**Created for Love** Oct 08 2020 While I realize that there are countless books about love and relationships, and the aspects of what relationship love looks like, I am addressing love from a different angle – an angle that is not often seen. There is a diabolical force that blocks the ability to feel and express love. This force is truly the “dark side” since it is underlying our every attempt to give and obtain the most important and powerful force in the universe. It all starts with understanding the intricacies of love and the forces that would hinder and even attempt to destroy love. Most of us have asked ourselves during portions of our life, why we may do what we do, and why the world around us is so hostile, resistant, and self-centered. Love can overcome anything, as long as we know the origin of love and the Giver of love. “There are times when a relationship needs a breakthrough and nothing seems to work. In this carefully crafted book Dr. Shaw gives solid Biblical answers to guide to that BREAKTHROUGH. Walk through these pages and allow new possibilities of HOPE for you and your relationships. This is an excellent guide that will bring new insights and New HOPE.” —Gregory L. Jantz, PhD, C.E.D.S. Founder, The Center • A Place of HOPE www.aplaceofhope.com “What you hold in your hand is one of the most profound and powerful books about love you will find anywhere. Dr. Shaw masterfully teaches amazing precepts and awesome principles about the manifold mysteries and timeless truths of the most dynamic force in the universe: love. Biblically solid and clinically sound, this book will change your life and transform your relationships. Drink deeply, eat heartily, and bask refreshingly from the wise counsel of this insightful series that Bob Shaw has blessed us with!” —Rev. Jared Pingleton, Psy.D. Minister and Clinical Psychologist, Author or Coauthor of nine books

**Access with Attitude** May 15 2021 For those who find themselves in a battle for public records, Access with Attitude: An Advocate's Guide to Freedom of Information in Ohio is an indispensable weapon. First Amendment lawyer David Marburger and investigative journalist Karl Idsvoog have written a simply worded, practical guide on how to take full advantage of Ohio's so-called Sunshine Laws. Journalists, law firms, labor unions, private investigators, genealogists, realty companies, banks, insurers—anyone who regularly needs access to publicly held information—will find this comprehensive and contentious guide to be invaluable. Marburger, who drafted many of the provisions that Ohio adopted in its open records law, and coauthor Idsvoog have been fighting for broader access to public records their entire careers. They offer field-tested tips on how to avoid “no,” and advise readers on legal strategies if their requests for information go unmet. Step by step, they show how to avoid delays and make the law work. Whether you're a citizen, a nonprofit organization, journalist, or attorney going after public records, Access with Attitude is an essential resource.

Dynamical games are treated as cooperative and non-cooperative games and are used in order to deal with the problem of carbon dioxide reduction under economic aspects. **Military Interference With the Election in Delaware, November 4, 1862** Jul 05 2020 Originally published by order of the Delaware General Assembly in 1863, *Military Interference With the Election in Delaware, November 4, 1862* contains testimonies from nearly one hundred and thirty citizens about Republicans' use of federal troops to disarm volunteer militia companies and harass, assault, arrest, imprison, and disenfranchise Democratic voters. There are also dissenting voices who maintain that Southern-sympathizing Democrats planned to suppress the Republican or Union vote, and had to be restrained by force. The joint committee appointed by the General Assembly to investigate the controversy concluded that Republican politicians orchestrated a military invasion of Delaware "to defeat the fair expression of the popular will at the polls by the potent influence of Federal bayonets." The first edition of the committee's report and journal was never reprinted, and is one of the rarest books about Delaware history. This new edition, transcribed and edited by Christopher Slavens, will enable readers to read the hundreds of pages of testimonies about the events of 1862 for themselves, and make up their own minds about what happened, and why.
