The Experiences of Tiresias Aug 23 2022 Nicole Loraux has devoted much of her writing to charting the paths of the Greek "imaginary," revealing a collective masculine psyche fraught with ambivalence as it tries to grasp the differences between nature and culture, body and soul, woman and man. The Experiences of Tiresias, its title referring to the shepherd struck blind after glimpsing Athena's naked body, captures this ambivalence in exploring how the Greek male defines himself in relationship to the feminine. In these essays, Loraux disturbs the idea of virile men and feminine women, a distinction found in official discourse and aimed at protecting the ideals of male identity from any taint of the feminine. Turning to epic and to Socrates, however, she insists on a logic of an inclusiveness between the genders, which casts a shadow over their clear, officially defined borders. The emphasis falls on the body, often associated with feminine vulnerability and weakness, and often dissociated from the ideal of the brave, self-sacrificing male warrior. But heroes such as the Homeric Achilles, who fears yet fights bravely, and Socrates, who speaks of the soul through the language of the body, challenge these representations. The anatomy of pain, the heroics of childbirth, the sorrows of tears, the warrior's wounds, and the madness of the soul: all these experiences are shown to engage with both the masculine and the feminine in ways that do not denigrate the experiences for either gender. Helen of Troy Jan 16 2022 As soon as men began to write, they made Helen of Troy their subject; for nearly three thousand years she has been both the embodiment of absolute female beauty and a reminder of the terrible power that beauty can wield. Because of her double marriage to the Greek King Menelaus and the Trojan Prince Paris, Helen was held responsible for both the Trojan War and enduring enmity between East and West. For millennia she has been viewed as an exquisite agent of extermination. But who was she? Helen exists in many guises: a matriarch from the Age of Heroes who ruled over one of the most fertile areas of the Mycenaean world; Helen of Sparta, the focus of a cult which conflated Helen the heroine with a pre-Greek fertility goddess; the home-wrecker of the Iliad; the bitch-whore of Greek tragedy; the pin-up of Romantic artists. Focusing on the 'real' Helen - a flesh-and-blood aristocrat from the Greek Bronze Age - acclaimed historian Bettany Hughes reconstructs the context of life for this elusive pre-historic princess and places her alongside the heroes and heroines of myth and history. Through the eyes of a young Mycenaean woman, Hughes examines the physical, historical and cultural traces that Helen has left on locations in Greece, North Africa and Asia Minor. Vivid and

compelling, this remarkable book brilliantly unpacks the facts and myths surrounding one of the most enigmatic and notorious figures of all time.

Poetic Heroes Jul 30 2020 Warfare exerts a magnetic power, even a terrible attraction, in its emphasis on glory, honor, and duty. In order to face the terror of war, it is necessary to face how our biblical traditions have made it attractive -- even alluring. In this book Mark Smith undertakes an extensive exploration of "poetic heroes" across a number of ancient cultures in order to understand the attitudes of those cultures toward war and warriors. Smith examines the Iliad and the Gilgamesh; Ugaritic poems commemorating Baal, Aqhat, and the Rephaim; and early biblical poetry, including the battle hymn of Judges 5 and the lament of David over Saul and Jonathan in 2 Samuel 1. Smith's Poetic Heroes analyzes the importance of heroic poetry in early Israel and its disappearance after the time of David, building on several strands of scholarship in archaeological research, poetic analysis, and cultural reconstruction.

Migration, Diaspora, Exile Feb 17 2022 Migration is the most volatile sociopolitical issue of our time, as the current escalation of discourse and action in the United States and Europe concerning walls, border security, refugee camps, and deportations indicates. The essays by the international and interdisciplinary group of scholars assembled in this volume offer critical filters suggesting that this escalation and its historical precedents do not preclude redemptive counterstrategies. Encoded in narratives of affiliation and escape, these counterstrategies are variously launched as literary, cinematic, and civic interventions in past and present constructions of diasporic, migratory, or exilic identities. The essays trace these narratives through the figure of the "exile" as it moves across times, borders, and genres, transmogrifying into the fugitive, the escapee, the refugee, the nomad, the Other. Arguing that narratives and figures of migration to and in Europe and the Americas share tropes that link migration to kinship, community, refuge, and hegemony, the volume identifies a transhistorical, transcultural, and transnational common ground for experiences of mediated diaspora,

migration, and exile at a time when public discourse and policy-making emphasize borders, divisions, and violent confrontations.

