakura's heart into overdrive! And when Kaede spies Sakura together with Hatano, he springs into action in a way no one expects! The romantic tale of two step-siblings continues in volume two!

The Paths We Take Oct 17 2021 Through inspirational poetry and stunning photography, this coffee-table book will remind you that no matter where we are on our path, we need to remember to pause, don't look back and enjoy the ride.

For We Are Many Jun 25 2022 Bobiverse fans: a signed limited edition of all three books in a boxed set, signed by the author, is now available on Amazon. Look for The Bobiverse [Signed Limited Edition] on

Amazon Bob Johansson didn't believe in an afterlife, so waking up after being killed in a car accident was a shock. To add to the surprise, he is now a sentient computer and the controlling intelligence for a Von Neumann probe. Bob and his copies have been spreading out from Earth for 40 years now, looking for habitable planets. But that's the only part of the plan that's still in one piece. A system-wide war has killed off 99.9% of the human race; nuclear winter is slowly making the Earth uninhabitable; a radical group wants to finish the job on the remnants of humanity; the Brazilian space probes are still out there, still trying to blow up the competition; And the Bobs have discovered a spacefaring species that sees all other life as food. Bob left Earth anticipating a life of exploration and blissful solitude. Instead he's become a sky god to a primitive native species, the only hope for getting humanity to a new home, and possibly the only thing that can prevent every living thing in the local sphere from ending up as dinner.
