Eighteen-year-old twins Adina and Tovah have little in common besides their ambitious nature. Viola prodigy Adina yearns to become a soloist—and to convince her music teacher he wants her the way she wants him. Overachiever Tovah awaits her acceptance to Johns Hopkins, the first step on her path toward med school and a career as a surgeon. But one thing could wreck their carefully planned futures: a genetic test for Huntington's, a rare degenerative disease that slowly steals control of the body and mind. It's turned their Israeli mother into a near stranger and fractured the sisters' own bond in ways they'll never admit. While Tovah finds comfort in their Jewish religion, Adina rebels against its rules. When the results come in, one twin tests negative for Huntington's. The other tests positive. These opposite outcomes push them farther apart as they wrestle with guilt, betrayal, and the unexpected thrill of first love. How can they repair their relationship, and is it even worth saving? From debut author Rachel Lynn Solomon comes a luminous, heartbreaking tale of life, death, and the fragile bond between sisters.

**Your Life In My Hands - a Junior Doctor's Story** Oct 24 2021 'I am a junior doctor. It is 4 a.m. I have run arrest calls, treated life-threatening bleeding, held the hand of a young woman dying of cancer, scuttled down miles of dim corridors wanting to sob with sheer exhaustion, forgotten to eat, forgotten to drink, drawn on every fibre of strength that I possess to keep my patients safe from harm.' How does it feel to be spat out of medical school into a world of pain, loss and trauma that you feel wholly ill-equipped to handle? To be a medical novice who makes decisions which - if you get them wrong - might forever alter, or end, a person's life? To toughen up the hard way, through repeated exposure to life-and-death situations, until you are finally a match for them? In this heartfelt, deeply personal account of life as a junior doctor in today's health service, former television journalist turned doctor, Rachel Clarke, captures the extraordinary realities of ordinary life on the NHS front line. From the historic junior doctor strikes of 2016 to the 'humanitarian crisis' declared by the Red Cross, the overstretched health service is on the precipice, calling for junior doctors to draw on extraordinary reserves of what compelled them into medicine in the first place - and the value the NHS can least afford to lose - kindness. *Your Life in My Hands* is at once a powerful polemic on the systematic degradation of Britain's most vital public institution, and a love letter of optimism and hope to that same health service and those who support it. This extraordinary memoir offers a glimpse into a life spent between the operating room and the bedside, the mortuary and the doctors' mess, telling powerful truths about today's NHS frontline, and capturing with tenderness and humanity the highs and lows of a new doctor's first steps onto the wards in the context of a health service at breaking point - and what it means to be entrusted with carrying another's life in your hands. 'Eloquent and moving' - Henry Marsh 'There have been many books written by young doctors... but none comes close to Clarke's' - Sunday Times 'From the very heart of the NHS comes this brilliant insight into the continuing

crisis in the health service. Rachel Clarke writes as the accomplished journalist she once was and as the leading junior doctor she now is - writing with humanity and compassion that at times reduced me to tears.' - Jon Snow, Channel 4 News 'Dr Clarke has written a blockbuster, a page-turner, a tear-jerker. This is a "from-the-heart" front-line account of the human cost of the wanton erosion of a magnificent ideal - healthcare free at the point of need, funded through public taxation, available to all - made real in the UK for near 70 years. It is a love-song for the wonderful National Health Service that has embodied - to an extent equalled nowhere in the world - the principle that healthcare is not a commodity but a great duty of state.' - Prof. Neena Modi, President of the Royal College of Paediatrics and Child Health 'A powerful account of life on the NHS frontline. If only Theresa May and Jeremy Hunt could see the passion behind the people in the NHS, they might stop treating them as the enemy, and understand that without them we don't have an NHS worth the name.' - Alastair Campbell

