Diggin' the Dancing Queen: An Adventure in the Land of the Unexpected Oct 21 2021 Ingrid Lundström, the daughter of a wealthy Swedish banker, has been a global roamer since she left school. An iconic blond, she resembles Agnetha Fältskog of Abba fame. These attributes dominate her existence, especially when she moves to Papua New Guinea, to work. Because of her connection to wealth, she becomes the target of criminals. Because of her appearance, she attracts special interest at every turn. When aspiring teacher Michael Mannion hears about Ingrid's fate at the hands of kidnapers, he travels to Papua New Guinea to track her down and attempt a rescue. However, he encounters many surprises. What he doesn't know is that he's as much the problem as the solution. They say love conquers all, but in a country where it's hard to separate fact from fiction, the serious from the lighthearted, and good guys from bad guys, love may not be enough. For Ingrid and Michael, love is their path to salvation but this path takes them on a different and sometimes unpredictable adventure.

Thinking through Landscape Feb 22 2022 Our attitude to nature has changed over time. This book explores the historical, literary and philosophical origins of the changes in our attitude to nature that allowed environmental catastrophes to happen. It presents a philosophical reflection on human societies' attitude to the environment, informed by the history of the concept of landscape and the role played by the concept of nature in the human imagination and features a wealth of examples from around the world to help understand the contemporary environmental crisis in the context of both the built and natural environment. *Thinking Through Landscape* locates the start of this change in human labour and urban elites being cut off from nature. Nature became an imaginary construct masking our real interaction with the natural world. The book argues that this gave rise to a theoretical and literary appreciation of landscape at the expense of an effective practical engagement with nature. It draws on Heideggerian ontology and Veblen's sociology, providing a powerful distinction between two attitudes to landscape: the tacit knowledge of earlier peoples engaged in creating the landscape through their work - "landscaping thought"- and the explicit theoretical and aesthetic attitudes of modern city dwellers who love nature while belonging to a civilization that destroys the landscape - "landscape thinking". This book gives a critical survey of landscape thought and theory for students, researchers and anyone interested in human societies' relation to nature in the fields of landscape studies, environmental philosophy, cultural geography and environmental history.

Love in English Jun 16 2021 A fresh, joyful YA novel that is layered with themes of immigration, cultural identity, and finding your voice in any language. Sixteen-year-old Ana is a poet and a lover of language. Except that since she moved to New Jersey from Argentina, she can barely find the words to express how she feels. At first Ana just wants to return home. Then she meets Harrison, the very cute, very American boy in her math class, and discovers the universal language of racing hearts. But when she begins to spend time with Neo, the Greek Cypriot boy from ESL, Ana wonders how figuring out what her heart wants can be even more confusing than the grammar they're both trying to master. After all, the rules of English may be confounding, but there are no rules when it

comes to love. With playful and poetic breakouts exploring the idiosyncrasies of the English language, Love in English is witty and effervescent, while telling a beautifully observed story about what it means to become "American."

Solvability Theory of Boundary Value Problems and Singular Integral Equations with Shift Aug 19 2021 The first formulations of linear boundary value problems for analytic functions were due to Riemann (1857). In particular, such problems exhibit as boundary conditions relations among values of the unknown analytic functions which have to be evaluated at different points of the boundary. Singular integral equations with a shift are connected with such boundary value problems in a natural way. Subsequent to Riemann's work, D. Hilbert (1905), C. Haseman (1907) and T. Carleman (1932) also considered problems of this type. About 50 years ago, Soviet mathematicians began a systematic study of these topics. The first works were carried out in Tbilisi by D. Kveselava (1946-1948). Afterwards, this theory developed further in Tbilisi as well as in other Soviet scientific centers (Rostov on Don, Kazan, Minsk, Odessa, Kishinev, Dushanbe, Novosibirsk, Baku and others). Beginning in the 1960s, some works on this subject appeared systematically in other countries, e. g. , China, Poland, Germany, Vietnam and Korea. In the last decade the geography of investigations on singular integral operators with shift expanded significantly to include such countries as the USA, Portugal and Mexico. It is no longer easy to enumerate the names of the all mathematicians who made contributions to this theory. Beginning in 1957, the author also took part in these developments. Up to the present, more than 600 publications on these topics have appeared.

