[Wrecking Crew](#) Dec 30 2019 A “fascinating” deep dive into the Making a Murderer case. “Get ready to change your mind or be more convinced than ever”(Steve Jackson, New York Times bestselling author). In 2016-17, while working for the USA Today Network’s Wisconsin Investigative Team, author John Ferak wrote dozens of articles examining the murder case against Steven Avery, who had already beat one wrongful conviction only to be charged with the murder of Teresa Halbach in 2005. The case became the wildly successful Netflix Making A Murderer documentary. In Wrecking Crew: Demolishing the Case Against Steven Avery, Ferak lays out in exacting detail the post-conviction strategy of Kathleen Zellner, the high-profile, high-octane lawyer, to free Avery. To write this book, Zellner, perhaps America’s most successful wrongful conviction attorney, gave Ferak unique access to the exhaustive pro bono efforts she and her small suburban Chicago law firm dedicated for a man she believes to be a victim of an unscrupulous justice system in Manitowoc County. “If you’re planning to binge-watch Making a Murderer 2 over the holidays, order John Ferak’s new book Wrecking Crew, too. Definitive chronicle of criminal justice corruption in Manitowoc County.”—Michelle Malkin, host of Michelle Malkin Investigates on CRTV

Reference Librarianship May 27 2022 A daily diary of actual interactions between a reference desk librarian and his patrons  
Reference Librarianship documents a year in the life of a young librarian working in the "trenches" at a library in the Midwestern United States. This one-of-a-kind book provides a daily diary of every librarian/patron transaction—no matter how mundane or absurd—to demonstrate not only how advances in technology have affected the reference librarian's job, but how the public's expectations have changed, as well. The book also includes observations by a now-retired reference librarian on the current state of the field based on these unedited interactions. Over the past two decades, the job of reference librarian has seen many changes. But in many ways, reference desk work hasn't changed a bit, with its mix of odd, humorous, routine, and ridiculous requests that capture what it's like to deal with patrons day after day. Reference Librarianship paints a clear picture of the field for library school students, provides emotional and philosophical support to practitioners, and reminds library administrators of what life was like on the "front lines." A sampling of the daily transactions documented in Reference Librarianship: Monday, May 19, 2003: pencil pencil network down I tell people that I can't sign them up for an Internet terminal because the network is down and they just stand there, staring into space One of them asks for three days worth of newspapers microfiche machine explanation Sorry, Sir, the network is still down (multiply by twenty and insert randomly into the remainder of the day) magic tricks, but he pretty much knew where they were One of our large interior plate glass windows shattered. No one was hurt and it made a fascinating noise, like a crystal waterfall landing on soil. "Books on prostitution, you know—whores?" Someone from the County called to ask if any criminal activity had occurred on a particular street. Someone else referred her to us. She was dubious—with good reason. "Math puzzles." Okay. I show him the books. "Just math." Certainly. I show him the books. "I need them in Spanish." Grrr ... Reference Librarianship is an enlightening, educational, and entertaining look at the real world of reference desk work. It's an essential read for reference librarians (both public and academic), library administrators, and library school students, as well as anyone who works with the public.