**Dark Game** Apr 17 2021 DI Kelly Porter knows some people will risk everything to get ahead. But when the truth comes out deadly prices are paid... I Don't Want to Eat Bugs Apr 05 2020 Bugs are for the birds! Lisbon is hungry and it's hard to wait for dinner. When her animal friends try to help

her find something tasty to eat, the real the problems begin! Join Lisbon on her funny misadventures. Each beautiful illustration is designed to inspire the imaginations of children. An activity page at the end of the book allows for more fun as they search for special items in the illustrations. This version of I Don't Want to Eat Bugs has been designed specifically for ebook with a fixed layout and larger text for easy reading. While this is a great read-aloud book for parents, teachers, and other adults to share with children, we have chosen fonts that are similar to the way children form letters for easy recognition as they begin to read on their own. The print book is also available in 8.5" x 11" format. Author's Note: I Don't Want to Eat Bugs was written for my daughter, who was two when I wrote this story and didn't like salad, but now she's four and a half and loves it—if I give her plenty of salad dressing! (But don't worry—this isn't a book about eating salad.) Of course birds, cats, and dogs have a very different idea of what's good to eat, but through this fun adventure, Lisbon learns there is also food meant just for her—and it's good, especially compared with all the offerings from her animal friends. My daughter and I privately call this book the "Ice Cream Story" (she LOVES ice cream so there had to be ice cream involved), and now whenever something funny happens, she says, "We should write a new ice cream story about that." And we have! I Don't Want to Eat Bugs is the first book in a planned series called Lisbon's Misadventures. I've written the next three books in the series, and Tim Petersen is hard at work creating the illustrations. Tim is obviously a fabulous artist, and I'm excited to be working with him. You can sign up on my website to learn when the next book comes out (<http://teylarachelbranton.com/>). Thank you and enjoy!

*Attached* Feb 02 2020 "Over a decade after its publication, one book on dating has people firmly in its grip." —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. *Attached* guides readers in determining what attachment style they and their

mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

**Directions in Number Theory** Mar 17 2021 Exploring the interplay between deep theory and intricate computation, this volume is a compilation of research and survey papers in number theory, written by members of the Women In Numbers (WIN) network, principally by the collaborative research groups formed at Women In Numbers 3, a conference at the Banff International Research Station in Banff, Alberta, on April 21-25, 2014. The papers span a wide range of research areas: arithmetic geometry; analytic number theory; algebraic number theory; and applications to coding and cryptography. The WIN conference series began in 2008, with the aim of strengthening the research careers of female number theorists. The series introduced a novel research-mentorship model: women at all career stages, from graduate students to senior members of the community, joined forces to work in focused research groups on cutting-edge projects designed and led by experienced researchers. The goals for Women In Numbers 3 were to establish ambitious new collaborations between women in number theory, to train junior participants about topics of current importance, and to continue to build a vibrant community of women in number theory. Forty-two women attended the WIN3 workshop, including 15 senior and mid-level faculty, 15 junior faculty and postdocs, and 12 graduate students.

*Wholehearted Faith* Jun 07 2020 New York Times Bestseller "A touching series of essays in which Evans, with Chu's invisible pen, explores how one might find a path forward in Christianity beyond conservative evangelicalism" -Eliza Griswold, *The New Yorker* "Evans died at 37, but a beautiful new book captures her brave outlook. . . . I could not help but notice the poetry in Evans's prose. . . . What readers will find in these pages was someone deeply human: funny, irreverent, curious, wise, forgiving, nonjudgmental." -Maggie Smith, *The Washington Post* A collection of original writings by Rachel Held Evans, whose reflections on faith and life continue to encourage, challenge, and influence. Rachel Held Evans is widely recognized for her theologically astute, profoundly honest, and beautifully personal books, which have guided, instructed, edified, and shaped Christians as they seek to live out a just and loving faith. At the time of her tragic death in 2019, Rachel was working on a new book about wholeheartedness. With the help of her close friend and author Jeff Chu, that work-in-progress has been woven together with some of her other unpublished writings into a rich collection of essays that ask candid questions about the stories we've been told—and the stories we tell—about our faith, our selves, and our world. This book is for the doubter and the dreamer, the seeker and the sojourner, those who long for a sense of spiritual wholeness as well as those who

have been hurt by the Church but can't seem to let go of the story of Jesus. Through theological reflection and personal recollection, Rachel wrestles with God's grace and love, looks unsparingly at what the Church is and does, and explores universal human questions about becoming and belonging. An unforgettable, moving, and intimate book.

