The Starch Solution Aug 20 2021 Fear of carbs has taken over the diet industry for the past few decades--the mere mention of a starch-heavy food is enough to trigger an avalanche of shame and longing. Here, diet doctor and board-certified internist John A. McDougall, MD, and his kitchen-savvy wife, Mary, show that a starch-rich diet can actually help you lose weight and prevent a variety of ills. By fueling your body primarily with carbohydrates rather than proteins and fats, you'll feel satisfied, boost energy, and look and feel better.--From publisher description.

[Born to Run](#) Jan 13 2021 At the heart of Born to Run lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to

down a beer at the 20 mile mark.

Geometry Jun 29 2022 The theorems and principles of basic geometry are clearly presented in this workbook, along with examples and exercises for practice. All concepts are explained in an easy-to-understand fashion to help students grasp geometry and form a solid foundation for advanced learning in mathematics. Each page introduces a new concept, along with a puzzle or riddle which reveals a fun fact. Thought-provoking exercises encourage students to enjoy working the pages while gaining valuable practice in geometry.