Publications resulting from the United States Exploring Expedition under Captain Charles Wilkes are included. Women in Ministry Oct 28 2019 When Pope Paul VI implemented the decision of the Second Vatican Council to renew the diaconate as a permanent order of ministry, he asked the logical question: "What about women deacons?" That question continues to be asked throughout the Church as the possibility of restoring women to the diaconate emerges more and more as a pressing answer

to the ministerial needs of the Church. In *Women in Ministry: Emerging Questions about the Diaconate*, theologian Phyllis Zagano examines three distinct questions about the possibility of women in the diaconate: Is the inclusion of women in the permanent diaconate part of the unfinished business of Vatican II? What are the ecumenical implications of women ordained as deacons? Did Pope Benedict XVI envision the inclusion of women in the diaconate? These three timely and important essays are introduced by Deacon William T. Ditewig, PhD, director of lay and deacon formation in the Diocese of Monterey in California and former executive director of the Secretariat for the Diaconate of the United States Conference of Catholic Bishops in Washington, DC. The Battle Over Bilingual Ballots Sep 19 2021 In recent years, few federal requirements have been as controversial as the mandate for what critics call 'bilingual ballots'. The Voting Rights Act of 1965 included a permanent requirement for language assistance for Puerto Rican voters educated in Spanish and ten years later Congress banned English-only elections in certain covered jurisdictions, expanding the support to include Alaska Natives, American Indians, Asian-language voters and Spanish-language voters. Some commentators have condemned the language assistance provisions, underlying many of their attacks with anti-immigrant rhetoric. Although the provisions have been in effect for over three decades, until now no comprehensive study of them has been published. This book describes the evolution of the provisions, examining the evidence of educational and voting discrimination against language minorities covered by the Act. Additional chapters discuss the debate over the 2006 amendments to the Voting Rights Act, analysis of objections raised by opponents of bilingual ballots and some of the most controversial components of these requirements, including their constitutionality, cost and effectiveness. Featuring revealing case studies as well as analysis of key data, this volume makes a persuasive and much-needed case for bilingual ballots, presenting a thorough investigation of this significant and understudied area of election law and American political life.

The Inka Empire Apr 26 2022 Massive yet elegantly executed masonry architecture and andenes (agricultural terraces) set against majestic and seemingly boundless Andean landscapes, roads built in defiance of rugged terrains, and fine textiles with orderly geometric designs—all were created within the largest political system in the ancient New World, a system headed, paradoxically, by a single, small minority group without wheeled vehicles, markets, or a writing system, the Inka. For some 130 years (ca. A.D. 1400 to 1533), the Inka ruled over at least eighty-six ethnic groups in an empire that encompassed about 2 million square kilometers, from the northernmost region of the Ecuador-Colombia border to northwest Argentina. The Inka Empire brings together leading international scholars from many complementary disciplines, including human genetics, linguistics,

textile and architectural studies, ethnohistory, and archaeology, to present a state-of-the-art, holistic, and in-depth vision of the Inkas. The contributors provide the latest data and understandings of the political, demographic, and linguistic evolution of the Inkas, from the formative era prior to their political ascendancy to their post-conquest transformation. The scholars also offer an updated vision of the unity, diversity, and essence of the material, organizational, and symbolic-ideological features of the Inka Empire. As a whole, *The Inka Empire* demonstrates the necessity and value of a multidisciplinary approach that incorporates the insights of fields beyond archaeology and ethnohistory. And with essays by scholars from seven countries, it reflects the cosmopolitanism that has characterized Inka studies ever since its beginnings in the nineteenth century.

A Dictionary of Hawaiian Legal Land-Terms Apr 14 2021 *A Dictionary of Hawaiian Legal Land-Terms* is the first reference book of its kind to compile, organize, and explain critical information needed for the accurate translation and interpretation of nineteenth-century Hawaiian land-conveyance documents. Neither life-long residents nor recent newcomers should minimize the influence of Hawaii's unique history on the developments taking place in the state today. Yet for decades the study and translation of century-old documents - Royal Patents, Land Commission Awards, and deeds, to name a few - have been hampered by the lack of a comprehensive research tool. Now, in a single volume, readers have an overview of commonly used words and phrases, survey practices, and documents that were recorded in Hawaiian before the turn of the century. The book also includes Hawaii's appellate cases that have defined such terms. With the publication of *A Dictionary of Hawaiian Legal Land-Terms*, both professionals and non-professionals, Hawaiians and non-Hawaiians, have gained a valuable key to unlocking and understanding the past.

In the Open Wind Dec 11 2020 What do we know? Read at will. Out of many winds, each poem has some clues and hints to a story. And if your questions narrow down to one: from where does *In The Open Wind* come? I tell you it is unlikely that this question will ever be fully resolved. What do we

know? Robert Graves once pointed out OC the paradox of poetryOCO's obstinate continuanceOCO in our times and offered an explanation: perhaps it is OC the feeling that poetry, since it defies scientific analysis, must be rooted in some sort of magic, and that magic is disreputable.OCO Graves says also that poems are based OC on magic principles, the rudiments of which formed a close religious secret for centuries but which were at last garbled, discredited, and forgotten. Now it is only by rare accidents of spiritual regression that poets make their lines magically potent in the ancient sense. Otherwise, the contemporary practice of poem-writing recalls the medieval alchemistOCO's fantastic and foredoomed experiments in transmuting base metal into gold; except that the alchemist did at least recognize pure gold when he saw and handled it. The truth is that only gold ore can be turned into gold; only poetry into poems.OCO In *The Open Wind* contains poems in both English and Portuguese.
