Medieval Saints' Lives Dec 24 2019 Contending that the study of hagiography is significant both for a consideration of medieval literature and for current theoretical debates in medieval studies, this book considers a range of Old French and Anglo-Norman texts, using modern theories of kinship and community to show how saints' lives construe social and sexual relations. Focusing on the depiction of the gift, kinship and community, the book maintains that social and sexual systems play a key role in vernacular hagiography. Such systems, along with the desires they produce and control, are, it is argued, central to hagiography's religious functions, particularly its role as a vehicle of community formation. In attempting to think beyond the limits of human relationships, saints' lives nonetheless create an environment in which queer desires and modes of connection become possible, suggesting that, in this case at least, the orthodox nurtures the queer. This book thus suggests not only that medieval hagiography is worthy of greater attention but also that this corpus might provide an important resource for theorizing community in its medieval contexts and for thinking it in the present. EMMA CAMPBELL is Associate Professor of French at the University of Warwick.

Paula Deen May 09 2021 The popular Food Network personality shares stories from her private life, from the events that inspired her down-home values and the success secrets of her restaurant to her struggles with agoraphobia and a difficult marriage.

International Symposium for Intelligent Transportation and Smart City

(ITASC) 2019 Proceedings Jan 17 2022 This book presents research advances in intelligent transportation and smart cities in detail, mainly focusing on green traffic and urban utility tunnels, presented at the 4th International Symposium for Intelligent Transportation and Smart City (ITASC) held at Tongji University, Shanghai, on May 8-10, 2019. It discusses a number of hot topics, such as the 2BMW system (Bus, Bike, Metro and Walking), transportation safety and environmental protection, urban utility design and application, as well as the application of BIM (Building Information Modeling) in city design. By connecting the theory and applications of intelligent transportation in smart cities, it enhances traffic efficiency and quality. The book gathers numerous selected papers and lectures, including contributions from respected scholars and the latest engineering advances, to provide guidance to researchers in the field of transportation and urban planning at universities and in related industries. The first conference in the ITASC series was held in 2013 as a workshop of the International Symposium on Autonomous Decentralized System (ISADS) in Mexico City. The second and third were held in May 2015 and May 2017, respectively, in Tongji University, Shanghai.

Life-cycle Performance of Deteriorating Structures Mar 07 2021

Comprises most of the papers presented at the joint event of the Third IABMAS (International Association for Bridge Maintenance and Safety) Workshop on Life-Cycle Cost Analysis and Design of Civil Infrastructure Systems and the JCSS (Joint Committee on Structural Safety) Workshop on Probabilistic Modeling of Deterioration Processes in Concrete Structures, held in Lausanne, Switzerland, March 24-26, 2003. The 43 papers, including four keynote lectures and the statements and conclusions, cover a wide range of studies on life-cycle performance of deteriorating structures. Contributions are from a range of internationally recognized researchers and practicing engineers from the Americas, Asia, Australia and Europe.

This Was Logging Jul 19 2019 Text and photographs detailing the native peoples of the Pacific Northwest and the pioneering spirit of the early lumbermen of that place.

Sustainable Transportation Planning Aug 12 2021 "The Great American Dream of cruising down the parkway, zipping from here to there at any time has given way to a true nightmare that is destroying the environment, costing billions and deeply impacting our personal well-being. Getting from A to B has never been more difficult, expensive or

miserable. It doesn't have to be this way. Jeffrey Tumlin's book **Sustainable Transportation Planning** offers easy-to-understand, clearly explained tips and techniques that will allow us to quite literally take back our roads. Essential reading for anyone who wants to drive our transportation system out of the gridlock." -Marianne Cusato, home designer and author of **Get Your House Right: Architectural Elements to Use and Avoid** ?The book is full of useful ideas on nearly every page.? ? Bill DiBenedetto of Triple Pundit As transportations-related disciplines of urban planning, architecture, landscape architecture, urban economics, and social policy have undergone major internal reform efforts in recent decades Written in clear, easy-to-follow language, this book provides planning practitioners with the tools they need to achieve their cities? economic development, social equity and ecological sustainability goals. Starting with detailed advice for improving each mode of transportation, the book offers guidance on balancing the needs of each mode against each other, whether on a downtown street, or a small town neighborhood, or a regional network.

