**Rainbow Grey: Eye of the Storm (Rainbow Grey Series)** Jan 08 2021 The second book in a magical new series from best-selling author and illustrator, Laura Ellen Anderson!

**The Boy Who Invented TV** Dec 27 2019 "An inspiring true story of a boy genius. "Plowing a potato field in 1920, a 14-year-old farm boy from Idaho saw in the parallel rows of overturned earth a way to make pictures fly through the air. This boy was not a magician; he was a scientific genius and just eight years later he made his brainstorm in the potato field a reality by transmitting the world's first television image. This fascinating picture-book biography of Philo Farnsworth covers his early interest in machines and electricity, leading up to how he put it all together in one of the greatest inventions of the 20th century. The author's afterword discusses the lawsuit Farnsworth waged and won against RCA when his high school science teacher testified that Philo's invention of television was years before RCA's."

**Eat Well & Keep Moving** May 24 2022 In North America obesity continues to be a problem, one that extends throughout life as children move into adolescence and adulthood and choose progressively less physical activity and less healthy diets. This public health issue needs to be addressed early in childhood, when kids are adopting the behaviors that they will carry through life. Eat Well & Keep Moving, Third Edition, will help children learn physically active and nutritionally healthy lifestyles that significantly reduce the risk of obesity, heart disease, high blood pressure, type 2 diabetes, and other diseases. **BENEFITS** This award-winning evidence-based program has been implemented in all 50 states and in more than 20 countries. The program began as a joint research project between the Harvard School of Public Health (currently the Harvard T.H. Chan School of Public Health) and Baltimore Public Schools. In

extensive field tests among students and teachers using the program, children ate more fruits and vegetables, reduced their intake of saturated and total fat, watched less TV, and improved their knowledge of nutrition and physical activity. The program is also well liked by teachers and students. This new edition provides fourth- and fifth-grade teachers with the following:

- Nutrition and activity guidelines updated according to the latest and best information available
- 48 multidisciplinary lessons that supply students with the knowledge and skills they need when choosing healthy eating and activity behaviors
- Lessons that address a range of learning outcomes and can be integrated across multiple subject areas, such as math, language arts, social studies, and visual arts
- Two new core messages on water consumption and sleep and screen time along with two new related lessons
- A new Kid's Healthy Eating Plate, created by nutrition experts at the Harvard T.H. Chan School of Public Health, that offers children simple guidance in making healthy choices and enhances the USDA's MyPlate Eat Well & Keep Moving also offers a web resource that contains numerous reproducibles, many of which were included in the book or the CD-ROM in previous editions. A separate website, [www.eatwellandkeepmoving.org](http://www.eatwellandkeepmoving.org), provides detailed information for food service managers interested in making healthful changes to their school menus; this information includes recipes, preparation tips, promotional materials, classroom tie-ins, and staff training. The web resource also details various approaches to getting parents and family members involved in Eat Well & Keep Moving. A Holistic Approach Eat Well & Keep Moving is popular because it teaches nutrition and physical activity while kids are moving. The program addresses both components of health simultaneously, reinforcing the link between the two. And it encompasses all aspects of a child's learning environment: classroom, gymnasium, cafeteria, hallways, out-of-school programs, home, and community centers. Further, the material is easily incorporated in various classroom subjects or in health education curricula. Eight Core Principles Central to its message are the eight core Principles of Healthy Living. Those principles—at least one of which is emphasized in each lesson—have been updated to reflect key targets as defined by the CDC-funded Childhood Obesity Research Demonstration partnership. These are the principles:

- Make the switch from sugary drinks to water.
- Choose colorful fruits and vegetables instead of junk food.
- Choose whole-grain foods and limit foods with added sugar.
- Choose foods with healthy fat, limit foods high in saturated fat, and avoid foods with trans fat.
- Eat a nutritious breakfast every morning.
- Be physically active every day for at least an hour per day.
- Limit TV and other recreational screen time to two hours or less per day.
- Get enough sleep to give the brain and body the rest it needs.

Flexible, Inexpensive, Easy to Adopt The entire curriculum of Eat Well & Keep Moving reflects the latest research and incorporates recommendations from the latest Dietary Guidelines for Americans. It fits within school curricula, uses existing school resources, is inexpensive to implement, and is easy to adopt. The content is customizable to school and student population profiles and can help schools meet new criteria for federally mandated wellness policies. Most important, armed with the knowledge they can gain from this program, elementary students can move toward and maintain healthy behaviors throughout their lives.

*Social Education* Aug 23 2019 Includes section "Book reviews".

**The Student EQ Edge** Jun 13 2021 THE STUDENT EQEDGE Facilitation and Activity Guide This Facilitation and Activity Guide is a companion to the book *The Student EQ Edge: Emotional Intelligence and Your Academic and Personal Success*. It offers faculty and facilitators a hands-on resource for helping students reach their potential by tapping into the power of emotional intelligence. The Facilitation Guide includes exercises and activities which are designed to help students develop confidence, independence, the ability to set and meet goals, impulse control, social responsibility, problem-solving skills, stress tolerance, and much more—all of which help improve academic success. The Guide also contains a wealth of illustrative case studies, questions for student reflection, movie selections and TV shows that illustrate emotional intelligence, and a self-development plan. "The single best resource on emotional intelligence in student affairs, *The Student EQ Edge: Student Workbook and Facilitation and Activity Guide* are well organized, creative, and offer everything an emotional intelligence facilitator would need in a fast-paced student affairs environment. The examples are soundly constructed and resonate with students. These materials are my go-to resources."—Candice Johnston, associate director of student leadership and organizations, Wake Forest University "If I were building a new course to improve student success, it would be founded on emotional intelligence. All the instruction in the world on 'study skills' cannot touch the advantages that come to students who are able to manage their emotional intelligence. And the best news of all is that these skills can be taught. EQ skills make the difference."—Randy L. Swing, executive director, Association for Institutional Research "This Facilitation and Activity Guide is particularly useful, offering options from which the facilitator can draw in preparing assignments or learning community meetings. The focus on learners' needs, and particularly an authentic exploration of self and purpose, is practical yet has the potential to draw students to a deeper understanding of self that will draw them to high performance and contribution to others."—Dennis Roberts, assistant vice president for faculty and student services for the Qatar Foundation

