**Navigating Your Way to Startup Success** Feb 23 2020 Startups, like sailing vessels, do not travel in straight lines. The wind and the waves of the real world move the ship, and your startup, in unpredictable ways. This book is designed to give you an analytical set of tools to help you navigate your startup or corporate innovation through the murky waters of real life. Every business has failures. No business succeeds without some change of plan. Navigating Your Way to Startup Success will show you how to create a startup designed to test its assumptions so those that are not worthy fail—often and fast. This book builds on modern startup management techniques like Agile and Lean to bring an analytical and quantitative framework to the most common startup failures. Navigating through those failures means finding your way to startup success. Harlan T Beverly, PhD holds a BS in Electrical and Computer Engineering, an MBA from UT Austin, and a PhD in Business from Oklahoma State University. [Cobra](#) Oct 21 2019 This book tells the complex saga of a sports car that was created in the early 1960s as a result of an unlikely collaboration between a plain-talking ex-racing driver from Texas and a conservative British automobile manufacturer, funded by one of the giants of the industry, the Ford Motor Company. Carroll Shelby, AC Cars, and Ford came together to create a car called the Cobra, based on the AC Ace roadster that had been in production since 1954. When the Shelby Cobra was created, it was far from state-of-the-art, but the use of a new series of Ford V8 engines saw the lightweight car annihilate the Chevrolet Corvette in American sports car racing. By adding aerodynamic bodywork, the Daytona Cobra Coupe arrived in Europe to contest the FIA World Championship and took victory in the GT category in 1965, making Shelby American the first (and only) USA-based manufacturer to achieve this feat. In order to capitalize on this success, even greater power was required and the car was developed to take a huge 7-liter engine that proved to be a triumph of horsepower over handling – thus the 427 Cobra became an overnight legend, establishing new performance records and creating a reputation for being more than a little tricky to drive. The era of the Cobra was brief – production ended at Shelby American during 1966 and at AC Cars in 1968 where they built their own final version, the AC289 Sports. Just over 1000 Cobras were built during that time but the final cars proved difficult to sell, their vintage qualities deterring potential owners. Carroll Shelby closed his company and went to Africa while AC developed other models, but the Cobra was not quite finished yet. Within a matter of a few years, a new market for the car was created as the demand for affordable kit cars grew. The most popular model by far was the Cobra and many thousands were built, with the result that both AC Cars and Carroll Shelby put their own versions back into production. And then the arguments really started... If it was an improbable car over forty years ago, it is even more implausible today, but the remarkable Cobra, in one form or another, is still with us. It may be dead, but it just won't lie down!

[The Faba Bean \(Vicia Faba L.\)](#) Jul 18 2019 In tegenspraak met de gunstige eigenschappen van de faba-boon is het areaal de laatste eeuw steeds verder afgenomen. De belangrijkste redenen hiervoor zijn de lage en onstabiele opbrengsten, hetgeen weer te wijten is aan het lage nivo van onderzoek (inklusief veredeling) en tevens aan het gebrek aan documentatie van mondiale onderzoeksgegevens. In verband hiermee is dit boek geschreven. Onderzoeksresultaten worden bediscussieerd en verzameld aan de

hand van artikelen van 32 onderzoekers uit negen landen, waarbij tevens onderzoeksgebieden worden aangeduid, waarin onderzoek noodzakelijk wordt geacht
