Research Anthology on Developing Critical Thinking Skills in Students Mar 12 2021 Learning strategies for critical thinking are a vital part of today's curriculum as students have few additional opportunities to learn these skills outside of school environments. Therefore, it is essential that educators be given practical strategies for improving their critical thinking skills as well as methods to effectively provide critical thinking skills to their students. The Research Anthology on Developing Critical Thinking Skills in Students is a vital reference source that helps to shift and advance the debate on how critical thinking should be taught and offers insights into the significance of critical thinking and its effective integration as a cornerstone of the educational system. Highlighting a range of topics such as discourse analysis, skill assessment and measurement, and critical analysis techniques, this multi-volume book is ideally designed for teachers/instructors, instructional designers, curriculum developers, education professionals, administrators, policymakers, researchers, and academicians.

Democracy Inside Dec 21 2021 In our current era of deep distrust in our politics and political institutions, there is also a pervasive sense that social problems are so overwhelmingly complex that it is virtually impossible to solve them. In Democracy Inside, Albert W. Dzur looks at recent instances of effective citizen action across the United States to develop a grounded political theory of democratic change, one in which citizens effectively engage with institutions. Drawing on qualitative interviews with practitioners

involved in democratic schools, restorative and community justice, and collaborative city governance, Dzur stresses that we need to turn to ordinary, daily life and focus on how "democratic professionals" are breaking down barriers and bring people into decision-making processes at the granular level. These reformers are not transforming high politics or national-scale institutions, but they have been effective at changing the routine, everyday practices where people live and work. As Democracy Inside shows, if we really want to expand the democracy and build citizen engagement intensity in American life, we need to look beyond traditional politics and transform our classrooms, courtrooms, and offices into accessible civic spaces.

Doctoral Education for the Knowledge SocietySep 05 2020 This book explores and compares the systems of doctoral education in twelve higher education systems, consisting of four systems in East Asia, four in Europe and four Anglo-American systems. The emphasis placed on doctoral education and training has increased dramatically in many higher education systems in response to the global competition for highly skilled human resources to serve the needs of knowledge societies. Doctoral education is a key element within the research and development infrastructure, and doctoral students support university research and represent the next generation of the professoriate. While doctoral education has received considerable attention within national higher education systems, there has been surprisingly little international or comparative research on the structure of doctoral education and the nature of contemporary reforms.

Tests And Exams In Singapore Schools: What School Leaders, Teachers And Parents Need To Know Oct 19 2021 Assessment, mainly in the form of tests and examinations, plays a critical role in the schooling of Singaporean students. The results are often used to make irrevocable decisions on the students' future education careers. This book is written with school leaders, teachers, and parents in mind, with the view of helping them to better understand the processes and products of assessment via tests and exams. It is written in simple terms, using minimal technical terms, and introduces school leaders, teachers, and parents to essential concepts and principles of educational measurements which are relevant in the school context in Singapore. While existing books on educational measurement are academically-oriented and meant for formal training courses, this book makes self-study simple by using practical

examples couched in layman's language. In addition, this book uses concrete examples and analogies to make the text reader-friendly. Contents: What Do We Need to Know About Tests and Exams? Make Animals Great Again and Other Creature Campaigns Aug 17 2021 The older animals of Singapore are worried about the deteriorating values of the Next Generation. So the Animal Council is convened and it is agreed that a new leader is needed. But who will they choose? Some animals think leadership should be inherited (Horseshoe Crab says he is literally blue-blooded, so he should lead!), but many disagree. So a competition is held, and the insects send Weaver Ant, who thinks she can win based on strength. Other critters also step up and make all sorts of campaign promises to the kingdom. The birds send Parakeet, who just parrots the ideas of others. Will the Animal Council pick the right leader? Make Animals Great Again follows the hilarious The Great Singapore Poo Sale, featuring the same cheeky animals of Singapore. The first book has been called "fascinating and endearing" and sold out its first print run.

Portraits in Brass Oct 26 2019 Portraits in Brass is an inside look at the personalities, leadership attributes and decision making abilities of some of our top military leaders in the '70s and '80s, written by one of the few direct, day-to-day observers during this critical period in our nation's history. As a member of the very small staffs of four of our top military leaders of the period, the author served as a personal advisor to men who were instrumental in extricating us from the Vietnam War and others who took on the challenge of rebuilding the forces who had been decimated by this unpopular war. His observations and remembrances came from a daily diary kept throughout the period, which lend a singular credibility to the events and actions of the time. While avoiding the tendency to be a cheerleader, his reporting is objective, factual and insightful. A number of incidents, which gained international media attention, take on a different perspective when viewed through the eyes of one who played a direct role in the events. No back stairs tell-all or rumor-lover's expos, Portraits in Brass lends a credible dimension to one of the most emotionally charged periods of late 20th century.

Education in Troubled Times Apr 24 2022 This volume presents a scholarly conversation about education in troubled times across different temporal and spatial contexts. The concept of troubled times in this book refers to situations of serious challenges or crises that affect the practice of education at community, national and global levels. It examines how education operates across a wide range of challenging circumstances, from the COVID-19 pandemic, political manipulations, and the neoliberal economy to conflict and post-conflict situations. The volume also considers the measures national governments should take to contain and mitigate their effects, and how effective these measures are in curbing such challenges. By addressing these questions, it also suggests ways to overcome the identified challenges and crises in their respective contexts.

On A Dusty Road Aug 05 2020 On a Dusty Road is Subhas' second novel. Imagination Drift: A Prince for Three Days, his first novel, was a satire on human perceptions and behaviour. On a Dusty Road is a documentary-novel that constructs the life and death of a promising young man. The fictionalized story is told through the recollections of those who knew Ravi and is revealed through short, impressionistic episodes and his close friendship with Sunny and the Dusty Road Boys. Part I follows the childhood escapades of the two friends. Sunny's 'joie de vivre' and Ravi's staid character are drawn into imagination and entrepreneurship when Ravi is given a bicycle. The joy of the pedal-power is short-lived and the boys, mainly through Sunny's ambitions and Ravi's desire, engage in raising money to fix the bike. Part II exposes Ravi's sheltered life on the Dusty Road when he meets Daniel who is killed in an accident and learns of Sunny's death as a 'murder for science'. In Part III the community coalesces to nurture Ravi's abilities with the expectation that he would bring recognition and change to the people on a Dusty Road, but life has its own destination.

Investigating the Roles of School Management Teams in Curriculum Delivery Feb 08 2021 The COVID-19 pandemic has introduced a new paradigm in education that has forced school management teams to re-imagine their curricula delivery functions and obligations during and post COVID-19. Now there are concerns about the state to which curriculum delivery in schools is likely to become planned, implemented, and managed. Investigating the Roles of School Management Teams in Curriculum Delivery improves the quality of planning, implementation, and management of curriculum delivery to advance the quality of teaching and learning in schools. Particularly, it envisages innovative strategies, best practices, and addresses problems in the planning, implementation, and delivery of curricula by school management teams. Covering topics such as curriculum delivery theory, curriculum delivery in planning, implementation, and management during and post COVID-19; curriculum delivery in assessment and alternative assessment; and reimagining inclusivity in curriculum delivery, this edited book is essential for departmental heads, deputy principals, education district officials, department of basic education curriculum designers, instructional designers, administrators, academicians, university teachers, researchers, and post-graduate students.
