Journey to America in the Year 1750 Apr 21 2022 THE value of this little book does not consist in elegant diction according- to the rules of composition, but in its remarkable contents. The former will not be expected from the author, who is not a scholar. On the other hand his narrative, which, however, is quite readable, is to the reader a guaranty of his sincerity, not to mention the fact that he writes for the most part as an eye-witness. As he did not strictly aim at relating- all matters of the same kind consecutively, his work has received some variety which is, perhaps, more agreeable to the reader. What the author narrates with simplicity and without ornamentation of the various Europeans and the American savages, their manners and customs, their laws, domestic and religious institutions, is for the most part new and of such a nature that thinking readers will be glad to perceive in it a special mingling of the European and American climate, of the customs of the Old and the New World, and of a civilized people living in part in natural freedom. The communications from the realm of nature, the animals, plants, etc., will no less arrest the attention of the reader, inasmuch as the wise Creator has placed an entirely new theatre of his miracles before the eyes of rational man. But the most important part of this publication will no doubt be found in the account of the fate that awaits most of the unfortunate people who leave Germany to seek uncertain prosperity in the New World, but find instead, if not death, most surely an oppressive servitude and slavery. Nothing has been changed in the author's work, except that some notes from other writers of repute, confirming the author's narrative, have been added on the margin, and that the orthography has been made to conform to that in general use. The little work is herewith warmly recommended to the reader.

Emil Milan: Midcentury Master Sep 26 2022 -The first publication dedicated to the artist Emil Milan, illustrated with his finest artistic creations -Previously unseen documents and photographs -Rare artwork -The artist is illuminated through stories and interviews from those who knew him best -Milan's life story is woven through American history, including WWII and the American studio craft movement -Midcentury modern design Artist Emil Milan (American, 1922-1985) was a major contributor to the studio craft movement in the 1950s and 60s. He was an innovator in woodworking tools and techniques, and a pioneer in using power tools to boost production. After training to be a sculptor at the Art Students League of New York, he developed and produced a distinctive line of "functional sculpture" - wooden bowls, trays, and serving ware - that captured the essence of Midcentury Modern Design. He stood with now legendary artists and designers like Wharton Esherick, Sam Maloof, Wendell Castle, Charles Eames, George Nakashima, and Bob Stocksdale (among others) in the most important exhibitions of fine craft in America. His wares were tailored for and sold in high-end retailers such as Hammacher Schlemmer, Saks Fifth Avenue and the original Pottery Barn store in Manhattan. After moving to rural Pennsylvania in 1961, he re-emerged as a teacher, mentor, and role model for dozens of successful artists and woodworkers who found inspiration in his teaching, his methods, and his self-sufficient lifestyle close to nature. After fading into obscurity following his death, this book rekindles awareness and appreciation of this remarkable American artist. Contents: Foreword; Introduction; Part 1: Roselle, New Jersey; Part 2: Thompson, Pennsylvania; Part 3: Revival; Epilogue: Emil Milan in Perspective; Circle of Influence; Catalogue of Emil Milan Artworks; Biographical Timeline; Exhibitions; Museum Collections; Resources; Index.

The Little Typer Jan 26 2020 An introduction to dependent types, demonstrating the most beautiful aspects, one step at a time. A program's type describes its behavior. Dependent types are a first-class part of a language, and are much more powerful than other kinds of types; using just one language for types and programs allows program descriptions to be as powerful as the programs they describe. The Little Typer explains dependent types, beginning with a very small language that looks very much like Scheme and extending it to cover both programming with dependent types and using dependent types for mathematical reasoning. Readers should be familiar with the basics of a Lisp-like programming language, as presented in the first four chapters of The Little Schemer. The first five chapters of The Little Typer provide the needed tools to understand dependent types; the remaining chapters use these tools to build a bridge between mathematics and programming. Readers will learn that tools they know from programming—pairs, lists, functions, and recursion—can also capture patterns of reasoning. The Little Typer does not attempt to teach either practical programming skills or a fully rigorous approach to types. Instead, it demonstrates the most beautiful aspects as simply as possible, one step at a time.

Factory-Original Ford RS Cosworth Aug 25 2022 When Ford teamed up with Cosworth Engineering to breathe life onto its humdrum Sierra, few knew it would be the birth of a motoring legend. Through circuit racing and supercar-humbling on-road ability, the 1985 Sierra RS Cosworth quickly became a household name. A practical four-seater boasting 204bhp from its two-litre turbocharged powerplant, the RS Cosworth's massive performance was equalled only by an extroverted rear wing designed for high-speed stability.. While motorsport machines scooped innumerable victories and increasingly powerful engines, in 1987 Ford homologated a yet-more-spectacular Sierra - the 224bhp RS500. It instantly became a desirable collector's piece.. Other RS Cosworths soon followed. The restrained four-door Sierra Sapphire RS Cosworth of 1988 was Ford's vision of a 150mph executive express; two years later, its four-wheel-drive successor returned the firm to rallying. By 1992, Ford had squeezed the 4x4's running gear into a shorter Escort body, complete with 227bhp engine and ever-more-aggressive aerodynamic aids. The limited-edition Monte Carlo came in 1994, followed by the final RS Cosworth - a revised Escort with smaller turbocharger and user-friendly appeal. Production ceased in 1996. Today, each model has a loyal following among motorsport fans and fast Fords enthusiasts. And as the cars become increasingly sought-after, so too does the pursuit of perfection. This book examines RS Cosworth authenticity, outlining standard specifications alongside in-depth colour photography of outstanding examples of the breed. From body panels and trim to turbochargers and tyres; from interior fabrics and paint schemes to shock absorbers and stickers, Ford's factory-original fitments are covered in comprehensive detail.

An Earthly Paradise Mar 08 2021 This collection of articles on varied facets of early modern Bengal showcases cutting edge work in the field and hopes to encourage new research. The essays explore the trading networks, religious traditions, artistic and literary patronage, and politico-cultural practices that emerged in roughly sixteenth-eighteenth centuries. Using a wide array of sources, the contributors to this volume, coming from diverse academic affiliations, and including many young researchers, have attempted to address various historiographical 'black holes' bringing in new material and interpretations. Early modern Bengal's history tends to get overshadowed by the later developments of the nineteenth century. What this assortment of articles highlights is that this period needs to be studied afresh, and in depth. The region underwent rapid

transformations as it got politically integrated with Northern India and its empires and economically with extensive global economic networks. Combined with its unique geography, the trajectory of this region in all spheres manifest an almost constant interplay of local and extra-local forces – be it in literature, art, economic domain, political and religious cultures – and considerable enterprise and ingenuity. Thus, a variety of themes – including travel accounts, Portuguese and Arakanese presence, early Dutch, French, Ostend companies' forays into the region, artistic production in the Nizamat and later collections of art and missionaries, the English company state's intrusions in local economy in salt and raw silk production and indigenous reactions and rebellions, consumption practices related to religious activities, circulation and translation of texts, representation of women in vernacular writings, and organization of religious traditions – have been analysed in this volume, with a wide ranging introduction tying up the themes to the broader historiographical issues and contexts. The collection will be an invaluable reference tool for students and scholars of history, especially of early modern India. Please note: This title is co-published with Manohar Publishers, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

Janey the Vet Jan 06 2021 'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.