Fair Food Jun 29 2020 A host of books and films in recent years have documented the dangers of our current food system, from chemical runoff to soaring rates of diet-related illness to inhumane treatment of workers and animals. But advice on what to do about it largely begins and ends with the admonition to "eat local or "eat organic." **Fair Food** is an enlightening and inspiring guide to changing not only what we eat, but how food is grown, packaged, delivered, marketed, and sold. **Oran B. Hesterman** shows how our system's dysfunctions are unintended consequences of our emphasis on efficiency, centralization, higher yields, profit, and convenience -- and defines the new principles, as well as the concrete steps, necessary to restructuring it. Along the way, he introduces people and organizations across the country who are already doing this work in a number of creative ways, from bringing fresh food to inner cities to fighting for farm workers' rights to putting cows back on the pastures where they belong. He provides a wealth of practical information for readers who want to get more involved.

United States Government Publications Monthly Catalog Aug 24 2022

***Protein Interactions* Dec 04 2020** A study of the thermodynamics of protein-protein and protein-ligand interactions. The author explains the energetics of protein interactions and gives a thorough account of the complicated biophysics that occur when the effects of multiple, complex molecules are taken into account.

***Rapid Visual Screening of Buildings for Potential Seismic Hazards: Supporting Documentation* Nov 15 2021** The Rapid Visual Screening (RVS) handbook can be used by trained personnel to identify, inventory, and screen buildings that are potentially seismically vulnerable. The RVS procedure comprises a method and several forms that help users to quickly identify, inventory, and score buildings according to their risk of

collapse if hit by major earthquakes. The RVS handbook describes how to identify the structural type and key weakness characteristics, how to complete the screening forms, and how to manage a successful RVS program.

The Western Maryland Railway Feb 24 2020 The Western Maryland Railway was never a large Class 1 rail carrier, but during its 131 colorful years of existence, it provided extremely fast, efficient, and reliable freight; coal-hauling; and passenger service in the states it served. This book contains images from the history of this remarkable railroad and also provides the reader the opportunity to see how the legacy of the Western Maryland Railway is being maintained and remembered even today at some of its well-known train stations, such as in Cumberland and Union Bridge, Maryland, now home to the Western Maryland Railway Historical Society (WMRHS). The Western Maryland is now gone, but through the wonderful images captured and preserved by the WMRHS and private archival photograph collections, the dream of the railway will live on.

National Interim Primary Drinking Water Regulations Oct 02 2020
Barriers to Sustainable Transport Apr 08 2021 The complexity of transportation systems and their negative social and environmental effects are today at the centre of attention. This book focuses on the impact of institutions and regulatory systems on transport systems and travel behaviour. While institutions appear to play an important role in the economic success of many countries, this book considers the extent to which they also support sustainable development.

Our Nation's Land and Water Resources Jul 11 2021
Gender and Genre in Medieval French Literature Nov 22 2019 Wide-ranging study of gender and the underlying ideologies of Old French and Occitan literature.

Advanced Computing Strategies for Engineering Oct 14 2021 This double volume set (LNAI 10863-10864) constitutes the refereed proceedings of the 25th International Workshop, EG-ICE 2018, held in Lausanne, Switzerland, in June 2018. The 58 papers presented in this volume were carefully reviewed and selected from 108 submissions. The papers are organized in topical sections on Advanced Computing in Engineering, Computer Supported Construction Management, Life-Cycle Design Support, Monitoring and Control Algorithms in Engineering, and BIM and Engineering Ontologies.