**Nightbitch** Oct 12 2020 In this blazingly smart and voracious debut novel, an artist turned stay-at-home mom becomes convinced she's turning into a dog. • "A must-read for anyone who can't get enough of the ever-blurring line between the psychological and supernatural that Yellowjackets exemplifies." —Vulture One day, the mother was a mother, but then one night, she was quite suddenly something else... An ambitious mother puts her art career on hold to stay at home with her newborn son, but the experience does not match her imagination. Two years later, she steps into the bathroom for a break from her toddler's demands, only to discover a dense patch of hair on the back of her neck. In the mirror, her canines suddenly look sharper than she remembers. Her husband, who travels for work five days a week, casually dismisses her fears from faraway hotel rooms. As the mother's symptoms intensify, and her temptation to give in to her new dog impulses peak, she struggles to keep her alter-canine-identity secret.

Seeking a cure at the library, she discovers the mysterious academic tome which becomes her bible, *A Field Guide to Magical Women: A Mythical Ethnography*, and meets a group of mommies involved in a multilevel-marketing scheme who may also be more than what they seem. An outrageously original novel of ideas about art, power, and womanhood wrapped in a satirical fairy tale, *Nightbitch* will make you want to howl in laughter and recognition. And you should. You should howl as much as you want.

*In Full Color* Oct 31 2019 A lot of people have made up their minds about Rachel Doležal. But none of them know her real story. In June 2015, the media "outed" Rachel Doležal as a white woman who had knowingly been "passing" as Black. When asked if she were African American during an interview about the hate crimes directed at her and her family, she hesitated before ending the interview and walking away. Some interpreted her reluctance to respond and hasty departure as dishonesty, while others assumed she lacked a reasonable explanation for the almost unprecedented way she identified herself. What determines your race? Is it your DNA? The community in which you were raised? The way others see you or the way you see yourself? With *In Full Color*, Rachel Doležal describes the path that led her from being a child of white evangelical parents to an NAACP chapter president and respected educator and activist who identifies as Black. Along the way, she recounts the deep emotional bond she formed with her four adopted Black siblings, the sense of belonging she felt while living in Black communities in Jackson, Mississippi, and Washington, DC, and the experiences that have shaped her along the way. Her story is nuanced and complex, and in the process of telling it, she forces us to consider race in an entirely new light—not as a biological imperative, but as a function of the experiences we have, the culture we embrace, and, ultimately, the identity we choose.

**Dear Life** Jan 15 2021 Shortlisted for the Costa Biography Award 'What a remarkable book this is; tender, funny, brave, heartfelt, radiant with love and life. It brought me often to laughter and - several times - to tears. It sings with joy and kindness' Robert Macfarlane From the Sunday Times bestselling author of *Your Life in My Hands* comes this vibrant, tender and deeply personal memoir that finds light and love in the darkest of places. As a specialist in palliative medicine, Dr Rachel Clarke chooses to inhabit a place many people would find too tragic to contemplate. Every day she tries to bring care and comfort to those reaching the end of their lives and to help make dying more bearable. Rachel's training was put to the test in 2017 when her beloved GP father was diagnosed with terminal cancer. She learned that nothing - even the best palliative care - can sugar-coat the pain of losing someone you love. And yet, she argues, in a hospice there is more of what matters in life - more love, more strength, more kindness, more joy, more tenderness, more grace, more compassion - than you could ever imagine. For if there is a difference between people who know they are dying and the rest of us, it is simply this: that the terminally ill know their time is running out, while we live as though we have all the time in the world. *Dear Life* is a book about the vital importance of human connection, by the doctor we would all want by our sides at a time of crisis. It is a love letter - to a father, to a profession, to life itself.