Orestes and Other Plays Feb 23 2020 This is the fourth volume of Euripides plays in new translation. The four plays it contains, Ion, Orestes, The Phoenician Women and The Suppliant Women, explore ethical and political themes, contrasting the claims of patriotism with family loyalty, pragmatism with justice, the idea that 'might is right' with the ideal of clemency.

Hidden Past Dec 03 2020

Walter Scott and Modernity Jan 04 2021 Walter Scott and Modernity argues that, far from turning away from modernity to indulge a nostalgic vision of the past, Scott uses the past as means of exploring key problems in the modern world. This study includes critical introductions to some of the most widely read poems published in nineteenth-century Britain (which are also the most scandalously neglected), and insights into the narrative strategies and ideological interests of some of Scott's greatest novels. It explores the impact of the French revolution on attitudes to tradition, national heritage, historical change and modernity in the romantic period, considers how the experience of empire influenced ideas about civilized identity, and how ideas of progress could be used both to rationalise the violence of empire and to counteract demands for political reform. It also shows how current issues of debate - from relations between Western and Islamic cultures, to the political significance of the private conscience in a liberal society - are

The Lesbian Lyre Aug 31 2020 Hailed by Plato as the “Tenth Muse” of ancient Greek poetry, Sappho is inarguably antiquity’s greatest lyric poet. Born over 2,600 years ago on the Greek island of Lesbos, and writing amorously of women and men alike, she is the namesake lesbian. What’s left of her writing, and what we know of her, is fragmentary. Shrouded in mystery, she is nonetheless repeatedly translated and discussed – no, appropriated – by all. Sappho has most recently undergone a variety of treatments by agenda-driven scholars and so-called poet-translators with little or no knowledge of Greek. Classicist-translator Jeffrey Duban debunks the postmodernist scholarship by which Sappho is interpreted today and offers translations reflecting the charm and elegant simplicity of the originals. Duban provides a reader-friendly overview of Sappho’s times and themes, exploring her eroticism and Greek homosexuality overall. He introduces us to Sappho’s highly cultured island home, to its lyre-accompanied musical legends, and to the fabled beauty of Lesbian women. Not least, he emphasizes the proximity of Lesbos to Troy, making the translation and enjoyment of Homer’s *Iliad* and *Odyssey* a further focus. More than anything else, argues Duban, it is free verse and its rampant legacy – and no two persons more than Walt Whitman and Ezra Pound – that bear responsibility for the ruin of today’s classics in translation, to say nothing of poetry in the twentieth century. Beyond matters of reflection for classicists, Duban provides a far-ranging beginner’s guide to classical literature, with forays into Spenser and Milton, and into the colonial impulse of Virgil, Spenser, and the West at large.

The Ways of Fiction Sep 12 2021 The essays gathered here capture fresh perspectives on the literary environments of the eighteenth century. The core concern of this volume is culture – the ways in which it shapes literature and is in turn influenced by it: the “ways” of fiction. Especially commissioned from experts in the field, essays cover the whole of the century, embracing such themes as class, gender, nationhood, politics, and identity. Through scrutiny of familiar and less well-known authors alike, the collection forms a stimulating and provocative anthology. It will naturally appeal to scholars and students of the novel, as well as to historians of culture, and all those concerned with eighteenth-century studies. A broader readership will also find much here to enhance their appreciation of fiction as a cultural artefact. Responding to a growing fascination with this period in British history, these essays open vital new perspectives on the novel at a key moment in its development.