Terrace VI Jan 05 2021 Welcome to the Sixth Terrace of Dante's tower of Purgatory, serving up sins of gluttony in an eternal banquet. On this carefully curated menu you'll find children stuffing themselves to death, a forgotten saviour gorging on cheeseburgers between bareknuckle rounds on the roadhouse circuit, wealthy socialites revel in an orgiastic alien feast, and the end of days as seen through an apocalyptic carnival of indulgence. Excessive consumption also manifests in darker hungers, for cruelty, for distraction, or possession. A pair of grifters bent on

having it all chase a Scottish leprechaun across the English countryside, a newly deceased addict vies for the attention of Heavenly Higher Ups, degenerate poker players gamble with unforeseen currency, and when an old lady swallows a fly, it's just the beginning... Featuring nine stories of grotesque appetite and glorious excess from a gory gaggle of creators, they say too much of anything is poison, yet these condemned swallow each piece of forbidden fruit while reaching for the next, never to be sated. They can't help themselves. Can you? Stories and art by: Mike Thorn (Darkest Hours, Shelter for the Damned) Robin van Eck (Rough) Eddie Generous (Camp Summit, What Lurks Beneath, Behemoth Rising) Julie Hiner (Final Track) Konn Lavery (Mental Damnation Series, Rutherford Manor Series) Cam Hayden (Futility, Red Flag) Sarah L. Johnson (Suicide Stitch, Infractus) Robert Bose (Fishing with the Devil)

Surface Water Supply of the United States Jul 31 2020

Sanctity and Pornography in Medieval Culture Jun 17 2019 Sanctity and Pornography in Medieval Culture exposes the complexity of bodily exposure in medieval devotion and contemporary pornographic cultures. Through readings of texts and images, sacred and profane, from premodern France and Italy as well as Anglo-American modernity, the book makes a case for paying closer attention to the surfaces of our bodies and the desires that those surfaces can articulate and arouse. From the Old French life of Saint Alexis to the work of writer-filmmaker Miranda July, from Wakefield Poole to Pietro Aretino, these are texts and images that diminish the distance between premodern Europe and contemporary California, between the sacred and the profane, as they demonstrate how, in the end as in the beginning, the surface of things is never simple.

Transportation Planning Handbook Feb 06 2021 A multi-disciplinary approach to transportation planning fundamentals The Transportation Planning Handbook is a comprehensive, practice-oriented reference that presents the fundamental concepts of transportation planning alongside proven techniques. This new fourth edition is more strongly focused on serving the needs of all users, the role of safety in the planning process, and transportation planning in the context of societal concerns, including the development of more sustainable transportation solutions. The content structure has been redesigned with a new format that promotes a more functionally driven multimodal approach to planning, design, and implementation, including guidance toward the latest tools and technology. The material has been updated to reflect the latest changes to major transportation resources such as the HCM, MUTCD, HSM, and more, including the most current ADA accessibility regulations. Transportation planning has historically followed the rational planning model of defining objectives, identifying problems, generating and evaluating alternatives, and developing plans. Planners are increasingly expected to adopt a more multi-disciplinary approach, especially in light

of the rising importance of sustainability and environmental concerns. This book presents the fundamentals of transportation planning in a multidisciplinary context, giving readers a practical reference for day-to-day answers. Serve the needs of all users Incorporate safety into the planning process Examine the latest transportation planning software packages Get up to date on the latest standards, recommendations, and codes Developed by The Institute of Transportation Engineers, this book is the culmination of over seventy years of transportation planning solutions, fully updated to reflect the needs of a changing society. For a comprehensive guide with practical answers, The Transportation Planning Handbook is an essential reference.

Summer Breezes Mar 27 2020 Summer days are anything but lazy for the Howard sisters. Jane becomes busy with a service project for the community and meets some fascinating new friends. And when a former ANGEL gets Alice involved with a group of atrisk teens, what begins as a summer challenge ends up as a life-and-death test of courage. Meanwhile, Louise gets pulled into a friendly dance competition. Is it just summer recreation, or could it lead to a romance that will change her life forever? Could the warm summer breezes be the winds of change?

Amtrak Across America Jan 25 2020 Amtrak is an essential part of America's transportation system for over 28 million passengers. From the legacy Streamliners of the pre-Amtrak era -- Champions, Chiefs, Eagles, Rockets, Zephyrs -- to today's modern Acela Express and future plans for more high speed "corridor trains," this book covers all the lines from past to present. Through the use of evocative photos, postcards, memorabilia and other collateral, this book is a journey through the past 40 years of Amtrak across America and all the preceding rail lines that transformed the nation. This expanded edition has new information on all Amtrak's routes making this useful for anyone thinking of "riding the rails."