**Summit 2 Student Book with Activebook and Workbook Pack** Mar 22 2022 This package consists of the Summit 2 Student Book with ActiveTeach and Workbook 2. Summit helps the high-intermediate learner continue to grow through a balanced development of both fluency and accuracy. *Families, Young People, Physical Activity and Health* Oct 17 2021 The family is an important site for the transmission of knowledge and cultural values. Amidst claims that young people are failing to follow health advice, dropping out of sport and at risk of an ever-expanding list of lifestyle diseases, families have become the target of government interventions. This book is the first to offer critical sociological perspectives on how families do and do not function as a pedagogical site for health education, sport and physical activity practices. This book focuses on the importance of families as sites of pedagogical work across a range of cultural and geographical contexts. It explores the relationships between families, education, health, physical activity and sport, and also offers reflections on the methodological and ethical issues arising from this research. Its chapters discuss key questions such as: how active living messages are taken up in families; how parents perceive the role of education, physical activity and sport; how culture, gender, religion and social class shape engagement in sport; how family pedagogies may influence health education, sport and physical activity now and in the future. This book is essential reading for anyone with an interest in health, physical education, health education, family studies, sport pedagogy or the sociology of sport and exercise.

Nutrition in Health Apr 11 2021

A Practical Guide to Teaching Physical Education in the Secondary School Oct 25 2019 This book provides a range of practical activities designed to support physical education teachers' learning. The activities include case studies, examples of pupils' work, examples of existing good practice, and a range of tried-and-tested teaching strategies. The book also includes helpful photocopiable resources and training materials. Activities in each chapter provide a toolkit to help student physical education teachers to analyse their learning and performance. This book extends the popular Learning to Teach PE in the Secondary School textbook, providing detailed examples of theory in practice. It is packed with examples of how to analyse practice to ensure pupil learning is maximised. These examples are based on the best research and practice currently available. In addition, the book provides web-based links to sources of new knowledge supporting evidence-based practice.

**Passages Level 1 Full Contact** Dec 07 2020 Passages, Third Edition, is a two-level, multi-skills course that will quickly and effectively move adult and young-adult learners of English from high-intermediate to the advanced level. The Full Contact version includes the complete Student' Book, Workbook, and Video Activity Worksheets in one convenient book.

*Television', Critical Viewing Skills', Education* Jun 25 2022 Representing a significant survey and evaluation of major media literacy projects in the U.S. and selected countries throughout the world, this book covers all aspects of critical viewing skills. It provides comprehensive, theoretical and historical background about the field, the criteria for its evaluation, and various structured programs including the CVS projects and programs sponsored by school districts, individuals, non-governmental national organizations, and private companies. The book can serve as a guide for curriculum planners as well as teachers in the classroom and adult workshops -- and also parents and individual adult viewers -- in applying the best match of theories, practices, readings, and specific exercises to monitor and enhance television's role.

Top Notch TV Fundamentals Video Course May 12 2021 The four-level Top Notch TV Video Course, by Joan Saslow and Allen Ascher, builds both listening comprehensions skills and productive language skills. **Little House on the Prairie - Literature Kit Gr. 3-4** Aug 03 2020 Find out what life on the prairie was really like with this retelling of actual events. The thorough and comprehensive questions are great for small group work. Students put themselves in Laura's shoes as she experiences the hardships of living on the prairie. Test student comprehension of key vocabulary words found in the novel. Students explore what they learn about life on the prairie, particularly with how Pa builds the log cabin. Challenge students to describe Laura's surroundings while living on the prairie. Reenact your favorite scene from the novel in small groups. Complete a story map graphic organizer, following the events that take place during Laura's time on the prairie. Aligned to your State Standards and written to Bloom's Taxonomy, additional crossword, word search, comprehension quiz and answer key are also included. About the Novel: Little House on the Prairie follows one family's journey to a new home and new beginnings. Laura lives in a house in the Big Woods. But the area is becoming too crowded. Her father decides to uproot and move out to the prairies, where the land is vast and plentiful. On their journey, the family must cross two great rivers before the ice melts. They camp out alone with very little between them and their harsh environment. Soon they arrive on the prairie and choose a place to settle. But their hardships don't end there. While they build their new log cabin and get used to their surroundings, the family must survive illness, fires, wolves, and an increasing native population. As they finally settle in and prepare to plant their first crop, the family's year living on the prairie comes to an end. Little House on the Prairie is an educational story about what life was like in the American Midwest during the 19th century.

**Light Bright** Jun 01 2020 This enrichment program offers a complete package of self-paced, motivational, interest-based projects for students. Light Bright activities offer opportunities for independent learning. Designed to parallel Joseph Renzulli's Enrichment Triad Model, each activity is learner-motivated, self-directed, and self-paced. Grades 2-6
