Teaching New Drivers to Drive
Jul 01 2022 How I Became a
Driving Instructor Back in 2007

I was working part time as a
limousine driver, and my boss
also owned a driving school.
After about a year he started
asking me, "So when are you
going to teach Driver's Ed?" I
just shrugged it off and said, "I
don't know." A few months
would go by and he'd ask
again, "So you going to teach
Driver's Ed or what?" "Don't
know â maybe." A few months
later he'd ask again. I finally
said, "If you really want me to
teach, then I'll teach." So he
sent me to school to get
certified and the rest is history.
I started teaching Driver's Ed
in 2009, at first just on the
road in the car. That's when I
really started paying attention
to what I was doing when I was
driving. I knew how to drive, free

but what was I looking at when I drove? After teaching in the car for a few months, my boss said, "I have good news for you. Next week you're going to teach your first Driver's Ed class â about 25 students." I had never taught a class before and it was a little overwhelming at first! When I started teaching in the classroom, that's when I started taking pictures. I'm a visual learner, so for me it's easier to teach visually. I find most of my students are visual learners as well. The pictures really come in handy to explain things in the classroom, and also in the car when my students don't fully understand what I'm asking them to do. For example, while they're driving or doing maneuvers like uphill or downhill parking, three point turns, parallel parking or backing up in a straight line. Over a five year period I have taken a lot of pictures, and use them every day when teaching in the car or in the classroom. My students liked them so much I decided to put them into a book. It has

taken me five years to finish Teaching New Drivers to Drive. My students are always saying that the Driver's Ed book tells them what they need to do, but not how to do it. I wrote this book to help students of all ages understand what it is they need to do in order to drive safely. I have taught thousands of students who needed to get their Massachusetts licenses, from 16 to 73 years of age, from Massachusetts and other countries like India, Russia, Germany, Scotland, Turkey, Spain, Iran, and the UK. I even taught two deaf students how to drive. That's when my book really came in handy. I would let them read what I wrote with the pictures so they could see what I wanted them to do, along with the help of a sign language interpreter. I also used flash cards that I made to hold up in front of them to see what they needed to do next. Examples of these were stop sign ahead, take next right turn, pull over, back up, three point turn, parallel park, etc. The RMV examiner also used the cards to give them their

Driver's Ed Nov 05 2022 The universal experience for most high school students is learning to drive and getting their driver's license. Add breathlessly plotted romance and an accident and you have a poignant and realistic novel. Remy Martin prays to the God of Driver's Education that she will get to drive today. She doesn't know where she's going, but she knows one thing . . . she is going to get there fast. Morgan Campbell had been standing on the threshold of 16 and getting his driver's license ever since he could remember. But deep into the first crush of his life, thinking of nothing but girls, Morgan forgot what driving was all about. This poignant novel about responsibility and consequences is as convincing as it is irresistible.
